SUBJECT: Portland Parks & Recreation FY 2021-22 Budget Request

---

Below, please find a summary of Portland Parks & Recreation's (PP&R) FY 2021-22 Requested Budget decision packages. We thank you for your consideration and appreciate your ongoing support.

We acknowledge Portland voters and the critical role they play in supporting their parks and recreation system. Thanks to the public's recent investment in the 2020 Parks Operating Levy, PP&R will be able to restore summer programs that support youth and families with a focus on Black, Indigenous, and People of Color (BIPOC), Immigrants and Refugees, and people living with low incomes. The 2020 Parks Operating Levy will also provide living-wage employment to a growing number of people, including job opportunities for youth at a time when many in our community are facing economic distress. PP&R's FY 2021-22 Requested Budget creates 50 new FTE and saves an estimated 69 FTE, and up to 1,850 summer seasonal and casual hires. It also reestablishes the bureau as one of the largest youth employers in Portland.

In response to the Mayor's budget guidance, PP&R has developed nine decision packages:

**Budget Stabilization – offset to 5% budget reduction: \$3,707,464 (Levy)**

PP&R is requesting Parks 2020 Operating Levy resources to offset the five percent General Fund reduction detailed as part of Mayor Wheeler's FY 2021-22 Budget Guidance. This request is estimated to save 34 fulltime equivalent (FTE).

**Recreation for All: \$6,509,361 (Levy)**

PP&R will restore programs for summer 2021 including providing: more than 100,000 free lunch and play opportunities for children at 26 parks and ten mobile locations; life-saving swimming lessons; recreation and art summer camps; fitness activities in parks;

1221 SW Fourth Avenue, Room 220, Portland, Oregon 97204  
(503) 823-3008 • Comm.Rubio@portlandoregon.gov

and “pop up” outdoor summer art and cultural events. PP&R is committed to ensuring that cost is not a barrier to program access. This package will fund 3 new FTE, preserve over 35 FTE, and enable the hiring of up to 1,700 seasonal and casual staff.

**Protect and Grow Nature: \$2,532,903 (Levy)**

PP&R will keep parks and natural areas cleaner and safer; expand summer environmental education day camps, volunteer and internship opportunities; plant new trees to diminish the impacts of climate change, proactively care for existing trees for the first time ever, and improve tree emergency responses; and create new opportunities for environmental education partnerships with underserved communities. This package will fund 16 new FTE and up to 150 seasonal and casual staff.

**Community Partnerships: \$200,000 (Levy)**

PP&R will investment in Community Partnerships to engage BIPOC, Immigrants and Refugees, and youth from families living with low incomes to participate in the bureau’s educational summer camps, environmental programs, and gain valuable work experience by joining the summer seasonal and casual workforce. We will begin by deepening our relationships with our current community partners to assist in diversifying program registrations and hiring.

**Organizational Support: \$7,359,609 (Levy)**

PP&R will build organizational capacity to prepare for service expansion and address existing potential points of critical failure. To support its values of equity, safety, maintenance, and financial sustainability, PP&R needs to refresh its strategies, policies and procedures. Increasing the capacity of the bureau to hire and onboard diverse direct service staff; support the need for technology, workspace, equipment and safety and equity training; and enhance PP&R’s capacity for transparency and accountability in its budgeting and performance monitoring. This package funds 31 new FTE.

**Operations and Maintenance: \$866,433 (General Fund)**

Per City policy, PP&R has requested \$866,433 for Operations and Maintenance funding to care for new and improved parks, bridges, trails, playgrounds, community gardens, and buildings that have recently been or will be placed into service in FY 2021-22.

**Major Maintenance: \$500,000 (General Fund)**

As directed by City Council in the FY 2018-19 Adopted Budget, PP&R has requested a \$500,000 increase in our major maintenance budget. This request is an important tool for the bureau to begin addressing its more than \$500 million deferred major maintenance backlog.

**Capital Set-Aside: \$2,750,000 (General Fund)**

PP&R has requested resources for phase two of the Energy Savings Performance

1221 SW Fourth Avenue, Room 220, Portland, Oregon 97204  
(503) 823-3008 • [Comm.Rubio@portlandoregon.gov](mailto:Comm.Rubio@portlandoregon.gov)

Contract. These projects have strategic importance, contribute to climate action goals, and result in reduced costs to the bureau through utility savings. This request was initially advanced for funding by the Capital Set-Aside committee in the FY 2020-21 budget process, but, due to COVID-19 impact on available resources, the Adopted Budget did not include it.

**Major Maintenance Reduction: \$179,217 (General Fund)**

In response to the Mayor’s guidance, PP&R proposes reducing its Major Maintenance funding by 5%. This amounts to \$179,217, leaving the bureau \$3,405,127 million for FY 2021-22 Major Maintenance and Americans with Disabilities Act barrier removal.

PP&R’s FY 2021-22 Requested Budget must be considered within a multi-year context. After a difficult FY 2019-20, PP&R worked with late Commissioner Nick Fish and City Council to create an equitable and financially secure parks and recreation system. After a November 2019 Council Work Session, PP&R began exploring options to create long-term funding strategies that would allow the bureau to preserve existing assets, build to accommodate population growth, address existing potential points of critical failure in the bureau, meet community expectations, and solve the inequities in the system.

As a first step toward building a Sustainable Future for the system, City Council referred a measure for a Parks 2020 Operating Levy to the November 3, 2020 ballot. Voters overwhelmingly approved a five-year levy to restore programs and services, with a focus on serving Black, Indigenous, and People of Color, Immigrant and Refugee communities, people experiencing poverty, people living with disabilities, and older adults. Thanks to the levy, PP&R will be able to restore summer programs that support youth and families and improve physical and mental health while safeguarding against COVID-19. The 2020 Parks Operating Levy will also provide living-wage employment to a growing number of people at a time when many in our community are facing economic distress.

PP&R will create a complete FY 2021-22 levy budget as part of the City’s Fall Budget Monitoring Process, but the levy promised restoration of summer programs in 2021. In February, PP&R will request City Council’s approval of a Supplemental Budget Ordinance and an Interfund Loan Ordinance to access funds in FY 2020-21 to provide summer programs, build capacity for levy-funded expansion, and address existing points of potential critical failure.

Finally, we want to acknowledge PP&R’s Budget Advisory Committee for their time and commitment, and Portland voters for supporting their parks and recreation system.

Thank you for your consideration.

SUBJECT: Budget Advisory Committee Recommendations for  
 Portland Parks & Recreation FY 2021-22 Budget Request

Dear Mayor Wheeler and City Council,

The Portland Parks & Recreation (PP&R) Budget Advisory Committee (BAC) has reviewed PP&R’s programs and proposed FY 2021-22 budget over three meetings. The BAC performed our advisory role by applying these values:

- Equity: we must center Black, Indigenous, and People of Color (BIPOC) communities which are living with the persistent legacy of systemic racism and have been the least served by our park and recreation system;
- Safety: we must make our parks safe for all park users and park staff;
- Maintenance: we must ensure the ongoing care of our parks and natural areas; and
- Financial sustainability: we must ensure the long-term financial health of our parks and recreation system so that they are sustainable for current and future park users.

PP&R is in a unique position in the City in FY 2021-22 by receiving significant increased funding due to the voter-approved Parks 2020 Operating Levy. Voters overwhelmingly approved a five-year levy to provide Recreation for All, Protect and Grow Nature, and support Community Partnerships. The BAC appreciates that PP&R focused this opportunity to restore programs and services that promote physical and mental health serving BIPOC, Immigrant and Refugee communities, people living with low incomes, people with disabilities, and older adults.

The BAC supports PP&R’s responses to the current economic crisis and pandemic by requesting City Council’s approval of a Supplemental Budget Ordinance and an Interfund Loan Ordinance in February 2021. This will allow the bureau to access funds in the current

*Sustaining a healthy park and recreation system to make Portland a great place to live, work, and play.*

fiscal year to ramp up operations, provide summer programs, build capacity for Levy-funded program expansion, and address existing points of potential critical failure in the bureau. The bureau's Requested Budget includes the extension of these critical early investments through FY 2021-22.

**We ask for City Council's support of these requests.** PP&R will be able to provide summer programs that support the physical and mental health of youth and families. The bureau will also be able to increase living-wage employment opportunities for BIPOC community members, including important job opportunities for young people while many are experiencing economic hardships.

PP&R will create a complete FY 2021-22 Levy budget as part of the City's Fall Budget Monitoring Process (BMP) submission in September 2021. This schedule will allow time to set up a Levy Oversight Committee, engage in a more robust community process to inform decision-making about the use of Levy resources, and ensure the process is responsive to the community.

The bureau's FY 2021-22 Requested Budget advances our values of equity, safety, and maintenance and is a step toward financial sustainability in these ways:

**Equity:** PP&R continues to show a strong commitment to equity by centering summer recreation, environmental education, and youth employment and internship programs providing opportunities for BIPOC, Immigrants and Refugees, and youth and families living with low incomes. We are proud to put our value of equity into action by increasing support to these communities this summer when so many youth and families are struggling.

**Safety:** PP&R will be able to provide proactive investment in the care of our parks and urban forest and additional support for safety, health, and emergency programs that support the public and staff. The bureau has focused this request on East Portland in order to address the legacy of underinvestment and grow its team so parks and natural areas are well cared for, well maintained, safe, and welcoming for all Portlanders and preserve important natural habitat.

**Maintenance:** The budget augments maintenance staff and equipment to restore capacity that was decreased while the population of Portland increased. The proposed budget provides operations and maintenance support for new assets that have recently opened, many of which are in park deficient neighborhoods in East Portland. PP&R's request includes increased support for the major maintenance budget as directed by Council in the FY 2018-19 Adopted Budget. City Council's support of these requests is critical so the

bureau does not continue to lose ground against its more than \$500 million of deferred maintenance backlog. We look forward to further consideration of additional investments in care and maintenance of parks, natural areas, facilities, and our urban forest with Levy resources in the 2021 Fall BMP.

Financial Stability: While the Parks 2020 Operating Levy shored up PP&R's programs and services in the short term, there is much work to be done to create long-term financial sustainability for an equitable parks and recreation system. This task will take time and commitment, not only from staff, but City Council and the community. We appreciated your support of the ballot measure for the Parks 2020 Operating Levy, and we look forward to the work that is to come.

We encourage City Council to support PP&R's FY 2021-22 Requested Budget and approve the bureau's use of Parks 2020 Operating Levy in February 2021. COVID-19 has clearly demonstrated the value of our parks and recreation system as essential infrastructure. "Healthy Parks, Healthy Portland" is not just a tag line – the bureau has important and lasting impacts on public health. We need to get started now.

## Bureau Summary

### Bureau Mission

Portland Parks & Recreation (PP&R) helps Portlanders play - providing the safe places, facilities, and programs that promote physical, mental, and social activity. We get people, especially children, outside, active, and connected to the community. As we do this, there will be an increase in the wellness of our residents and the livability of our city.

We accomplish this in the following ways:

- ◆ Establishing and safeguarding the parks, natural resources, and urban forest, thereby ensuring that green spaces are accessible to all;
- ◆ Developing and maintaining excellent facilities and places for public recreation and community building;
- ◆ Providing dynamic recreation programs and services that promote health and well-being for all; and
- ◆ Partnering with the community we serve.

### Bureau Overview

#### Portland's Park & Recreation System

PP&R is the steward of a diverse portfolio of parks, natural areas, urban forest, and recreation facilities used extensively by the city's residents and visitors. The bureau manages 11,712 acres, 15% of Portland's land area. The bureau operates 146 neighborhood parks, 12 swimming pools, 12 community and art centers, five golf courses, and a motor raceway. Additionally, PP&R provides services to Portlanders, including Summer Free For All, adaptive and inclusive recreation programming, care for 1.2 million park trees, emergency tree services in the public right-of-way, and more.

#### The Organization

PP&R manages one of the nation's most comprehensive parks and recreation systems, a system that is well-loved and well-used by Portlanders. In the 2019 Portland Insights Survey, 97% of people who responded said they visited a park or natural area in the last year.

The bureau is supported by more than 3,300 dedicated full-time and part-time employees (pre-COVID-19), thousands of volunteers, the Portland Parks & Recreation Board (Parks Board), more than 200 Friends and Partner groups, and PP&R's philanthropic partner – the Portland Parks Foundation.

Equity has been, and continues to be, at the forefront of PP&R's management decisions. The bureau has:

- ◆ Built new parks in underserved communities;
- ◆ Made our workforce more reflective of the Portland community (31.7% of all workers are Black, Indigenous, or People of Color);
- ◆ Prioritized contracting equity for Disadvantaged, Minority-Owned, Women-Owned, Emerging Small Businesses (46% of contracts awarded – more than double the City's target of 20%); and

Bureau services are delivered through an Equity & Inclusion Department and through five divisions:

### **Equity & Inclusion**

PP&R considers equity work to be the work of the entire bureau. The Equity & Inclusion Manager reports to and advises the Director and works collaboratively with the entire bureau, as well as with internal and external advisory committees, to ensure policies, programs, and services are culturally responsive and meet the City's racial equity goals. The Equity & Inclusion Department developed the bureau's Five-Year Racial Equity Plan, engages the public, and coordinates with the City's Office of Equity & Human Rights and the Bureau of Human Resources.

### **Operations & Strategies**

The Operations & Strategies Division provides central services that support the entire bureau. Operations & Strategies collaborates and coordinates with local and regional partners, provides policy direction for the bureau, manages an extensive volunteer program, coordinates marketing and communications, and provides customer service and park security. The division also manages bureau finances, including budget development, system development charges, and financial reporting and oversight; fundraising, grants, and partnerships; workforce development and bureau-wide training; emergency management; health, safety, and environmental oversight; technology; performance and analysis; and property acquisition and business development.

### **Land Stewardship**

The Land Stewardship Division includes all land management activities at developed parks and natural areas. Land management is divided into three units: a Westside group to manage developed parks west of the Willamette River, an Eastside group to manage developed parks east of the Willamette River, and City Nature, which manages natural areas and community-facing programs like Environmental Education, Community Gardens, Ecological Sustainable Landscapes, and Integrated Pest Management. In addition, the Land Services team manages Turf & Irrigation and Horticultural Services.

### **Recreation Services**

The Recreation Services Division is responsible for all recreation activities, including community and art centers, the Summer Free For All program, aquatics, sports, and teen programming, as well as specialized recreation services for seniors, people with disabilities, and through the Schools Uniting Neighborhoods (SUN) program. This division also includes the Golf program and Portland International Raceway.

### **Urban Forestry**

The Urban Forestry Division is responsible for the planning and management of the City's urban forest and green assets. The division's responsibilities include tree maintenance operations and around-the-clock emergency service for fallen trees in public rights-of-way. Responsibilities also include education and enforcement of Title 11 regulations covering public and private trees. Urban Forestry also develops and promotes forest stewardship among city residents and manages the long-term planning of the City's forest resources.

### **Assets & Development**

The Assets & Development Division is responsible for the long-term planning, development, maintenance, and replacement of PP&R's built assets. It is also responsible for oversight, preparation, and administration of the bureau's Capital Improvement Plan.

## **Strategic Direction**

PP&R has grown significantly in the last decade, introducing new programs, new facilities, new services, and additional staff to meet community and City Council expectations.

The bureau has long relied on revenue through fees to fund programming beyond what General Fund discretionary resources alone could provide. While this has allowed PP&R to extend its reach and provide greater service to the community, it comes with a caveat – bureau-generated revenue must grow at the same pace as costs, or the bureau's budget will be out of balance. For years, revenue from PP&R program fees did not keep pace with the inflationary increases for the bureau's expenses.

After a difficult FY 2019-20 budget season where the bureau had to make significant budget reductions to address its structural operating gap, PP&R began to work with late Commissioner Nick Fish and City Council to create a Sustainable Future for our parks and recreation system. Through this ongoing work, PP&R will ensure our parks and recreation system is equitable and financially healthy – one where funding levels are aligned with community expectations – so that the bureau can deliver a consistent level of service to current Portlanders and future generations.

After a November 2019 Council Work Session about creating a Sustainable Future for the City's parks and recreation system, PP&R began exploring funding options. In early 2020, when the COVID-19 pandemic hit, the bureau quickly shut down its public programs and closed facilities, while pivoting to serve the community's most vulnerable people through 24-hour access to restrooms, creating shelters in three community centers, and bolstering its community food security programs. Portlanders saw a painful decrease in service levels for indoor recreation but flocked to our City's parks and natural areas as a means of coping with the pandemic and other challenges of 2020.

The pandemic has clearly demonstrated the value of our parks and recreation system. 'Healthy Parks, Healthy Portland' is not just a tag line; what the bureau provides to the community is vitally important.

As part of its work toward building a Sustainable Future for the City's parks and recreation system, City Council referred a measure for a Parks 2020 Operating Levy to the November 3, 2020 ballot. Voters overwhelmingly approved the measure, a five-year levy to provide Recreation for All, Protect and Grow Nature, and support Community Partnerships. Portland Parks & Recreation is grateful to the community for its support and is excited to have the opportunity to restore programs and services, with a focus on serving Black, Indigenous, and People of Color, refugee and immigrant communities, people experiencing poverty, people living with disabilities, and older adults.

The City Council's levy referral to the ballot promised restoration of summer programs in 2021. PP&R is requesting City Council approval to access funds in FY 2020-21 to ramp up operations to provide summer programs, build capacity for levy-funded program expansion, and address critical points of potential failure in the bureau. This FY 2021-22 Requested Budget includes these items. PP&R will continue to engage the community to create a complete FY 2021-22 levy budget as part of the City's Fall Budget Monitoring Process submission in September 2021.

The Parks 2020 Operating Levy is a first step toward creating a Sustainable Future for the City's parks and recreation system.

It is also a first step toward creating a more equitable parks and recreation system and will allow Portland Parks & Recreation to offer public programs at low or no cost to Portlanders who may not be able to otherwise afford them. In a recent community survey, 20% of Portlanders say that cost is a barrier to program access. For Portlanders of color, 25% say cost is a barrier; for East Portland residents, it is 28%.

Levy resources will also allow PP&R to begin to address safety as a barrier to parks use. 30% of Portlanders cited safety as a barrier to parks use. For Portlanders of color it is 37%; for East Portland residents it is 45%.

PP&R will continue its Sustainable Future work to fix inequities in the parks and recreation system:

**Tree Canopy Coverage:** West of the Willamette River, communities enjoy 56% tree canopy; excluding Forest Park, tree canopy is still 44%. East of the Willamette, tree canopy is 21%, and 80% of the City's population lives east of the Willamette. This disparity affects the health and quality of life for Portlanders east of the river – on a summer afternoon, temperatures can be 15 degrees hotter than on the westside.

**Half-mile access to parks or natural areas:** One in five Portland households do not have access to a park or natural area within half a mile of their homes; in East Portland, it is two in five households who don't have this access.

**Half-mile access to playgrounds:** Today, a third of the city's youth live in East Portland. Only four in ten of them can walk to a playground. This compares to seven in ten youth who live in other areas of Portland.

**Three-mile access to full-service community centers:** Citywide, seven in ten Portlanders live within three miles of a full-service community center. In North Portland, only three in ten residents have three-mile access.

In addition to these service level gaps, the bureau must still address its major maintenance backlog in order to continue to deliver the current level of service; that backlog is estimated at more than \$500 million.

Working toward a Sustainable Future for an equitable parks and recreation system is a bureau priority. PP&R has recently assessed its progress on three major bureau plans: Parks 2020 Vision, Five-year Racial Equity Plan, and the 2017-2020 Strategic Plan. Over the coming year, PP&R will work with the community and City Council to update these plans. PP&R has adopted a new planning framework, the Healthy Parks, Healthy Portland Framework to guide its planning work in 2021 and beyond.

## Summary of Budget Decisions

### Base Budget Adjustments

PP&R's FY 2021-22 Base Operating Budget includes the restoration of summer programs and services that were reduced in response to the COVID-19 pandemic. Approximately 35 positions previously held vacant and \$9.0 million of seasonal labor is being restored. Summer-related revenue shortfalls that are expected to result are made up by using resources from the Parks Local Option Levy. A supervisor position in Urban Forestry that is being held vacant due to declines in tree permit fees is being funded by the Parks Levy as part of the base budget changes. The recently created Sustainable Future program manager and Parks Levy coordinator are both being allocated the Parks Levy fund as part of base budget changes.

## Capital Budget

### Capital Summary

#### CIP Highlights

Portland Parks & Recreation has in excess of \$1.5 billion in assets spread over 11,712 acres of park space. This figure is replacement value, not including land value or green assets. The Capital Improvement Plan (CIP) Program is instrumental in creating and sustaining a healthy, equitable park system that makes Portland a great place to live and visit. The program builds upon City priorities, bureau vision, bureau strategic plans, and the Total Asset Management Plan, and has two primary objectives:

- ◆ Sustain and modernize existing parks and facilities; and
- ◆ Plan, design, and construct new parks and natural areas to meet the needs of a changing and growing Portland and provide recreation opportunities for all.

PP&R strives to:

- ◆ Create an equitable park system in a way that supports Black, Indigenous, People of Color, Immigrants and Refugees, families living in poverty, individuals living with disabilities, and older adults.
- ◆ Expand capacity to accommodate population growth and deliver equitable levels of park service by providing new facilities and services and expanding existing facilities.
- ◆ Protect and maintain those existing assets that provide essential community levels of service through maintenance, rehabilitation, and renewal projects.
- ◆ Improve efficiency, environmental quality, and energy conservation to advance the City's Climate Action Plan.

## Major Issues

### Unmet Service Needs

In Vision 2020, PP&R set a goal to provide a park or natural area within a half-mile of every household in Portland. As Portland develops, PP&R receives System Development Charges (SDCs), which are one-time fees paid by developers that PP&R can use to expand the park system to keep pace with a growing Portland. Popular new parks like Gateway Green Park, Gateway Discovery Park, and Luuwit View in East Portland have been funded with SDCs.

Despite these investments, one in five Portland households still does not have access to a park or natural area within a half-mile. In East Portland, nearly two in five households do not have half-mile access to a park or natural area.

Access to playgrounds is also problematic. Portlanders want walkable access to playgrounds. Today, a third of the city's youth live in East Portland. Only four out of ten of them can walk to a playground. In other areas of Portland, service is better, but still only seven out of ten youth can walk to a playground.

### Aging Infrastructure

Although indigenous people have stewarded the land since time immemorial, the City of Portland began its management of its park system in 1852. The park system has grown in the ensuing years, and today includes many heavily used facilities and active open spaces. Aging infrastructure limits service levels in developed parks, community centers, and cultural facilities.

Today, 42% of PP&R built assets are in poor or very poor condition; over 50 assets are currently closed, including sections of trail, pieces of play equipment, fountains, restrooms, and more.

### Funding

PP&R's major maintenance funding backlog is estimated at over \$500 million. Despite the utilization of a variety of funding sources, current underfunding leaves a structural funding gap that is tens of millions of dollars annually. The consequence is that more and more assets will be taken out of service – or become considerably more expensive to rehabilitate as they degrade further.

