PART 1.0, SCOPE OF RULES

Administrative rules contained within this document are intended to articulate the standards and expectations for Commercial Solid Waste, Recyclables and Compostables Collection as authorized in the City Code, Chapter 17.102.

PART 2.0, ADOPTION AND REVISION OF ADMINISTRATIVE RULES

- A. Director's Authority to Adopt Rules. Under authority of the City Code, Chapter 17.102, the Director of the Bureau of Planning and Sustainability [hereinafter Director] is authorized to adopt rules, procedures and forms to implement provisions of that chapter which regulate the Collection and Disposal of Commercial Solid Waste, Recyclables and Compostables in the City of Portland.
- B. Adoption and Revision of Rules.
1. Any rule adopted or revised according to the authority of the City Code shall require a public review process. Not less than ten or more than thirty days before such public review process, notice shall be given by publication in a newspaper of general local circulation. Such notice shall include the place, time, and purpose of the public review process and the location at which copies of the full set of the proposed rules may be obtained.
 2. The Bureau of Planning and Sustainability (BPS) shall give notice of the public review process to all neighborhood and business associations that are recognized by the City Office of Community and Civic Life. At least 60 days in advance of the anticipated adoption date, BPS shall notify those associations by email of its intent to review the rules and invite those associations to comment. BPS shall by email send a notice of the initial public hearing to the same associations not less than ten days before the scheduled hearing.
 3. During the public review, the Director or the Director's designee shall hear testimony or receive written comment concerning the proposed rules. The Director shall review the recommendations, taking into consideration the comments received during the public review process and shall either adopt the proposal, modify or reject it.
 4. If a substantial modification is made, additional public review shall be conducted, but no additional notice shall be required if such additional review is announced at the meeting at which the modification is made. Unless otherwise stated, all rules shall be effective upon adoption by the Director and shall be filed in the Office of the Director.
 5. Notwithstanding paragraphs a., b., c. and d. of this section, an interim rule may be adopted by the Director without prior notice upon a finding that failure to act promptly will result in serious prejudice to the public interest or the interest of the affected parties, including the specific reasons for such prejudice. Any rule adopted pursuant to this paragraph shall be effective for a period of not longer than one year (365 days). Within five business days of the adoption of such interim rule, BPS staff shall send notice of the rule to all neighborhood associations, business associations, persons on the BPS list of parties interested in Commercial Collection Service administrative rules, and Permittees, giving the language of the rule change, describing the purpose of the rule, and inviting comments to be sent to BPS.

Part 4.0, Commercial Standards

Part 4.1, Definitions

See also Definitions in Portland City Code Section 17.102.020.

1. “**Anaerobic Digestion**” refers to a process in which microorganisms break down Compostable Material in the absence of oxygen to create biogas, which can be combusted to generate electricity and heat, or can be processed into renewable natural gas and transportation fuels.
2. “**Assessment**” means a civil penalty assessed for an Infraction as provided in City Code Chapter 17.102.
3. “**Biodiesel**” is a domestic, renewable fuel for diesel engines derived from vegetable oils or animal fats and which meets the specifications of ASTM#D6751-03a. For the purposes of this chapter, Biodiesel also includes Renewable Diesel fuel derived from vegetable oils or animal fats through fractional distillation, if the fuel meets a maximum carbon intensity of 56 gCO₂e/MJ as provided by the [Oregon Department of Environmental Quality Clean Fuels program, Approved Carbon Intensity Values](#).
4. “**Biodiesel Blend**” is a blend of at least 20% Biodiesel or Renewable Diesel and 80% ultra-low sulfur diesel fuel.
5. “**BPS**” means the City of Portland’s Bureau of Planning and Sustainability.
6. “**Business**” is any Commercial entity, including industrial and institutional, nonprofit organizations and government facilities, but not including Multifamily Complexes or Commercial entities which occupy less than 50 percent of the floor area of a Residence.
7. “**Calendar Quarter**” means the segment of a calendar year from January 1 through March 31, from April 1 through June 30, from July 1 through September 30 or from October 1 through December 31.
8. “**Collect**” or “**Collection**” means to accept, accumulate, store, process, transport, market or dispose of.
9. “**Collection Vehicles**” means any vehicle designed and used for the Collection of Solid Waste, Recyclables, or Compostables in Portland.
10. “**Commercial**” means relating to an entity that is non-Residential in nature or, if Residential, consists of five or more dwelling units.
11. “**Compostable Material**” and “**Compostable**” means primarily Food Scraps and includes coffee filters and BPI-certified compostable plastic liner bags.
12. “**Composting**” means the series of activities, including separation and Processing, by which Compostable Materials are recovered from or otherwise diverted from the Solid Waste stream for controlled biological decomposition. Composting includes Composting of Source Separated organics but not Composting of mixed waste.
13. “**Covered Food Scraps Generating Business**” means organizations that cook, assemble, process, serve, or sell food or do so as service providers for other enterprises.
14. “**Customer**” means a person that has arranged the Collection of Solid Waste, Recyclable or Compostable Materials, excluding Residential Collection service covered by a Franchisee. Where several Businesses share containers and service, Customer refers only to the person that arranges for the service. Where a Multifamily Complex has arranged for service, Customer refers to the property Owner or property manager.
15. “**Day**” for purposes of designating an Infraction, means a single Infraction consists of the failure to comply with the rule any number of times during a single 24-hour period, regardless of the number of Customers affected by the Infraction (e.g., violating nighttime Collection restrictions). Generally, Saturdays, Sundays and legal holidays are excluded.

16. “**Director**” means the Director of the Bureau of Planning and Sustainability, or the Director’s authorized representative, designee or agent.
17. “**Disposal**” means landfilling, illegal dumping, burning, municipal waste incineration, and mixed waste composting.
18. “**Food Scraps**” means waste from fruits, vegetables, meats, dairy products, fish, shellfish, nuts, seeds, grains, coffee grounds, and other food that results from the distribution, storage, preparation, cooking, handling, selling or serving of food for human consumption. Food Scraps includes but is not limited to excess, spoiled or unusable food and includes inedible parts commonly associated with food preparation such as pits, shells, bones, and peels. Food Scraps does not include liquids or large amounts of oils and meats which are collected for rendering, fuel production or other non-disposal applications, or any food fit for human consumption that has been set aside, stored properly and is accepted for donation by a charitable organization and any food collected to feed animals in compliance with applicable regulations.
19. “**Food Soiled Paper**” means paper products that have been in contact with organic materials to the degree that they would not be able to be recycled into paper products. Food Soiled Paper includes, but is not limited to, used napkins and paper towels.
20. “**Force Majeure**” means acts of God, landslides, lightning, forest fires, storms, floods, freezing, volcanic eruptions, earthquakes, civil disturbances, acts of terrorism or of the public enemy, wars, blockades, public riots, explosions, shortage of materials and other events which are not reasonably within the control of the Permittee, the approved recycler, Yard Debris recycler, or BPS.
21. “**Generator**” means an entity which uses the Solid Waste, Recyclables and/or Compostables Collection service and containers arranged for by a Customer.
22. “**Independent Commercial Recycler**” means a person who Collects only Recyclable and/or Compostable Materials from non-Residential sources for the purpose of Recycling or Composting, and who does not Collect Solid Waste.
23. “**Incident**” for purposes of designating an Infraction, means a single Infraction consists of the failure to comply with the rule on an individual act, occurrence or Generator basis.
24. “**Infraction**” means a failure to comply with City Code or rules promulgated thereunder. Infractions may be appealed to the City of Portland Code Hearings Officer pursuant to City Code Section 17.102.100.
25. “**Metro**” means the metropolitan service district responsible for regional Solid Waste management and planning within Multnomah, Washington and Clackamas counties.
26. “**Multifamily Complex**” or “**Multifamily**” means any multidwelling building or group of buildings that contain(s) five dwelling units or more on a single tax lot, such as apartments, condominiums, mobile home parks, or houseboat moorages. Multifamily also includes certified or licensed residential care housing, such as adult foster care homes or group homes.
27. “**Owner**” with respect to the obligation to provide Recycling for a condominium or cooperatively owned development, means the owners’ association or its equivalent.
28. “**Per Day**” shown as “D” for purposes of designating an Infraction, means a single Infraction consists of the failure to comply with the rule any number of times during a single day, regardless of the number of Customers affected by the Infraction (e.g., Collection schedule).
29. “**Per Incident**” shown as “I” for purposes of designating an Infraction, means a single Infraction consists of the failure to comply with the rule on an individual act, occurrence or Customer basis.
30. “**Per Month**” shown as “M” for purposes of designating an Infraction, means a single Infraction consists of the failure to comply with the rule at least once and up to any number of times during a single, continuous 30-day period, regardless of the number of Customers or, in the case of an Infraction by a Generator or Customer, number of tenants, affected by the Infraction (e.g., inadequate vehicle identification markings, or

convenience of recycling systems at multifamily properties).

31. "**Permittee**" means any person granted a Commercial Collection permit under the provisions of Portland City Code.
32. "**Processing**" means an operation where Collected Source-Separated Recyclable or Compostable Materials are sorted, graded, cleaned, shredded, ground, densified or otherwise prepared, treated or converted for end use markets.
33. "**Recyclable Material**" and "**Recyclable**" means material designated by BPS as retaining useful physical, chemical, or biological properties after serving its original purpose or function, and that can be collected by Permittees as mixed Recyclables in a blue cart, glass Recyclables in a separate container, used motor oil from multifamily residents that change their own oil, cooking grease, and materials from construction and demolition projects.
34. "**Recycling**" means the series of activities, including Collection, Source Separation, and Processing, by which products or other materials are recovered from or otherwise diverted from the Solid Waste stream for use in the following: (1) in the form of raw materials in the manufacture of new products other than fuel; and (2) as fuel in the case of Source Separated wood waste which has no other material use.
35. "**Renewable Diesel**" has the meaning given in the Oregon Revised Statute, Chapter 340, Division 253, Oregon Clean Fuels Program, 340-253-0000.
36. "**Residence**" means any dwelling unit that is a four-plex or smaller, regardless of whether it has subscribed for waste Collection, or has waste Collection, in individual cans, carts or containers. Residence includes multifamily dwellings such as apartment complexes, condominiums, mobile home parks, or houseboat moorages with four units or fewer on a single tax lot. Residence also includes dwelling units used by fraternities or sororities. Residence does not include any Multifamily Complex, multi-dwelling building or group of buildings that contain(s) five dwelling units or more on a single tax lot, such as condominiums, mobile home parks, or houseboat moorages, nor does Residence include certified or licensed Residential adult foster care homes. Residence does not include any property where over 50% of all building space designed for occupants is being used for Business purposes. Agreements between Owners of Residences purporting to provide for the Collection of Solid Waste and Recyclables on a combined basis shall not alter the status of each dwelling unit as a Residence for purposes of these rules.
37. "**Residential**" means of or pertaining to a Residence.
38. "**Side Guards**" are safety equipment designed to protect vulnerable road users from the hazards of open spaces on the sides of large trucks.
39. "**Self-haul**" when used in reference to Solid Waste and/or Recyclable and/or Compostable Materials generated by a Commercial entity, means the Collection and transportation of such material from a Commercial entity where an Owner or employee of the entity hauls the material rather than hiring a Permittee or Independent Commercial Recycler to perform this function.
40. "**Solid Waste**" means all useless or discarded putrescible and non-putrescible materials, including but not limited to garbage, rubbish, refuse, ashes, paper and cardboard; useless or discarded commercial, industrial, demolition and construction materials; discarded home and industrial appliances; manure; vegetable or animal solid and semi-solid materials; dead animals and infectious waste. Solid Waste does not include the following materials:
 - a. Sewage sludge, septic tank and cesspool pumpings or other sludge;
 - b. Discarded or abandoned vehicles.
41. "**Source Separate**" means that the person who last uses Recyclable or Compostable Material separates the material from Solid Waste and keeps the Recyclable or Compostable Material separate from Solid Waste.

