Note: This is a special meeting and it will be in two parts, each an hour long. Part I will use this link for our standard Zoom "webinar" format and include public comment, updates about the plan, and a presentation about what's been accomplished on the city's freight system in the last fifteen years. After committee questions and feedback, we will go to our five-minute break at 5PM. During that time, committee members and members of the public will need to join us using this other link for Part II of the meeting. This link will put everyone (CAC members and attendees) all together into a Zoom "meeting" format so that we can do breakout groups for an interactive brainstorming activity to help shape 2040Freight vision, goals and objectives. Members of the public will be able to engage directly. For this activity, each breakout group will have their own Jamboard page to put up virtual sticky notes with their ideas. To be able to engage more fully, staff recommend participants plan to attend from a desktop, preferably with a large monitor or multiple monitors, however without these, participants will still be able to participate meaningfully in the discussion and a facilitator will help make sure your ideas are captured on the Jamboard. Please let staff know if we can help you by providing any accommodations. Closed captioning will be available in both parts of the meeting.
