

CLASS SPECIFICATION
INFORMATION SYSTEMS MANAGER III

Pay grade: 62
CLASS CODE: 30003071
EFFECTIVE: December 13, 2018

CLASSIFICATION SUMMARY

Reports to a Director or other executive-level position within the Bureau of Technology Services (BTS). Under minimal direction, plans, manages, supervises, coordinates, and evaluates information systems activities and operations. Classification is exempt from Civil Service.

Responsibilities include: leading the planning, implementation, monitoring, and reporting of assigned Division programs or activities; determining goals and standards; providing staff with leadership, direction, and support; ensuring implementation of the goals and mission of Division; developing, implementing, and monitoring practices to improve customer service; reviewing and managing budget allocations; managing subordinate supervisors and direct reports.

DISTINGUISHING CHARACTERISTICS

Information Systems Manager III is the highest of three classifications in the Information Systems Manager series.

Information Systems Manager III is distinguished from Information Systems Manager II in that the former requires less oversight and has substantial discretionary authority to develop and execute program policy, to make decisions with a greater Citywide impact, and to allocate program resources.

Information Systems Manager III is distinguished from Deputy Director in that the latter is responsible for broad strategic and operational support to the Director, policy development and implementation, and regularly acts as the Director in their absence.

Information Systems Manager III is distinguished from the Manager series in that the former exercises management responsibilities over organizational units specifically responsible for specialized technology and communications solutions within BTS and requires specialized education, knowledge, and/or training.

ESSENTIAL FUNCTIONS

Depending on the assignment, the incumbent may perform a combination of some or all of the following duties, and perform related duties, as assigned.

General Duties:

1. Direct the Division in carrying out the City's and Bureau's vision, mission, and objectives; assist in the development of strategies, policies, and initiatives to implement the strategic plan; provide financial management; administer policies, procedures, programs, goals, and objectives.
2. Lead the preparation of strategic and tactical work plans; develop, implement, improve, monitor, and evaluate programs, projects, workflow, methods, and work products in accordance with Bureau plans, budgets, and policies; perform specialized financial, revenue, budgetary and management studies and analyses.

3. Direct Division budget development and administration; forecast resources needed for staffing, equipment, materials, and supplies; manage Division budgets, including payroll, operating, and capital; monitor budget to actual revenues and expenditures and suggest mid-year or other adjustments; direct and oversee budget cost/benefit and resource requirement analyses.
4. Develop and establish performance requirements and personal development targets for staff; coach, train, and manage performance; monitor and provide coaching for improvement and development; evaluate performance and complete annual performance reviews.
5. Review and analyze relevant statutes, regulations, ordinances, and policies in terms of impact on Division and to ensure compliance.
6. Consult with City executives and management and legal staff on technological and communication capabilities to meet the City's goals and objectives.
7. Manage and direct the development, design, implementation, and evaluation of communication, application, and information technology and security programs, plans, processes, systems, and procedures.
8. Direct the development and implementation of Bureau standards; initiate changes to code, policy, and regulations related to the Division.
9. Work with subordinate managers and supervisors to implement improvements and efficiencies identified through working groups with Managers, Directors, and other high-level management.
10. Conduct analysis of programs and services to identify and formulate improvements and efficiencies, with a focus on Bureau-wide opportunities that will arise as staffing levels and workload change.
11. Provide leadership to attract, develop, and retain diverse, highly competent, service-oriented staff that support the City's and Bureau's mission, objectives, and service expectations; create and promote an equitable workplace that demonstrates an environment respectful of living and working in a multicultural society; ensure that employees are provided with guidance and opportunity to correct deficiencies, and appropriate discipline procedures are implemented.
12. Ensure information system and program security compliance with federal, state, local, and industry laws, regulations, rules, and policies.
13. Manage and oversee the planning, design, and implementation of information technology capital projects, ensuring consistency with City and Bureau/Office strategy, commitments, and goals; develop and monitor project scope, budget, and schedule; prepare cost estimates; manage resources, tasks, timelines, and deliverables; monitor, evaluate, and report on project status; coordinate with project stakeholders; lead organizational change management; oversee procurement and administration of contracts with vendors and consultants; and solve project integration and utilization issues and overseeing updates or changes.

Specific Duties:

In addition to the General Duties, the incumbent may perform a combination of some or all of the following duties specific to the position.

1. Maintain the City's public safety radio and emergency dispatch, telecommunications, and video surveillance systems and network environments; resolve voice, radio, dispatch technology, and network support issues; engineer and maintain the City's communications systems and networks.
2. Develop and support Citywide and Bureau-/Office-specific business applications and services; advance e-government and e-commerce initiatives; provide Citywide application development, implementation, and support; engineer new technology solutions to meet specific needs; provide oversight of outsourced application development and services.