42. “**Yard Debris**” means leaves, grass clippings, weeds, vines, vegetative material from the yard, pumpkins, and prunings of no greater than four inches in diameter or 36 inches in length. Large branches (greater than four inches in diameter or more than 36 inches in length), dirt, stumps, metal, rocks, ashes, animal waste, food and household Solid Waste are not considered Yard Debris.

Part 4.2, Permittees: Collection Services for Solid Waste, Recyclable and Compostable Materials

A. COLLECTION REQUIREMENTS

1. Permit Required. Any person Collecting Commercial Solid Waste within the City must obtain a Commercial Collection permit from BPS. Each Permittee must hold a valid City of Portland business license or submit to BPS its application for Portland business license exemption, as approved by the City's License Bureau. Collecting Commercial Solid Waste within the City without a valid permit, or when a permit has been suspended or revoked is an Infraction. (A/D)*
2. Permit Application Requirements. Permit applications shall be submitted to BPS by the 30th day of the month prior to the expiration of an existing permit or, for a new permit, thirty days before the commencement of Collection operations. The applicant shall use the permit application form provided by BPS and must demonstrate adequate staff, equipment and Collection Vehicles necessary to provide the required Solid Waste, Recyclables and Compostables Collection services. Submitting a late, incomplete or inaccurate application may result in the delay or denial of the issuance of a permit and constitutes an Infraction. (D/D)*
3. Permittees Obligation to attend City meetings. The Permittee shall attend occasional mandatory meetings scheduled by BPS. BPS will provide Permittees with reasonable notice of mandatory meetings by postal mail or email. (D/I)*
4. Permit Conditions. Permittees shall comply with requirements specified in City Code Chapter 17.102 and these administrative rules. Failure to comply may result in Assessments, suspension and/or revocation of the Commercial Collection permit.
5. Suspension or Revocation of Permit. The Director may suspend or revoke a Commercial Collection permit as provided in City Code Chapter 17.102.240. Suspension or revocation of a permit may be appealed to the Code Hearings Officer following procedures set forth in City Code Title 22.
6. Maintaining Passage on Public Streets. Permittees shall exercise reasonable efforts to minimize stopping of Collection Vehicles in a manner that blocks the passage of other vehicles or pedestrians on public streets or sidewalks while Collecting Solid Waste, Recyclable or Compostable Materials, or placing of drop-boxes. (D/I for vehicles; D/D for drop boxes)*
7. Hours of Collection. Permittees shall Collect Solid Waste, Recyclable and Compostable Materials in accordance with the daytime prohibition of downtown Collection in Portland City Code. In addition, the Permittee shall not make Solid Waste, Recyclable or Compostable Material Collections at Multifamily accounts between 10 p.m. and 6 a.m., unless early morning collections are needed for address safety concerns. (D/D)*

To request collection services before 6am, the Customer must submit the request to BPS staff with the following information: property address, property manager contact information, reason for the request and proposed time of scheduled service. BPS staff will evaluate the request with the Customer and Permittee to determine if the early morning request is warranted. (D/I)*

Permittees will be required to provide a list of properties providing early morning collections to BPS staff as needed. This restriction does not apply where Multifamily is part of a mixed-use building, where other Commercial accounts are being served. (D/D)*

8. Collection Schedules and Locations.
 - a. Solid Waste, Recyclable and Compostable Material Collection schedules and pickup locations shall be mutually agreed upon by the Permittee and the Customer.
 - b. Nighttime Noise and BPS Support for Termination of Service Agreements. A Permittee's

refusal to attempt to reduce noise in a manner acceptable to the Customer constitutes the only potential grounds for BPS support of termination of a Customer's service agreement as described below.

- c. BPS Support for Termination of Service Agreement. Permittees may enter into services agreements, oral or written, with Customers. If a Customer finds that the Permittee is refusing to attempt to reduce noise between 10 p.m. and 6 a.m. where there have been complaints about that nighttime noise, the Customer may act to terminate the agreement and seek the support of BPS. In such case, the Customer shall notify the Permittee in writing of the specific failure to make efforts to reduce nighttime noise. If the failure still exists after a period of at least 30 days, or if the Permittee has not taken reasonable steps to correct the failure, the Customer may give the Permittee 30 days' notice of termination of the entire service agreement. Failure to make efforts to reduce nighttime noise, after requests by the Customer, shall serve as the only valid basis for BPS to concern itself with a Customer's terminating any services agreement. A Permittee's refusal to abide by such a termination notice shall constitute an Infraction subject to an Assessment. (D/I)*
 - d. Removal of containers. Where a Customer has terminated service, following applicable procedures described in these rules, it is an Infraction for a Permittee to leave Solid Waste, Recyclable or Compostable Material containers owned by the Permittee in place at the Customer's location for more than ten calendar days after the Customer has given written notice of termination. (D/D)*
9. Notify City of Company Ownership or Name Change: The Permittee shall notify BPS of changes in the company name or Ownership information from the application submitted for the Permittee's current Commercial Collection permit, no less than 10 business days before the change becomes effective. A Permittee's failure to notify BPS on a timely basis shall constitute an Infraction subject to an Assessment. (D/M)*
 10. Hazardous Wastes. Permittee shall comply with all Federal, State and Metro regulations applicable to the Collection and Disposal of hazardous wastes.

B. EQUIPMENT STANDARDS

1. Cleanup on Route. The Permittee shall pick up all material in the public right-of-way because of being blown, littered, broken, or leaked during Collection after being set out by the Generator. (D/I)*
2. Prevention of Leaking and Spilling Loads. The Permittee shall ensure that all Collection Vehicles and containers are constructed, loaded, operated and maintained in a manner to reduce to the greatest extent practicable dropping, leaking, blowing, sifting or escaping of Solid Waste, Recyclable and Compostable Material or the Collection Vehicle's fuel, hydraulic fluid or lubricants onto private property and public streets while stationary or in transit excepting (a) normal leakage of fuel, hydraulic fluid or lubricants typically associated with a properly maintained Collection Vehicle; and (b) leakage of fuel, hydraulic fluid or lubricants due to equipment failure provided that the failure is immediately corrected and the leakage is cleaned up as soon as practicable. (D/D, per vehicle)*
3. Covers for Open-body Collection Vehicles. The Permittee shall ensure that every open-body Collection Vehicle has a cover which shall be either an integral part of or a separate cover for the vehicle. To prevent material from blowing, leaking or falling out, this cover shall be used while stationary or in transit, except when the body is empty, and during the transportation of bulky wastes, including but not limited to stoves, refrigerators and similar "white goods." (B/D, per vehicle)*

4. Vehicle Identification.
 - a. The Permittee shall ensure that all Solid Waste Collection Vehicles bear a Metro identification tag. (C/M per vehicle)*
 - b. All Solid Waste, Recycling and Compostable Collection Vehicles shall be clearly identified by displaying the Permittee's name and telephone number prominently and conspicuously on both sides of the vehicle. Where a Permittee has acquired used Collection Vehicles or changed its business name, that Permittee must update the Collection Vehicle identification within 45 days. In this case, that Permittee shall ensure that the phone number on the Collection Vehicle will refer callers to the Permittee currently using the vehicle. (C/M per vehicle)*
 - c. BPS may exempt specific Collection Vehicles in cases where a Customer seeks confidentiality where the contents will be rendered unreadable (e.g., by shredding) before they are recycled. (D/D, per vehicle)*
 - d. Where a Collection Vehicle is designed and being used to Collect both Source Separated Recyclable or Compostable Material and Solid Waste in separate compartments, the vehicle shall be so identified prominently and conspicuously on both sides. (D/D, per vehicle)*
5. Container Identification. The Permittee shall clearly identify all its Collection containers, including compactors, but excluding containers of less than 18-gallon capacity, by displaying the Permittee's current name and telephone number prominently and conspicuously on at least the portion of the container that is visible when the container is being used to store materials. The Permittee may use a temporary or removable label to display Permittee's name and telephone number on Recyclable or Compostable Material containers purchased and made available by BPS. (D/M)*
 - a. The Permittee shall mark every Collection container of 10 cubic yards and greater capacity (generally "drop-boxes") using an identification system that gives each container a unique number or number/letter combination to enable tracking the location of containers that are found placed in a public right-of-way. (D/M, per container)*
 - b. The Permittee shall clearly label all containers for Solid Waste, Recyclable or Compostable Material, indicating the material to be placed in the container. In the case of compactors, this labeling shall be clearly visible to users and located on the surface adjacent to the feed opening. If this surface is not part of the equipment provided by the Permittee, then the Permittee is not responsible for the labeling. The labeling shall comply with the City of Portland Commercial Sticker Protocol distributed most recently to all Permittees by BPS. (D/M)*
 - c. Where Permittee provides any Recycling container of less than 18-gallon capacity, the container shall be a blue bin meeting specifications in Exhibit A, or a yellow ("Portland Recycles") or blue ("Portland Businesses Recycle") 14-gallon bin provided in the past by BPS. The Permittee shall provide these containers at no separate charge to the Customer. (D/M)*
6. Container Color. BPS may provide green roll carts for Collection of Food Scraps and blue roll carts for Recyclables and smaller interior containers for Customer use. The Permittee shall provide either BPS or Permittee purchased roll carts and interior containers consistent with the following color schemes. Other color shades may be allowed if approved by BPS in advance of purchase or use.(C/I):
 - a. Business Container Color
 1. Recycling: Blue, Reflex Blue C, 662C and 287C
 2. Food Scraps: Green, PMS 347

Additional color requirements for Business containers, including dumpsters, will be considered by

BPS in future administrative rule development. Similarly, Solid Waste and glass collection container colors will be consistent with the Residential system.

b. Multifamily Container Color

1. Recycling, Blue - Reflex Blue C, 662C and 287C
2. Glass, Orange - 490 Orange and OR11 ROC Van Zyverden Orange
3. Food Scraps or Yard Debris: Green - PMS 347
4. Solid Waste: Gray - PMS 424C, 431C and Cool Gray 11C

All Multifamily container color changes must be made by January 1, 2028. All Permittee purchased plastic containers shall meet a minimum of 30 percent by weight post-consumer recycled (PCR) content, except for the glass orange containers.