General Fund Major Maintenance Funding: ADA transition plan funding of \$1 million per year and an annual General Fund Major Maintenance allocation of ~\$2.5 million is utilized by the Capital Renovation Program for addressing deferred major maintenance and ADA barrier removal projects throughout the parks system.

System Development Charge (SDC) Funding: The SDC Program is an effective source for funding projects that expand the capacity of the parks and recreation system. To meet PP&R's equity commitments and keep pace with a growing city, the bureau needs to expand the system. SDCs help ensure that the system keeps pace with a growing and changing Portland by collecting fees from new development to help pay for capital projects that add capacity, like acquiring new land, developing

new parks or facilities, or expanding existing parks or facilities. SDC funds cannot be used for operations or performing major maintenance activities on existing infrastructure. Since SDC revenues come from development, SDCs available for new capacity projects are impacted by market forces – as development within the City of Portland slows down, the available funding also declines.

**Bond Funding:** With the passage of the \$68 million Parks Replacement Bond on November 4, 2014, PP&R has had the opportunity to fund a portion of the major maintenance gap and address some of the most urgently needed improvements for existing park and facility infrastructure. The Bond work has targeted PP&R's most critical needs by focusing on fixing or improving the following: &shy;

- ◆ Playgrounds currently closed, at risk of closure, or deficient;
- ◆ Trails and bridges in need of replacement or repair;
- ◆ Pool mechanical systems and decks;
- ◆ Park maintenance facilities to address worker safety and efficiency;
- ◆ Pioneer Courthouse Square's waterproofing and infrastructure;
- ◆ Americans with Disabilities Act (ADA) barriers to improve park access for all Portlanders; and
- ◆ Community centers, restrooms, and other facilities.

The Bond work is near completion with 47 of 52 projects successfully completed.

**Other Funding:** To address a portion of the funding gaps and limitations addressed above, PP&R has identified and is developing additional funding mechanisms, such as:

**Energy Savings Performance Contract (ESPC) Funding:** In March of 2017, City Council approved a pilot ESPC Project. This project enables repurposing a portion of future utility expenses to invest in modern, efficient equipment such as lighting.

**Build Portland Funding:** Through Build Portland, some of &shy;the bureau's&shy; most critical, higher-cost major maintenance projects have been funded. PP&R is currently addressing many major repair concerns at Mt. Scott Community Center using \$15 million in Build Portland resources.

**Capital Set-Aside Funding:** Capital Set Aside continues to be an important funding resource. This year, PP&R is requesting funding for ESPC Phase 2 at East Portland Community Center.

**Metro Bond Funding:** The \$475 million Metro Regional Parks and Nature Bond was passed by voters on November 6, 2019. The main emphasis of this Bond is to increase park, trail, and nature access, particularly for communities of color, indigenous populations, low-income, and other historically marginalized groups.

There are six funding categories in the Measure, and PP&R will have access to five of them:

- ◆ Portland Local Share (\$32 million for PP&R)
- ◆ Trail Projects (\$40 million region-wide)
- ◆ Land Acquisition (\$155 million region-wide)
- ◆ Nature in Neighborhood Grants (\$40 million region-wide)
- ◆ Complex Community Projects (\$30 million region-wide)

PP&R has been working with the Bureau of Environmental Services and the Portland Bureau of Transportation on general priorities that can be supported by the Metro Bond funding.

#### Certainty of Operating and Maintenance Funds

One of the greatest issues facing Portland's parks and recreation system is the cost of operating and maintaining new assets. PP&R has relied on the approval of ongoing additional O&M funds to care for and maintain new park assets and facilities from construction projects, consistent with City financial policies.

#### Changes from Prior Year

The following capital growth projects were completed during the past two years:

- ◆ Sellwood Gap Multi-Modal Trail
- ◆ Forest Park Wildwood Trail Pedestrian Bridge
- ◆ Delta Park Temporary Staff Facilities Replacement
- ◆ Halprin Parks Sequence Restoration
- ◆ Oaks Bottom Natural Restoration and Culvert Replacement
- ◆ Lents Park Walker Stadium Restroom Renovation
- ◆ Washington Park Stearns Canyon Stair Renovation and ADA improvements

Bond Repair and Renovation Projects completed to date include:

- ◆ Playgrounds: Couch Park, North Park Blocks, Lents Park, Ventura Park, Kenton Park, Gilbert Primary Park, Glenhaven Park, Verdell Burdine Rutherford Park, Creston Park, Playground Parts and Drainage
- ◆ Trails and Bridges: Forest Park Maple Trail and Lower Macleay Trail, Marshall Park, Foley-Balmer Natural Area, Springwater Bridge #140, and Springwater Bridge #48
- ◆ Pools: Peninsula Park Pool, Grant Pool, and Matt Dishman & shy;Community Center Pool and Spa
- ◆ Pioneer Courthouse Square Renovation
- ◆ Accessibility Improvements: Washington Park Rose Garden, Mt. Tabor Park Handrails, Multnomah Arts Center, and smaller ADA improvements in all sites where other capital projects were completed
- ◆ Restrooms and Other Urgent Repairs: Argay Park Tennis Courts, Bloomington Park Restroom, Colonel Summers Park Loo, Couch Park Loo, Ed Benedict park Restroom, Glenwood Park Restroom, Verdell Burdine Rutherford Park Irrigation, Mary Rieke Soccer Field, Mt Tabor Summit Restroom, Multnomah Arts Center Seismic Improvements, Parklane Park Loo, Raymond Park Loo, Sellwood Pool Bathhouse and Kitchen Roofs, St. Johns Community Center Roof, Ventura Park Loo, Fernhill park Water Supply, Matt Dishman Community Center Electrical Upgrades, and Pier Park Loo.

CIP Major Maintenance Projects completed during the past two years include:

City-wide Restroom Automatic Locking Systems, Peninsula Slide Replacement, Pittock Mansion Egress Lighting Replacement, Wallace Park Sewer Repair, and other improvements to restrooms, community centers, walkways, and structures.

PP&R continues working on capital projects, including but not limited to, the following:

Capital Projects in Process:

- ◆ Developed Parks: Columbia Children's Arboretum, Errol Heights Park, Gateway Green Phase 2, Leach Botanical Garden, Parklane Park, Washington Park Stormwater Zoo Entry, East Holladay Dog Off-Leash Area Fence, Laurelwood Park Development, Mill Park Masterplan Implementation, Kennilworth Splashpad, Berrydale Skatepark, the Red Electric Trail Bridge and the Westmoreland Park bridge replacement.
- ◆ Pathways: Mt. Tabor Trail and Forest Park Entry.
- ◆ Renovations: Mt. Scott Community Center Roof Repair, Basketball Court Renovations, Sullivan's Gulch, Waterfront Park Bioswale and Peninsula Park Rose Garden Brick Repair.

Bond Projects in Process:

- ◆ Playgrounds: Gabriel Park & shy;
- ◆ Accessibility:& shy; East Portland Community Center
- ◆ Maintenance Facilities: Mt. Tabor Yard and Delta Park Urban Forestry Yard
- ◆ Restrooms and Other Urgent Repairs: Matt Dishman Community Center Roof

## Criteria

PP&R prioritizes its list of valid capital growth projects on an annual basis. PP&R's approach to asset investment decisions has evolved to include more data, with staff utilizing objective data from the census, level of service studies, and condition assessments to help inform a ranked list.

Selection results are then validated by key internal and external stakeholders, considering factors such as alignment with City and bureau plans and mission, legal compliance, equity, funding, public support, geography, revenue generation potential, and human health and safety. Projects receive final approval by leadership through the City budget process.

### Capital Growth Project Selection

PP&R prioritizes its Capital Growth Projects with a prioritization scoring system that assesses:

- ◆ Who would be served? (equity = income below the poverty level, diversity, and youth in the area served by the asset),
- ◆ How well they are served currently?
- ◆ How many people would be served?

These measurements are drawn from a variety of data sources available from within and outside of the City, including demographic, census, and financial information.

The primary funding source for the Capital Growth Program are SDCs, though sometimes project-specific sources are also available. & shy;SDC funded projects must expand the capacity of the park system to meet needs generated by a growing Portland, and also be on the Council-adopted SDC-CIP list. Land acquisition and project scope changes typically proceed opportunistically, consistent with Master Plans and bureau level of service plans.& shy;

### Capital Maintenance Project Selection

PP&R prioritizes its Capital Maintenance Projects by scoring:

- ◆ What is the likelihood of asset failure?
- ◆ What is the consequence of asset failure?
- ◆ Who is served? (equity)

The primary funding sources for the Capital Major Maintenance Program include bond, major maintenance, and capital set-aside. Within the Capital Major Maintenance Program funding, set-aside funding is reserved for emergency projects.

## Capital Planning and Budgeting

### Capital Planning Process

PP&R maintains a list of desired capital projects in need of funding and reviews it each year. The bureau also receives requests for capital projects throughout the year from community members, neighborhoods, field staff, and other public agencies. Projects are developed through a variety of planning efforts, including master plans, management plans, and site-specific plans. Asset management, inventory and condition information, and staff technical knowledge also inform development of capital project requests. PP&R coordinates projects with a variety of citywide teams because parks and recreation development is integral to many other City planning efforts.

### City Comprehensive Plan

PP&R's Capital Improvement Program is consistent with the existing City Comprehensive Plan (CCP) directives. The City's goal is to sustain a healthy parks and recreation system to make Portland a great place to live, work, and play. This includes preserving existing facilities and providing new facilities to ensure access for all Portlanders.

Improvement projects are evaluated for how well they provide service to park deficient areas, how well they meet the bureau's equity goals (who lives nearby and who would be served by the project), which projects provide the lowest total life-cycle costs, as well as the amount of community support.

### Financial Forecast Overview

The major challenge to PP&R's capital planning is the lack of stable revenue sources in combination with urgent and unanticipated needs that can result from having a more than \$500 million deferred maintenance backlog. There have been improvements made to the Capital Planning Process with implementation of a five-year capital forecast, a data driven approach using asset management assessments, and an iterative process that includes open discussion of priorities with the community.

### Asset Management and Replacement Plan

PP&R continues to refine and implement its asset management approach by extending inventory, condition, and risk assessment to all asset classes, establishing maintenance standards, and integrating asset management into bureau management practices.

For FY 2021-22, the CIP focuses on maintaining equity of public access to existing assets and an expanded emphasis on capital maintenance to address ongoing major maintenance, large individual maintenance projects, and system-wide improvement projects.

PP&R's five-year CIP only presents projects that have anticipated funding within the five-year timeframe; this means it is a subset of all capital projects needed to maintain existing assets or expand the system.

As part of its work to build a sustainable future, PP&R is exploring alternative funding sources that will help address its more than \$500 million maintenance backlog and will move the bureau closer to industry best practices for planned asset replacement. PP&R will also be exploring alternative funding sources to address operating needs associated with future expansions of the parks and recreation system.

## Capital Programs and Projects

<b>Capital Program Descriptions</b>	<p>Capital Program projects meet two primary objectives: to maintain the system and to expand the system. PP&amp;R categorizes projects into the following primary program areas. Each program area, except acquisitions, includes maintenance as well as growth-related projects. The \$100 million, five-year distribution of projects across program areas is as follows:</p> <ul style="list-style-type: none"> <li>◆ Acquisitions - \$3.7 million (2%)</li> <li>◆ Buildings and Pools - \$25.3 million (14%)</li> <li>◆ Developed Parks -\$132.4 million (74%)</li> <li>◆ Green Infrastructure - \$2.2 million (1%)</li> <li>◆ Park Amenities and Trails - \$5.7 million (3%)</li> <li>◆ Recreation Features - \$0.6 million (.34%)</li> <li>◆ Utilities, Roads, and Trails - \$9.3 million (5%)</li> </ul>
<b>Funding Sources</b> The following Capital Project funding supports projects over the next five years:	<ul style="list-style-type: none"> <li>◆ System Development Charges (SDC) - \$143.2 million (80%)</li> <li>◆ Bond funding - \$22.6 million (13%)</li> <li>◆ Major Maintenance - \$8.3 million (5%)</li> <li>◆ Donations and Grants - \$1.6 million (8%)</li> <li>◆ One-time General Fund resources - \$3.5 million (1%)</li> </ul>
<b>Major Projects</b>	<p><b>Buildings and Pools:</b>The \$68 million Parks Replacement Bond funding is addressing critical building and major maintenance needs. The largest Bond projects from fiscal year 2020-21 included the Gabriel Park Playground, the Urban Forestry Maintenance Facility at Delta Park, and the Mt. Tabor Yard Maintenance Facility.</p> <p>Additionally, Mt. Scott Community Center is receiving \$15 million from the Build Portland fund for seismic upgrades, roof repair, electrical repairs, plumbing and HVAC repairs, and security infrastructure.</p> <p><b>Developed Parks:</b>SDCs are funding many projects this fiscal year to expand the capacity of the park system, including Parklane Park, Errol Heights Park, Laurelwood Park, and Mill Park. The Parklane Park project includes a greatly expanded 25-acre park for East Portland with a playground, skate feature, tennis courts, dog area, picnic and gathering spaces, walking trails, a community garden, and parking. The development of Errol Heights Park in Southeast Portland will feature sports fields, playground, basketball, a plaza, and amenities, as well as access to natural areas. Laurelwood Park will complete the gathering area and Master Plan elements. The Mill Park Masterplan Development will provide new park amenities for an East Portland Neighborhood park including playground, splash pad, shelters, a loo, community garden and a central lawn for active recreation.</p>

Major Maintenance Projects receive approximately \$2.5 million in ongoing General Fund resources which will fund feasibility studies and repairs for several roof repair projects, a Springwater bridge repair project, and playground repair projects.

Green Infrastructure:With all its capital projects, PP&R is working to enhance the green infrastructure of individual park sites where possible by planting trees, shrubs, perennials, and grasses. Grants from Prosper Portland, SDCs, and private funding from the Leach Garden Friends are currently funding Capital Growth Project improvements at Leach Botanical Garden. Gateway Green Park will be enhanced with nature plantings in conjunction with additional mountain biking facilities. Columbia Children’s Arboretum, Errol Heights, and Forest Park will also have enhanced green infrastructure.

Recreation Features:Capital Major Maintenance funding is repairing the roof systems at Charles Jordan Community Center and East Portland Community Center. The Bond Program will continue to renovate and enhance playgrounds such as Gabriel Park.

Utilities, Roads, and Trails:Capital Major Maintenance projects will continue to repair road culverts in Forest Park and walkways in numerous parks. General Fund Major Maintenance allocation and SDCs will fund the following trail projects: Red Electric, North Willamette Greenway over Columbia at Chimney Park, and Mt. Tabor South Access Pathway.

Enterprise:Neither the Golf Program nor Portland International Raceway funds have current plans for future capital improvements.

**Net Operating and Maintenance Costs**

As new assets such as natural areas, playgrounds, trails, and new parks are placed into service, PP&R will continue to request the necessary resources to cover the operating and maintenance and Major Maintenance costs through the annual budget, in compliance with City financial policy FIN 2.03, to ensure new assets are maintained and financially sustainable.

*Performance	Actuals FY 2018-19	Actuals FY 2019-20	Target FY 2020-21	Target FY 2021-22	Strategic Target

\*PP&R has recently created a Healthy Parks, Healthy Portland Framework to guide planning for 2021 and beyond. The bureau spent 2020 evaluating the success of its three major plans: Vision 2020, 2017-2020 Strategic Plan, and Five-Year Racial Equity Plan. As part of its strategic planning work in 2021, PP&R will be creating new performance measures and aligning them with strategic objectives and organizational workplans. In particular, PP&R will identify performance measures for equity objectives.

PP&R performance was and continues to be affected by the COVID-19 public health emergency. The bureau expects that FY 2021-22 programs and services will continue to be responsive to the public health and economic emergency.

## Fund Overview

The Golf Fund is an enterprise fund that accounts for all resources and requirements of the Portland Parks & Recreation Golf program.

The primary sources of revenue to the Golf Fund are the following:

- ◆ Revenues from contracts with concessionaires located at each of the City's golf courses. This includes revenues derived from food and beverage services, clothing and equipment sales, golf lessons, cart rental, and collection of greens fees.
- ◆ Greens fees are paid by golfers for each round of golf played - whether nine holes or 18 holes.

**Managing Agency**      Portland Parks & Recreation

---

**Golf Fund****Significant Changes From Prior Year****Operations**

The Golf Fund has seen an increase in demand, and therefore revenues, since March of 2020. The Golf program, along with the contracted operators, restructured golf operations to allow activity to continue at PP&R courses during statewide COVID-related restrictions. The fund has seen a notable increase in rounds, greens fees, and driving range activity. This increase in activity has allowed the fund to build a more robust reserve. The FY 2021-22 operational budget will include a significant contingency line that will be converted later in the year to fund for capital maintenance and improvements. The amount budgeted will depend on the final fund balance in FY 2020-21.

## Fund Overview

The Parks Capital Improvement Program (CIP) Fund accounts for all capital resources and requirements for Portland Parks & Recreation with except capital activity relating to two enterprise funds: the Golf Fund and the Portland International Raceway Fund.

## Parks Capital Improvement Program Fund

**Revenue Sources** The primary sources of revenue to the Parks CIP Fund include service charges and fees from our System Development Charges program; a cash transfer of General Fund discretionary; local, state and federal grants; and the 2014 Parks Replacement Bond measure.

**Project Selection and Prioritization** Capital projects are prioritized using the appropriate rating method for either capital growth or capital maintenance projects and then vetting projects through committee processes. Capital growth projects are initially prioritized by looking at who would be served, how well they are served currently, and how many people would be served. Capital maintenance projects are initially prioritized by looking at the likelihood, consequence, and equity impacts of an asset's failure. Both prioritization processes also consider project cost. PP&R's approach to asset investment decisions is evolving to include more data from census, Level of Service Studies, and condition assessments to help prioritize projects.

Project selection results are validated by key internal stakeholders, considering factors such as legal compliance, ADA compliance, public support, alignment with city and bureau plans, equity, and human health and safety. Projects receive final approval by leadership through the public budget process.

**Managing Agency** Portland Parks & Recreation

### Significant Changes from Prior Year

PP&R's CIP has not seen significant changes in the past year. The 2014 passage of a \$68 million replacement bond measure continues to help the bureau address its over \$500 million backlog of deferred maintenance; however, this work is winding down with 47 of 52 projects complete. SDCs continue to bring in revenue to help the parks and recreation system keep up with growth and new development in the city, though revenues in FY 2019-20 were impacted due to COVID-19 and, at just over \$21M in fee revenue, were the lowest they have been over the past five years. Revenue in FY 2020-21 shows a continued decline due to COVID-19, with forecasted revenue at \$15 million and this trend is anticipated to continue through FY 2021-22.

## Fund Overview

The Parks Endowment Fund accounts for gifts, donations, and endowments of a permanent nature, whereby the donation principal is invested and interest earnings are available to support programs and services as directed by the funding donor. There are currently four endowments within the fund.

### F.L. Beach Curbside Rose Award Trust

This endowment was established in 1975. Its purpose is to encourage planting and maintaining roses that will be visible to the public. An incentive system was established through awards and annual competitions, which are funded from the trust. Funds unspent in a given year are reinvested to increase fund balances.

### Parks Maintenance Endowment

This endowment was established in FY 2002-03. Earnings are reinvested to increase the size of the endowment with the intent of eventually generating sufficient interest income to help maintain the parks and recreation system.

### Washington Park Children's Playground Endowment

This endowment was established by a \$75,000 donation from the Portland Rotary Club with the goal of maintaining the playground in Washington Park.

### The Dietz Fountain at Wallace Park Endowment

This endowment was established in FY 2003-04 with an original gift of \$4,500. Income from this endowment contributes toward maintenance of the Dietz Fountain.

**Fund Overview**

The Parks Local Option Levy Fund was established following voter approval of the Parks Local Option Levy in November 2002. The purpose of the levy was to restore \$2.2 million in funding reductions made in FY 2002-03; provide access to recreational programs for children, families, and seniors; provide safe places to play; and restore, renovate, and continue to maintain the park system.

Resources in this fund were derived from property tax revenues and interest earnings. Fund requirements include costs associated with Portland Parks & Recreation programs and services.

The levy expired June 30, 2008; due to favorable interest rates, tax collections, and delays in capital improvements, the ending fund balance allowed for an additional year of program funding. Since FY 2008-09, Council has allocated \$5.4 million of ongoing General Fund resources to backfill the funding that had been provided by the levy.

**Managing Agency**      Portland Parks & Recreation

**Significant Changes from Prior Year**

The Parks Local Option Levy Fund was closed in FY 2020-21.

## Fund Overview

The Portland International Raceway (PIR) Fund is the enterprise fund that accounts for all resources and requirements associated with management and operation of the PIR.

The primary sources of ongoing revenues to the PIR Fund are PIR facilities rental revenues, percentage of sales from the food and beverage contracted service provider, user group advertising, and track sponsorship.

**Managing Agency**      Portland Parks & Recreation

---

**Portland International Raceway Fund****Significant Changes from Prior Year****Operations**

PIR revenues were significantly affected by public health directed closures and restrictions related to COVID-19. While completely closed for a short time, the raceway is holding much smaller events with no spectators at this time, and therefore able to earn limited revenues. In FY 2020-21, the fund is projected to have sufficient reserves to absorb the operational loss for the year. FY2021-22 budget includes reduced program revenues, but also reduced expenses, focusing on limiting casual labor and materials and services that are linked to spectator events.

## Fund Overview

The Portland Parks Memorial Fund was established to receive grant revenue as well as donations from foundations, friends' organizations, neighborhood associations, and other entities. These funds often have restrictions related to the purpose and the period by which to use such funds.

### Fund Requirements

Resources within this fund are typically used for one-time expenditures for specific improvements or services, or for ongoing programs with resources coming from a specific revenue source. Individual grants or donations are managed in separate accounts within the fund, according to the provisions of the contract, grant, or donor agreement.

Fund Overview

The 2020 Parks Local Option Levy Fund was established following voter approval of the Parks Local Option Levy in November 2020. The purpose of the levy was to prevent ongoing reductions to park services and recreation programs, preserve and restore park and natural area health, and center equity and affordable access for all.

## 2020 Parks Local Option Levy Fund

More specifically levy funds are to be used to

- ◆ Enhance and preserve parks, rivers, wetlands, trees, and other important natural features in urban areas for the benefit of all Portlanders and wildlife;
- ◆ Provide park and recreation services to diverse populations including communities of color, seniors, teens, households experiencing poverty, immigrants and refugees, and people living with disabilities;
- ◆ Increase opportunities for communities of color and children experiencing poverty to connect with nature;
- ◆ Prevent cuts to recreation programs, closures of community centers and pools; and
- ◆ Enhance park maintenance to keep parks clean and safe, including litter and hazardous waste removal, restroom cleaning, and playground safety

**Revenue Sources**

Primary revenues for the fund are generated by five-year local option ad valorem property tax levy within the City of Portland at a rate of \$0.80 per \$1,000 of Measure 50 assessed value, outside certain constitutional limitations, commencing in FY 2021-22, for parks and recreation purposes. The fund also receives interest earnings on the balance.

