Incumbency vs. Estimated Availability Report

The Incumbency vs. Estimated Availability Report shows potential areas of underutilization of people of color and women by job group. It compares the percentage of people of color and women employed on 1/1/2021 to the estimated percentage of people of color and women available for each job group. If Employment is less than Availability, the Availability percentage becomes the Placement Goal for next year.

S - Significant Difference Rule

A group is considered underutilized when employment is less than the plan availability by a statistically significant amount.

In the Statistical Value section, standard deviations of 1.96 or greater are generally regarded as statistically significant. For groups with fewer than 30 employees, the Exact Binomial Test is used and scores are marked with "E". "E" scores of 0.050 or less are generally regarded as statistically significant.

Shortfall Report

While the Incumbency vs. Estimated Availability Report compares the employment and the estimated availability in percentages, the Shortfall Report shows the number of persons required to meet the Placement Goal.

S - Significant Difference Rule

A placement goal is set when employment is less than availability by a statistically significant amount.

* When a group tests as a small group according to the Rule of Nines, an alternate rule is used instead of the Significant Difference Rule.

Adverse Impact Report for Applicants

The Adverse Impact Report for Applicants helps to identify potential problem areas in the selection rates of applicants. Using the four-fifths rule (also called the 80% rule), the selection rate of applicants from each non-favored group is compared with the selection rate from the favored group. A selection rate for any group that is less than four-fifths (or 80%) of the rate for the group with the highest selection rate is an indication that hiring practices had an adverse impact on that group. Differences in selection rates that are not statistically significant are highlighted in yellow and those that are statistically significant are highlighted in red.

Adverse Impact for Applicants

For Period: 1/1/2020 to 12/31/2020

Shortfall		1		

Infin - indicates that the denominator was zero

--" indicates that the result could not be calculated

^ Standard deviations of 2.00 or greater are generally regarded as statistically significant. For groups under 30, scores are marked with "F" and use Fisher's Exact test. "F" scores of .025 or less are generally regarded as statistically significant.

*** indicates that favored group could not be determined.

Applicants with missing race information are included in calculations by gender.

Applicants with missing gender information are included in calculations by race.

Goal Attainment

Goal Attainment is progress made through hiring and promotion in meeting placement goals from the prior year. Since there was not a 2020 Annual AAP, Goal Attainment was calculated using a start point analysis. Starting with the 1/1/21 roster, the new hires that took place in 2020 were removed and employees who separated in 2020 were added back in to obtain a projection of what the roster would have looked like as of 1/1/2020. Goals for 2020 were calculated accordingly.

Note - there was no prior year goal required for categories not listed above.

* YES = within one person of exceeding prior year goal

LIMITED = Limited Opportunities. This indicates the prior year goal percent multiplied by total opportunities to the job group was less than one person.