7. Container Use.

- a. Recycling or Compostables containers purchased and made available by BPS for Permittees to distribute to Commercial Customers (including the containers known as Blue Business Bins, and Portland Composts! containers) shall be distributed as specified by BPS. These containers remain the property of the City and are to be distributed only to Commercial Customers within the City. BPS does not provide Permittees any containers for Yard Debris Recycling. The containers are to be used to contain only Recyclables or Compostables and shall be maintained by the Permittee in good working condition. A Permittee who picks up a City-provided container that is being used other than specified here also commits an Infraction. BPS may also require the Permittee to return to BPS some or all the containers provided to the Permittee. (B/I)*
- b. Prohibited use of roll carts. Roll carts for Recyclable and Compostable Materials to be serviced by the Permittee shall not be provided to any Customer or Generator to transport Recyclable or Compostable Materials to another container serviced by the Permittee. Containers for Compostables provided by BPS may be used to transport Compostables to another container serviced by the Permittee. Failure of a Permittee to distribute these containers properly constitutes an Infraction. (B/I)*
- c. Interior containers. Upon the request of a Customer, the Permittee shall provide interior Recyclable or Food Scraps containers without charge. If the Permittee has not ordered an adequate supply of containers from the City during the annual container order, then interior containers must be purchased by the Permittee and delivered to the Customer without charge. (B/I)*
- d. Container placement after collection. The Permittee shall Collect all properly prepared Recyclable or Compostable Materials and shall leave containers at the point of Collection any reusable containers provided by the Customer, the Generator, or BPS, and close any protective covers used to keep material dry. Used motor oil containers do not have to be left at the point of Collection.
- e. Container storage. City purchased containers stored by the Permittee prior to distribution to Customers are to be stored in a manner that will prevent damage and in accordance with the requirements or specifications of the manufacturer's warranty. (D/M)*
- f. Roll cart recycling. When Recyclable and Compostable Material Collection containers are removed from use due to damage or other conditions that make them permanently unusable, Permittee is required to recycle the containers. If no recycling markets are available, Permittees must contact BPS to discuss acceptable options for Disposal. (D/M)*
- g. Other containers. Where there are containers provided by someone other than a Permittee, the Permittee is responsible for any damage caused by the Permittee to those reusable

containers and protective covers during Collection, except from weather or normal wear and tear. (D/I)*

- h. Multifamily containers: Where a Multifamily Customer cannot provide a central Collection system for Recycling but must provide Recycling bins or roll cart for each individual living unit, the Permittee shall provide a minimum of two bins per living unit, unless the Customer requests three bins per unit. If the Customer requests three bins per unit, the Permittee shall provide the additional bins at no separate charge. These bins shall be of a capacity of less than 18 gallons and comply with requirements as described above in B.6.c. Where roll carts are used for individual setouts for units at Multifamily Complexes, the roll carts must be purchased by the Permittee. (D/M)*
 - 1) Replacement of lost or stolen containers. Permittees are responsible for replacing all roll carts that are lost or stolen from the address to which they were delivered. Permittees have seven calendar days after Customer notification to replace the lost or stolen cart. Where a cart has been damaged due to Customer negligence and the Customer requests replacement, the Permittee may apply reasonable charges for a replacement cart. (D/I)*
8. Graffiti. The Permittee shall maintain containers and carts to be free of graffiti. Permittees shall remove all graffiti from containers and carts before delivery to Customers. Within ten days of receipt of notice from BPS or from the City Office of Civic Life of a container with graffiti, the Permittee shall remove the graffiti or give the City graffiti manager written permission to do the graffiti removal. Permittees may charge the generating Business for the cost of replacing or cleaning the container or cart. (D/M, per container)*
9. Limitation on Container Use. Containers shall be used for the intended collection service. For example, green or blue containers given to Customers to Collect Recyclable or Compostable Materials shall not be used to collect Solid Waste. (D/I)*
10. Compliance with Driving and Transportation Laws and Compliance with Metro and DEQ Requirements.
 - a. Permittee shall comply with all applicable federal, state and local laws and regulations relating to driving, transportation, and Solid Waste, Recyclable and Compostable Materials Collection and Disposal.
 - b. A Permittee shall notify BPS when it has been prohibited from operating its Collection Vehicles due to an unsatisfactory safety fitness rating from either the U.S. Department of Transportation or the Oregon Department of Transportation. BPS will suspend that Permittee's Commercial Collection permit until the Permittee has been reinstated with a satisfactory or conditional rating. In addition, BPS will not issue a Commercial Collection permit to any company that has been prohibited from operating its Collection Vehicles due to an unsatisfactory rating at the time of application. (B/I)* This provision also applies if:
 1. The Permittee;
 2. Any person who will be directly engaged in the management or operation of the Permittee; or,
 3. Any person who owns a five percent or greater interest in the Permittee, has previously owned or operated as a Permittee that has received such an unsatisfactory safety fitness rating that was not reinstated within a reasonable period with a satisfactory or conditional rating.
 - c. Appeal Provision. For appeal of a denial, suspension or revocation, see Section G, Appeal or Denial, Suspension or Revocation of Commercial Permit of Part 4.5A, Commercial Compliance and Enforcement: Permittees.

11. Safer Service Delivery. BPS is committed to safety measures to comply with the City of Portland's Vision Zero plan, managed by the Bureau of Transportation.
 - a. Safety and Maintenance. All Collection equipment must be maintained and operated in compliance with all local and state statutes, ordinances and regulations including compliance with regulations related to the safety of the Collection crew and the public.
 - b. Side Guards and Safety Equipment. Side Guards are safety equipment designed to protect vulnerable road users from the hazards of open spaces on the sides of large trucks. The following schedule will result in the implementation of Side Guards on all Collection Vehicles with side gaps between wheels greater than two feet. All Side Guards shall meet the Volpe specifications (see Exhibit B) according to the following schedule:
 - 1) All new Collection Vehicle purchases after January 1, 2020. (A/I)*
 - 2) All Collection Vehicles newer than 2010 and older than 2019 by January 1, 2023. (A/I)*
 - 3) All Collection Vehicles must have decals placed on the Side Guards or body that indicate to vulnerable road users that they are in a blind spot. (A/I)*
 - c. Annual Employee Training. All employees of Permittees are required to participate annual safety training. This may include, but is not limited to, OSHA safety consultation site visits. All Permittees are subject to BPS inquires pertaining to the content, dates and participation of the trainings. (A/I)
12. Clean and Efficient Fleet Practices. The intention of the clean and efficient fleet practices is to phase out Collection Vehicle emissions that contribute to unhealthy air for Portland residents and to reduce climate change impacts according to the Climate Action Plan.
 - a. Fleet Replacement. All Collection Vehicles with diesel engines shall be 12 years old or newer. Compressed Natural gas Collection Vehicles are not subject to this rule.
 - 1) Federal Emissions Improvement Adjustments. Due to emissions standard improvements to Collection Vehicles manufactured in 2010 or newer, Collection Vehicle restrictions will be adjusted accordingly:
 - a) As of January 1, 2023, all Collection Vehicles using diesel fuel shall have engines 13 years old or newer.
 - b) As of January 1, 2024, all Collection Vehicles using diesel fuel shall have engines 14 years old or newer.
 - c) As of January 1, 2025, all Collection Vehicles using diesel fuel shall have engines 15 years old or newer and older Back-up Collection Vehicles will no longer be acceptable and subject to infraction. Starting January 1, 2026 Collection Vehicle age restrictions will continue with a rolling 15-year timeframe for compliance.
 - d) As of January 1, 2025, all Collection Vehicles providing service to any Portland residential or commercial customer will adhere to the Clean and Efficient Fleet Practices. At this time, exemptions to Collection Vehicles serving less than 50 percent of Portland customers will be lifted.
 - b. Old diesel engine Back-up Collection Vehicles. Older diesel engine Collection Vehicles that are older than 12 years and can be used in a back-up capacity for up to 20 percent of a full-time vehicle's hours or miles. Additional miles can be used if a Collection Vehicle is for backing up multiple front-line Collection Vehicles. The mileage allowance is detailed in Exhibit C, Back-up Collection Vehicle Guidelines. Exceeding mile limitations in a calendar year is considered an infraction subject to an Assessment. (A/I)

- c. Diesel Particulate Filter (DPF) and Diesel Oxidation Catalyst (DOC) Retrofits. Collection Vehicles that have been retrofitted with a functioning DPF will not be required to be replaced until January 1, 2025. Collection Vehicles with only a DOC retrofit and no DPF are not allowed to service Portland Customers. (B/I)*
- d. Use of Biodiesel. A minimum Biodiesel Blend of B20 or Renewable Diesel blend of R20 shall be used in all Solid Waste, Recycling and Composting Collection Vehicles. (B/I)*

C. REQUIREMENTS FOR COLLECTION OF RECYCLABLES AND COMPOSTABLES

1. Service Responsibility. The Permittee shall offer Collection service for all Recyclable Materials as listed below (Recyclable Materials to be Collected from Businesses and Multifamily Complexes), to all its Solid Waste Customers and shall make known the availability of this service to all its Customers. For a Permittee to fail to offer and provide such Collection for any material as listed below is considered an Infraction. (A/I, with Incident defined as one Customer, one instance of Permittee failure to offer and provide Collection of one or more listed materials.)*
 Any Business or any other person may sell or exchange at fair market value its own Recyclable Materials which are Source Separated for reuse or Recycling. It is considered an Infraction if a Permittee states or implies that a Customer is required by the City to use the Permittee for any or all Recycling Collection services. (A/I, with Incident defined as one Customer, one instance of Permittee misinformation)*
2. Food Scrap Collection. The Permittee shall offer and provide Collection service for Compostable Materials to Customers that are Covered Food Scrap Generating Businesses subject to the food scrap Composting requirements in City Code Chapter 17.102. Upon request, Permittees shall provide Food Scraps Collection to any Portland Business. The Permittee shall provide information to the Customer describing how to separate and prepare the material in accordance with BPS guidelines. Permittee shall notify BPS within 30 days of new Customers that have either started or stopped Food Scraps Collection service. (A/I)*
3. Subcontracting. A Permittee may subcontract with another company for Recyclable and Compostable Materials Collection, so long as the subcontractor holds either a current Commercial permit or current Independent Commercial Recycler registration from BPS.
4. Coordination with Service Providers. Permittee shall coordinate with the Customer and other service providers such as property management, janitorial service, Permittees and Independent Commercial Recyclers to set up the Customer's Collection system and resolve any problems with its function. This includes keeping up to date records of contact information and documentation of formal communication about contamination issues. (D/I)*
5. Recyclable Materials to be Collected from Businesses and Multifamily Complexes.
 - a. Businesses. The Permittee shall pick up the Recyclable Materials listed below that are set out for Collection by the Generator, so long as the materials are prepared and separated in a manner mutually acceptable to the Permittee and the Customer. The Permittee shall provide, at a minimum, Collection containers for a two-sort system, where glass is Collected in one container and all other Recyclables listed here, except Yard Debris, are Collected in another container. Additional service for Source Separated Recyclables may be added if agreed upon by the Permittee and the Customer. (D/I)*
 - b. Multifamily Complexes. The Permittee shall pick up the Recyclable Materials listed below that are set out for Collection at Multifamily Complexes so long as the materials are properly prepared (see preparation standards in Residential Solid Waste & Recycling Administrative Rules). The Permittee shall provide Collection containers for a two-sort system, where glass is Collected in one container and all other Recyclable Materials listed here, except motor oil, Food Scraps, and Yard Debris, are Collected in other containers. Provision by a Permittee of

any other sort system is an Infraction (D/I)*

1. Aerosol cans.
2. Aluminum.
3. Aseptic packaging.
4. Corrugated cardboard and Kraft paper.
5. Food Scraps
6. Gable top paper cartons.
7. Glass bottles and jars.
8. Magazines.
9. Metals: ferrous and nonferrous scrap.
10. Newspapers.
11. Paper: office paper including white and colored ledger and computer.
12. Paper: scrap paper, may include envelopes, fax paper, blueprints, brochures, and other miscellaneous papers.
13. Plastic bottles, tubs, buckets and plant pots.
14. Steel "tin" cans.
15. Telephone directories.
16. Yard Debris.