**Managing Agency**

Portland Parks & Recreation

**Significant Changes from Prior Year**

The 2020 Parks Local Option Levy Fund was established in January 2021. Funds will be appropriated for use in late FY 2020-21. The budget for FY 2021-22 is based on Decision Packages included in PP&R's FY 2021-22 Requested Budget and includes resources to support public programming in summer 2021 and the ramp up to build organizational capacity for enhanced service delivery, as well as resources to ensure affordable access for Black, Indigenous, and People of Color, Immigrants and Refugees, families living in poverty, individuals living with disabilities, and older adults.

Total tax resources generated from the Levy in FY 2021-22 are expected to be \$44.7 million. Levy proceeds will not be realized until November 2021. In order to begin implementation of Levy objectives before then the bureau will be initiating an interfund loan with the SDC program in the Spring of 2021. The bureau will be engaging in a process to allocate the remainder of Levy resources in the Fall of 2021.

## Aquatics Program

### Program Description & Goals

Portland Parks & Recreation (PP&R) owns, maintains, and operates 12 aquatics facilities (five indoor and seven outdoor pools). Four of the five indoor pools are within a community center. In addition to swimming pools, the Aquatics Program includes interactive and decorative fountains. PP&R's Aquatics Program provides water safety skills and awareness, as well as job training and employment for Portlanders. The program provides a safe environment for developing swimming and water safety skills and engaging in healthy activities. In FY 2018-19, prior to the COVID-19 pandemic, PP&R served one million swimmers and offered swim lessons to 28,757. The PP&R Aquatics Program has received numerous awards including the national 'Excellence in Aquatics' award from the National Recreation and Park Association.

The Aquatics Program's key goals are to provide:

- ◆ a broad range of aquatic experiences and opportunities available to all;
- ◆ increased access to, and participation by, underserved communities, specifically communities of color and individuals with disabilities;
- ◆ partnerships with culturally specific community organizations to increase access to programs, services, and activities;
- ◆ an accessible employment pipeline with professional development opportunities for youth;
- ◆ environmentally responsible aquatic facilities; and
- ◆ facilities and programs that are well-managed and economically viable.

Desired outcomes:

- ◆ opportunities for aquatic experiences are distributed equitably throughout the city;
- ◆ residents enjoy increased health and fitness due to participation in aquatic recreation;
- ◆ family-friendly facilities meet leisure, therapy, competition, fitness, and education needs;
- ◆ improved water safety skills result in fewer accidents and deaths; and
- ◆ aquatic facilities provide places for social interaction and community building.

Specific performance metrics for this program offer have not yet been identified. PP&R has recently created a Healthy Parks, Healthy Portland Framework to guide planning for 2021 and beyond. The bureau spent 2020 evaluating the success of its three major plans: Vision 2020, 2017-2020 Strategic Plan, and Five-Year Racial Equity Plan. As part of its strategic planning work in 2021, PP&R will be creating new performance measures and aligning them with strategic objectives and organizational workplans. In particular, PP&R will identify performance measures for equity objectives.

PP&R performance was and continues to be affected by the COVID-19 public health emergency. The bureau expects that FY 2021-22 programs and services will continue to be responsive to the public health and economic emergency.

## Explanation of Services

PP&R's Aquatics program is responsible for all aquatics facilities, including beaches, spray parks, fountains, and swimming pools which offer opportunities for unstructured play and interactive recreation. The program's indoor and outdoor pools provide lessons, lap swim, competition, and therapy.

The Aquatics program offers the following services:

- ◆ life-saving skills and beginning level swim lessons
- ◆ group exercise classes and lap swim times available for drop-in participation and low impact classes, and spas are available for therapy
- ◆ unstructured and interactive access to PP&R pools and splash pads,
- ◆ lifeguard and swim instructor training certifications, competitive and swim teams, and intermediate to advanced-level skill development; and
- ◆ pre-competitive swim teams and intermediate to advanced level skill development.

## Equity Impacts

PP&R's Aquatics Program serves Black, Indigenous, and People of Color (BIPOC), immigrants and refugees, families living in poverty, and individuals with disabilities through a comprehensive effort to increase water safety awareness, swimming participation, and employment. The Aquatics Program is working to improve the cultural responsiveness and understanding of institutional racism and its impacts. The program is partnering with and building the capacity of community organizations accountable to BIPOC, immigrant and refugee communities to increase access to programs, services, and activities.

Summer 2021 will include registered Aquatic programming and 50% of program capacity will center on outreach with existing and new partners, highlighting and advancing swimming and water safety in BIPOC, immigrant and refugee communities, and families experiencing financial hardship. The Aquatics Program will work with partner organizations and will translate marketing materials and pool signage to increase access.

The Aquatics Program continues to offer its successful Interrupting Oppression staff training series that addresses increasing staff confidence and ability to intervene when they witness harm, especially in the form of racist, sexist, homophobic, or bigoted behavior. All Aquatics staff, including both regular FTE and seasonal employees, participate in these trainings as part of their regular, four hours per month in-service requirement.

Additionally, the Aquatics Program has increased outreach efforts to provide training opportunities and employment to BIPOC, immigrant and refugee youth as lifeguards and swim instructors. New positions supported by the Parks 2020 Operations Levy provide an opportunity to improve employee diversity metrics. PP&R has made great strides in diversifying its workforce. In 2015, the bureau's regular staff was 18% BIPOC; currently, our regular staff is 28% BIPOC. Managers increased from 11% BIPOC in 2015 to almost 30% at present; Black managers increased from 3% to 19%.

Overall, including our seasonal and casual employees, our workforce is currently 31.7% BIPOC. PP&R will continue to improve its workforce BIPOC percentages when hiring for the permanent and seasonal and casual positions made possible by levy resources. Additional resources in Workforce Development and Equity & Inclusion will also help us improve our onboarding and training for staff, which will help improve retention and promotion of BIPOC staff members. These investments will also improve outcomes related to how employees feel about their PP&R experience.

## Changes to Program

In 2020, due to the COVID-19 public health emergency, PP&R experienced a massive shift in operations and service levels. Portlanders have seen painful service level reductions, many of which continue, including closed community and art centers, pools, and the cancelation of all public event permits, except for group sizes approved by the State of Oregon.

COVID-19 impacted all City bureaus and dramatically affected revenues. The City implemented wage freezes and furloughs, and bureaus were asked to take budget reductions. PP&R's budget was reduced further as 30% of its operating budget was dependent on program fee revenue that would not be earned. PP&R laid off over 750 seasonal and casual staff, did not fill open vacancies, reduced capital budgets, and reduced spending on materials and services.

In November of 2020, Portland voters passed the Parks 2020 Operating Levy, a five-year levy to provide Recreation for All, Protect and Grow Nature, and support Community Partnerships. Portland Parks & Recreation is grateful to the community for its support and is excited to have the opportunity to restore programs and services, with a focus on serving BIPOC, refugee and immigrant communities, people experiencing poverty, people living with disabilities, and older adults.

The City Council's levy referral to the ballot promised restoration of summer programs in 2021. PP&R will request City Council approval to access funds in FY 2020-21 to ramp up operations to provide summer programs, build capacity for levy-funded program expansion, and address critical points of potential failure in the bureau. This FY 2021-22 Requested Budget includes these items. PP&R will continue to engage the community to create a complete FY 2021-22 levy budget as part of the City's Fall Budget Monitoring Process submission in September 2021.

In summer of 2021, as allowed by Oregon Health Authority (OHA) guidelines, PP&R expects to open outdoor pools and provide access to lap swim, water fitness and swim lessons at a reduced capacity. Aquatics Program capacities for drop-in pool use and registered swim lessons are likely to be less than normal while we remain responsive to the COVID-19 public health guidance.

Levy resources will allow PP&R to operating outdoor pools and offer swim lessons even with reduced capacity. As COVID-19 allows, PP&R will open Columbia Pool and other indoor swimming pools. PP&R expects to offer 35,000 swimming lessons in the summer of 2021, while piloting a ‘pay as you can’ model for families experiencing financial hardships. Levy resources will allow PP&R to retain full-time staff and hire a up to 800 Aquatics seasonal and casual staff members for summer.

## Budget Narrative

- Resources** Prior to the COVID-19 pandemic, the Aquatics Program was supported 62% through program fees and 38% supported from the City’s General Fund. FY 2020-21 saw dramatic budget reductions due to the closing of all pools and the re-deployment of recreation staff to support community priorities. In FY 2021-22, levy resources will reduce revenue dependency in the Aquatics Program and allow the program to operate with anticipated reduced capacity.
- Expenses** In the FY 2021-22 Requested Budget includes \$7.3 million in expenses for the Aquatics Program.
- Staffing** The FY 2021-22 Requested Budget funds 46.0 FTE in the Aquatics budget. This includes supervision, programming, and maintenance of indoor and outdoor pools. In addition, the Aquatics Program expects to hire up to 800 seasonal and casual staff.
- Assets and Liabilities** The key assets that are owned and operated by the Aquatics program are the swimming pools and all the equipment that is needed to operate a successful swim program. The pools and equipment are currently in fair working order. The maintenance staff has maintained the equipment to meet State regulations within a limited budget. PP&R has one pool that was built in 1940 (Pier Pool) that hasn’t had

significant repairs to the shell or mechanical equipment. Older equipment and assets have an increase chance of failure without renovation. There are also numerous pumps, motors, waterslides, play and spray features, and ADA equipment that are nearing the end of their lifetime and will need to be renovated or replaced within the next ten years.

## Arts

### Program Description & Goals

Portland Parks & Recreation's (PP&R) Arts Program enhances quality of life and activates play through creative self-expression, imagination, and celebration. Access to services and spaces that support cultural, ritual, and artistic practices build social networks and break down isolation and disconnection. Cross-community relationships are strengthened, resulting in more cohesive, resilient communities. Culturally-relevant arts programs empower historically marginalized communities, including indigenous people, Black people, immigrants and refugees, people of color, and people with disabilities, as creators, artists, and community builders. To that end, PP&R's Arts program is designed to bring people together and promote positive self-expression, communication skills, social and emotional development, and skill-building.

The Arts program's key goals are to:

- ◆ directly express values of equity, diversity, and inclusion;
- ◆ provide a platform for Portlanders to celebrate their diverse cultures, heritage, and identities; and
- ◆ bridge understanding and promote dialogue across communities in safe and welcoming environments.

Desired outcomes include:

- ◆ arts programs are an effective vehicle for advancing equity;
- ◆ increase access to arts and cultural programs for all Portlanders, with a special focus on teen, culturally diverse, and low-income populations;
- ◆ increase civic engagement and positive social identity for under-represented communities;
- ◆ provide welcoming spaces for social interaction and community use; and
- ◆ create a workforce whose demographics, from service delivery to leadership, reflect the diversity of the Portland community.

Specific performance metrics for this program offer have not yet been identified. PP&R has recently created a Healthy Parks, Healthy Portland Framework to guide planning for 2021 and beyond. The bureau spent 2020 evaluating the success of its three major plans: Vision 2020, 2017-2020 Strategic Plan, and Five-Year Racial Equity Plan. As part of its strategic planning work in 2021, PP&R will be creating new performance measures and aligning them with strategic objectives and organizational workplans. In particular, PP&R will identify performance measures for equity objectives.

PP&R performance was and continues to be affected by the COVID-19 public health emergency. The bureau expects that FY 2021-22 programs and services will continue to be responsive to the public health and economic emergency.

## Explanation of Services

PP&R's Arts Program provides affordable arts classes (with scholarship availability) and arts spaces for community use. Introductory arts classes are provided at community centers across the city. Introductory and intermediate art classes are provided at PP&R's two specialized arts centers - Multnomah Arts Center and Community Music Center - which have a regional draw as well as a neighborhood base.

Arts programs fall into these categories:

- ◆ Registered Visual and Performing Arts Activities: Art classes serve all ages - toddlers, youth, teens, adults, and seniors. Art forms and offerings are wide-ranging, including music, dance, theatre, visual arts, crafts, and creative writing;
- ◆ Affordable Community Arts Spaces: The arts centers—Multnomah Arts Center, the Community Music Center, and the Interstate Firehouse Cultural Center—provide performance, rehearsal, and office spaces for community organizations and artists through hourly rental and long-term leasing;
- ◆ Community Events: Arts centers organize and host a variety of art events and performances open to the community.

The Arts Program works closely with Summer Free For All and Urban Parks Programming, which deliver free outdoor arts and culture events. The programs are represented in the Program Offer 'Community and Socialization.'

## Equity Impacts

PP&R's Arts Program serve all Portlanders, including Indigenous people, Black people, immigrants and refugees, people of color, and people with disabilities through outreach programs that take arts activities and classes to underserved families across the City. These programs are developed in partnership with nonprofit organizations, including Rosewood Initiative and Home Forward. Outreach arts activities are also delivered in collaboration with Free Lunch + Play, part of Summer Free For All program—sited in 26 parks in low-income neighborhoods, and Urban Parks Programming at Gateway Discovery Park in East Portland. These partnership programs continue through PP&R's COVID-19 response via virtual programming and Free Lunch + Play.

The Arts Program develops culturally-specific programs that highlight BIPOC artists and cultures, including art exhibitions, theater productions, music classes. Examples include art exhibitions dedicated to World Refugee Day, Portland's Black Artists, PRIDE month (LGBTQIA+); theater production of Hands Up! (about police profiling; written, directed, performed by Black artists); and music classes including mariachi, jazz, and Japanese koto.

Additionally, PP&R is making space available at its arts centers below market rate to arts organizations, artists, and nonprofits, prioritizing communities of color, and persons with disabilities. The Interstate Firehouse Cultural Center (IFCC) is made available to arts organizations for short-term, multi-week leasing by application that prioritizes Black artists and groups.

Arts programs will strive to provide 50% of registered capacity to BIPOC youth and families, immigrants and refugees, and families living in poverty through outreach with partner organizations. Language translation of program information and signage and virtual program opportunities will continue to expand access to Recreation programming.

PP&R, in partnership with a Community Advisory Committee, has initiated a feasibility study to develop IFCC's current 7000 sq. ft. facility into a 30,000 sq. ft. Center for Black Arts and Culture.

Positions supported by the Parks 2020 Operations Levy provide an opportunity to improve division employee diversity metrics. PP&R has made great strides in diversifying its workforce. In 2015, the bureau's regular staff was 18% BIPOC; currently, our regular staff is 28% BIPOC. Managers increased from 11% BIPOC in 2015 to almost 30% at present; Black managers increased from 3% to 19%.

Overall, including our seasonal and casual employees, our workforce is currently 31.7% BIPOC. PP&R will continue to improve its diversity when hiring for the permanent, seasonal and casual positions made possible by levy resources. Additional resources in Workforce Development and Equity & Inclusion will also help us improve PP&R's onboarding and training for staff, which will help improve retention and promotion of BIPOC staff members. These investments will also improve outcomes related to how employees feel about their PP&R work experience.

## Changes to Program

In 2020, due to the COVID-19 public health emergency, PP&R experienced a massive shift in operations and service levels. Portlanders have seen painful service level reductions, many of which continue, including closed community and art centers, pools, and the cancelation of all public event permits, except for group sizes approved by the State of Oregon.

COVID-19 impacted all City bureaus and dramatically affected revenues. The City implemented wage freezes and furloughs, and bureaus were asked to take budget reductions. PP&R's budget was reduced further as 30% of its operating budget was dependent on program fee revenue that would not be earned. PP&R laid off over 750 seasonal and casual staff, did not fill open vacancies, reduced capital budgets, and reduced spending on materials and services.

In November of 2020, Portland voters passed the Parks 2020 Operating Levy, a five-year levy to provide Recreation for All, Protect and Grow Nature, and support Community Partnerships. Portland Parks & Recreation is grateful to the community for its support and is excited to have the opportunity to restore programs and services, with a focus on serving Black, Indigenous, and People of Color, refugee and immigrant communities, people experiencing poverty, people living with disabilities, and older adults.

The City Council's levy referral to the ballot promised restoration of summer programs in 2021. PP&R will request City Council approval to access funds in FY 2020-21 to ramp up operations to provide summer programs, build capacity for levy-funded program expansion, and address critical points of potential failure in the bureau. This FY 2021-22 Requested Budget includes these items. PP&R will continue to engage the community to create a complete FY 2021-22 levy budget as part of the City's Fall Budget Monitoring Process submission in September 2021.

During summer 2021 Arts programs will deliver pre-recorded and live virtual activities and classes, outdoor and in-person arts camps and select classes, and organize ‘pop-up’ art pod events with Free Lunch + Play programs and other PP&R locations. Levy resources support this public service and will also allow PP&R to retain full-time staff and hire up to 100 Seasonal and Casual staff members for summer.

### Program Budget

	Actuals FY 2018-19	Actuals FY 2019-20	Revised FY 2020-21	Requested No DP FY 2021-22	Requested FY 2021-22

### Budget Narrative

- Resources**                    The Arts program historically receives a limited amount of support from the City’s General Fund; some programs are generate revenues from program fees. Resources from the Parks 2020 Operating Levy will support the Arts Program in order to reduce costs as a barrier to program participation.
- Expenses**                    The FY 2021-22 Requested Budget includes \$3.2 million in expenses for the Arts Program, almost entirely consisting of staffing costs..
- Staffing**                      The Arts Program currently includes 11.9 FTE and up to 100 Seasonal and Casual staff.
- Assets and Liabilities**                    Arts programs are offered at eight of the bureau’s community centers, but the majority of programming occurs at Community Music Center (CMC) and Multnomah Arts Center (MAC). Both CMC and MAC have large deferred maintenance and seismic retrofitting needs. The bureau does not currently have resources to address these critical needs.

## Business Services

### Program Description & Goals

Portland Parks & Recreation’s (PP&R) Business Services program provides the operational infrastructure for the bureau and supports all programs and activities. The program contributes to the advancement of all outcomes of the 2017-20 Strategic Plan and PP&R Racial Equity Plan, with the most directly relevant outcomes including:

- ◆ increased diversity and training of the existing workforce;
- ◆ a safe environment for all employees and customers; and
- ◆ completion of the long-term vision plan that ensures a legacy of access to park, recreation, and tree-related services for future generations of Portlanders of all backgrounds and neighborhoods.

PP&R has recently created a Healthy Parks, Healthy Portland Framework to guide planning for 2021 and beyond. The bureau spent 2020 evaluating the success of its three major plans: Vision 2020, 2017-2020 Strategic Plan, and Five-Year Racial Equity Plan. As part of its strategic planning work in 2021, PP&R will be creating new performance measures and aligning them with strategic objectives and organizational workplans. In particular, PP&R will identify performance measures for equity objectives.

PP&R performance was and continues to be affected by the COVID-19 public health emergency. The bureau expects that FY 2021-22 programs and services will continue to be responsive to the public health and economic emergency.

Performance	Actuals FY 2018-19	Actuals FY 2019-20	Target 2020-21	Target FY 2021-22	Strategic Target
Number of workers compensation claims per 100 workers	8.30	4.50	8.00	7.00	7.00
Percentage of employees that feel safety is a bureau priority	69%	0%	NA	85%	85%
Percentage of employees who feel physically and emotionally safe at work	68%	NA	83%	83%	83%
Percentage of employees who feel PP&R is making an effort to diversify its workforce	77%	NA	83%	85%	85%
Percentage of employees who feel PP&R provides employees with adequate equity and cultural responsiveness training	59%	NA	65%	65%	65%
Percentage of employees who feel they receive adequate job training and education	58%	NA	65%	65%	65%
Employees of color as a percentage of total positions	32%	31%	31%	31%	28%
Total annual training hours completed	4,449	6,676	6,676	6,676	2,500

## Explanation of Services

PP&R's Business Services program combines several disparate functions, including:

- ◆ Core support services such as workforce development, finance, stores (bureau's supply inventory), accounting, technology, safety, and performance and analysis.
- ◆ The leadership function of the various divisions; including managers and supervisors and their administrative support.
- ◆ Centrally located costs such as utilities, facilities, and insurance.

## Equity Impacts

As currently structured, Business Services represents leadership across the bureau and the core services that support the bureau. The most direct and critical function for achieving equity goals is workforce development, which coordinates the bureau's recruitment, training, and retention of employees.

New positions supported by the Parks 2020 Operations Levy provide an opportunity to improve employee diversity metrics. PP&R has made great strides in diversifying its workforce. In 2015, the bureau's regular staff was 18% BIPOC; currently, our regular staff is 28% BIPOC. Managers increased from 11% BIPOC in 2015 to almost 30% at present; Black managers increased from 3% to 19%.

Overall, including our seasonal and casual employees, our workforce is currently 31.7% BIPOC. PP&R will continue to improve its workforce BIPOC percentages when hiring for the permanent and seasonal and casual positions made possible by levy resources. Additional resources in Workforce Development and Equity & Inclusion teams will also help us improve our onboarding and training for staff, which will help improve retention and promotion of BIPOC staff members. These investments will also improve outcomes related to how employees feel about their PP&R experience.

In addition, Business Services contains the positions associated with leadership in most divisions. These two components make this program one of the most critical for developing a diverse workforce. In addition to workforce equity impacts, the divisions' leadership is critical to addressing inequities in the delivery of services and contracted services. As the bureau works to ramp up effort through levy-funded investments, it will be critical to enhance capacity to engage community, recruit and support diverse staff, and manage for equity-centered outcomes.

## Changes to Program

In 2020, due to the COVID-19 public health emergency, PP&R experienced a massive shift in operations and service levels. Portlanders have seen painful service level reductions, many of which continue, including closed community and art centers, pools, and the cancelation of all public event permits, except for group sizes approved by the State of Oregon.

COVID-19 impacted all City bureaus and dramatically affected revenues. The City implemented wage freezes and furloughs, and bureaus were asked to take budget reductions. PP&R's budget was reduced further as 30% of its operating budget was dependent on program fee revenue that would not be earned. PP&R laid off over 750 seasonal and casual staff, did not fill open vacancies, reduced capital budgets, and reduced spending on materials and services.

In November of 2020, Portland voters passed the Parks 2020 Operating Levy, a five-year levy to provide Recreation for All, Protect and Grow Nature, and support Community Partnerships. Portland Parks & Recreation is grateful to the community for its support and is excited to have the opportunity to restore programs and services, with a focus on serving Black, Indigenous, and People of Color, refugee and immigrant communities, people experiencing poverty, people living with disabilities, and older adults.

The City Council's levy referral to the ballot promised restoration of summer programs in 2021. PP&R will request City Council approval to access funds in FY 2020-21 to ramp up operations to provide summer programs, build capacity for levy-funded program expansion, and address critical points of potential failure in the bureau. This FY 2021-22 Requested Budget includes these items. PP&R will continue to engage the community to create a complete FY 2021-22 levy budget as part of the City's Fall Budget Monitoring Process submission in September 2021.

