*Includes development concept planning for publicly owned opportunity sites

Previous plans

Equity is when all individuals have access to the opportunities necessary to satisfy their essential needs, advance their well-being and achieve their full potential. We have a shared fate as individuals within a community and communities within society. All communities need the ability to shape their own present and future. Equity is both the means to healthy communities and an end that benefits us all.

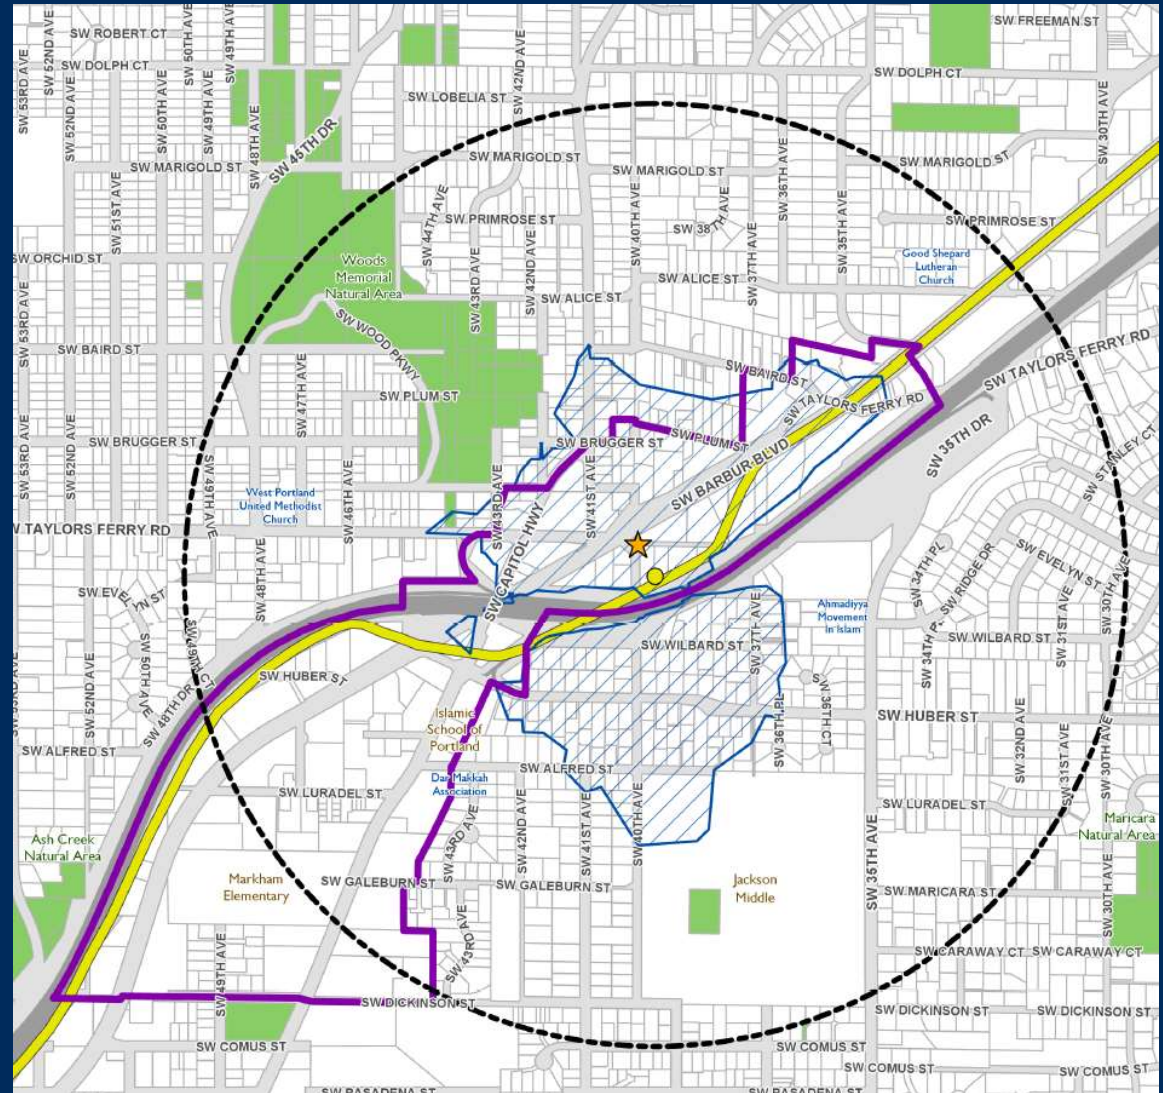

~Portland Plan 2012

Race and social equity in planning