BPS reserves the authority to add other materials to the above lists, such as, but not limited to, film plastics or other plastics. Permittees may Collect other Recyclable Materials not listed above.

6. Disposal Prohibition. The Permittee is responsible for transporting and delivery of Collected Recyclable and Compostable Material. The Permittee shall ensure that all Collected Recyclable and Compostable Material are delivered to a processor, broker or to an end use market. The Permittee shall ensure that all Collected Compostable Materials are delivered for beneficial use, including:
 - a. Composting or Anaerobic Digestion by a facility that has a current Metro license, an Oregon Department of Environmental Quality compost permit or registration, or is licensed as a composter by the State of Washington, or
 - b. A reload facility licensed by Metro, or
 - c. For animal feed or land application by facilities regulated by the Oregon Department of Agriculture or the Washington State Department of Agriculture, or
 - d. Use as hog fuel in the case of woody waste.

The Permittee is prohibited from delivering, or causing to be delivered, any Collected source-separated Recyclable or Compostable Materials for Disposal, except by prior arrangement with BPS. Placement of properly prepared Recyclables or Compostable Material which have been separated and set out for Recycling or Composting, into any Solid Waste container, including the Solid Waste compartment of a Collection vehicle, for any length of time, shall constitute a failure to comply with this rule. (A/I)*

This rule does not prohibit use of Collection technologies whereby Source Separated Recyclable or Compostable Material and Solid Waste are routinely Collected by a single Collection Vehicle

and loaded into separate compartments. A Permittee may Collect mixed dry waste at construction/demolition sites so long as the Permittee ensures that the Collected material is taken to a facility that reports to Metro and where Recyclable Materials are separated from waste.

7. Handling of Glass and Other Recyclable Materials.

- a. For Business Customers or Generators who Source Separate glass for Recycling, the Permittee shall not provide a Collection system which provides for glass to be mixed with paper. For Multifamily Complexes, the Permittee shall not provide a Collection system which provides for glass to be mixed with other Recyclables. (B/I)*
- b. Where glass has been Source Separated from Solid Waste by the Customer, Generator, or Multifamily Complex, the Permittee shall keep glass separate from all paper types on the Collection Vehicle and maintain the separation of the glass from all types of paper when unloading for Processing or end use markets. (B/I)*
- c. Mixed Dry Waste: Except for mixed dry waste at construction/demolition sites, as allowed under C.6. above, Disposal Prohibition, the Permittee shall not provide any Recycling system which involves mixing Recyclable Materials with Solid Waste for post-Collection separation. (A/M)*

8. Misrepresentation:

- a. The Permittee shall not represent to any Customer or Generator that placing Recyclable Materials into any Solid Waste container is an acceptable method of handling Recyclable Materials, or provide any information that is contrary to the requirements of Part 5.2 (Customer and Generator Requirements), except for mixed dry waste at construction/demolition sites, as listed above,
- b. The Permittee shall not represent to any Customer or Generator that materials Collected by the Permittee as Recyclable Materials are being recovered if the Permittee knows that the material is not actually being recovered. This applies whether or not the material in question is listed in these administrative rules as a Recyclable Material that the Permittee is required to Collect. (A/I)
- c. Misrepresentation of the proper separation or actual disposition of Recyclable Materials is a failure to comply with this rule. (B/I)*

9. Unauthorized Collection of Recyclable or Compostable Materials.

- a. All Recyclable or Compostable Materials placed in a Recycling container provided by any Collector, whether a Permittee or a registered Independent Commercial Recycler, is considered owned by and be the responsibility of that Collector. Without permission of that Collector, no person shall Collect Recyclable or Compostable Materials placed by the Customer in such a Recycling container. (A/I)*
- b. All Recyclable or Compostable Materials placed in a Recycling container provided by a Business or Multifamily Complex is considered owned by and shall be the responsibility of that provider. Without permission of that provider, no person shall Collect Recyclable or Compostable Materials placed in such a Recycling container. (A/I)*

10. Improperly Prepared Recyclable or Compostable Materials. The following procedures shall be followed when the Permittee encounters Recyclable or Compostable Materials not prepared or placed as mutually agreed upon by Permittee and Business Customer, or, in the case of a Multifamily Customer, when the Permittee encounters improperly prepared material, materials that the Permittee does not routinely Collect, or materials set out in an improper location.

- a. The Permittee shall notify the Customer of the problem no later than the Customer's next Business day and provide the Customer or Generator with the following options. Not offering these choices is considered an Infraction. (B/I with Incident defined on a per Customer basis)*

1. The Customer or Generator may sort the material or otherwise correct the preparation problem and set out the material for the next Collection day or arrange an additional Collection day;
 2. The Customer or Generator may authorize the Permittee to dispose of the material as Solid Waste. For the Permittee to dispose of rejected materials without being requested by the Customer or Generator constitutes an Infraction. (A/I)*
- b. If Compostable Materials are improperly prepared or stored in such a manner as to create pest or odor problems that pose a potential public health and safety concern, the City may require the Customer or Generator to remedy the problem so that Collection of the Compostable Materials may continue. The Permittee shall work with the City and the Customer or Generator to remedy the pest or odor problem caused by the improperly prepared or stored Compostable Materials.

11. Contamination in Source-Separated Loads.

- a. Record Maintenance. Permittees shall maintain records of any Source Separated loads that are rejected at the facility where they are delivered because they fail to meet the facility's contamination standards. Permittees shall also maintain records about Source Separated loads that receive warnings about contamination. These records shall be maintained for two years and shall include the rejection/warning notice, documentation of the contamination, and contact information for all the Customers on the route that generated the material in the load. (B/D)*
- b. First Load Rejection/Warning. Following the first Source Separated load rejection/warning notice for a route, Permittee is required to:
 1. Prior to or during the next scheduled Collection, visually check all Source Separated material containers for presence of contamination to identify Customers that are generating the contamination on the route that received the load rejection/warning notice. (B/I)*
 2. Document visible contamination in writing and preferably with photographs. (B/I)*
 3. Provide the contamination documentation to the Customers generating the contamination. (B/I)*
 4. In the case of a compactor route, provide the rejection/warning notice to the Generator. (B/I)*
- c. Subsequent Load Rejections/Warnings. Following the second Source Separated load rejection/warning notices for the same Generator or route within six months, BPS can request the contact information for the Customers generating the contamination or all the Customers on the route if the Permittee is unable to identify the Customers that are generating the contamination. BPS considers this information confidential and will treat it as such. (B/D)*

D. PROMOTION AND EDUCATION.

1. The Permittee shall provide Recycling, Food Scraps and Yard Debris Collection information to every new Customer prior to the day the customer is expected to start using the service and to all existing Customers at least annually. (B/I)*

The Permittee may use either outreach materials developed by BPS for this purpose or outreach materials developed by the Permittee. If a Permittee chooses to create and provide outreach material for Customers, the Permittee shall submit a draft to BPS for review and approval prior to distributing it to Customers. Failure to distribute this information according to these provisions is an Infraction subject to an Assessment. (B/I)*

The Permittee's information must include at a minimum information on the City's Recycling requirements applicable to the Customer and the services recommended and offered by the

Permittee that allow the Customer to meet those requirements if the Customer is a new Customer for the Permittee, or is a former Customer being reinstated after six months or more without service from that Permittee. (B/I)*

2. Distribution of BPS-provided Materials. In addition to distributing the above materials, Permittees shall distribute other BPS-provided education and promotion information regarding the Commercial Recycling program to all Commercial Customers up to three times per year. The notices shall be distributed to these Customers within a reasonable period specified by BPS, and according to other delivery instructions provided by BPS. Permittee web site content must be consistent with BPS rules and policies but does not need to be submitted to BPS in advance of posting. (B/I)*
3. Where the Permittee is providing Solid Waste and Recycling Collection service to Multifamily Complexes, and the BPS notice is directed at Multifamily residents, the Permittee shall obtain from BPS and provide to the Customer an adequate number of notices to be distributed to every Multifamily unit served. The Permittee shall provide the notices to the on-site manager(s) or other person(s) designated by the Customer for subsequent distribution to all units. (B/I)*
4. Where the Permittee is providing Solid Waste and Recycling Collection service to Customers with Business tenants, and the BPS notice is directed at Business tenants, the Permittee shall obtain from BPS and provide to the Customer an adequate number of notices to be distributed to every Business tenant served. The Permittee shall provide the notices to the on-site manager(s) or other person(s) designated by the Customer for subsequent distribution to all tenants. (B/I)*
5. If a Customer must set out Recyclable or Compostable Materials on Collection day (as distinct from having a central Collection area that is used by, and accessible to, both the Customer and the Permittee), the Permittee must notify the Customer at least one week in advance of any change in the Customer's Collection schedule. (B/I)*
6. The Permittee shall provide the above information to a recycling coordinator or an Owner or manager of the company. The information may not simply be left on a Solid Waste or Recycling container. (B/I)*
7. In a case where the Customer asks the Permittee for assistance Recycling a material that is not listed above in C.5., and the Permittee does not offer Recycling Collection for that material, the Permittee shall refer the Customer to Metro Recycling Information, 503-234-3000 or MRI@metro.dst.or.us, or to another recycler known to recycle that material. (B/I)*

E. NIGHTTIME NOISE

1. All Permittees will conduct BPS-approved education sessions on ways drivers can minimize noisy operations and shall require all drivers attend these sessions (1) before driving Permittee Collection Vehicles between 10 p.m. and 6 a.m., and (2) again at least once every 365 days. BPS will help design this training. (D/M, per driver)*
2. All Permittees shall install, on all Collection Vehicles operating between 10 p.m. and 6 a.m., back-up beepers which sound a quieter alarm in a quieter environment. (D/I)*
3. When a Permittee is notified by BPS of a complaint about Collection for a Customer location, the Permittee shall do all the following. (D/I for the first Incident of violation of any one of these provisions)*:
 - a. Deaden the sound of any metal arm (used to hold the lid open temporarily) on any containers used at that Customer location,
 - b. Discuss with the driver the possible causes and ways to alleviate nighttime noise problems at that location.
 - c. If a complaint is about glass pickup, the Permittee shall not Collect glass for Recycling at

that location between 10 p.m. and 6 a.m., and:

- d. If more than one complaint is received by BPS within three months about an individual driver, the Permittee shall require that driver to undergo training again within one month of the second and subsequent complaints.

F. COMPLIANCE WITH ZONING ORDINANCES.

1. Any Processing and storage of Recyclable or Compostable Materials shall be undertaken in a location suitable and adequate for such activity. Processing and storage facilities shall comply with all applicable zoning ordinances and any other applicable local and state statutes, ordinances and regulations.
2. All parking, storage and maintenance facilities shall comply with all applicable zoning ordinances and any other applicable local and state statutes, ordinances and regulations. Areas for parking, repair, storage or cleaning of Collection Vehicles or equipment shall not be located in areas zoned as Residential under local zoning ordinances, unless approved in writing by the Bureau of Development Services.