In order to prepare the organization to absorb this additional scale in the FY 2021-22 Fall BMP, early investments in organizational support are necessary. PP&R is adding 23 FTE to the Business Service Program to do the following:

- ◆ Workspace Coordination to investigate space opportunities, conduct location analysis and recommend leasing or space optimization actions to meet expected Bureau operational needs and growth.
- ◆ Support Land Stewardship to address critical gaps including management analytics and support, swing shift supervision, and enhancement of the division's ability to connect with BIPOC, immigrant, and refugee communities, and volunteer and partner groups city-wide.
- ◆ Bolster accounting services to increase financial tracking and accounting associated with over \$40 million annually in increased transaction volume.
- ◆ Address the increased size and complexity of the PP&R budget as well as to develop and support a performance management approach that will hold the bureau accountable for achieving voter-approved outcomes.
- ◆ Develop a more robust approach to technology management including two positions to support direct operations, one project manager to implement critical enterprise technology projects, and two positions to manage bureau data and applications to support tracking and managing for service delivery outcomes. This central technology function has represented an area of significant underinvestment with only two full-time PP&R staff. Increasing the bureau's technology backbone will provide significant operational leverage and efficiencies for all other groups. One of the early projects will be the replacement of the bureau's work order system.
- ◆ Diversify workforce; enhance recruitment, onboarding and retention of diverse staff; enhance diversity, equity, and inclusion training; and increase Workforce Development support to bureau employees.

## Budget Narrative

<b>Resources</b>	Operations of this program are primarily funded with General Fund discretionary and, beginning in FY 2021-22, resources from the Parks 2020 Operating Levy. System Development Charge collections, which fund capital improvements, are also budgeted in this program. Indirect cost recovery for services provided to other bureaus and external entities is also included in this program
<b>Expenses</b>	The FY 2021-22 Requested Budget includes \$ 5.6 million in internal service costs including fleet, facilities, risk, technology, and printing; \$3.1 million in utility costs; and \$12.7 million in staff costs. This program is also where most fund balances are budgeted.
<b>Staffing</b>	94.42 FTE positions are budgeted in this program. These positions are located throughout the bureau, primarily as leadership and administration in the various departments and divisions and as central functions including finance, workforce, safety, etc. Currently, the bond program and several capital positions are budgeted in the program. As the bureau ramps up Parks 2020 Operating Levy investments, investment in organizational support is a critical precursor. See 'Changes to Program' section for discussion of FY 2021-22 levy investments.

**Assets and Liabilities** While this program is not the primary owner of PP&R assets, it does own a large portion of the equipment assets of the bureau. The renewal of those assets is primarily funded through replacement reserve collections charged by the internal service bureaus. For example, Business Services owns all the desktop and laptop computers in the bureau. The Bureau of Technology Services charges PP&R an amount sufficient to replace those assets on a regular four to five-year cycle. This charge is included in the expense figure discussed above.

## Capital Development

### Program Description & Goals

Portland Parks & Recreation's (PP&R) Capital Development Program work includes the Capital Growth Program and the Capital Renovation Program, which houses the 2014 Parks Replacement Bond Program, the Engineering & Construction Management group and the future 2019 Metro Local Share Bond staff. The Program provides planning, design, engineering, project management and construction management of all Capital Projects (defined as projects greater than \$10,000). The Program's primary objectives include sustaining and modernizing existing assets, growing the parks and recreation system to mitigate the inequities of parks service areas, and keeping pace with the needs of a growing and changing Portland. The Program works with internal and external stakeholders to scope projects, procure design and construction services, and manage design, construction, and commissioning.

Major responsibilities include:

- ◆ expanding existing assets and constructing new parks and facilities with public input to accommodate population growth and equitable service;
- ◆ protecting and maintaining existing community assets through maintenance, rehabilitation, and renewal;
- ◆ completing capital emergency repairs prioritized using an equity lens;
- ◆ removing Americans with Disabilities Act (ADA) identified barriers and implementing the ADA Transition Plan;
- ◆ attaining and advancing the City's minority and women-owned contracting goals through project delivery; and
- ◆ providing technical support to PP&R staff. Five metrics have been used to track progress for the Capital Development Program. The first two metrics listed below have been calculated annually for more than a decade. However, a severe data issue from the Multnomah County has impeded the county's ability to gather tax lot information (needed for the calculation) and has left the bureau unable to clearly calculate the metric for 2018, 2019 or 2020. The percentage of residents rating the closeness of their neighborhood park as 'good' or 'very good' was gathered from a 2017 Community Needs Survey. PP&R has recently created a Healthy Parks, Healthy Portland Framework to guide planning for 2021 and beyond. The bureau spent 2020 evaluating the success of its three major plans: Vision 2020, 2017-2020 Strategic Plan, and Five-Year Racial Equity Plan. As part of its strategic planning work in 2021, PP&R will be creating new performance measures and aligning them with strategic objectives and organizational workplans. In particular, PP&R will identify performance measures for equity objectives.

PP&R performance was and continues to be affected by the COVID-19 public health emergency. The bureau expects that FY 2021-22 programs and services will continue to be responsive to the public health and economic emergency.

## Explanation of Services

PP&R's Capital Development Program consists of two programs (Capital Growth Program and the Capital Renovation Program) which provide the following services:

- ◆ plans, designs, permits, and constructs aesthetically pleasing, durable, maintainable, and sustainable capital projects within scope, schedule, and budget that address the needs of the community;
- ◆ communicates to the public and project stakeholders;
- ◆ implements PP&R and citywide strategic initiatives and policies;
- ◆ collaborates with other bureaus and outside agencies to further PP&R projects and goals;
- ◆ administers local, state, and federal grants to supplement park design and construction efforts;
- ◆ coordinates and reviews proposed outside agency or private development improvements on or adjacent to park property;
- ◆ represents PP&R on technical committees; and
- ◆ contributes to developing fair and equitable approaches to construction contracting and management to help distribute public construction dollars to the diverse construction community.

The Capital Growth Program administers projects that are primarily System Development Charge (SDC) funded, which are focused on growing and expanding the existing park system to meet the needs and desires of a growing city.

The Capital Development program also administers the \$68 million Parks Replacement Bond, which provides urgent repairs in PP&R parks, community centers, and facilities throughout the city. Bond projects target PP&R's most critical needs by focusing on fixing or improving:

## Equity Impacts

Equity considerations are central to PP&R's Capital Growth and Renovation Programs. Communities of color and marginalized and underserved communities are prioritized by a Capital Project selection process utilizing an equity rating (factoring in youth, racial diversity, and poverty). The ranking process also includes a 'number of assets available' rating and a 'number of households served' rating in the prioritization process. Selected Capital Projects include extensive public outreach to ensure that all voices are heard and that the resulting park design and implementation reflects what the community needs and desires.

Completed Capital Projects have made our parks system more accessible and equitable to all Portlanders by addressing ADA deficiencies, repairing and preserving prioritized infrastructure, designing and building parks in park deficient areas, and expanding the recreation system for a more diverse future Portland.

The Program also uses an equity lens to prioritize how projects are delivered. The City has established a goal of utilizing a minimum of 20% Disadvantaged, Minority-Owned, Women-Owned, Emerging Small Businesses, Service-Disabled Veterans Business Enterprises (D/M/W/ESB/SDVBE) contractors and sub-contractors. The Capital Development Program has been very successful - the 2014 Parks Replacement Bond Program has utilized 42% D/M/W/ESB/SDVBE consultant and contractors.

As already discussed, the Capital Development Program utilizes several performance metrics to track the growth and level of service of the parks system for the community. These metrics can be viewed with an equity lens by layering equity scores across park sites to assess the proportion of capital development that serves communities most in need.

More equitable outcomes could be achieved by:

- ◆ increasing capital funding to develop new parks in underserved areas;
- ◆ increasing the General Fund allocation for operations and maintenance resources to adequately maintain newly planned parks and facilities in underserved areas, including east Portland; and
- ◆ increasing General Fund dollars for capital repair and renovations of existing facilities.

## Changes to Program

There are no significant changes to program in FY 2021-22 other than the Capital Renovation Program will be taking on work associated with the 2019 Metro Park and Nature Bond work.

## Program Budget

## Community and Socialization

### Program Description & Goals

Portland Parks & Recreation's (PP&R) Community and Socialization Program includes a broad range of activities, including wellness, lifelong education, environmental education, and the community gardens program. This Program brings people together who may not otherwise cross paths through enrichment activities, such as job skills training and employment; educational and out of school time services for youth; community events; facility rentals; and lifelong learning opportunities.

The Community and Socialization Program's key goals are to provide:

- ◆ increased access to, and participation by, underserved communities, specifically communities of color and individuals with disabilities;
- ◆ an accessible employment pipeline with professional development opportunities for youth;
- ◆ opportunities for Portlanders to connect to nature through hands-on ecology, stewardship, and exploration in parks and natural areas; and
- ◆ opportunities for all Portlanders to grow organic food in the city by providing land, water, and garden tools at a low cost.

Desired outcomes of this program are as follows:

- ◆ services are distributed equitably throughout the city;
- ◆ services are responsive to, and inclusive of, diverse communities;
- ◆ residents enjoy increased health and fitness due to participation;
- ◆ residents gain an appreciation for parks and natural areas through direct experience; and
- ◆ demographics of workforce, from service delivery to leadership, reflect the diversity of the Portland community.

Specific performance metrics for this program offer have not yet been identified. PP&R has recently created a Healthy Parks, Healthy Portland Framework to guide planning for 2021 and beyond. The bureau spent 2020 evaluating the success of its three major plans: Vision 2020, 2017-2020 Strategic Plan, and Five-Year Racial Equity Plan. As part of its strategic planning work in 2021, PP&R will be creating new performance measures and aligning them with strategic objectives and organizational workplans. In particular, PP&R will identify performance measures for equity objectives.

PP&R performance was and continues to be affected by the COVID-19 public health emergency. The bureau expects that FY 2021-22 programs and services will continue to be responsive to the public health and economic emergency.

### Explanation of Services

Community and Socialization programs fall into these enrichment categories:

Educational and Out of School Time Services for Youth: PP&R offers environmental education at park locations across Portland, educational preschool programs in nine community centers, four after school programs in community centers, and eleven SUN Community Schools located within four school districts. Camp activities are provided citywide for youth ages 3-14 during spring, summer, and winter school breaks.

Community Events: Recreation centers and programs offer a variety of special events to bring together community. These include singular events like the Matt Dishman Block Party, the Charles Jordan Penny Carnival, and hosting the Native American Marketplace at Mt. Scott Community Center, as well as larger sponsor and partner supported activities like Summer Free For All (SFFA) movies and concerts and the Lunch + Play sites.

Facility Rentals and Related Services: PP&R provides venues and resources for Portlanders to create their own experiences and bring their communities together.

Enrichment and Lifelong Learning: PP&R designs, develops, and delivers a broad range of activities that include physical, social, and educational development for all ages. Environmental Education offers classes, guided walks, camps, volunteer opportunities, naturalist training, trail and tree maintenance jobs, and special events focused on the stewardship and connection to the city's forest, grassland, and water ecosystems. These services are complimentary to programs offered in Arts, Sports and Games, Aquatics, and Community Engagement.

Community Engagement: PP&R engages with the community to help define activities and programs through a variety of means, including customer surveys and direct feedback; partner with culturally specific organizations; maximize the cultural diversity of service providers and employees; and partner directly with underserved communities.

## Equity Impacts

Black, Indigenous, People of Color (BIPOC), immigrant and refugee communities, families living in poverty, people with disabilities, youth, and elders have been and continue to be served by community centers, cultural events, educational and out of school time services for youth, Environmental Education, and community gardens. In the past, recreation program participants have been surveyed through the Parks Race and Ethnicity Project (PREP), which was suspended in January 2017. This effort will be reinstated to determine who is being served and who is not.

All Community and Socialization programs engage communities of color. For example, programming at Gateway Discovery Park and Summer Free For All (free movies, free concerts, Free Lunch + Play) are organized in partnership with community groups. Current partners include Asian Pacific American Network of Oregon (APANO), Black Parent Initiative, Bollywood Dreams, Latino Network, Native American Youth and Family Center (NAYA), Slavic Family Media, and the Tongan Community.

Community and Socialization programs will strive to provide 50% of activity capacity to BIPOC youth and families, Immigrants and Refugees, and families living in poverty through outreach with partner organizations. Language translation of program information and signage and virtual program opportunities will continue to expand access to programming.

The eleven SUN Community School sites operated by PP&R provide academic and social enrichment for youth and families to combat barriers that limit the success of youth in schools. Large numbers of BIPOC students improve academic knowledge while learning how to overcome institutional barriers created due to their economic status, race, and/or class.

Resources are dedicated to Recreation and Land Stewardship (Environmental Education) hiring practices to ensure the workforce is more reflective of the community it serves. These programs attract and hire from a diverse applicant pool that gains mentorship and guidance in career development, often leading to seasonal and/or full-time employment.

The Environmental Education program engages communities of color in environmental stewardship and education. Program offerings include the Teen Nature Team (TNT) volunteer program for middle school youth which provides access to natural areas, STEM education, and mentorship. The Youth Conservation Crew (YCC) provides employment opportunities for a diverse population of Portland-area youth. Crews protect, restore, and manage Portland's parks and natural areas while developing essential job skills and exploring environmental career paths. The YCC program directly contributes to a more diverse hiring pool for seasonal employees for the entire bureau and helps meet the bureau's equity goals.

The Youth Conservation Crew program authentically engages diverse communities, particularly multicultural communities whose primary language is not English, families experiencing poverty and/or BIPOC communities. Alumni demographics for Youth Conservation Crew and Teen Nature Team from 2009 – 2019:

- ◆ 85% low-income
- ◆ 57% speak a language other than English at home
- ◆ 76% people of color

The Community Gardens program supports equity in the following ways:

- ◆ program services are offered in all languages through interpretation and translation, and staff are trained in using these services in office and field settings;
- ◆ staff evaluate program policies and practices to determine if communities of color are successful in the program;
- ◆ conducts targeted community outreach and engagement with communities of color, low-income communities, indigenous communities, and immigrant and refugees;
- ◆ develops systems that support access to the program for diverse community members;
- ◆ increases program capacity to serve new communities by building new community gardens in areas with higher rates of communities of color and low-income households, focusing on East Portland; and
- ◆ implements an inclusive volunteer leadership program that centers diversity and equity. New positions supported by the Parks 2020 Operations Levy provide an opportunity to improve employee diversity metrics. PP&R has made great strides in diversifying its workforce. In 2015, the bureau's regular staff was 18% BIPOC; currently, regular staff is 28% BIPOC. Managers increased from 11% BIPOC in 2015 to almost 30% at present; Black managers increased from 3% to 19%.

## Changes to Program

In 2020, due to the COVID-19 public health emergency, PP&R experienced a massive shift in operations and service levels. Portlanders have seen painful service level reductions, many of which continue, including closed community and art centers, pools, and the cancelation of all public event permits, except for group sizes approved by the State of Oregon.

COVID-19 impacted all City bureaus and dramatically affected revenues. The City implemented wage freezes and furloughs, and bureaus were asked to take budget reductions. PP&R's budget was reduced further as 30% of its operating budget was dependent on program fee revenue that would not be earned. PP&R laid off over 750 seasonal and casual staff, did not fill open vacancies, reduced capital budgets, and reduced spending on materials and services.

In November of 2020, Portland voters passed the Parks 2020 Operating Levy, a five-year levy to provide Recreation for All, Protect and Grow Nature, and support Community Partnerships. Portland Parks & Recreation is grateful to the community for its support and is excited to have the opportunity to restore programs and services, with a focus on serving Black, Indigenous, and People of Color, refugee and immigrant communities, people experiencing poverty, people living with disabilities, and older adults.

The City Council's levy referral to the ballot promised restoration of summer programs in 2021. PP&R will request City Council approval to access funds in FY 2020-21 to ramp up operations to provide summer programs, build capacity for levy-funded program expansion, and address critical points of potential failure in the bureau. This FY 2021-22 Requested Budget includes these items. PP&R will continue to engage the community to create a complete FY 2021-22 levy budget as part of the City's Fall Budget Monitoring Process submission in September 2021. Due to the COVID-19 public health emergency, PP&R has experienced a massive shift in its operations and service levels. Portlanders have seen painful service level reductions in the parks and recreation system, including closed community and art centers, pools, playgrounds, sport courts and fields, and cancelation of public event permits and programs.

In summer 2021, the Community and Socialization Program will engage with community on virtual platforms offering pre-recorded activities in the Stay and Play video series, as well as outdoor, live enrichment classes and activities with a focus on reaching BOPIC, immigrant and refugee communities, youth, families living in poverty, older adults, and individuals with disabilities. PP&R will strive to enroll BIPOC, immigrant and refugee, and families experiencing financial hardships in 50% of registered program capacity.

Under Oregon Health Authority guidelines, in-person activities will be provided outdoors through the Free Lunch + Play program, and meal service, 'pop-up' concerts, TeenForce program, youth recreational and nature-based day camps, Youth Conservation Crew youth employment, access to nature for young children and families, Teen Nature Team program, and Fitness in the Park. Food distribution will continue to be a bureau priority. SUN Schools and Free Lunch + Play will remain supportive of the community's summer safety net to support families and youth experiencing poverty.

In Summer 2021, PP&R expects to serve Recreation & Art Summer Camps to serve 45,000 total attendance and 100,000 lunches through Free Lunch + Play. Environmental Education Programs are increasing capacity for summer and are setting a foundation for even more expansion in the future.

Levy resources will allow PP&R to operating its Community and Socialization programs to families experiencing financial hardship at no cost or 'pay as you can'. Levy resources support this public service and will also allow PP&R to retain full-time staff, hire 3 new FTE, and hire a up to 700 Seasonal and Casual staff members for summer.

## Program Budget

<hr/>					
<b>FTE</b>	107.58	84.09	83.90	84.90	88.90

## Budget Narrative

<b>Resources</b>	The Community and Socialization program receives about half of its resources from the General Fund. Historically, the remaining support is from program fees. Parks 2020 Operating Levy funding will reduce revenue dependency in the program and the FY 2021-22 levy budget will be detailed in the City’s Fall Budget Monitoring Process submission in September 2021.
<b>Expenses</b>	Total expenses are projected at \$12.2 million for FY 2021-22. These expenses are largely staffing expenses with \$1.1 million in materials and services.
<b>Staffing</b>	The Community and Socialization program includes 88.9 FTE predominately for services provided within SUN Community Schools, camp programs, Preschool, and Environmental Education. Levy resources support 3 new FTE and up to 700 Seasonal and Casual staff.
<b>Assets and Liabilities</b>	Many of the services originating from the Community and Socialization program are provided at PP&R’s community centers, some of which have significant deferred maintenance needs. The bureau does not currently have resources to address these critical needs.

## Community Engagement

### Program Description & Goals

Portland Parks & Recreation’s (PP&R) Community Engagement Program promotes racial and social equity and supports community connections through partnerships, volunteer opportunities, outreach, and public participation. The Program seeks to reduce the impacts of economic and social disparities on individuals and within the community by providing places and services that promote health, safety, and learning opportunities for Portlanders. The program maintains a strategic focus on reaching and supporting underserved communities.

Program objectives include:

- ◆ reflect and serve Portland’s diverse and changing communities;
- ◆ build relationships, strengthen partnerships, and facilitate collaboration to integrate underserved populations (Black, Indigenous, and People of Color, Immigrants and Refugees, youth and families living in poverty, people living with disabilities, older adults); and
- ◆ promote connections to and support for the parks system.

Community Engagement’s relevant performance measures tracked by the bureau include annual pass scans for the TeenForce program and overall estimated attendance in recreation programs. Overall recreation attendance is collected from registered activities (including SUN Community Schools) and pass scans, estimated attendance for Summer Free For All events, and sports leagues. It does not include rental attendance, event attendance at Portland International Raceway, Urban Parks events, or from golf courses.

PP&R has recently created a Healthy Parks, Healthy Portland Framework to guide planning for 2021 and beyond. The bureau spent 2020 evaluating the success of its three major plans: Vision 2020, 2017-2020 Strategic Plan, and Five-Year Racial Equity Plan. As part of its strategic planning work in 2021, PP&R will be creating new performance measures and aligning them with strategic objectives and organizational workplans. In particular, PP&R will identify performance measures for equity objectives.

PP&R performance was and continues to be affected by the COVID-19 public health emergency. The bureau expects that FY 2021-22 programs and services will continue to be responsive to the public health and economic emergency.

Performance	Actuals FY 2018-19	Actuals FY 2019-20	Target 2020-21	Target FY 2021-22	Strategic Target
Annual scans for TeenForce passes	54,261	32,136	18,500	40,000	51,500
Total estimated attendance	2,084,015	1,423,728	770,000	1,500,000	2,300,000

## Explanation of Services

PP&R's Community Engagement Program supports equitable access to recreation, learning, and wellness opportunities, and offers a range of services to engage Black, Indigenous, and People of Color (BIPOC), Immigrants and Refugees, families experiencing financial difficulties, people living with disabilities, older adults, youth, and marginalized communities. PP&R's Community Engagement Program prioritizes those most impacted by bureau decisions about assets, planning, or programming to participate in the decision-making process. Specific focus is given to underserved communities and culturally responsive processes.

The Community Engagement Program includes PP&R's Equity & Inclusion (E&I) Team. This small team:

- ◆ facilitates the bureau's Racial Equity plan goals;
- ◆ supports efforts to diversity PP&R's workforce;
- ◆ supports culturally and linguistically appropriate marketing and outreach;
- ◆ collaborates with BIPOC and Immigrant and Refugee communities;
- ◆ collaborates with internal equity committees like the Diversity and Equity Committee and FEST- the Fostering Equity Support Team; and
- ◆ along, with the Director, is leading PP&R's efforts to become an anti-racist organization. Program service highlights include:
  - ◆ The Lifelong (formerly known as 'Senior') Recreation program partners with community organizations, including Immigrant & Refugee Community Organization (IRCO) and Meals on Wheels, to serve older adults, communities of color, and people living with disabilities.
  - ◆ The TeenForce Program offers free, safe spaces for youth (ages 10-20 years old) to engage in prosocial behavior, surrounded by caring adults. This program seeks to reach youth at risk of exposure to violence and trauma and focuses on reaching under-served and under-represented communities of color on the eastside of the Willamette River. The Teen Community Collaborative Initiative strengthens partnerships with culturally specific organizations that serve youth from families earning low-incomes, particularly refugee and immigrant youth, and youth of color through in-kind facility use or grant funding.
  - ◆ The Adaptive & Inclusive Recreation (AIR) Program provides recreational, educational, and wellness programs for people living with disabilities. These programs are in addition to PP&R's Inclusion Services that support people with disabilities participating in recreation programs.
  - ◆ Volunteer Services offers individuals, school groups, businesses, and community organizations volunteer opportunities in recreation, stewardship efforts, and park projects.
  - ◆ The Property Management program develops partnerships that align with PP&R's mission, vision, and strategic planning efforts. Investments include the following strategic partnerships: Schools Uniting Neighborhoods (SUN), The Rosewood Initiative, Pioneer Courthouse Square, Linnton Community Center, and Leach Botanical Garden.