G. ACCESS FOR INSPECTIONS AND DELIVERY OF NOTICES

The Permittee shall make all company premises, facilities and records related to their Solid Waste and Recycling Collection services (including, but not limited to: offices, Collection Vehicles, storage areas, nonfinancial records, records pertaining to the origin of any Solid Waste Collected by the Permittee, receipts for sale or delivery of Collected Recyclable or Compostable Materials, Customer lists and all records related to vehicle maintenance and safety which are required under PUC Motor Carrier Requirements and Regulations and Chapter 767 of the Oregon Statutes) available for inspection by BPS Solid Waste and Recycling employees, within 24 hours of BPS notice by telephone. Such inspections are only for purposes of enforcing Solid Waste and Recycling regulations and are restricted to normal Business hours. During normal Business hours, the Permittee shall make all company premises and facilities accessible to BPS personnel for delivery of any written notices. The 24-hour period excludes Saturdays, Sundays and legal holidays. Collection Vehicles must be accessible for inspections during the normal operating hours for Collection, in addition to normal Business hours. The requirement for a 24-hour notice period shall not apply to BPS inspection of (1) containers stored in the public right-of-way or (2) a container or vehicle in response to a specific complaint that the Permittee is allegedly disposing Recyclable or Compostable Materials with Solid Waste. (B/D)*

H. ADVANCING EQUITY AND DIVERSITY

The City of Portland uses an equity lens for all its work, including Solid Waste, Recyclable and Compostable Materials collection programs.

1. Permittee shall conduct an annual demographic survey of its employees using data collection practices specified by the City and report the results in a format specified by the City. (A/I)*
2. Franchisee shall participate in workplace culture trainings offered by the City to improve recruitment and retention of women and people of color based on guidelines developed by BPS. (A/I)*

I. OFFICE AND PERSONNEL REQUIREMENTS

1. Email:

- a. Permittees shall have email correspondence available for messages to and from BPS. The email must be capable of receiving, opening and printing documents in PDF format. Permittee must provide BPS with a primary email address. (D/M)
- b. Where an email communication is sent between BPS and a Permittee, it shall be sent by email to the primary email address provided to BPS by the Permittee as required above, or to the BPS email address wasteinfo@portlandoregon.gov. Notices sent between BPS and Permittees by

email shall be deemed effective and delivered on the same day as email transmission, or the first business day thereafter if emailed on a Saturday, Sunday or legal holiday.

2. Response Time to BPS Staff Messages. Unless prevented by Force Majeure, or otherwise stated in BPS's message, Permittees must respond to calls or email received from BPS within 24 hours of receipt of the incoming message, or, if the day after the incoming BPS message is not a business day, then by noon of the following business day. (D/I)*
3. The Permittee shall provide BPS with an after-hours telephone number to be used only in emergencies. (D/M)*
4. The Permittee shall notify BPS of anticipated changes in addresses, phone numbers and email address for any facilities regulated by these rules, including but not limited to office, mailing address, yard location(s), and after-hours phone number. Such notice shall be provided to BPS in writing no less than ten business days prior to such change. (C/M)*
5. The Permittee shall notify BPS in writing of changes in company contact persons and responsible officials within one week after such changes. (D/M)*

J. COMMERCIAL SERVICE CHARGES

Consistent with ORS 459A.070, if a Customer Source Separates Recyclable Material - and makes it available for reuse or Recycling - Permittees may charge the Customer less, but not more, for Collection and Disposal of Solid Waste and Collection of Recyclable Material than the Collection service charges a Customer who does not Source Separate Recyclable Material. This provision does not affect charges for the Collection of Compostable Materials. (A/I)*

K. RECORD KEEPING

Permittees shall keep records allowing each weight slip received for Solid Waste disposed from a drop box of ten cubic yards or larger capacity to be specifically identified in relation to a Customer billing name, service date and address and invoice. These records shall be kept for two years from the date of Disposal. (C/I, with Incident defined as one weight slip)*

Part 4.3, Permittees: Reporting

- A. GENERAL. Permittee shall maintain records and reports as noted herein and promptly respond to periodic requests for such records and reports which are directly pertinent to the permit requirements and conditions or required by City Code chapter 17.102. The Permittee shall complete and deliver reports to BPS using the applicable form provided or approved by BPS by the specified due date. When this due date falls on a Saturday, Sunday or legal holiday, the report is due on the next Business day. Failure to deliver a complete, signed and accurate report or requested information by the deadline shall constitute an Infraction. (C/I)*
- B. DELIVERY OF REPORTS. For purposes of reporting deadlines, the delivery address for BPS is 1810 SW 5th Ave., Suite 710 Portland, OR 97201 between 8 a.m. and 5 p.m. on business days excluding legal holidays. BPS may provide a new mailing address with notice to the Permittee. Reports may be submitted in hard copy or, if in a format provided or pre-approved by BPS, electronically.
- C. RECYCLING AND COMPOSTABLES DATA REPORTING. Permittees shall report to BPS for each month and shall include all information indicated on report forms BPS provides.
1. Report Due Date:
 - a. Permittees shall Collect the information on a monthly basis and submit reports for each month following each Calendar Quarter. This data shall be received by BPS no later than the 30th day following the end of the reporting period.
 2. Report Content:
 - a. Permittees shall report the total number of Commercial Customers, separated into Multifamily Properties and Businesses. The report shall include the number of service locations per Customer. A service location is a distinct property such as an apartment complex or one location of a chain of Businesses. Multifamily service locations with Food Scrap Collection service (not limited to Yard Debris) shall also be identified.
 - b. Permittees shall report each month's tonnage and market information for each of the Recyclable or Compostable Materials Collected from Multifamily and other Commercial Customers and tonnage for each of these materials sold or delivered for Recycling or Composting, including optional Recyclables. Permittees shall include tonnage Collected by third-party providers Collecting material on behalf of the Permittee.
 3. Other Reports As Requested:
 - a. On a requested basis, permittees shall report the following Customer information for Commercial Food Scraps Collection accounts: account number, business name and service address(es). To the extent authorized under Oregon law, The City shall treat this information as confidential proprietary information and it will not be subject to public disclosure. Permittee shall submit this information to BPS no later than the 30th day following the request.
- E. BIODIESEL USAGE REPORT
- Permittee shall complete and deliver to BPS a Quarterly Biodiesel usage report by the 30th day of the month following the end of the reporting period.
- Report Content: Report shall include Biodiesel Blend that was used for Collection Vehicles. Biodiesel Blend purchase documentation shall be kept on file for verification by BPS upon request.
- F. USE OF BACK-UP TRUCK REPORT
- Permittees who use Collection Vehicles older than 12 years, for use as a back-up, shall submit a report to BPS by the 15th day following the end of the month. The data shall be on a form supplied by BPS.

Permittees who own Collection Vehicles older than 12 years, and do not use them to conduct Collections, are still required to submit the report form listing the older trucks for that month.

Beginning on January 1, 2025, all Collection Vehicles serving any Portland customer shall be 15 years or newer, no exceptions.

G. INVENTORY / ORDER REPORTS FOR CONTAINERS AND STICKERS

1. When requested by BPS, the Permittee shall complete and deliver to BPS a Recycling and Compostable Container Inventory / Order Report and Sticker Inventory / Order Report. The Permittee shall return the completed form to BPS within 10 business days following the request. (D/M)*
2. Report Content:
 - a. Existing inventory of containers and stickers purchased by the City.
 - b. Request for additional containers and stickers (ordered annually).
 - c. Number of Commercial and Multifamily Customers.

H. RECYCLING AND COMPOSTABLE CONTAINER ACKNOWLEDGEMENT REPORT

1. When requested by BPS, the Permittee shall complete and deliver to BPS a Recycling and Compostable Container Acknowledgement Report. The Permittee shall return the completed form to BPS within 10 business days following the request.
2. Report Content:
 - a. Date Permittee received containers.
 - b. Confirmation of quantity received.
 - c. Condition of containers and hardware.
 - d. Signature of affirmation to abide with Commercial Collection Service Administrative Rules.

I. RESPONSE TIME FOR PROVIDING REQUESTED INFORMATION

1. Where BPS finds information to be lacking or incorrect in a report, BPS may request corrected information from the Permittee by email or phone but shall allow the Permittee at least three business days to provide the requested information. The Permittee shall acknowledge the request within one business day and provide the requested information by the specified deadline. (B/I)*

J. DELINQUENT REPORTS AND ENFORCEMENT

1. Should a Commercial Permittee fail to submit a report required by these rules or the provisions of City Code Chapter 17.102, or corrected information as requested by BPS, by the due date then BPS will send a Delinquent Notice within five business days following the due date. The Delinquent Notice will require the Permittee to send in the report, or corrected information as requested by BPS, within five business days of the date of the delinquent notice. The Notice will also require payment of a \$50.00 service charge, due and payable when the report is submitted.
2. Should a Commercial Permittee, after being sent the “Delinquent Notice”, fail to return a required report, or corrected information as requested by BPS, within five business days of the date of the delinquent notice, then BPS shall send the Permittee an Alleged Infraction Letter. The Delinquent Notice shall replace the “Initial Notice” required by Part 4.6A.C. Notice of Alleged Infraction.
3. Where BPS finds that a Permittee has failed to provide information in an accurate and timely fashion, BPS may require that Permittee to submit reports more frequently or in more detail than the usual monthly reports.

4. Failure to deliver a complete and accurate report by the deadline identified above shall constitute an Infraction (B/I)*.

K. RETENTION AND ADDITIONAL INFORMATION.

1. All data and program information necessary for the above data reporting requirements shall be retained by the Permittee for a period of two years, including market receipts for the sale or delivery of all Collected Recyclable or Compostable Materials. BPS has the right to require access to any relevant nonfinancial information from the Permittee as may be needed for the program. Information requested by BPS shall be provided or made available to BPS within ten working days of a written request, or, if BPS inspects as provided in these Commercial Administrative Rules governing Access for Inspections and delivery of notices, the information shall be made available during the inspection. (B/D)*
2. Upon the occasion of BPS inspection of the Permittee's premises, the Permittee shall provide BPS with access to inspect other relevant information of the Permittee as may be required for the program, including financial records necessary to verify sale or delivery of Collected Recyclables or Compostables, and financial records pertaining to the origin of Solid Waste Collected by the Permittee. (B/D)*

Part 4.4, Independent Commercial Recyclers

A. REGISTRATION

In order to Collect Recyclables or Compostables from Portland Businesses or Multifamily Complexes, any Independent Commercial Recycler shall register with the City of Portland, Bureau of Planning and Sustainability (BPS). This registration shall be accomplished by the Independent Commercial Recycler submitting to BPS a copy of the front page of its Portland Business License application or a copy of its Application for Portland Business License Exemption, and by completing a registration form provided by BPS. No BPS registration fee is required.