## Equity Impacts

Communities of color, marginalized and underserved communities in Portland are served by Community Engagement program through relationship development and the facilitation of public input to impact Bureau decisions related to resource allocation and program development. The results of public input are tracked through survey and listening session reporting, and program attendance.

The Community Engagement program is successful when marginalized communities are included in decision-making and when their barriers to accessing PP&R programs are eliminated.

The most significant recent success in achieving equity was when PP&R provided eight listening sessions designed specifically for BIPOC Portlanders to understand what marginalized communities need from PP&R during and coming out of COVID-19. The listening sessions were held in English and Portland's four Safe Harbor Languages to ensure community members were receiving information and sharing their opinions in their preferred language. The knowledge gleaned from these listening sessions, along with other past community engagement efforts, will help PP&R meet the needs of BIPOC Portlanders.

New positions supported by the Parks 2020 Operations Levy provide an opportunity to improve employee diversity metrics. PP&R has made great strides in diversifying its workforce. In 2015, the bureau's regular staff was 18% BIPOC; currently, our regular staff is 28% BIPOC. Managers increased from 11% BIPOC in 2015 to almost 30% at present; Black managers increased from 3% to 19%.

Overall, including our seasonal and casual employees, our workforce is currently 31.7% BIPOC. PP&R will continue to diversify its workforce when hiring for the permanent and seasonal and casual positions made possible by levy resources. Additional resources in Workforce Development and Equity & Inclusion teams will also help us improve our onboarding and training for staff, which will help improve retention and promotion of BIPOC staff members. These investments will also improve outcomes related to how employees feel about their PP&R experience.

## Changes to Program

In 2020, due to the COVID-19 public health emergency, PP&R experienced a massive shift in operations and service levels. Portlanders have seen painful service level reductions, many of which continue, including closed community and art centers, pools, and the cancelation of all public event permits, except for group sizes approved by the State of Oregon.

COVID-19 impacted all City bureaus and dramatically affected revenues. The City implemented wage freezes and furloughs, and bureaus were asked to take budget reductions. PP&R's budget was reduced further as 30% of its operating budget was dependent on program fee revenue that would not be earned. PP&R laid off over 750 seasonal and casual staff, did not fill open vacancies, reduced capital budgets, and reduced spending on materials and services.

In November of 2020, Portland voters passed the Parks 2020 Operating Levy, a five-year levy to provide Recreation for All, Protect and Grow Nature, and support Community Partnerships. Portland Parks & Recreation is grateful to the community for its support and is excited to have the opportunity to restore programs and services, with a focus on serving Black, Indigenous, and People of Color, refugee and immigrant communities, people experiencing poverty, people living with disabilities, and older adults.

The City Council’s levy referral to the ballot promised restoration of summer programs in 2021. PP&R will request City Council approval to access funds in FY 2020-21 to ramp up operations to provide summer programs, build capacity for levy-funded program expansion, and address critical points of potential failure in the bureau. This FY 2021-22 Requested Budget includes these items. PP&R will continue to engage the community to create a complete FY 2021-22 levy budget as part of the City’s Fall Budget Monitoring Process submission in September 2021.

The FY 2021-22 Requested Budget supports three new FTE in the Community Engagement Program, all on the Equity & Inclusion Team. These positions are important to helping the bureau build stronger, more authentic relationships with BIPOC Portlanders and community-based organizations. In addition, these positions will support internal equity objectives related to policy review and creation and workforce development.

## Facility and Amenity Maintenance

### Program Description & Goals

Portland Parks & Recreation's (PP&R) Facility and Amenity Maintenance Program, known as the Professional Repair and Maintenance Program, is charged with maintenance and repairs of bureau's nationally renowned parks and recreation system. The Program goal is to provide timely, efficient, and appropriate professional/trades repairs to the bureau's assets, including mechanical, electrical, plumbing, HVAC, carpentry, welding, painting, graffiti removal, as well as heavy equipment, fleet management, tall grass mowing, infrastructure-based environmental health services and other services.

Program performance measures include:

- ◆ Percentage of residents rating the quality of park facilities as 'Good' or 'Very Good': Historic values for this metric came from the City Auditor's Annual Survey, which has been discontinued. While the survey was in place, the percentage of residents rating the quality of PP&R facilities as good or very good ranged from 65-69%. For each year of the survey, perceptions of quality varied among neighborhood coalitions. For example, the last year of survey data showed that of Inner NE residents, 66% rated facilities as well maintained, while only 49% of East Portland residents did.
- ◆ Capital Major Maintenance funding as a percentage of assets total replacement value: Industry best practice sets annual Capital Major Maintenance funding from two to four percent of asset value. The value of PP&R's built assets is estimated at \$1.5 billion, and in in FY 2020-21, the bureau received only \$3.1 million in Major Maintenance, which is far below industry best practices.
- ◆ Percentage of built assets rated in 'Fair' or 'Better' condition: This metric is based on data gathered from on-site assessments performed by PP&R experts. Less than 70% of assets on average are in fair or better condition. We continue to gain a better understanding of our portfolio condition as we complete asset assessments. We conducted system-wide assessments of pathways and sidewalks and parking lots in the past two years.

PP&R has recently created a Healthy Parks, Healthy Portland Framework to guide planning for 2021 and beyond. The bureau spent 2020 evaluating the success of its three major plans: Vision 2020, 2017-2020 Strategic Plan, and Five-Year Racial Equity Plan. As part of its strategic planning work in 2021, PP&R will be creating new performance measures and aligning them with strategic objectives and organizational workplans. In particular, PP&R will identify performance measures for equity objectives.

PP&R performance was and continues to be affected by the COVID-19 public health emergency. The bureau expects that FY 2021-22 programs and services will continue to be responsive to the public health and economic emergency.

Performance	Actuals FY 2018-19	Actuals FY 2019-20	Target 2020-21	Target FY 2021-22	Strategic Target
Capital major maintenance funding as percentage of assets total replacement value	1%	1%	2%	NA	2%
Percentage of built assets rated in fair or better condition	NA	NA	50%	NA	50%
Percentage of residents rating the quality of park facilities as good or very good	NA	NA	NA	NA	66%
Percentage of work orders that are preventative	28%	10%	0%	NA	0%

## Explanation of Services

PP&R’s Facility and Amenity Maintenance Program provides both preventive and emergency/on demand maintenance for PP&R built assets, including community centers, decorative fountains, restrooms, play structures, and other park features. The Program responds to an average of 7,500 work orders per year.

## Equity Impacts

Communities of color and marginalized and underserved communities in Portland are served by this Facility and Maintenance Program. This Program serves equity needs both from the external services provided and the PP&R internal operations. For external services, the Program helps PP&R reach its equity and inclusion goals by utilizing equity scores by park site, which informs the priority, distribution, and completion of work orders.

Internal equity impacts are progressing within this Program as well. One mechanism is through staff hiring. With a significant number of vacancies and pending retirements from PP&R skilled trades positions, the bureau is reevaluating its staffing model, including creating a Facilities Maintenance Technician apprentice program and considering creating additional apprenticeship programs. The changing job market requires the bureau to use outreach strategies and community partnerships to ensure candidate pools are reflective of the diversity of the community.

Shop supervisors are applying an equity lens to scheduling as well. Supervisors schedule work time more equitably throughout the city, using equity data to inform decision-making and allocating maintenance work resources to the underserved areas of the city.

## Changes to Program

In 2020, due to the COVID-19 public health emergency, PP&R experienced a massive shift in operations, service levels, and revenues. Portlanders have seen painful service level reductions, many of which continue, including closed community and art centers, pools, and the cancelation of all public event permits, except for group sizes approved by the State of Oregon.

COVID-19 impacted all City bureaus and dramatically affected revenues. The City implemented wage freezes and furloughs, and bureaus were asked to take budget reductions. PP&R’s budget was reduced further as 30% of its operating budget was dependent on program fee revenue that would not be earned. PP&R laid off over 750 seasonal and casual staff, did not fill open vacancies, reduced capital budgets, and reduced spending on materials and services.

In November of 2020, Portland voters passed the Parks 2020 Operating Levy, a five-year levy to provide Recreation for All, Protect and Grow Nature, and support Community Partnerships. Portland Parks & Recreation is grateful to the community for its support and is excited to have the opportunity to restore programs and services, with a focus on serving Black, Indigenous, and People of Color (BIPOC), refugee and immigrant communities, people experiencing poverty, people living with disabilities, and older adults.

The City Council’s levy referral to the ballot promised restoration of summer programs in 2021. PP&R will request City Council approval to access funds in FY 2020-21 to ramp up operations to provide summer programs, build capacity for levy-funded program expansion, and address critical points of potential failure in the bureau. This FY 2021-22 Requested Budget includes these items, including several decision packages requested by the Facility and Amenity Maintenance Program. PP&R will continue to engage the community to create a complete FY2021-2022 levy budget as part of the City’s Fall Budget Monitoring Process submission in September 2021.

The FY 2021-22 Requested Budget also includes Professional Repair & Maintenance Services external materials and services funding for the purchase of specialized equipment, including specialized vehicles, safety materials, and advanced tools, in order to respond to deficient or missing equipment and deficient levels of service, and in preparation for a larger workforce.

As PP&R assets continue to age and fail more frequently, the percentage of emergency and demand work orders has gone up. To address this issue, the Facility and Amenity Maintenance Program is working to shift its focus to more preventative work by collaborating with the bureau’s bond, capital, and operational teams; however, the significant work order backlog and the number of critical emergencies makes completing preventative work difficult. This results in a negative perception of the quality of program services to internal and external customers.

## Program Budget

## Budget Narrative

<b>Resources</b>	Operations of this Program are primarily funded with General Fund discretionary and, beginning in FY 2021-22, resources from the Parks 2020 Operating Levy.
<b>Expenses</b>	The primary cost of the Program is personnel at \$5.7 million for FY 2021-22. External materials and services, such as plumbing, electrical, construction, and specialized equipment is \$2.8 million.
<b>Staffing</b>	Staffing levels for FY 2021-22 includes 51.0 FTE, mostly in the maintenance trades.
<b>Assets and Liabilities</b>	PP&R identified \$15.9 million worth of assets that are overdue for replacements, including boilers, HVACs, heating units, and other critical components. There are no replacement funds available for most of these assets, and their failures are primarily managed as emergencies. Furthermore, approximately 50 assets are currently closed, including docks, tennis courts, and playgrounds, and there are no funds available to fix them.

## Leadership and Advocacy

### Program Description & Goals

Portland Parks & Recreation's (PP&R) Leadership and Advocacy Program includes work originating from the Director's Office. The goal of the program is to provide leadership and support in line with the PP&R's mission and to further the objectives of the bureau's long-range vision plan (Parks 2020 Vision), the 2017-2020 Strategic Plan, and the Five-Year Racial Equity Plan.

Although this Program does not provide direct services to underserved communities, it sets the policies, strategy and expectations for the organization's equity objectives through resources allocation, service priorities, and the hiring of key management positions.

The Leadership and Advocacy Program is responsible for all performance metrics associated with the Bureau's 2017-20 Strategic Plan and Racial Equity Plan. These metrics are identified within specific program offers.

PP&R has recently created a Healthy Parks, Healthy Portland Framework to guide planning for 2021 and beyond. The bureau spent 2020 evaluating the success of its three major plans: Vision 2020, 2017-2020 Strategic Plan, and Five-Year Racial Equity Plan. As part of its strategic planning work in 2021, PP&R will be creating new performance measures and aligning them with strategic objectives and organizational workplans. In particular, PP&R will identify performance measures for equity objectives.

PP&R performance was and continues to be affected by the COVID-19 public health emergency. The bureau expects that FY 2021-22 programs and services will continue to be responsive to the public health and economic emergency.

### Explanation of Services

PP&R's Leadership and Advocacy Program includes the Director, Deputy Director, Sustainable Future Manager, Levy Coordinator and the support staff they need to engage with the Mayor's Office, City Council, the Parks Board, employees, and other key friends and partners groups to advance the mission and objectives in the Parks 2020 Vision Plan, 2017-20 Strategic Plan, Five-Year Racial Equity Plan, and Sustainable Future planning. Activities include employee meetings, City Council work sessions, meeting with the public and partner organizations, and participation in national or local organizations to further the mission of park and recreation agencies. In addition, the program oversees the Bureau's division managers, coordinates direction for the Bureau's Senior Management Team, and coordinates policy with the Commissioner-in-Charge.

### Equity Impacts

PP&R aims to become an anti-racist organization, and this will require dedicated focus on creating new and updating existing code, policies, strategies and standard operating procedures across all of its services. New policies and procedures will support the Bureau's transition to new bureau strategy and racial equity plan, including the Bureau's work to remove cost as a barrier to its public programs.

New positions supported by the Parks 2020 Operations Levy provide an opportunity to improve employee diversity metrics. PP&R has made great strides in diversifying its workforce. In 2015, the bureau's regular staff was 18% BIPOC; currently, our regular staff is 28% BIPOC. Managers increased from 11% BIPOC in 2015 to almost 30% at present; Black managers increased from 3% to 19%.

Overall, including our seasonal and casual employees, our workforce is currently 31.7% BIPOC. PP&R will continue to diversify its workforce when hiring for the permanent and seasonal and casual positions made possible by levy resources. Additional resources in the Workforce Development and Equity & Inclusion team's will also help us improve our onboarding and training for staff, which will help improve retention and promotion of BIPOC staff members. These investments will also improve outcomes related to how employees feel about their PP&R work experience.

## Changes to Program

In 2020, due to the COVID-19 public health emergency, PP&R experienced a massive shift in operations and service levels. Portlanders have seen painful service level reductions, many of which continue, including closed community and art centers, pools, and the cancelation of all public event permits, except for group sizes approved by the State of Oregon.

COVID-19 impacted all City bureaus and dramatically affected revenues. The City implemented wage freezes and furloughs, and bureaus were asked to take budget reductions. PP&R's budget was reduced further as 30% of its operating budget was dependent on program fee revenue that would not be earned. PP&R laid off over 750 seasonal and casual staff, did not fill open vacancies, reduced capital budgets, and reduced spending on materials and services.

In November of 2020, Portland voters passed the Parks 2020 Operating Levy, a five-year levy to provide Recreation for All, Protect and Grow Nature, and support Community Partnerships. PP&R is grateful to the community for its support and is excited to have the opportunity to restore programs and services, with a focus on serving Black, Indigenous, and People of Color, refugee and immigrant communities, people experiencing poverty, people living with disabilities, and older adults.

The City Council's levy referral to the ballot promised restoration of summer programs in 2021. PP&R will request City Council approval to access funds in FY 2020-21 to ramp up operations to provide summer programs, build capacity for levy-funded program expansion, and address critical points of potential failure in the bureau. This FY 2021-22 Requested Budget includes these items. PP&R will continue to engage the community to create a complete FY 2021-22 levy budget as part of the City's Fall Budget Monitoring Process submission in September 2021.

PP&R is in a time of transformation. It's vision, strategic plan and racial equity plan are due for an update, and Portland voters recently approved an operating levy to reduce the Bureau's dependence on fees and provide more equitable services. PP&R has committed to becoming an anti-racist organization and updating and revising the bureau's policies and protocols will be essential to achieving that aim. The goal of 'Healthy Parks, Healthy Portland' can only be achieved if PP&R's policies and strategy support equitable services. PP&R's renewed effort will engage internal and external stakeholders in service and policy reviews. Kenya Williams, PP&R's new Equity & Inclusion Manager, and the PP&R Director are championing the creation of a new planning framework for the bureau. This new work will be essential to shifting the bureau to a new strategic direction.

The FY 2021-22 Requested Budget includes resources for 1 new FTE to provide strategic coordination support for the Director.

### Program Budget

### Budget Narrative

- Resources** Operations of this Program are primarily funded with General Fund discretionary and, beginning in FY 2021-22, resources from the Parks 2020 Operating Levy.
- Expenses** Expenses total nearly \$1.5 million and consist mostly of personnel budget. \$34.4 million in fund expenditures reflect local option levy fund balance (budgeted as contingency) and repayment of the FY 2020-21 interfund loan needed to fund early levy actions.
- Staffing** This Program included 7.0 FTE.
- Assets and Liabilities** There are no assets and liabilities associated with this program offer.

## Marketing and Communication

### Program Description & Goals

Portland Parks & Recreation’s (PP&R) Marketing and Communication Program strives to ensure clear and concise communication from all PP&R divisions to the public, as well as facilitate community engagement processes that connect Portlanders to their parks and programs. Through the power of storytelling and personal relationships, this Program encourages the community’s deeper investment in all of PP&R’s offerings as constituents, customers, and donors. PP&R has dozens of active capital projects in need of community input and engagement and the Bureau has a multitude of parks and recreation service offerings. The program creates inclusive park designs, projects, programs, and policies that advance PP&R’s Five-Year Racial Equity Plan.

The Marketing and Communication Program considers the following key data and outcomes:

**Intervention Metrics** – PP&R’s central marketing team attempts to achieve its perception metrics by executing approximately 350 discrete graphic design projects annually with about 18% requiring translation into one or more languages. The website is the community’s preferred information channel with more than ten million page views each year. PP&R saw increases in social media engagement (Facebook up 22% in 2019, Twitter up 5%, Instagram up 17%, 118 posts in languages other than English), and the program continues to message through earned media (~800 media hits annually, including about a dozen in languages other than English).

**Condition Metrics** – Historically, prior to COVID-19, staff from this program leveraged over \$3 million in sponsorships; \$2 to \$5 million in public-private partnerships; between \$5 to \$10 million in grants annually; and supported meeting revenue targets from program fees.

Performance measures tracked that are relevant to this program include the percentage of Portland residents participating in a PP&R program and the percentage of residents visiting a park at least once in the past year. According to the City Budget Office’s 2019 Insight Survey, 50% of respondents have participated in a recreation program and 97% report visiting a park or natural area in the last 12 months.

PP&R has recently created a Healthy Parks, Healthy Portland Framework to guide planning for 2021 and beyond. The bureau spent 2020 evaluating the success of its three major plans: Vision 2020, 2017-2020 Strategic Plan, and Five-Year Racial Equity Plan. As part of its strategic planning work in 2021, PP&R will be creating new performance measures and aligning them with strategic objectives and organizational workplans. In particular, PP&R will identify performance measures for equity objectives.

In many cases, PP&R performance was and continues to be affected by the COVID-19 public health emergency. The bureau expects that FY 2021-22 programs and services will continue to be responsive to the public health and economic emergency.

Performance	Actuals FY 2018-19	Actuals FY 2019-20	Target 2020-21	Target FY 2021-22	Strategic Target
Percentage of households visiting a park	NA	NA	NA	NA	95%
Percentages of households participating in recreation activities	NA	0%	NA	NA	35%

## Explanation of Services

PP&R's Marketing and Communication Program offers three categories of services:

**Marketing and Communication:** Strong stories and engaging photography and design are the foundation of successful communications. Communications and promotions plans are developed to match the needs of individual projects or programs. This Program develops marketing and promotions plans and uses print (posters, fliers, regional guides, and advertisements in local publications) and digital communications (web, e-newsletters, social media, television, and radio) to execute them.

**Community Engagement:** Processes that strengthen community outcomes are designed for each program. Outreach strategies through phone, focus groups, digitally, and public meetings are all used to accomplish Program goals.

**Partnerships and Development:** Creating and stewarding partnerships strengthens community ties to PP&R's parks and recreation system and generates additional sponsorship, grant, or donation revenue for investment in projects or programs. This Program Offer's budget has overlap with the Community Engagement program and does not include the recreation marketing team.

## Equity Impacts

Communities of color and underserved communities are served by PPR's Marketing and Communication Program. To help make sure that Black, Indigenous, and People of Color (BIPOC), and other marginalized communities are benefiting from the mental and physical health benefits of PP&R's work, the bureau needs to proactively market to the those communities and invite them into our parks, pools and community centers. The results of equitable marketing and communications are tracked through survey and listening session reporting, and program attendance.

The Marketing and Communication Program is successful when marginalized communities feel welcome and safe accessing PP&R's programs and services. When people feel welcome and participate in PP&R's programs, their mental and physical health improves.

The Marketing and Communication Program's most significant recent success in achieving equity was translating and utilizing universal symbols to create thousands of signs to help park users understand how to use park assets safely, and how to diminish the spread of COVID-19 during the global pandemic. The bureau produced approximately 3,500 COVID signs in English and four languages; bathroom cleaning signs were translated into 23 languages and temporarily closed signs were translated into 18 languages.

New positions supported by the Parks 2020 Operations Levy provide an opportunity to improve employee diversity metrics. PP&R has made great strides in diversifying its workforce. In 2015, the bureau's regular staff was 18% BIPOC; currently, our regular staff is 28% BIPOC. Managers increased from 11% BIPOC in 2015 to almost 30% at present; Black managers increased from 3% to 19%.

Overall, including our seasonal and casual employees, our workforce is currently 31.7% BIPOC. PP&R will continue to diversify its workforce when hiring for the permanent and seasonal and casual positions made possible by levy resources. Additional resources in the Workforce Development and Equity & Inclusion teams will also help us improve our onboarding and training for staff, which will help improve retention and promotion of BIPOC staff members. These investments will also improve outcomes related to how employees feel about their PP&R work experience.

## Changes to Program

In 2020, due to the COVID-19 public health emergency, PP&R experienced a massive shift in operations and service levels. Portlanders have seen painful service level reductions, many of which continue, including closed community and art centers, pools, and the cancelation of all public event permits, except for group sizes approved by the State of Oregon.

COVID-19 impacted all City bureaus and dramatically affected revenues. The City implemented wage freezes and furloughs, and bureaus were asked to take budget reductions. PP&R’s budget was reduced further as 30% of its operating budget was dependent on program fee revenue that would not be earned. PP&R laid off over 750 seasonal and casual staff, did not fill open vacancies, reduced capital budgets, and reduced spending on materials and services.

In November of 2020, Portland voters passed the Parks 2020 Operating Levy, a five-year levy to provide Recreation for All, Protect and Grow Nature, and support Community Partnerships. Portland Parks & Recreation is grateful to the community for its support and is excited to have the opportunity to restore programs and services, with a focus on serving Black, Indigenous, and People of Color, refugee and immigrant communities, people experiencing poverty, people living with disabilities, and older adults.

The City Council’s levy referral to the ballot promised restoration of summer programs in 2021. PP&R will request City Council approval to access funds in FY 2020-21 to ramp up operations to provide summer programs, build capacity for levy-funded program expansion, and address critical points of potential failure in the bureau. This FY 2021-22 Requested Budget includes these items. PP&R will continue to engage the community to create a complete FY 2021-22 levy budget as part of the City’s Fall Budget Monitoring Process submission in September 2021.