Collection of Recyclable or Compostable Material within the City without so registering, or when registration has been suspended (see K.5. Safety Fitness rating, below), is considered an Infraction subject to an Assessment. (A/D)*

B. DISPOSAL PROHIBITION

The Independent Commercial Recycler is responsible for transporting and delivery of Collected Recyclable or Compostable Materials. The Independent Commercial Recycler shall ensure that all such Collected materials are delivered to a processor or broker of Recyclable Materials or to an end use market. The Independent Commercial Recycler shall ensure that all Collected Yard Debris and Compostable Materials are delivered for beneficial use, including:

1. Composting by a facility that has a current Metro compost license, an Oregon Department of Environmental Quality compost permit or registration, or is licensed as a composter by the State of Washington, or
2. A reload facility licensed by Metro, or
3. For animal feed or land application by facilities regulated by the Oregon Department of Agriculture or the Washington State Department of Agriculture, or
4. Use as hog fuel in the case of woody waste. The Independent Commercial Recycler is prohibited from delivering, or causing to be delivered, any Collected Source Separated Recyclable or Compostable Materials for Disposal, except with prior approval by BPS. Placement of properly prepared Recyclable or Compostable Material which have been separated and set out for Recycling or Collection for Composting, into any Solid Waste container for any length of time, or delivery of any such materials for Disposal shall constitute a failure to comply with this rule. (A/I)*

C. REPORTING OF RECYCLING DATA

1. Independent Commercial Recyclers that Collect at least 25 tons per year shall report to BPS for each Calendar Quarter the cumulative quantities of each Recyclable and Compostable Material Collected from the premises of all Businesses and Multifamily Complexes within Portland.
2. Quantities reported shall not include materials excluded under State law, ORS 459A.010(4)(f), which describes materials that are routinely recycled without entering the Solid Waste stream, such as certain manufacturing and industrial wastes.
3. This data shall be provided on forms supplied by BPS and received by BPS no later than the 30th day following the end of the reporting period. When the 30th day falls on a Saturday, Sunday or legal holiday, the report is due on the next business day.
4. Delivery of reports. For purposes of reporting deadlines, the email address is WasteInfo@portlandoregon.gov and physical address for BPS is 1810 SW 5th Ave., Suite 710 Portland, OR 97201. The office is open between 8 a.m. and 5 p.m. on business days, excluding legal holidays. BPS may provide a new email and/or mailing address with notice to

the Independent Commercial Recycler. Permittee is required to submit reports in a variety of formats as specified by BPS including: email, online reporting and in some cases hard copy.

Where BPS finds information to be lacking or incorrect in a recycling report, the Independent Commercial Recycler shall provide the requested information by the deadline given in the request, the deadline being no less than three business days after the BPS request for corrected information. In addition, the Independent Commercial Recycler shall acknowledge the request within one business day. (B/I)*

D. DELINQUENT REPORTS AND ENFORCEMENT

1. Should an Independent Commercial Recycler fail to submit a report required by these rules of the provisions of City Code Chapter 17.102, or corrected information as requested by BPS, by the due date then BPS will send a delinquent notice within five business days following the due date. The delinquent notice will require the Independent Commercial Recycler to send in the report, or corrected information as requested by BPS, within five business days of the date of the delinquent notice. The Notice will also require payment of a \$50.00 service charge, due and payable when the report is submitted.
2. Should an Independent Commercial Recycler, after being sent the delinquent notice, fail to return a required report, or corrected information as requested by BPS, within five business days of the date of the delinquent notice, then BPS shall send the Independent Commercial Recycler an Alleged Infraction Letter. The delinquent notice shall replace the initial notice required by Part 4.5B. Notice of Alleged Infraction.
3. Where BPS finds that an Independent Commercial Recycler has failed to provide information in an accurate and timely fashion, BPS may require that recycler to submit reports more frequently or in more detail than the usual monthly reports.
4. Failure to deliver a complete, signed, accurate report, or corrected information as requested by BPS, by the deadline identified above, shall constitute an Infraction. (B/I)*

E. RETENTION AND ACCESS TO RECORDS

1. All records necessary for providing these data shall be retained by the recycler for a period of two years. BPS has the right to require access to any relevant nonfinancial recycling information as may be needed for the program. Information requested by BPS shall be made available to BPS within ten working days of a written request, or, if BPS inspects as provided below, the information shall be made available during the inspection. (B/D)*
2. The Independent Commercial Recycler shall make records related to their Recycling Collection services in Portland available during normal business hours for inspection by BPS personnel within 24 hours of BPS notice by telephone. The 24-hour period excludes Saturdays, Sundays and legal holidays. (C/D)*

F. IDENTIFICATION

All Collection Vehicles provided by the Independent Commercial Recycler shall be marked with the recycler's current name and telephone number. Where an Independent Commercial Recycler has acquired used vehicles or changed its Business name, that recycler must update the vehicle identification within 45 days. In this case, that Independent Commercial Recycler shall ensure that the phone number on the vehicle will refer callers to the company currently using the vehicle. BPS may exempt specific vehicles in cases where a Customer seeks confidentiality for documents to be rendered unreadable (e.g., by shredding) before they are recycled. (C/M, per vehicle)*

G. CONTAINERS

1. For Customers or Generators who Source Separate glass for Recycling, the Independent Commercial Recycler shall provide a Collection system which provides for glass to be

separate from paper. (B/I)*

2. When providing containers for Recyclable or Compostable Material, including compactors, the Independent Commercial Recycler shall ensure that the container is clearly labeled, including the Independent Commercial Recycler's name and phone number, an indication of the material to be placed in the container and the word "Recycling" or "Recyclable" or "Food Waste" or the "chasing arrows" Recycling symbol. This information must be displayed prominently and conspicuously on at least the portion of the container that is visible when the container is being used to store materials (D/M)*
3. Where there are containers provided by someone other than the Independent Commercial Recycler, the Independent Commercial Recycler is responsible for any damage caused by the Independent Commercial Recycler to those reusable containers and protective covers during Collection, except from weather or normal wear and tear. (D/I)*
4. Independent Commercial Recyclers shall mark every Recyclable or Compostable Material container of 10 cubic yards and greater capacity (generally "dropboxes") using an identification system that gives each container a unique number or number/letter combination to enable tracking the location of, and enforcement of City street use regulations for, containers that are found placed in the public right-of-way. (D/M, per container)*
5. Graffiti: The Independent Commercial Recycler shall maintain containers and carts so as to be free of graffiti. Independent Commercial Recyclers shall remove all graffiti from containers and carts before delivery to Customers. Within ten days of receipt of notice from BPS or from the City Office of Civic Life of a container with graffiti, the Independent Commercial Recycler shall remove the graffiti or give the city graffiti manager written permission to do the graffiti removal. Independent Commercial Recyclers can charge the generating Business for the cost of replacing or cleaning the container or cart. (D/M, per container)*

H. UNAUTHORIZED COLLECTION OF RECYCLABLE MATERIALS

1. All Recyclable or Compostable Materials placed in a Recyclables or Compostables container provided by any Collector, whether a registered Independent Commercial Recycler or a Permittee, are considered owned by and be the responsibility of that Collector. Without permission of that Collector no person shall Collect Recyclable or Compostable Materials placed by the Customer in such a container. (A/I)*
2. All Recyclable or Compostable Materials placed in a Recycling or Compostables container provided by a Business or Multifamily Complex are considered owned by and be the responsibility of that provider. Without permission of that provider no person shall Collect Recyclable or Compostable Materials placed in such a Recycling or Compostables container. (A/I)*

I. HOURS OF COLLECTION.

At a multifamily account, an Independent Commercial Recycler shall not Collect Recyclables or Compostables between 10 p.m. and 6 a.m., unless the Customer has applied and approved for early morning Collection with BPS. This restriction does not apply where multifamily is part of a mixed-use building, where other Commercial accounts are being served. (D/D)*

J. COMPLIANCE WITH ZONING ORDINANCES.

All parking, storage and maintenance facilities shall comply with all applicable zoning ordinances and any other applicable local and state statutes, ordinances and regulations. Areas for parking, repair, storage or cleaning of Collection Vehicles or equipment shall not be in areas zoned as Residential under local zoning ordinances, unless approved in writing by the Bureau of Development Services.

K. OTHER

1. Collection of Compostables. If Compostable Materials are improperly prepared or stored in such a manner as to create pest or odor problems that pose a potential public health and safety concern, the City may require the Customer or Generator to remedy the problem so that Collection of the Compostable Materials may continue. The Independent Commercial Recycler shall work with the City and the Customer or Generator to remedy the pest or odor problem caused by the improperly prepared or stored Compostable Materials.
2. Prevention of Leaking and Blowing. All Recyclable or Compostable Material Collection equipment shall be covered or otherwise secure to prevent material from blowing, leaking or falling out while stationary or in transit. All Collection equipment must also be constructed, loaded, operated and maintained in such a manner to reduce to the greatest extent practicable dripping or leaking of the vehicle's fuel, hydraulic fluid or lubricants from the Collection Vehicle onto private property and public streets while stationary or in transit, excepting (a) normal leakage of fuel, hydraulic fluid or lubricants typically associated with a properly maintained vehicle; and (b) leakage of fuel, hydraulic fluid or lubricants due to equipment failure provided that the failure is immediately corrected and the leakage is cleaned up as soon as practicable. (D/D, per vehicle)*
3. Compliance with Driving and transportation laws and compliance with Metro and DEQ requirements. The Independent Commercial Recycler shall comply with all applicable federal, state and local laws and regulations relating to driving, transportation, and waste, Compostable and Recyclable Materials Collection and Disposal.
4. Safety and Maintenance. All Collection equipment must be maintained and operated in compliance with all local and state statutes, ordinances and regulations including compliance with regulations related to the safety of the Collection crew and the public.
5. Safety Fitness Rating: An Independent Commercial Recycler shall notify BPS when it has been prohibited from operating its Collection Vehicles due to an unsatisfactory safety fitness rating from either the U.S. Department of Transportation or the Oregon Department of Transportation. BPS will suspend that Independent Commercial Recycler's registration until reinstated with a satisfactory or conditional rating. In addition, BPS will not register any company that has been prohibited from operating its Collection Vehicles due to an unsatisfactory rating at the time of application for registration. (B/I)* This provision also applies if:
 - a. The Independent Commercial Recycler;
 - b. Any person who will be directly engaged in the management or operation of the Independent Commercial Recycler; or,
 - c. Any person who owns a five percent or greater interest in the Independent Commercial Recycler, has previously owned or operated as an Independent Commercial Recycler that has received such an unsatisfactory safety fitness rating that was not reinstated within a reasonable period with a satisfactory or conditional rating.
6. Appeal Provision. For appeal of Denial, Suspension or Revocation provided above in K.5., see Section G, Appeal of Denial, Suspension or Revocation of Registration as an Independent Commercial Recycler, of Part 4.5B, Commercial Compliance and Enforcement: Independent Commercial Recyclers.
7. Maintaining Passage on Public Streets. The Independent Commercial Recycler shall exercise reasonable efforts to minimize stopping of Collection Vehicles in a manner that blocks the passage of other vehicles or pedestrians on public streets or sidewalks while Collecting Recyclable or Compostable Materials or placing of drop-boxes. (D/I for vehicles; and D/D for drop boxes)*

8. Response Time to BPS Staff Messages. Unless prevented by Force Majeure, or otherwise stated in BPS's message, registered Independent Commercial Recyclers must respond to calls or email received from BPS within 72 hours of receipt of the incoming message, or, if the day after the incoming BPS message is not a Business day, then by noon of the following Business day. (D/I)*
9. Notify City of Company Ownership or Name Change: The registered Independent Commercial Recycler shall notify BPS of changes in the company name or Ownership information from the application submitted for the registered Independent Commercial Recycler's current city Independent Commercial Recycler registration, no less than 10 business days before the change becomes effective. A registered Independent Commercial Recycler's failure to notify BPS on a timely basis shall constitute an Infraction subject to an Assessment. (D/M)*

Part 4.5, A - Commercial Compliance and Enforcement: Permittees

A. INITIATION OF ENFORCEMENT ACTION

BPS may initiate an enforcement action based on its own observations or on a complaint. Complaints regarding compliance with these rules may be accepted from any source in writing, email, through personal visit or telephone call. BPS will maintain the confidentiality of complainants to the greatest extent possible. Anonymous complaints will result in an Infraction only if BPS investigation reveals other evidence that is sufficient to serve as an independent basis by BPS for its decision that an Infraction has occurred.