The FY 2021-22 Requested Budget includes 2 new community engagement FTE in the Marketing and Communication Program to help the bureau better inform and invite BIPOC Portlanders and other marginalized communities to participate in PP&R’s programs. By providing welcoming and inclusive information to all Portlanders, the mental and physical health benefits of PP&R’s programs can be experienced more equitably across the City

## Program Budget

Ending Fund Balance					
<b>Requirements Total</b>	825,915	664,948	805,336	725,220	955,014
<b>FTE</b>	8.00	6.00	5.00	4.66	6.66

## Budget Narrative

- Resources** Operations of this program are primarily funded with General Fund discretionary and, beginning in FY 2021-22, resources from the Parks 2020 Operating Levy.
- Expenses** Most of the Program expenses are related to staff costs. Other costs are related to communications technology that support programs bureau wide.
- Staffing** The Marketing and Communication Program includes 6.6 FTE positions. Part-time or contract staff are also utilized to accommodate increases in workload. However, this requires available funding so that staff time can be charged to specific projects.
- Assets and Liabilities** There are no capital assets valued at above \$10,000 associated with this program. Smaller value assets are replaced when broken or out of date and when external materials and services funding is available or, if capital project related, can be charged to a capital project.

## Natural Area Maintenance

### Program Description & Goals

Portland Parks & Recreation's (PP&R) Natural Area Maintenance Program provides natural resources and passive recreation services across 73 natural areas and over 8,000 acres of forests, wetlands, meadows, and other natural landscapes. The Program plans and implements vegetation management treatments to improve the ecological health of natural areas, support native wildlife, and keep natural areas healthy for future generations.

The Program manages more than 120 miles of soft surface trails that provide healthy recreational opportunities and enhance the livability of the city for Portlanders. It includes the Protect the Best Program, an innovative vegetation management program that treats healthy 'core habitat' and Renew Forest Park, a holistic approach to repairing the largest forested city park in the U.S. The Program manages Powell Butte, Oaks Bottom, and Forest Park, some of the city's most treasured assets as well as hundreds of bridges, culverts, boardwalks, signs, trailheads, restrooms, and other built assets that keep Portland's natural areas accessible to visitors and provide unique opportunities for people to experience nature locally.

Natural Area Maintenance Program performance measures used internally to track progress include: number of native trees and shrubs planted; invasive trees removed; miles of trail maintained or repaired; number of hours engaging volunteers in stewardship activities; and number of young people from diverse applicant pools employed in environmental jobs.

PP&R performance measures tracked relevant to this program include:

Total acres of park land treated for invasive weeds: PP&R's total acres of park land treated for invasive weeds has been declining since FY 2015-16. This has happened for three reasons: 1) less work has been done in Forest Park in recent years; 2) PP&R traditionally has paid the Bureau of Environmental Services to help conduct this work and, in recent years, there has been less money to fund it; and 3) many recent areas were retreated, which means spot treatment on 10 to 20% of the acreage, lowering the total acres treated.

Percentage of natural areas in good or very good condition: The percentage of nature areas condition assessment is measured every five years with the last measurement occurring in 2014. The measurement planned for 2020 was not able to occur due to staffing changes and the pandemic response. The next measurement will be scheduled for 2021 and 2022.

PP&R has recently created a Healthy Parks, Healthy Portland Framework to guide planning for 2021 and beyond. The bureau spent 2020 evaluating the success of its three major plans: Vision 2020, 2017-2020 Strategic Plan, and Five-Year Racial Equity Plan. As part of its strategic planning work in 2021, PP&R will be creating new performance measures and aligning them with strategic objectives and organizational workplans. In particular, PP&R will identify performance measures for equity objectives.

PP&R performance was and continues to be affected by the COVID-19 public health emergency. The bureau expects that FY 2021-22 programs and services will continue to be responsive to the public health and economic emergency.

Performance	Actuals FY 2018-19	Actuals FY 2019-20	Target 2020-21	Target FY 2021-22	Strategic Target
Percentage of natural areas in good or very good condition	53%	NA	53%	NA	53%
Number of acres of invasive weeds treated annually	1,021	1,185	0	NA	2,450

## Explanation of Services

PP&R’s Natural Area Maintenance Program manages natural areas across the city. As the city becomes more densely populated, urban natural areas play an even more critical role in providing livability and access to nature. Additionally, preservation of natural areas is one important element for providing locally clean air and water and, on a larger scale, combating the effects of climate change.

The more natural areas are used by visitors, the more maintenance they require to keep weeds out, native vegetation and streams healthy, trails accessible, and infrastructure sound.

The Natural Area Maintenance program:

- ◆ assesses ecosystem functions and threats;
- ◆ initiates vegetation treatments to improve natural area conditions;
- ◆ removes invasive plants;
- ◆ plants native trees, shrubs and grasses;
- ◆ conducts wildlife surveys and vegetation monitoring;
- ◆ assesses trails and plan improvements;
- ◆ completes trail maintenance and improvements, including leaf removal, tread repair, building rock walls, timber steps, and turnpikes;
- ◆ performs storm response, including removing trees from trails and addressing landslides and erosion issues;
- ◆ cleans sites of vacated homeless camps;
- ◆ removes graffiti and abating vandalism;
- ◆ completes daily care and cleaning of natural areas and their associated built assets;
- ◆ provides stewardship opportunities to students, youth, adults, groups and families, connecting volunteers to natural area restoration; and
- ◆ works with community partners, researchers, and colleagues to continually develop best management practices.

## Equity Impacts

PP&R's Natural Area Maintenance Program includes the Natural Areas Stewardship program that works with volunteers of all ages to restore and enhance Portland's parks and natural areas. Through volunteer events, they engage with over 120 partner groups serving racially and ethnically diverse communities, including student groups from Title I schools, seniors and groups from culturally specific community organizations.

Stewardship Coordinators support long-term mentorship and career opportunities for young people from diverse backgrounds by collaborating with multiple internship programs. Natural Areas Stewardship provides support to programs like Audubon TALON, the Green Workforce Collaborative, Lents Youth Initiative, and PP&R Environmental Education Teen Program. Stewardship Coordinators also work with two PP&R Youth Conservation Crews (YCC) for eight weeks in the summer, helping to provide job skills and networking opportunities to young environmental leaders. This work engages young people with relevant, culturally responsive experiences that help foster awareness of environmental justice. PP&R's Natural Area Maintenance Program specifically allocates stewardship and Youth Conservation Crew resources to communities of color and historically underrepresented communities. The Youth Conservation Crew program directly contributes to a more diverse hiring pool for seasonal employees for the entire Bureau and helps meet the Racial Equity Plan in these ways:

- ◆ increase the percentage of employees of color hired seasonally and promoted;
- ◆ streamline the hiring process and increase hiring and retention of full-time and seasonal employees of color
- ◆ provide career development guidance for employees of color to advance within the Bureau; and
- ◆ scale existing programs and create a formal youth internship program for youth of color, and refugees and immigrant youth to have employment experience. New positions supported by the Parks 2020 Operations Levy provide an opportunity to improve employee diversity metrics. PP&R has made great strides in diversifying its workforce. In 2015, the bureau's regular staff was 18% BIPOC; currently, our regular staff is 28% BIPOC. Managers increased from 11% BIPOC in 2015 to almost 30% at present; Black managers increased from 3% to 19%. Overall, including our seasonal and casual employees, our workforce is currently 31.7% BIPOC. PP&R will continue to improve its workforce BIPOC percentages when hiring for the permanent and seasonal and casual positions made possible by levy resources. Additional resources in Workforce Development and Equity & Inclusion will also help us improve our onboarding and training for staff, which will help improve retention and promotion of BIPOC staff members. These investments will also improve outcomes related to how employees feel about their PP&R experience. In summer 2021 the Natural Area Maintenance Program will strive for 50% of program registrants to come from Black, Indigenous, or People of Color, Immigrants and Refugees, and families experiencing financial hardship.

## Changes to Program

In 2020, due to the COVID-19 public health emergency, PP&R experienced a massive shift in operations and service levels. Portlanders have seen painful service level reductions, many of which continue, including closed community and art centers, pools, and the cancelation of all public event permits, except for group sizes approved by the State of Oregon.

COVID-19 impacted all City bureaus and dramatically affected revenues. The City implemented wage freezes and furloughs, and bureaus were asked to take budget reductions. PP&R’s budget was reduced further as 30% of its operating budget was dependent on program fee revenue that would not be earned. PP&R laid off over 750 seasonal and casual staff, did not fill open vacancies, reduced capital budgets, and reduced spending on materials and services.

In November of 2020, Portland voters passed the Parks 2020 Operating Levy, a five-year levy to provide Recreation for All, Protect and Grow Nature, and support Community Partnerships. Portland Parks & Recreation is grateful to the community for its support and is excited to have the opportunity to restore programs and services, with a focus on serving Black, Indigenous, and People of Color, refugee and immigrant communities, people experiencing poverty, people living with disabilities, and older adults.

The City Council’s levy referral to the ballot promised restoration of summer programs in 2021. PP&R will request City Council approval to access funds in FY 2020-21 to ramp up operations to provide summer programs, build capacity for levy-funded program expansion, and address critical points of potential failure in the bureau. This FY 2021-22 Requested Budget includes these items. PP&R will continue to engage the community to create a complete FY 2021-22 levy budget as part of the City’s Fall Budget Monitoring Process submission in September 2021.

Levy funding will support 1 new FTE to support the Youth Conservation Crew Program. This position will focus on coordinating and growing the Program. General Fund and Levy funding will support the Youth Conservation Crew and focus on growing the program.

## Budget Narrative

- Resources** Operations of this Program are primarily funded with General Fund discretionary and, beginning in FY 2021-22, resources from the Parks 2020 Operating Levy. The Program also receives a small amount of support from the Portland Water Bureau for collaborative work on Powell Butte and some grant funding from community partners.
- Expenses** Program expenses are primarily personnel and some funding for materials and services for trucks, plant materials, and other supplies.
- Staffing** The program consists of 22.2 FTE, in addition to casual staff.
- Assets and Liabilities** The program manages 72 natural areas, including parking lots, signs, more than 200 miles of trails, scores of bridges and culverts, and other physical assets. The program also manages Forest Park and Powell Butte.

## Park Maintenance

### Program Description & Goals

Portland Parks & Recreation’s (PP&R) Park Maintenance Program strives to provide clean, safe, functional, and beautiful parks throughout the city throughout the year. This Program maintains daily operations at 146 parks and approximately 3,500 acres across Portland. Most parks contain many assets—benches, pathways, restrooms, playgrounds, athletic fields, and other active and passive recreational amenities. Most of these assets are cleaned and inspected daily to provide a clean, safe, and positive public experience. In addition to built park assets, people come to parks to experience beauty in nature. Most parks contain grass, ornamental plants, and trees that provide nature in the urban landscape.

PP&R’s Parks Maintenance Program measures the percentage of residents who rate park grounds as well maintained. Historic values for this metric came from the City Auditor’s Annual Survey, which has been discontinued. While the survey was in place, overall percentage of residents rating the quality of grounds as ‘Good’ or ‘Very Good’ remained steady at 84% to 85%. Ratings varied among neighborhood coalitions, however, with 89% of Inner Northeast residents rating grounds as well maintained while only 68% of East Portlanders did.

PP&R’s 2017 Community Needs Survey and the 2019 Portland Insight Survey did not specifically ask about the quality of park facilities, but they did survey on safety and cleanliness. In those surveys, citywide survey result ratings are markedly higher than survey result ratings for safety and cleanliness from East Portland respondents.

PP&R has recently created a Healthy Parks, Healthy Portland Framework to guide planning for 2021 and beyond. The bureau spent 2020 evaluating the success of its three major plans: Vision 2020, 2017-2020 Strategic Plan, and Five-Year Racial Equity Plan. As part of its strategic planning work in 2021, PP&R will be creating new performance measures and aligning them with strategic objectives and organizational workplans. In particular, PP&R will identify performance measures for equity objectives.

PP&R performance was and continues to be affected by the COVID-19 public health emergency. The bureau expects that FY 2021-22 programs and services will continue to be responsive to the public health and economic emergency.

Performance	Actuals FY 2018-19	Actuals FY 2019-20	Target 2020-21	Target FY 2021-22	Strategic Target
Percent of residents rating park grounds as well maintained	NA	NA	NA	NA	85%

## Explanation of Services

PP&R's Park Maintenance Program provides the daily care of parks that make them safe each day and ensures that physical and living assets are maintained and sustained for future generations. Park Maintenance services include:

- ◆ inspecting and repairing playgrounds and playground equipment;
- ◆ opening and cleaning restrooms;
- ◆ removing garbage and litter;
- ◆ clearing and cleaning pathways and benches;
- ◆ repairing plumbing and lighting infrastructure;
- ◆ cleaning and repairing athletic courts and fields;
- ◆ operating hundreds of irrigation systems;
- ◆ maintaining the health of grass, trees, and ornamental landscapes from neighborhood parks to world-class venues like the Hoyt Arboretum and the Washington Park International Rose Garden;
- ◆ cleaning sites of vacated homeless camps;
- ◆ preparing for and cleaning up after permitted events;
- ◆ maintaining and operating various heavy equipment;
- ◆ mowing, raking, edging and trimming lawns, and green spaces, and ground trim trees;
- ◆ operating power equipment, edgers, chainsaws and other small grounds maintenance equipment;
- ◆ watering and weeding lawns, shrubs, and flower beds; and
- ◆ assists Horticulturists in gardening work.

Parks Maintenance is assisted by community volunteers who contribute tens of thousands of hours in parks, improving the conditions of cleanliness and plant care. Park Maintenance staff meet regularly with neighborhood park coalitions to solicit feedback on park maintenance and improvements

## Equity Impacts

Portland parks are utilized by all backgrounds and exist in many neighborhoods. Land Stewardship serves underrepresented communities of color by performing routine maintenance, such as maintaining playground equipment, removing garbage and debris, cleaning restrooms, providing informational signage and checking park grounds for additional hazards or threats to the public. Completion of these tasks helps create safe spaces for all citizens to recreate. This can be particularly important for low-income and underserved communities that may lack disposable income and access to play elsewhere.

PP&R's Park Maintenance Program supports PP&R's Five-Year Racial Equity Plan and other bureau goals related to racial and disability equity by providing maintenance services at all PP&R parks. The program staff focus on pathways, restrooms, benches, and other assets needing daily care to ensure that safe access to these basic services are free of additional barriers to those with limited abilities.

Land Stewardship maintenance activities are tracked and accounted for daily through MicroMain work order system. MicroMain is a maintenance and facility management software designed to streamline operations and extend asset life. MicroMain captures how much time is spent in a park working on any given asset.

Land Stewardship serves the public by providing safe, healthy green spaces to recreate. Parks are one of the last public places that are not cost prohibitive to community members. Parks are also an important resource for non-homeowners who do not have a yard of their own, or individuals who do not otherwise have access to open and natural areas.

Land Stewardship's most recent success related to equity is continuing to open new safe green spaces for families to recreate, especially in areas that have been previously underserved. Successful parks are markers of healthy communities: children play; families spend time together; people of all ages exercise and relax; and the environment adds to the beauty, security, and economic value of the neighborhood.

New positions supported by the Parks 2020 Operations Levy provide an opportunity to improve employee diversity metrics. PP&R has made great strides in diversifying its workforce. In 2015, the bureau's regular staff was 18% BIPOC; currently, our regular staff is 28% BIPOC. Managers increased from 11% BIPOC in 2015 to almost 30% at present; Black managers increased from 3% to 19%.

Overall, including our seasonal and casual employees, our workforce is currently 31.7% BIPOC. PP&R will continue to diversify its workforce when hiring for the permanent and seasonal and casual positions made possible by levy resources. Additional resources in the Workforce Development and Equity & Inclusion teams will also help us improve our onboarding and training for staff, which will help improve retention and promotion of BIPOC staff members. These investments will also improve outcomes related to how employees feel about their PP&R work experience.

## Changes to Program

In 2020, due to the COVID-19 public health emergency, PP&R experienced a massive shift in operations and service levels. Portlanders have seen painful service level reductions, many of which continue, including closed community and art centers, pools, and the cancelation of all public event permits, except for group sizes approved by the State of Oregon.

COVID-19 impacted all City bureaus and dramatically affected revenues. The City implemented wage freezes and furloughs, and bureaus were asked to take budget reductions. PP&R’s budget was reduced further as 30% of its operating budget was dependent on program fee revenue that would not be earned. PP&R laid off over 750 seasonal and casual staff, did not fill open vacancies, reduced capital budgets, and reduced spending on materials and services.

In November of 2020, Portland voters passed the Parks 2020 Operating Levy, a five-year levy to provide Recreation for All, Protect and Grow Nature, and support Community Partnerships. Portland Parks & Recreation is grateful to the community for its support and is excited to have the opportunity to restore programs and services, with a focus on serving Black, Indigenous, and People of Color, refugee and immigrant communities, people experiencing poverty, people living with disabilities, and older adults.

The City Council’s levy referral to the ballot promised restoration of summer programs in 2021. PP&R will request City Council approval to access funds in FY 2020-21 to ramp up operations to provide summer programs, build capacity for levy-funded program expansion, and address critical points of potential failure in the bureau. This FY 2021-22 Requested Budget includes these items. PP&R will continue to engage the community to create a complete FY 2021-22 levy budget as part of the City’s Fall Budget Monitoring Process submission in September 2021.

The FY 2021-22 Requested Budget includes resources to increase front-line staffing levels, as well as provide supervisory support for staff delivering service across all parks, with an emphasis on East Portland Parks. There is a current gap in span-of-control for swing shift staff city-wide, turf maintenance city-wide, and newly developed East Portland Parks such as Gateway Discovery Park, Luuwit View Park, and Verdell Burdine Rutherford Park. These investments directly address the immediate need for increased service levels in East Portland, while also addressing direct service and employee support gaps on a city-wide level. Increased security and monitoring for our maintenance facilities directly addresses an employee concern noted in the most recent employee survey by committing resources to develop and actively monitor security cameras and alarm systems at PP&R’s work sites.

## Budget Narrative

- Resources** Operations of this Program are primarily funded with General Fund discretionary and, beginning in FY 2021-22, resources from the Parks 2020 Operating Levy.
- Expenses** Expenses total \$19.9 million for this Program. Work is conducted by field staff, both regular staff and casual staff (Seasonal Maintenance Workers for peak season). Materials and services are needed for vehicles, equipment, landscape materials, and supplies. Parking revenue that supports capital improvements to Washington Park are also included in this program.
- Staffing** The Parks Maintenance program includes 103.8.0 FTE’s. The program also hires about 40 seasonal maintenance workers each year who work between 800-1,400 hours each.
- Assets and Liabilities** The Parks Maintenance program oversees 146 developed parks including over 3,500 acres of land.

# Planning

## Program Description & Goals

Portland Parks & Recreation’s (PP&R) Planning Program provides organization-wide guidance for the planning, development, sustainment, modernization, and quality of built and natural infrastructure. Major responsibilities include:

- ◆ overseeing, developing, and renewing the bureau’s long-range and short-range planning efforts;
- ◆ completing park, natural area, and regional trails master plans;
- ◆ establishing sustainable and equitable service levels for park assets and making recommendations for parkland and trail system acquisition; and
- ◆ developing policy and zoning code changes to benefit PP&R and advance equity objectives.

Five metrics have been used to track progress for the Planning Program. The first two metrics listed below have been calculated annually for more than a decade. However, a severe data issue from the Multnomah County has impeded the county’s ability to gather tax lot information (needed for the calculation) and has left the bureau unable to clearly calculate the metric for 2018, 2019 or 2020. The percentage of residents rating the closeness of their neighborhood park as ‘good’ or ‘very good’ was gathered from a 2017 Community Needs Survey.

PP&R has recently created a Healthy Parks, Healthy Portland Framework to guide planning for 2021 and beyond. The bureau spent 2020 evaluating the success of its three major plans: Vision 2020, 2017-2020 Strategic Plan, and Five-Year Racial Equity Plan. As part of its strategic planning work in 2021, PP&R will be creating new performance measures and aligning them with strategic objectives and organizational workplans. In particular, PP&R will identify performance measures for equity objectives.

PP&R performance was and continues to be affected by the COVID-19 public health emergency. The bureau expects that FY 2021-22 programs and services will continue to be responsive to the public health and economic emergency.

Performance	Actuals FY 2018-19	Actuals FY 2019-20	Target 2020-21	Target FY 2021-22	Strategic Target
Percentage of residents living within one-half mile of a park or natural area	NA	NA	81%	NA	81%
Percentage of residents living within three miles of a full-service community center	NA	71%	70%	NA	70%
Percentage of residents rating the closeness of their neighborhood park as good or very good	NA	NA	NA	NA	83%
Number of miles of regional trails	158	157	160	NA	160

## Explanation of Services

PP&R's Planning program:

- ◆ creates, manages, and oversees implementation of PP&R's long-range plan;
- ◆ establishes sustainable levels of service for PP&R assets (parks, trails, community centers, natural areas, pools, etc.), specifying what should be provided to residents over time;
- ◆ completes park and trail master plans, working with the public on design plans, and engages underserved and hard to reach communities (with clear results from the recent 2017 Mill, Midland, and Division & 150th Park Master Plans);
- ◆ negotiates land use applications with large scale developments and reviews land use applications; and
- ◆ leads the Capital Growth Project selection process for the bureau.

## Equity Impacts

The Planning Program is instrumental in the development of each year's annual proposed Capital Growth Project list. The purpose of this list is to suggest projects that increase equitable access to park resources in park deficient areas for communities of color and underserved communities in Portland. Since 2017 PP&R has invested over 80% of Capital Growth dollars in areas with a higher than city average percentages of one of our equity metrics (youth 0-18 years old, People of Color, households experiencing poverty).

Additionally, this year PP&R's Planning Program is completing Level of Service (LOS) studies that have reached out extensively to Black, Indigenous, and People of Color and immigrant and refugee communities with 12 listening sessions, including 152 participants. These listening sessions allowed the community to identify desired park features and help prioritize areas for future increased investments. The LOS will establish minimum target levels of service for all Portlanders, with a focus on communities of color and underserved communities in Portland.

## Changes to Program

In 2020, due to the COVID-19 public health emergency, PP&R experienced a massive shift in operations and service levels. Portlanders have seen painful service level reductions, many of which continue, including closed community and art centers, pools, and the cancelation of all public event permits, except for group sizes approved by the State of Oregon.

COVID-19 impacted all City bureaus and dramatically affected revenues. The City implemented wage freezes and furloughs, and bureaus were asked to take budget reductions. PP&R's budget was reduced further as 30% of its operating budget was dependent on program fee revenue that would not be earned. PP&R laid off over 750 seasonal and casual staff, did not fill open vacancies, reduced capital budgets, and reduced spending on materials and services.

In November of 2020, Portland voters passed the Parks 2020 Operating Levy, a five-year levy to provide Recreation for All, Protect and Grow Nature, and support Community Partnerships. Portland Parks & Recreation is grateful to the community for its support and is excited to have the opportunity to restore programs and services, with a focus on serving Black, Indigenous, and People of Color, refugee and immigrant communities, people experiencing poverty, people living with disabilities, and older adults.

The City Council’s levy referral to the ballot promised restoration of summer programs in 2021. PP&R will request City Council approval to access funds in FY 2020-21 to ramp up operations to provide summer programs, build capacity for levy-funded program expansion, and address critical points of potential failure in the bureau. This FY 2021-22 Requested Budget includes these items. PP&R will continue to engage the community to create a complete FY 2021-22 levy budget as part of the City’s Fall Budget Monitoring Process submission in September 2021.

## Property

### Program Description & Goals

Portland Parks & Recreation's (PP&R) Property Program supports the management of more than 11,712 acres of parkland, including 146 developed parks, 8,000 acres of natural areas, and all bureau structures with the goal of delivering a wide range of parks and recreation services to a diverse array of park users. Select outcomes of the Property Program are to:

- ◆ activate PP&R property through mission-aligned partnerships;
- ◆ generate revenue to support the sustainable operation and expansion of Bureau properties;
- ◆ equitably manage the total inventory of PP&R property to support the delivery of parks and recreation services to all Portlanders;
- ◆ promote the Bureau's uptake of asset management best practices;
- ◆ collect, analyze, and maintain key asset data to guide the long-term Capital Maintenance and Improvement Plans; and
- ◆ provide operational support in key areas.

The Property Program includes two PP&R teams: Property Management and Asset Management.

PP&R has recently created a Healthy Parks, Healthy Portland Framework to guide planning for 2021 and beyond. The bureau spent 2020 evaluating the success of its three major plans: Vision 2020, 2017-2020 Strategic Plan, and Five-Year Racial Equity Plan. As part of its strategic planning work in 2021, PP&R will be creating new performance measures and aligning them with strategic objectives and organizational workplans. In particular, PP&R will identify performance measures for equity objectives.

PP&R performance was and continues to be affected by the COVID-19 public health emergency. The bureau expects that FY 2021-22 programs and services will continue to be responsive to the public health and economic emergency.

### Explanation of Services

PP&R's Property team:

- ◆ issues permits for park users and non-park users;
- ◆ drafts, negotiates, and manages property agreements;
- ◆ facilitates property acquisition and disposition;
- ◆ coordinates with other agencies and landowners; and
- ◆ leads strategic partnership efforts.

The Asset Management team:

- ◆ works to advance the Bureau's uptake of asset management best practices;
- ◆ assesses condition of assets and facilities;
- ◆ manages the project selection process of PP&R's major maintenance program and budget (with equity screens);
- ◆ supports PP&R operations with mandatory sidewalk inspections, work-order flow, utility locate screening, and asset information collection, investigations, and management; and
- ◆ manages PP&R's 20-year Capital Improvement Program data in conjunction with the Planning and Capital Project programs.

## Equity Impacts

PP&R's Property Program has a variety of direct and indirect impacts on the equitable delivery of services. Which uses are allowed in parks, how much they cost or how they get funded, where they are allowed, and what condition they are in all have varying impacts on communities of color and underrepresented groups. The Property & Business Development team must balance legacy user expectations, changing community needs, infrastructure and maintenance costs, and internal resource allocation, while keeping access equitable and affordable. The Property Program works to balance budgetary constraints and provide equitable levels of service to all park users. To ensure these values are upheld, careful reviews of all permit fees are conducted to ensure that individual use and commercial charges are appropriately in balance and meet the demographic needs of surrounding communities.

The Asset Management team detects, elevates, and addresses unintended service disparities through a systematic approach, structured process evolution, and data management. Asset Management frameworks, with an embedded equity lens, strive to balance value, cost, and risk over time, working to better achieve intergenerational equity in physical infrastructure investment and consumption for a future, more diverse Portland. It also tracks progress by evaluating infrastructure and work orders for disparities using demographic data.

New positions supported by the Parks 2020 Operations Levy provide an opportunity to improve employee diversity metrics. PP&R has made great strides in diversifying its workforce. In 2015, the bureau's regular staff was 18% BIPOC; currently, our regular staff is 28% BIPOC. Managers increased from 11% BIPOC in 2015 to almost 30% at present; Black managers increased from 3% to 19%.

Overall, including our seasonal and casual employees, our workforce is currently 31.7% BIPOC. PP&R will continue to diversify its workforce when hiring for the permanent and seasonal and casual positions made possible by levy resources. Additional resources in the Workforce Development and Equity & Inclusion teams will also help us improve our onboarding and training for staff, which will help improve retention and promotion of BIPOC staff members. These investments will also improve outcomes related to how employees feel about their PP&R work experience.

## Changes to Program

In 2020, due to the COVID-19 public health emergency, PP&R experienced a massive shift in operations and service levels. Portlanders have seen painful service level reductions, many of which continue, including closed community and art centers, pools, and the cancelation of all public event permits, except for group sizes approved by the State of Oregon.

COVID-19 impacted all City bureaus and dramatically affected revenues. The City implemented wage freezes and furloughs, and bureaus were asked to take budget reductions. PP&R’s budget was reduced further as 30% of its operating budget was dependent on program fee revenue that would not be earned. PP&R laid off over 750 seasonal and casual staff, did not fill open vacancies, reduced capital budgets, and reduced spending on materials and services.

In November of 2020, Portland voters passed the Parks 2020 Operating Levy, a five-year levy to provide Recreation for All, Protect and Grow Nature, and support Community Partnerships. Portland Parks & Recreation is grateful to the community for its support and is excited to have the opportunity to restore programs and services, with a focus on serving Black, Indigenous, and People of Color, refugee and immigrant communities, people experiencing poverty, people living with disabilities, and older adults.

The City Council’s levy referral to the ballot promised restoration of summer programs in 2021. PP&R will request City Council approval to access funds in FY 2020-21 to ramp up operations to provide summer programs, build capacity for levy-funded program expansion, and address critical points of potential failure in the bureau. This FY 2021-22 Requested Budget includes these items. PP&R will continue to engage the community to create a complete FY 2021-22 levy budget as part of the City’s Fall Budget Monitoring Process submission in September 2021.

PP&R’s Property & Business Development team is adding staff capacity to fill in existing service gaps that are critical to the levy ramp and existing operations. Much of this group’s work is on the critical path for work in all divisions, and these new staff positions will ensure that new work and existing service gaps do not overstress the current system and lead to failures as the Bureau scales with the Levy.

PP&R’s Asset Management team is adding staff to provide critical institutional capacity for levy growth, ongoing operations, and more holistic implementation of asset management best practices, including natural asset portfolios and asset information management.

The Property Program is adding 6 new FTE as part of the FY 2021-22 Requested Budget.

## Program Budget

<b>FTE</b>	<b>11.75</b>	<b>12.00</b>	<b>14.00</b>	<b>14.00</b>	<b>20.00</b>

## Budget Narrative

- Resources** Operations of this program are primarily funded with General Fund discretionary and, beginning in FY 2021-22, resources from the Parks 2020 Operating Levy. Additional revenues come from non-parks use permits for construction and other temporary encroachments on parks property, lease and concessionaire payments, disposition proceeds, and other miscellaneous revenue.
- Expenses** Ongoing expenses include staff costs and materials and services.
- Staffing** The Property team includes 8.0 FTE, and the Asset Management team includes 12.0 FTE.
- Assets and Liabilities** While it does manage the use of PP&R properties, the Property program is not responsible for the day-to-day maintenance and operation or the long-term major maintenance and replacement of significant assets. All facilities and fleet vehicles used by Property staff are managed by the City. All replacement is funded through rates paid to the central service providers. Asset Management is responsible for significant corporate and program asset-data resources.

- Website:** portlandparks.org

## Recreation Facility Operations

### Program Description & Goals

Portland Parks & Recreation's (PP&R) Recreation Facility Operations provides the basic operating platform for the delivery of recreation programs, services, and opportunities. It includes the staffing, materials, and services necessary to open the doors at community centers, as well as the systems that support service delivery. It also includes a portion of management and supervisory costs and the staff that present thousands of recreation programs to the community.

Much of the work of Recreation Facility Operations involves oversight, care and coordination of the facility and its assets as management of the service focus functions including: facilitating the visitor experience, managing customer accounts, guest pass and class registrations, coordination of sales, inventory control, performance tracking and reporting; site rental management, safety coordination throughout each facility and more.

Recreation Facility Operation's key goals are to provide:

- ◆ community access to available facilities and resources;
- ◆ safe and effective use of resources to create the highest value for the community;
- ◆ quality and consistent customer experiences; and
- ◆ effective leadership, training, and resources for staff to deliver quality programming.

Desired outcomes for this Program are as follows:

- ◆ services are distributed equitably throughout the city;
- ◆ services are responsive to, and inclusive of, diverse communities;
- ◆ visitors and customers enjoy increased health and fitness due to participation;
- ◆ adequate facilities exist to meet current and future needs; and
- ◆ facilities provide welcoming spaces for social interaction and community use.

Program performance measures tracked that are relevant to this program include:

- ◆ In PP&R's 2017 Community Needs Survey, 22% of respondents overall indicated that the cost of programs was a barrier; 28% of East Portlanders cited cost as a barrier.
- ◆ The percent of participants who rate their experience as 'good' or 'very good'.

PP&R has recently created a Healthy Parks, Healthy Portland Framework to guide planning for 2021 and beyond. The bureau spent 2020 evaluating the success of its three major plans: Vision 2020, 2017-2020 Strategic Plan, and Five-Year Racial Equity Plan. As part of its strategic planning work in 2021, PP&R will be creating new performance measures and aligning them with strategic objectives and organizational workplans. In particular, PP&R will identify performance measures for equity objectives.

In many cases, PP&R performance was and continues to be affected by the COVID-19 public health emergency. The bureau expects that FY 2021-22 programs and services will continue to be responsive to the public health and economic emergency.

Performance	Actuals FY 2018-19	Actuals FY 2019-20	Target 2020-21	Target FY 2021-22	Strategic Target
Percentage of participants who rate their experience as good or very good	94%	NA	NA	NA	96%

### Explanation of Services

PP&R’s Recreation Facility Operations includes basic operations for:

- ◆ Nine Community Centers (Charles Jordan, East Portland, Matt Dishman, Mt. Scott, Southwest, Peninsula Park, St. Johns, Woodstock, Montavilla)
- ◆ Three Arts Facilities (Multnomah Arts Center, Community Music Center, Interstate Firehouse Cultural Center)
- ◆ Summer Free For All (Movies, Concerts, Free Lunch + Play), and
- ◆ Urban Parks (Gateway Discovery Park).

### Equity Impacts

Community Centers serve all Portlanders, including BIPOC youth and families, Immigrants and Refugees, families living in poverty, people living with disabilities, and older adults.

Due to the COVID-19 pandemic, PP&R has closed all community centers and pools and redefined programs as directed by public health guidelines issued by the Oregon Health Authority. Community Centers will not serve the community with access to aquatics, indoor fitness programs, special events, or rental spaces during this time, but will reopen when guidelines permit. Outdoor programs and services have continued as guidelines allow.

During the COVID-19 closure, Recreation Services has taken the opportunity to review its overall operations, customer service, partnerships, and staff management through an equity lens. This review of current practices and gaps in operation has led to the creation of focus groups, equity-based projects, staff engagement, and a shift in organizational culture.

Further, Recreation has created and introduced an outdoor based Fitness in the Park program with a goal to provide fitness, mind/body classes, and dance in an outdoor setting that is closer to home for Black, Indigenous, and People of Color, Immigrant and Refugee communities, people experiencing poverty, people living with disabilities, and older adults. With a ‘pay as you can’ model and outreach to our partner organizations, this program will provide opportunities to better serve our wider population and communities.

As recreation facilities open to the public, the Recreation Division will strive to provide 50% of registered capacity to BIPOC youth and families, Immigrants and Refugees, and families living in poverty through outreach with partner organizations. Language translation of program information and signage and virtual program opportunities will continue to expand access to Recreation programming.

Positions supported by the Parks 2020 Operations Levy provide an opportunity to improve division employee diversity metrics. PP&R has made great strides in improving the percentage of our workforce that is made up of Black, Indigenous, or People of Color (BIPOC). In 2015, the bureau’s regular staff was 18% BIPOC; currently, our regular staff is 28% BIPOC. PP&R BIPOC managers increased from 11% BIPOC in 2015 to almost 30% at present; Black managers increased from 3% to 19%.

Overall, including our Seasonal and Casual employees, our workforce is currently 31.7% BIPOC. PP&R will continue to improve its workforce BIPOC percentages when hiring for the permanent and Seasonal and Casual positions made possible by levy resources. Additional resources in Workforce Development and Equity & Inclusion will also help us improve our onboarding and training for staff, which will help improve retention and promotion of BIPOC staff members. These investments will also improve outcomes related to how employees feel about their PP&R experience.

## Changes to Program

In 2020, due to the COVID-19 public health emergency, PP&R experienced a massive shift in operations and service levels. Portlanders have seen painful service level reductions, many of which continue, including closed community and art centers, pools, and the cancelation of all public event permits, except for group sizes approved by the State of Oregon.

COVID-19 impacted all City bureaus and dramatically affected revenues. The City implemented wage freezes and furloughs, and bureaus were asked to take budget reductions. PP&R’s budget was reduced further as 30% of its operating budget was dependent on program fee revenue that would not be earned. PP&R laid off over 750 seasonal and casual staff, did not fill open vacancies, reduced capital budgets, and reduced spending on materials and services.

In November of 2020, Portland voters passed the Parks 2020 Operating Levy, a five-year levy to provide Recreation for All, Protect and Grow Nature, and support Community Partnerships. Portland Parks & Recreation is grateful to the community for its support and is excited to have the opportunity to restore programs and services, with a focus on serving Black, Indigenous, and People of Color, refugee and immigrant communities, people experiencing poverty, people living with disabilities, and older adults.

The City Council’s levy referral to the ballot promised restoration of summer programs in 2021. PP&R will request City Council approval to access funds in FY 2020-21 to ramp up operations to provide summer programs, build capacity for levy-funded program expansion, and address critical points of potential failure in the bureau. This FY 2021-22 Requested Budget includes these items. PP&R will continue to engage the community to create a complete FY 2021-22 levy budget as part of the City’s Fall Budget Monitoring Process submission in September 2021.

In summer of 2021, indoor recreation spaces will primarily be used to support outdoor activities. When recreation facilities reopen, program changes for operation under COVID-19 will shift established operation practices and services to meet public health guidelines. This will result in a change in operating hours; in a reduction of participants per class; a reduction in the scope of classes provided, with a focus on outdoor programming and youth classes; an increase in youth : instructor ratios; limited rentals; protocols implemented for cleaning, contact tracing, self-assessment, guest access and egress through buildings; reduced access to some amenities; limited drop-in activities; and other operational changes that may be required.

Levy resources support Summer 2021 Recreation programs by reducing dependence of fees, preserving full-time staff positions, and funding up to a total of 1,700 Seasonal and Casual Staff.

## Budget Narrative

### Resources

The Recreation Facility Operation program is primarily supported from the City’s General Fund. Parks 2020 Operating Levy funding may reduce revenue dependency in the facility operations and the FY 2021-22 levy budget will be detailed in the City’s Fall Budget Monitoring Process submission in September 2021. In the FY 2021-22 Requested Budget, the Recreation Facility Operations program is where the levy funding is budgeted that offsets Summer revenue losses due to COVID-19 for the entirety of the recreation budget.

- Expenses** Total expenses for the program are projected to be \$4.8 million in FY 2020-21, most of which is budgeted for staffing and building utilities.
- Staffing** The Recreation Facility Operation program include 10.0 FTE.
- Assets and Liabilities** Services delivered are at PP&R's community centers, some of which have significant deferred maintenance needs. The bureau does not currently have resources to address these critical needs.

## Program Information

- Website:** [portlandparks.org](http://portlandparks.org)

## Sports and Games

### Program Description & Goals

Portland Parks & Recreation's (PP&R) Sports and Games Program offers affordable and accessible health and wellness opportunities for all, with a focus on eliminating health disparities in Portland. The Sports and Games Program offers basketball, soccer, gymnastics, tennis, golf, skateboarding, fitness, and league play, 5K fun runs, clinics, matches and meets. It includes the Portland Tennis Center and partners with others to provide classes and clinics at outdoor courts. Sports and Games also contains enterprise fund programming, including PP&R's Golf Program and the Portland International Raceway.

The Sports and Games Program's key goals are to provide:

- ◆ a broad range of recreation activities to City of Portland residents and visitors;
- ◆ increased access to, and participation by, underserved communities, specifically communities of color and individuals with disabilities;
- ◆ access to available facilities and resources for community use; and
- ◆ an accessible employment pipeline with professional development opportunities for youth. Desired outcomes of the Sports and Games Program:
- ◆ service opportunities are distributed equitably throughout the city;
- ◆ services provide exposure to new experiences and opportunities to grow;
- ◆ services are responsive to, and inclusive of, diverse communities;
- ◆ residents enjoy increased health and fitness; and
- ◆ demographics of workforce, from service delivery to leadership, reflect the diversity of the Portland community.

The performance measure tracked for PP&R's Golf Program is the total number of golf rounds played. FY 2016-17 saw a record low rounds of golf played, but the number has steadily been increasing since. In recent years, efforts have been made to diversify the PP&R golf community, with programs being geared toward people of color, women, and youth. Since the COVID-19 pandemic hit in March of 2020, participation in Golf has increased.

PP&R has recently created a Healthy Parks, Healthy Portland Framework to guide planning for 2021 and beyond. The bureau spent 2020 evaluating the success of its three major plans: Vision 2020, 2017-2020 Strategic Plan, and Five-Year Racial Equity Plan. As part of its strategic planning work in 2021, PP&R will be creating new performance measures and aligning them with strategic objectives and organizational workplans. In particular, PP&R will identify performance measures for equity objectives.

PP&R performance was and continues to be affected by the COVID-19 public health emergency. The bureau expects that FY 2021-22 programs and services will continue to be responsive to the public health and economic emergency.

Performance	Actuals FY 2018-19	Actuals FY 2019-20	Target 2020-21	Target FY 2021-22	Strategic Target
Total number of golf rounds played (9 holes = 1 round)	341,725	386,216	350,000	350,000	350,000

## Explanation of Services

PP&R’s Sports and Games programs fall into these categories:

- ◆ Sports Programs: include the 90-year-old Saturday Youth Basketball program known as Goldenball, Portland Tennis Center, and the citywide 5K Run/Walk Series.
- ◆ Registered Sports and Fitness Activities: registered classes at community centers, including sports classes for parent-child interaction, youth, and adults; fitness classes such as Zumba, yoga, and Pilates; and martial arts such as Taekwondo and kickboxing.
- ◆ Drop-in Sports and Fitness Activities: fitness center usage and classes; drop-in basketball, volleyball, open court tennis, skateboarding, bouldering, and ping pong.
- ◆ Community Partnerships: special partnerships with the Blazers, the Timbers, US Tennis Association, and others.

## Equity Impacts

The Sport and Games Program engages participants across ages, abilities, races, and cultures. Goldenball has a long history and fills a unique niche in providing opportunities for low-cost recreational basketball competition for boys, and especially for girls. Support for the Sports and Games Program is achieved through assistance from Adaptive & Inclusive Recreation. Efforts include providing financial assistance to youth, coordination with Schools Uniting Neighborhoods (SUN) Service System to expand programming to underserved populations, and New Portlanders.

Culturally responsive programming is developed in concert with communities to improve engagement and outcomes. This program meets PP&R strategic and equity goals through internal and external partnerships to target engagement with communities of color and refugee and immigrant communities. This program also contributes to equity by offering diversified opportunities for youth and others to build employments skills.

New positions supported by the Parks 2020 Operations Levy provide an opportunity to improve employee diversity metrics. PP&R has made great strides in diversifying its workforce. In 2015, the bureau’s regular staff was 18% BIPOC; currently, our regular staff is 28% BIPOC. Managers increased from 11% BIPOC in 2015 to almost 30% at present; Black managers increased from 3% to 19%.

Overall, including our seasonal and casual employees, our workforce is currently 31.7% BIPOC. PP&R will continue to improve its diversity when hiring for the permanent, seasonal and casual positions made possible by levy resources. Additional resources in Workforce Development and Equity & Inclusion will also help PP&R improve its onboarding and training for staff, which will help improve retention and promotion of BIPOC staff members. These investments will also improve outcomes related to how employees feel about their PP&R work experience.

Community and Socialization programs will strive to provide 50% of activity capacity to BIPOC youth and families, immigrants and refugees, and families living in poverty through outreach with partner organizations. Language translation of program information and signage and virtual program opportunities will continue to expand access to programming.

## Changes to Program

In 2020, due to the COVID-19 public health emergency, PP&R experienced a massive shift in operations and service levels. Portlanders have seen painful service level reductions, many of which continue, including closed community and art centers, pools, and the cancelation of all public event permits, except for group sizes approved by the State of Oregon.

COVID-19 impacted all City bureaus and dramatically affected revenues. The City implemented wage freezes and furloughs, and bureaus were asked to take budget reductions. PP&R's budget was reduced further as 30% of its operating budget was dependent on program fee revenue that would not be earned. PP&R laid off over 750 seasonal and casual staff, did not fill open vacancies, reduced capital budgets, and reduced spending on materials and services.

In November of 2020, Portland voters passed the Parks 2020 Operating Levy, a five-year levy to provide Recreation for All, Protect and Grow Nature, and support Community Partnerships. Portland Parks & Recreation is grateful to the community for its support and is excited to have the opportunity to restore programs and services, with a focus on serving Black, Indigenous, and People of Color, refugee and immigrant communities, people experiencing poverty, people living with disabilities, and older adults.

The City Council's levy referral to the ballot promised restoration of summer programs in 2021. PP&R will request City Council approval to access funds in FY 2020-21 to ramp up operations to provide summer programs, build capacity for levy-funded program expansion, and address critical points of potential failure in the bureau. This FY 2021-22 Requested Budget includes these items. PP&R will continue to engage the community to create a complete FY 2021-22 levy budget as part of the City's Fall Budget Monitoring Process submission in September 2021.

In summer of 2021, levy resources will allow PP&R to offer some Sports and Games Programming. For example, PP&R will expand its Tennis Lessons in the Parks program and expects to serve at least 1,500 participants. PP&R will also continue to offer its Fitness in the Park program, piloted in summer of 2020, for at least 2,400 participants. Levy resources support these public programs and allow PP&R to retain full-time staff and hire a up to 100 Sports and Games seasonal and casual staff members for summer.

Sports and Games programming capacity will be affected by COVID-19 safety guidelines. PP&R will follow the public health guidelines from Oregon Health Authority (OHA) regarding participant to instructor/coach ratios and indoor and outdoor play.

## Budget Narrative

- Resources** Most of the revenue in this Program comes from program fees, particularly related to the golf program and the Portland International Raceway. The remainder typically comes from program fees. Levy funding will reduce revenue dependency in the program and the FY 2021-22 levy budget will be detailed in the City’s Fall Budget Monitoring Process submission in September 2021.
- Expenses** The FY 2021-22 Requested Budget includes \$15.1 million in expenses for the Sports and Games Program, and typically about half are in the Golf Program.
- Staffing** Total staffing is 45.6 FTE, almost half of which are in the Golf Program.
- Assets and Liabilities** Services delivered are at PP&R’s community centers, Golf courses, Raceways, and in some cases Portland Public Schools, some of which have significant deferred maintenance needs. The bureau does not currently have resources to address these critical needs.