B. DELIVERY OF NOTICES.

Any notice provided for under these rules is considered sufficient if in writing and accomplished by any of the following means: (1) delivered personally to the Permittee office address on record at BPS; (2) deposited in the United States Mail, first class, postage prepaid, addressed to the Permittee's mailing address on file with BPS; (3) sent by commercial courier to the Permittee's office address on file with BPS; (4) sent by email to the Permittee's email address on file with BPS. Any such notice, communication or delivery is deemed effective and delivered upon the earliest to occur of either (1) actual personal delivery to the Permittee's office address, during normal business hours; (2) three (3) business days after depositing in the United States Mail as aforesaid; (3) one (1) business day after shipment by commercial courier as aforesaid; or (4) the same day as email transmission (or the first business day thereafter if emailed on a Saturday, Sunday or legal holiday).

C. NOTICE OF ALLEGED INFRACTION

1. Initial Notice

- a. Within 48 hours, exclusive of Saturdays, Sundays and legal holidays, of a BPS audit or inspection revealing a potential Infraction, BPS will notify the Permittee of the potential Infraction. Only where a potential Infraction is based on a complaint, rather than on direct BPS staff observation, will BPS notify the Permittee of the potential Infraction within 48 hours after receipt of a complaint.
- b. The notification will describe the nature of the complaint and, if a representative of the Permittee is available, BPS will relate further pertinent available details regarding the alleged Infraction. Messages left on telephone recorders or answering services or email will be considered as successful contacts for this purpose.
- c. Initial Notice for alleged Infractions of reporting deadlines will be treated as described under Part 4.3, I. Delinquent Reports and Enforcement.

2. Delivery of Notifications. Excepting alleged Infractions of reporting deadlines, within seven business days of the initial notice, BPS will send a "Notice of Alleged Infraction" to the Permittee. The Notice will set out clearly all available details that support the alleged Infraction.

3. Opportunity to Respond. The Permittee, unless otherwise arranged for reasonable cause, will be given ten business days from the date of the Notice of Alleged Infraction to provide BPS with a written explanation of the pertinent events and circumstances relative to the alleged Infraction. This information will be used by the BPS to determine if an Infraction has occurred.

D. BPS INVESTIGATION OF ALLEGED INFRACTIONS

BPS shall investigate each alleged Infraction and may contact any known complainant, witness and the Permittee before making its determination.

E. FINDING OF NO INFRACTION

Within 30 calendar days of a BPS determination that no Infraction has occurred, BPS shall

notify the Permittee of such determination.

F. NOTICE OF ASSESSMENT

1. Form and Delivery of Notice. If, upon investigation, it is determined that an Infraction has occurred, the BPS Director or Director's designee shall deliver a written Notice of Assessment to the offender, specifying the Infraction, the findings that support the Infraction and stating the amount of the Infraction Assessment and deadline for payment. This notice shall also include information on the procedure for requesting a hearing to appeal the determination. Where BPS can demonstrate an attempt to properly deliver the Notice, a refusal by the offender or offender's representative to receive the Notice in person, or failure of offender to accept certified mail, shall not constitute a failure by BPS to fulfill the requirement for the delivery of notice.
2. Deadline for Notice of Assessment. The Notice of Assessment must be issued by BPS within 30 calendar days of BPS notification of the offender of the occurrence of the alleged Infraction. Infractions associated with records or file keeping which are discovered more than 30 days after their occurrence are exempt from this time limit; notice will, however, occur within 30 days of the discovery by BPS.
3. Accumulation of Infractions. A Notice of Assessment may be issued for each rule and for each day or instance when the Infraction occurs. More than one Infraction, involving different rules, may be accrued simultaneously.

G. APPEAL OF DENIAL, SUSPENSION OR REVOCATION OF COMMERCIAL PERMIT

Any person receiving a notice of denial, suspension or revocation of a Commercial permit shall, within 14 business days of issuance of a written notice of the denial, suspension or revocation, cease all Collection of Solid Waste, Recyclable, and/or Compostable Materials from Customers located in the City of Portland, or request an appeal hearing a Code Hearings Officer in accordance with procedures set forth in Title 22 of the City Code.

The filing of an appeal of denial, suspension or revocation shall stay the effective date of the denial, suspension or revocation until the appeal is determined by the Code Hearings Officer.

If, pursuant to said appeal hearing, the denial, suspension or revocation is sustained by the Code Hearings Officer, the Permittee shall cease all Collection of Solid Waste, Recyclable and/or Compostable Material in Portland no later than 15 calendar days after the order becomes final unless the Code Hearings Officer decision is appealed to circuit court by writ of review. If a denial, suspension or revocation decision is appealed to the state courts and is upheld, Permittee shall cease all Collection of Solid Waste, Recyclable and/or Compostable Material in Portland no later than 15 calendar days after final resolution of the judicial proceedings.

Part 4.5, B - Commercial Compliance and Enforcement: Independent Commercial Recyclers

A. INITIATION OF ENFORCEMENT ACTION

BPS may initiate an enforcement action based on its own observations or on a complaint. Complaints regarding compliance with these rules may be accepted from any source in writing, through personal visit or telephone call. Anonymous complaints alone will not result in an Infraction though BPS may choose not to identify a complainant if its investigation reveals other evidence that is sufficient to serve as an independent basis by BPS for its decision that an Infraction has occurred.

B. DELIVERY OF NOTICES.

Any notice provided for under these rules is considered sufficient if in writing and accomplished by any of the following means: (1) delivered personally to the Independent Commercial Recycler's advertised business address; (2) deposited in the United States Mail, first class, postage prepaid, addressed to the Independent Commercial Recycler's mailing address on record with BPS; (3) sent by commercial courier to the Independent Commercial Recycler's advertised business address; or (4), if to an Independent Commercial Recycler who has provided an email address to BPS, sent by email to that address. Any such notice, communication or delivery is deemed effective and delivered upon the earliest to occur of either (1) actual personal delivery to Independent Commercial Recycler's advertised business location during normal business hours; (2) three (3) business days after depositing in the United States Mail as aforesaid; (3) one (1) business day after shipment by commercial courier as aforesaid; or (4) the same day as email transmission (or the first business day thereafter if emailed on a Saturday, Sunday or legal holiday).

C. NOTICE OF ALLEGED INFRACTION

1. Initial Notice

- a. Within 48 hours, exclusive of Saturdays, Sundays and legal holidays, of finding a potential Infraction, BPS will notify the Independent Commercial Recycler of the potential Infraction. Only where a potential Infraction is based on a complaint, rather than on direct BPS staff observation, will BPS notify the Independent Commercial Recycler of the potential Infraction within 48 hours after receipt of a complaint.
- b. The notification will describe the nature of the offense and, if a representative of the Independent Commercial Recycler is available, BPS will relate further pertinent available details regarding the alleged Infraction. Messages left on telephone recorders or answering services or sent by email will be considered as successful contacts for this purpose.
- c. Initial Notice for alleged Infractions of reporting deadlines will be treated as described under Part 4.4, D. Delinquent Reports and Enforcement.

2. Mailed Notice. Excepting alleged Infractions of reporting deadlines, within seven business days of the initial notice, BPS will mail a "Notice of Alleged Infraction" to the Independent Commercial Recycler. The Notice will set out clearly all available details that support the alleged Infraction.

3. Opportunity to Respond. The Independent Commercial Recycler, unless otherwise arranged for reasonable cause, will be given ten business days from the date of the mailed Notice to provide BPS with a written explanation of the pertinent events and circumstances relative to the alleged Infraction. This information will be used by the BPS to determine if an Infraction has occurred.

D. BPS INVESTIGATION OF ALLEGED INFRACTIONS

BPS shall investigate each potential Infraction and may contact any known complainant, witness and the Independent Commercial Recycler before making its determination.

E. FINDING OF NO INFRACTION

Within 30 calendar days of a BPS determination that compliance has been achieved, BPS shall notify the Independent Commercial Recycler of such determination.

F. NOTICE OF ASSESSMENT

1. Form and Delivery of Notice. If it is determined that an Infraction has occurred, the BPS Director shall deliver a written Notice of Assessment to the offender, specifying the Infraction, the findings that support the Infraction and stating the amount of the Infraction Assessment and deadline for payment. This notice shall also include information on the procedure for requesting a hearing to appeal the determination. Where BPS can demonstrate an attempt to properly deliver the Notice, a refusal by the offender or offender's representative to receive the Notice in person, or failure of offender to accept certified mail, shall not constitute a failure by BPS to fulfill the requirement for the delivery of notice.
2. Deadline for Notice of Assessment. The Notice of Assessment must be issued by BPS within 30 calendar days of BPS notification of the offender of the occurrence of the alleged Infraction. Infractions associated with records or file keeping which are discovered more than 30 days after their occurrence are exempt from this time limit; notice will, however, occur within 30 days of the discovery by BPS.
3. Accumulation of Infractions. A Notice of Assessment may be issued for each rule and for each instance when the Infraction occurs. More than one Infraction, involving different rules, may be accrued simultaneously.

G. APPEAL OF DENIAL, SUSPENSION OR REVOCATION OF REGISTRATION AS AN INDEPENDENT COMMERCIAL RECYCLER

Any person receiving a notice of denial, suspension or revocation of registration as an Independent Commercial Recycler shall, within 15 calendar days of issuance of a written notice of the denial, suspension or revocation, cease all Collection of Recyclable and/or Compostable Material within the City of Portland or request an appeal hearing a Code Hearings Officer in accordance with procedures set forth in Title 22 of the City Code. The filing of an appeal of denial, suspension or revocation shall stay the effective date of the denial, suspension or revocation until the appeal is determined by the Code Hearings Officer.

If, pursuant to said appeal hearing, the denial, suspension or revocation is sustained by the Code Hearings Officer, the Independent Commercial Recycler shall cease all Collection of Recyclable and/or Compostable Material within Portland no later than 15 calendar days after the order becomes final unless the Code Hearings Officer decision is appealed to circuit court by writ of review. If a denial, suspension or revocation decision is appealed to the state courts and is upheld, the Independent Commercial Recycler shall cease all Collection of Recyclables and/or Compostables in Portland no later than 15 calendar days after final resolution of the judicial proceedings.

Part 4.5, C Commercial Compliance and Enforcement: Common Aspects

A. VIOLATIONS OF CITY CODE

For the purposes of compliance and enforcement, violations of City Code shall be addressed in the same manner as violations of these rules. Assessments for violations of City Code shall be made in accordance with City Code Chapter 17.102.090.

B. STANDARD FOR MAKING DETERMINATION OF INFRACTION

In determining whether an Infraction has occurred, the Director shall evaluate the totality of the circumstances related to the Infraction.

C. PAYMENT OF INFRACTION ASSESSMENTS

1. Initial Deadline for Payment or Appeal. The alleged offender shall, within 20 Calendar Days of BPS issuance of the written notice of Assessment, pay to BPS the stated civil penalty or request an appeal hearing by a Code Hearings Officer.
2. Deadline for Payment after Appeal. If, pursuant to said appeal hearing, an Infraction Assessment is ordered, payment of said Assessment must be received by BPS or postmarked within 20 Calendar Days after the order becomes final.
3. Interest on Assessment. An Assessment which is not paid within the time provided shall accrue interest at a rate consistent with the City's established accounting practices. BPS may take legal action to Collect Assessments which are not paid when due.

D. INFRACTION CATEGORIES AND ASSESSMENTS

1. Infraction Classifications. Each violation of a rule for which an Infraction is assigned is given a dollar amount which reflects BPS's evaluation of both the seriousness of the matter and the frequency with which the violation is committed. The lowest amount, \$200, is assigned to the first occurrence of the least serious Infraction while the highest amount, \$1500, is assigned to the most serious Infraction on the third or subsequent occurrence. Each Infraction notation consists of two letters, such as (A/I) which reflect the seriousness of the Infraction.
 - a. First Letter. The first letter represents the level of Assessment as show on the chart below. These range from category A-D, with category A representing the most serious and category D representing the least serious Infractions.
 - b. Second Letter. The second letter reflects the classification of the standard that is whether an Infraction will be on a "Per Incident," "Per Day" or "Per Month" basis (see Definitions). The following abbreviations apply:

"I" means on a per Incident basis; D" means on a Per Day basis; "M" means on a Per Month basis, and;

For example, an (A/I) designation means that a \$500 Assessment (as shown under category A on the chart below) would be applied for the first single "Incident" within a 365-day period but would increase to \$1500 for the third or subsequent Incident within that same period.
2. Infraction Assessment Schedule. An Infraction according to these rules shall result in an Infraction Assessment in accordance with the following schedule:

Category	First Infraction	Second Infraction	Third and Subsequent Infractions
A	\$500	\$1000	\$1500
B	\$400	\$800	\$1200
C	\$300	\$600	\$900
D	\$200	\$400	\$600

The Assessment amounts shown throughout these rules are for the first Infraction of a given rule within a 365-day period. If more than one Infraction of the same rule occurs within a 365-day period, the corresponding Infraction amount will increase for the second, third or subsequent Infractions, as shown above. The total Assessment will be the sum of Infraction amounts. For example, three separate Infractions of the same rule with an Assessment category of “B” above will result in a total Assessment of $\$400 + \$800 + \$1200 = \2400 .

The Director has the discretion to adjust the Assessment amount when considering the following criteria:

- a. The nature and extent of the person’s involvement in the violation;
- b. Whether the person was seeking any benefits, economic or otherwise, through the violation;
- c. Whether the violation was isolated and temporary, or repeated and continuous;
- d. The length of time from any prior violations;
- e. The magnitude and seriousness of the violation;
- f. The costs of investigation and remedying the violation;
- g. Whether any criminal prosecutions have occurred regarding the violations; and
- h. Other relevant, applicable evidence bearing on the nature and seriousness of the violation.

Part 4.5, D Containers in the Right-of-Way

A. PROHIBITION ON CONTAINERS IN THE RIGHT-OF- WAY

No Permittee or Independent Commercial Recycler shall cause any newly placed container for Solid Waste, Recyclable or Compostable Materials to be stored in the public right-of-way in violation of Portland City Code 17.102.290. Examples of cause may include, but are not limited to, an agreement to store a container in the right of way or providing a container that is larger than any of the entry points to the storage area within the Customer's or Generator's place of Business. The Permittee or Independent Commercial Recycler shall remove any existing container in the public right of way that is the subject of a notice of noncompliance if there is a finding of noncompliance after the conclusion of the compliance period. (D/M, per container)*

B. AUTHORITY TO ENFORCE

BPS shall serve as the enforcement agent for complaints received of containers in the public right of way.

C. COMPLAINTS

All complaints of containers in the public right of way shall be directed BPS for intake and Processing. BPS may follow its established practices and procedures for Processing complaints including receiving the complaint and completing an investigation.

D. FOLLOW-UP AFTER INVESTIGATION

1. Determining Who is the Offender. In its investigation, BPS shall decide regarding responsibility for noncompliance among the Business, the property owner, the Permittee and/or the Independent Commercial Recycler. Responsibility for noncompliance and resulting Assessments shall follow this determination.
2. Letter of Noncompliance. If, after its investigation, BPS has reason to believe that there is a condition of noncompliance, BPS may issue a letter of noncompliance to the Business and property owner. BPS may also notify the Permittee or Independent Commercial Recycler that provides the container and Collection service.
3. The letter of noncompliance may give the Business or property owner a period of at least 30 days from the date of the letter to achieve compliance. During this period, the Business or property owner may request assistance from BDS in identifying solutions that will enable the Business or property owner to come into compliance.
4. Extensions for Compliance. BPS may grant an extension beyond 30 days to the Business or property owner to achieve compliance if the Business or property owner is making a good faith effort to come into compliance.
5. New service. If, in its investigation, BPS determines that a Permittee or Independent Commercial Recycler has started service with a Customer and is responsible for placing containers in the right of way, BPS may pursue enforcement action against the responsible Permittee or Independent Commercial Recycler prior to the completion of the compliance period.

E. NOTICE OF ASSESSMENT

1. Form and Delivery of Notice. If, after the compliance period, it is determined that noncompliance still exists, and an Infraction has occurred, the Director may deliver a written notice of Assessment to the offender, specifying the Infraction, the findings that support the Infraction and stating the amount of the Infraction Assessment and deadline for payment. This notice shall also include information on the procedure for requesting a hearing to appeal the determination. Notice of Infraction is considered effective as of the mailing date by certified mail.

Exhibit A: Required features of small bins (less than 18 gallons capacity)

Each bin shall meet the following requirements.

1. Each bin shall have a volume of no less than 1.8 cubic feet (13.5 US gallons) and no more than 2.1 cubic feet (16 US gallons).
2. The minimum interior bottom dimensions are 12” and 17”.
3. The bin is to be rectangular shaped (not round).
4. The bin shall have a handle at least on each end.
5. The bins shall be manufactured from high density polyethylene and will contain a minimum of 25 percent by weight post-consumer recycled (PCR) content. Upon City request, bin Owner must supply to City a letter from the vendor certifying that the PCR resin meets this 25% standard.
6. There shall be at least four ½ inch drain holes in the bottom surface of the bin, with uninterrupted drainage retention canals.
7. Where bins are provided by Permittees, on one of the short ends of the bin, the Permittee may place a sticker or hot-stamped printing giving the Permittee’s name and phone number. Any such message shall be in at least 36-point type, with a high contrast between text and background colors. If a sticker, it shall not obscure any of the wording or logo required above.
8. Bins shall be a bright blue such as Pepsi Blue (BL55-PCM#: Reflex Blue C).
9. Bins shall be hot stamped with the following logo and wording, in the color and size specified.

Hot stamped in bright yellow, 18-point Arial, except “Portland Recycles! which is to be in 110 point, Times New Roman. The Recycling logo is to be 3.25” to 3.75” high, width proportional:

On both long sides:

Portland Recycles!

The theft of recyclables is punishable by a fine of \$500 or more under Portland City Code. Report all theft to your hauler.

Please contact your waste hauler if you have any questions regarding your curbside Collection service.

On one short end:

This Recycling bin is the property of the [choose one: waste hauler or landlord] and is to remain at the address to which it was delivered.

This bin contains 25% post-consumer recycled plastic.

This bin is designed for the express purpose of holding Recyclable Materials. The City of Portland, the waste hauler, recycler, landlord and bin manufacturer take no responsibility for injury or damage resulting from any use other than the container’s intended purpose.

Exhibit B: Side Guard Specifications

Truck Side Guard Specifications

Recommended Standard DOT-VNTSC-OSTR-16-05

This document is intended to be used by (1) public or private medium/heavy-duty truck fleets considering adding side guards; (2) jurisdictions or customers that require side guards through policy or procurement; (3) manufacturers of side guards; and (4) truck manufacturers and dealers.¹ The specifications below are based on previously published Volpe recommendations (Reports [DOT-VNTSC-DCAS-14-01](#) and [DOT-VNTSC-SFMTA-16-01](#)) and may be referred to as the "Volpe side guard standard" or "Volpe side guard specifications." This standard can be used as a basis for design, production, testing, review, and procurement of side guards and side-guard-equipped vehicles.

I. Dimensional and strength specifications

U.S. Department of Transportation
John A. Volpe National Transportation Systems Center

Last doc. revision Sept. 23, 2016

A side guard meets the strength requirement if it is capable of withstanding **440 pounds** of force applied perpendicularly to any part of its surface by the center of a flat, circular plate of diameter no greater than **8.7 inches**, such that the deflection of the loaded side guard measured at the center of the plate does not exceed (1) **5.9 inches** anywhere, or (2) **1.25 inches** in the rearmost **9.8 inches**. A manufacturer may also demonstrate compliance using a valid engineering calculation, such as finite element analysis.²

2. Additional dimensional specifications for rail-style side guards

A	13.8 inches max
B	11.8 inches max
C	13.8 inches max
D	4.0 inches min
E	11.8 / 3.5 inches max*
F	11.8 inches max

*The gap between the side guard's leading edge and the wheel, wheel arch, or other permanent vehicle structure should not exceed **11.8 inches**. A **turned-in vertical bar** connecting the forward ends of the horizontal rails should be incorporated if the forward gap exceeds **3.5 inches**. The bar need not be turned in or can be omitted if the distance is less than 3.5 inches.

3. Vehicle weight threshold and flexibility of design

Side underride protection should be included on **Class 3** and above vehicles, which have a gross vehicle weight rating (GVWR) of **10,000 pounds** and higher.

Acceptable side underride protection can be provided by **any combination** of vehicle body, fuel tanks, tag axles, tool boxes, or purpose-built side guards comprising a smooth surface flush with the vehicle sidewall, meeting the Volpe dimensional and strength specifications set forth above.

Graphic adapted from U.S. Department of Energy

¹ This document was prepared for the Office of the Assistant Secretary of Research and Technology.

² A third option for demonstrating strength compliance is type approval by the United Kingdom Department for Transport [Vehicle Certification Agency](#) or other recognized side guard homologation with equal or greater stringency. A side guard with such type approval that also meets the Volpe dimensional criteria may be considered to meet the Volpe standard.

www.volpe.dot.gov/side-guards

All Permittees shall install side guards according to Volpe Side Guard specifications. Further specifications have been developed by BPS to incorporate details of functionality and complexity of Collection Vehicles. Contact BPS enforcement staff for more information.

Exhibit C: Back-up Collection Vehicle Guideline

Back-up Collection Vehicles can be used in a back-up capacity for 20% of a full-time Collection Vehicle miles if a Collection Vehicle breaks down or is out of service. Permittees have options for Back-up Collection Vehicles to be used for more miles if is backing up multiple full-time trucks. The mileage allowance applies to both Residential and Commercial services. *Note: Back-up Collection Vehicles older than 15 years will not be allowed to service any Portland customer after January 1, 2025.*

Back-up Collection Vehicle Mileage Allowance:

Option	# of Full Time Vehicles Covered by the Back-up Collection Vehicle	Miles Allowed for the Back-up Collection Vehicle
A	1	3000
B	2	3500
C	3	4000
D	4+	4500

Due to higher miles required to deliver service, drop box trucks are allowed a different threshold of miles for Back-up Collection Vehicles. This schedule starts with option A - 4500, B - 5000, C - 5500, D – 6000 miles.