- Program Contact:** Maximo Behrens
- Contact Phone:** 503-823-5103
- Website:** portlandparks.org

## Tree Maintenance

### Program Description & Goals

PP&R’s Tree Maintenance Program performs tree work on City-owned properties and Portland public streets by planting trees and providing tree maintenance services in City parks, natural areas, and properties owned by other City bureaus. This Program also ensures the safety of Portlanders by responding 24/7 to address tree hazards and failures in Portland’s public rights-of-way and on all City properties. The bureau’s performance measure related to Tree Maintenance is: percent of operation hours dedicated to non-emergency tree maintenance requests. PP&R has recently created a Healthy Parks, Healthy Portland Framework to guide planning for 2021 and beyond. The bureau spent 2020 evaluating the success of its three major plans: Vision 2020, 2017-2020 Strategic Plan, and Five-Year Racial Equity Plan. As part of its strategic planning work in 2021, PP&R will be creating new performance measures and aligning them with strategic objectives and organizational workplans. In particular, PP&R will identify performance measures for equity objectives. PP&R performance was and continues to be affected by the COVID-19 public health emergency. The bureau expects that FY 2021-22 programs and services will continue to be responsive to the public health and economic emergency.

Performance	Actuals FY 2018-19	Actuals FY 2019-20	Target 2020-21	Target FY 2021-22	Strategic Target
Percentage of hours of Urban Forest operations dedicated to non-emergency park trees	52%	49%	50%	50%	50%

## Explanation of Services

PP&R's Urban Forestry Division is guided by the Urban Forest Management Plan (UFMP) and City code, Title 11 Trees. The UFMP was developed by City staff in collaboration with a broad and diverse stakeholder group including the Urban Forestry Commission, Metro, Oregon Department of Forestry, and other community organizations. Adopted in 2004, the UFMP established the following goals for the City's Urban Forestry program:

- ◆ protect, preserve, restore, and expand Portland's urban forest;
- ◆ promote stewardship of the urban forest; and
- ◆ provide equitable urban forest benefits for all Portlanders. The Tree Maintenance Program specifically advances these goals by serving as the 'City's arborists' through the following services:
  - ◆ tree maintenance and removal;
  - ◆ 24-hour emergency tree response;
  - ◆ tree planting and establishment;
  - ◆ Heritage Tree maintenance;
  - ◆ Dutch Elm Disease management; and
  - ◆ community tree stewardship training. Metrics measured include number of park trees removed; number of park trees planted; number of park trees pruned; and number of tree emergencies responded to.

## Equity Impacts

Portland's urban forest is distributed inequitably across the city. The low-canopy areas are often in areas with high proportion of low-income residents, Black, Indigenous, People of Color (BIPOC), immigrants, and refugees. Given that Urban Forestry tree maintenance service is primarily responsive to tree hazards which pose risks to public safety, a disproportionate percentage of labor hours are in more affluent, well-treed neighborhoods. Additional Urban Forestry services and software infrastructure are needed to expand tree planting and maintenance in BIPOC, immigrant, and refugee communities.

New positions supported by the Parks 2020 Operations Levy provide an opportunity to improve division employee diversity metrics. PP&R has made great strides in diversifying its workforce. In 2015, the bureau's regular staff was 18% BIPOC; currently, our regular staff is 28% BIPOC. Managers increased from 11% BIPOC in 2015 to almost 30% at present; Black managers increased from 3% to 19%.

Overall, including PP&R's seasonal and casual employees, the bureau's workforce is currently 31.7% BIPOC. PP&R will continue to diversify its workforce when hiring for permanent and seasonal and casual positions made possible by levy resources. Additional resources in Workforce Development and Equity & Inclusion will also help PP&R improve its onboarding and training for staff, which will help improve retention and promotion of BIPOC staff members. These investments will also improve outcomes related to how employees feel about their PP&R work experience.

Further, when resources are available to support this effort, Urban Forestry intends to create an arborist trainee program which would provide a pathway to employment for BIPOC and women who are underrepresented in the arboriculture industry.

## Changes to Program

In 2020, due to the COVID-19 public health emergency, PP&R experienced a massive shift in operations and service levels. Portlanders have seen painful service level reductions, many of which continue, including closed community and art centers, pools, and the cancelation of all public event permits, except for group sizes approved by the State of Oregon.

COVID-19 impacted all City bureaus and dramatically affected revenues. The City implemented wage freezes and furloughs, and bureaus were asked to take budget reductions. PP&R's budget was reduced further as 30% of its operating budget was dependent on program fee revenue that would not be earned. PP&R laid off over 750 seasonal and casual staff, did not fill open vacancies, reduced capital budgets, and reduced spending on materials and services.

In November of 2020, Portland voters passed the Parks 2020 Operating Levy, a five-year levy to provide Recreation for All, Protect and Grow Nature, and support Community Partnerships. Portland Parks & Recreation is grateful to the community for its support and is excited to have the opportunity to restore programs and services for all Portlanders, with a focus on serving BIPOC, refugee and immigrant communities, people experiencing poverty, people living with disabilities, and older adults.

The City Council's levy referral to the ballot promised restoration of summer programs in 2021. PP&R will request City Council approval to access funds in FY 2020-21 to ramp up operations to provide summer programs, build capacity for levy-funded program expansion, and address critical points of potential failure in the bureau. This FY 2021-22 Requested Budget includes these items. PP&R will continue to engage the community to create a complete FY 2021-22 levy budget as part of the City's Fall Budget Monitoring Process submission in September 2021.

Levy funding will support 2 new FTE in Tree Maintenance. These will fill immediate needs to avoid potential operational failures. In FY 2019-20, Urban Forestry responded to 1,600 emergency tree failures, planted 230 trees, and provided establishment care to 700 more trees. This work was performed by 20 staff under the supervision of a single manager. This is an unsustainable arrangement which jeopardizes the timely and efficient delivery of services, including resolution of tree hazards posing risks to public safety.

Further, these positions provide the organizational framework necessary to ramp up as new levy funds become available. The funding will increase the capacity of Urban Forestry to proactively maintain the City's tree assets in parks and on other city-owned properties.

## Program Budget

## Budget Narrative

**Resources** The Tree Maintenance program is primarily funded through the General Fund, with additional revenue from services provided to other City bureaus like the Portland Bureau of Transportation. In addition, revenue comes from the Tree Planting and Preservation Fund and the Urban Forest Fund.

**Expenses** The FY 2021-22 Requested Budget includes \$9.7 million in expenses for the Tree Maintenance Program. Personnel costs account for \$3.3 million in the Tree Maintenance program. The program also incurs large equipment and supply expenses. Finally, outyear expenditures in the Urban Forestry-specific subfunds is budgeted as materials and services in the current year. Due to the inherently dangerous nature of tree work, expenses are necessary to include extensive training, equipment maintenance, and supplies to ensure staff safety.

**Staffing** In FY 2021-22, the Tree Maintenance program has 20.0 FTE.

**Assets and Liabilities** The Tree Maintenance program has a large fleet of trucks and heavy equipment.

# Tree Regulation

## Program Description & Goals

PP&R’s Tree Regulation Program includes Title 11 Trees, which was adopted by City Council in 2015 to support implementation of the City’s Urban Forest Management Plan (UFMP); protect the health, safety, and general welfare of the residents of Portland; enhance the appearance of the City; and protect trees as important ecological, cultural, and economic resources for the benefit of the City’s residents and visitors. The Tree Regulation Program is the primary entity responsible for implementing and enforcing Title 11. This includes all trees on City-owned properties and streets in development situations (such as construction on City-owned properties), impacts on street trees from building on nearby property, and supporting the Bureau of Development Services’ services regarding private property development and trees. The Tree Regulation Program also addresses all non-development situations involving street and City trees, for example, tree removal, maintenance, and planting.

The PP&R Tree Regulation Program is also responsible for implementing and enforcing tree regulations for all private properties when no development activity is present. For example, PP&R would have regulatory authority for the removal of a yard tree from a privately-owned business or residential property, with a few exceptions when overlay zones are involved. The Bureau of Development Services is responsible for implementation and enforcement of City codes related to trees on private properties in development situations.

Bureau performance measure related to the Tree Regulation program is: percent of Title 11 permits not closed (calendar year).

PP&R has recently created a Healthy Parks, Healthy Portland Framework to guide planning for 2021 and beyond. The bureau spent 2020 evaluating the success of its three major plans: Vision 2020, 2017-2020 Strategic Plan, and Five-Year Racial Equity Plan. As part of its strategic planning work in 2021, PP&R will be creating new performance measures and aligning them with strategic objectives and organizational workplans. In particular, PP&R will identify performance measures for equity objectives.

PP&R performance was and continues to be affected by the COVID-19 public health emergency. The bureau expects that FY 2021-22 programs and services will continue to be responsive to the public health and economic emergency.

Performance	Actuals FY 2018-19	Actuals FY 2019-20	Target 2020-21	Target FY 2021-22	Strategic Target
Percentage of Title 11 permits not closed (by calendar year)	1%	NA	0%	0%	0%

## Explanation of Services

PP&R's Tree Regulation Program preserves and enhances the City's forest and trees by facilitating, implementing, and enforcing the regulatory requirements of Title 11 (Trees). The program is the City's single point of contact (503-823-TREE, [trees@portlandoregon.gov](mailto:trees@portlandoregon.gov)) for all tree information, dispatches Urban Forestry staff to tree emergencies, and provides in-person permitting assistance at the City's Development Services Center. In addition, the Tree Regulation Program provides the following services:

- ◆ non-development tree permitting
- ◆ development tree permitting
- ◆ capital projects tree permitting
- ◆ Title 11 code compliance, and
- ◆ forest management.

## Equity Impacts

PP&R's Tree Regulation is a citywide program serving all Portlanders. While the program does not collect demographic information, efforts have been undertaken to remove known barriers to accessing permitting and regulation services.

PP&R's Tree Regulation Program makes documents and services readily available in multiple languages, including phone translation services for callers to 823-TREE and staff access while working on-site with property owners and residents. Safe harbor languages are on all key UF tree permitting forms and public communication documents. Urban Forestry maintains records of interactions in which translation services are utilized.

By May 2021, PP&R's Tree Regulation program will complete a pilot for a low-income fee waiver program to better serve vulnerable populations. Following an assessment of the results of the pilot, Urban Forestry will develop a plan and request funding to make the waiver program permanent.

New positions supported by the Parks 2020 Operations Levy provide an opportunity to improve division employee diversity metrics. PP&R has made great strides in diversifying its workforce. In 2015, the bureau's regular staff was 18% BIPOC; currently, 28% of regular staff is BIPOC. Managers increased from 11% BIPOC in 2015 to almost 30% at present; Black managers increased from 3% to 19%.

Overall, including PP&R's seasonal and casual employees, the bureau's workforce is currently 31.7% BIPOC. PP&R will continue to improve its workforce BIPOC percentages when hiring for the permanent and seasonal and casual positions made possible by levy resources. Additional resources in Workforce Development and Equity & Inclusion will also help improve onboarding and training for staff, which will help improve retention and promotion of BIPOC staff members. These investments will also improve outcomes related to how employees feel about their PP&R experience.

## Changes to Program

In 2020, due to the COVID-19 public health emergency, PP&R experienced a massive shift in operations and service levels. Portlanders have seen painful service level reductions, many of which continue, including closed community and art centers, pools, and the cancelation of all public event permits, except for group sizes approved by the State of Oregon.

COVID-19 impacted all City bureaus and dramatically affected revenues. The City implemented wage freezes and furloughs, and bureaus were asked to take budget reductions. PP&R’s budget was reduced further as 30% of its operating budget was dependent on program fee revenue that would not be earned. PP&R laid off over 750 seasonal and casual staff, did not fill open vacancies, reduced capital budgets, and reduced spending on materials and services.

In November of 2020, Portland voters passed the Parks 2020 Operating Levy, a five-year levy to provide Recreation for All, Protect and Grow Nature, and support Community Partnerships. Portland Parks & Recreation is grateful to the community for its support and is excited to have the opportunity to restore programs and services, with a focus on serving BIPOC, refugee and immigrant communities, people experiencing poverty, people living with disabilities, and older adults.

The City Council’s levy referral to the ballot promised restoration of summer programs in 2021. PP&R will request City Council approval to access funds in FY 2020-21 to ramp up operations to provide summer programs, build capacity for levy-funded program expansion, and address critical points of potential failure in the bureau. This FY 2021-22 Requested Budget includes these items. PP&R will continue to engage the community to create a complete FY 2021-22 levy budget as part of the City’s Fall Budget Monitoring Process submission in September 2021.

Levy funding will support 2 new FTE in Tree Regulation. These positions will improve management of Portland’s trees and will issue certain tree permits, such as tree removal and planting permits; provide more capacity for safe and timely 24-hour response to tree emergencies in public rights-of-way; and result in improved response to public phone and email inquiries at the City’s single-point-of-contact for tree issues (823-TREE and trees@portlandoregon.gov).

In addition, these positions provide a necessary organizational foundation for expanded and improved performance once the full complement of levy funding is available in fall 2021

## Program Budget

## Urban Forestry Science and Outreach

### Program Description & Goals

Portland Parks & Recreation's (PP&R) Urban Forestry Science and Outreach Program is committed to preserving and expanding the city's forest to all communities through fostering a culture of community tree stewardship, conducting scientific analyses of the urban forest, and developing and implementing best policy practices. Urban Forestry Science and Outreach also implements Title 11 Trees, the City's tree regulations, and supports tree code implementation by others, including UF Permitting and Regulation, other bureaus, property owners, and residents.

In recognition of the environmental, public health, and livability benefits of urban trees, Portland has a goal of expanding canopy cover (i.e. the area of land covered by trees when viewed from above) from its current 30.7% to a minimum of 33.3% by 2035. Data is collected every 5 years and will be updated in 2021.

In addition to the citywide canopy target, PP&R Urban Forestry is committed to addressing historic inequities which have resulted in strong correlations between income and access to tree benefits. The metric listed below – annual trees planted in low canopy, low income neighborhoods – was created in 2018 to help track the progress of addressing the inequity.

PP&R has recently created a Healthy Parks, Healthy Portland Framework to guide planning for 2021 and beyond. The bureau spent 2020 evaluating the success of its three major plans: Vision 2020, 2017-2020 Strategic Plan, and Five-Year Racial Equity Plan. As part of its strategic planning work in 2021, PP&R will be creating new performance measures and aligning them with strategic objectives and organizational workplans. In particular, PP&R will identify performance measures for equity objectives.

PP&R performance was and continues to be affected by the COVID-19 public health emergency. The bureau expects that FY 2021-22 programs and services will continue to be responsive to the public health and economic emergency.

PP&R's Urban Forestry Division is guided by the Urban Forest Management Plan (UFMP). The plan is developed by City staff in collaboration with a broad and diverse stakeholder group including the Urban Forestry Commission, Oregon Department of Forestry, Metro, and other community organizations.

Adopted in 2004, the UFMP established the following goals of the Urban Forestry program:

- ◆ protect, preserve, restore, and expand Portland's urban forest;
- ◆ promote stewardship of the urban forest; and
- ◆ provide equitable urban forest benefits for all residents of the city.

Urban Forestry Outreach & Science program advances these goals through the following activities:

- ◆ forest assessment;
- ◆ Title 11 implementation;
- ◆ citywide tree planting strategy; and
- ◆ education and outreach, including volunteer management (14,000 volunteer hours annually), workshops and trainings, and Urban Forestry Commission education and outreach Committee.

Performance	Actuals FY 2018-19	Actuals FY 2019-20	Target 2020-21	Target FY 2021-22	Strategic Target
Percentage of tree canopy coverage within city	31%	NA	31%	0%	31%
Annual trees planted in low canopy, low income neighborhoods	499	719	1,000	1,100	1,100

## Explanation of Services

PP&R’s Urban Forestry division is guided by the Urban Forest Management Plan (UFMP). The plan is developed by City staff in collaboration with a broad and diverse stakeholder group including the Urban Forestry Commission, Oregon Department of Forestry, Metro, and other community organizations. Adopted in 2004, the UFMP established the following goals of the Urban Forestry program:

- ◆ protect, preserve, restore, and expand Portland’s urban forest
- ◆ promote stewardship of the urban forest, and
- ◆ provide equitable urban forest benefits for all residents of the city.

The Urban Forestry Outreach and Science program advances these goals through the following activities:

- ◆ forest assessment
- ◆ Title 11 Implementation
- ◆ citywide tree planting strategy, and
- ◆ education and outreach, including volunteer management (14,000 volunteer hours annually), workshops and trainings, and Urban Forestry Commission education and outreach Committee.

## Equity Impacts

Portland’s tree infrastructure is dramatically inequitable. While those on the west side of the Willamette River enjoy canopy coverage of over 50%, east side residents largely live in low-canopy neighborhoods. East side canopy is just 21%, more like Los Angeles than west Portland. This vastly uneven distribution means the services and benefits of the urban forest are not accessible to many of Portland’s residents. East Portland’s low-canopy neighborhoods also represent the City of Portland’s highest percentage of Black, Indigenous, or People of Color (BIPOC), immigrant and refugee communities.

PP&R's Urban Forestry Science, Outreach & Planting program prioritizes underserved communities. In December 2018, Urban Forestry finalized its Citywide Tree Planting Strategy which was informed by focus groups, stakeholder meetings, and working with a Community Advisory Committee to ensure significant representation from people of color, immigrant, refugee, and low-income communities.

Urban Forestry conducts analysis to assess and monitor the status of the City's urban forest, including a canopy coverage analysis every five years. Urban Forestry also produces the Urban Forest Action Plan Update annually which provides data on tree removal, planting, maintenance, and outreach activities across the City.

Identifying and pursuing opportunities to plant trees consistent with the 2018 Citywide Tree Planting Strategy, which prioritizes low-income/low-canopy neighborhoods. Urban Forestry began a yard-tree giveaway program in 2017 and since then has provided a total of more than 5,000 trees to community members in primarily low-income/low-canopy neighborhoods.

New positions supported by the Parks 2020 Operations Levy provide an opportunity to improve division employee diversity metrics. PP&R has made great strides in diversifying its workforce. In 2015, the bureau's regular staff was 18% BIPOC; currently, 28% of regular staff is BIPOC. Managers increased from 11% BIPOC in 2015 to almost 30% at present; Black managers increased from 3% to 19%.

Overall, including PP&R's Seasonal and Casual employees, the bureau's workforce is currently 31.7% BIPOC. PP&R will continue to improve its workforce BIPOC percentages when hiring for the permanent and Seasonal and Casual positions made possible by levy resources. Additional resources in Workforce Development and Equity & Inclusion will also help improve onboarding and training for staff, which will help improve retention and promotion of BIPOC staff members. These investments will also improve outcomes related to how employees feel about their PP&R work experience.

## Changes to Program

In 2020, due to the COVID-19 public health emergency, PP&R experienced a massive shift in operations and service levels. Portlanders have seen painful service level reductions, many of which continue, including closed community and art centers, pools, and the cancelation of all public event permits, except for group sizes approved by the State of Oregon.

COVID-19 impacted all City bureaus and dramatically affected revenues. The City implemented wage freezes and furloughs, and bureaus were asked to take budget reductions. PP&R's budget was reduced further as 30% of its operating budget was dependent on program fee revenue that would not be earned. PP&R laid off over 750 seasonal and casual staff, did not fill open vacancies, reduced capital budgets, and reduced spending on materials and services.

In November of 2020, Portland voters passed the Parks 2020 Operating Levy, a five-year levy to provide Recreation for All, Protect and Grow Nature, and support Community Partnerships. Portland Parks & Recreation is grateful to the community for its support and is excited to have the opportunity to restore programs and services, with a focus on serving BIPOC, refugee and immigrant communities, people experiencing poverty, people living with disabilities, and older adults.

The City Council’s levy referral to the ballot promised restoration of summer programs in 2021. PP&R will request City Council approval to access funds in FY 2020-21 to ramp up operations to provide summer programs, build capacity for levy-funded program expansion, and address critical points of potential failure in the bureau. This FY 2021-22 Requested Budget includes these items. PP&R will continue to engage the community to create a complete FY 2021-22 levy budget as part of the City’s Fall Budget Monitoring Process submission in September 2021.

Levy funding will support 2 new FTE in Tree Maintenance and additional resources to support PP&R’s growing citywide tree planting program. Specifically, new staff and software will provide data-driven support to identify potential planting spaces, provide planting maps to contractors, and ensure tree planting asset databases are updated and accurate. These capabilities are particularly necessary when planting at the scale needed in order to overcome the City’s historical policies which benefited white Portlanders while denying people of color access to tree benefits and services.

### Budget Narrative

- Resources** The Outreach & Science Program is supported by the General Fund, Parks 2020 Operating Levy, and two trust funds established by Title 11: the Tree Planting & Preservation Fund (11.15.010) and the Urban Forestry Fund (11.15.020).
- Expenses** The FY 2021-22 Requested Budget includes \$0.9 million in expenses for the Urban Forestry Science and Outreach Program. Personnel costs are the majority of the expenses for this program, with additional materials and supplies to support the outreach and education services.
- Staffing** The Program includes 10.0 FTE.
- Assets and Liabilities** The program has no assets or liabilities.

## Visitor Services

### Program Description & Goals

Portland Parks & Recreation’s (PP&R) Visitor Services Program includes three main areas: Customer Service Center (CSC), Inclusion Services, and Park Rangers. Portland residents and visitors are more likely to interact with a PP&R employee than any other city employee or official, and employees in Visitor Services program are often the first point of contact for the public, providing education and information, assistance, and equitable access to a broad range of City services. The CSC provides friendly and welcoming assistance and information about PP&R and other City programs and services. Park Rangers are a visible presence in our parks and natural areas, promoting safety in our public spaces and encouraging a wide range of positive experiences for the public. Inclusion Services provides accommodations and ensures that every person, regardless of ability, can positively participate in PP&R programs.

The CSC, Inclusion Services, and Park Rangers have internal metrics used by staff to understand the trends, needs, and impacts of services provided.

The performance measure relevant to the Park Rangers Program is the percentage of residents who feel safe walking in a park during the day. This percentage was consistent for many years but saw a decrease in FY 2015-16 that continued into the next year. Historic values came from the Annual Auditor’s Survey.

PP&R’s 2017 Community Needs Assessment Survey asked respondents about barriers to PP&R park visitation. Safety represented a barrier to many participants. The East Portland Coalition Office reported safety as a park barrier more often than respondents from any other area. Safety in parks was also identified as a concern in PP&R’s October 2020, online community listening sessions with Black, Indigenous, and People of Color (BIPOC) who live, work or play in the City of Portland.

PP&R has recently created a Healthy Parks, Healthy Portland Framework to guide planning for 2021 and beyond. The bureau spent 2020 evaluating the success of its three major plans: Vision 2020, 2017-2020 Strategic Plan, and Five-Year Racial Equity Plan. As part of its strategic planning work in 2021, PP&R will be creating new performance measures and aligning them with strategic objectives and organizational workplans. In particular, PP&R will identify performance measures for equity objectives.

PP&R performance was and continues to be affected by the COVID-19 public health emergency. The bureau expects that FY 2021-22 programs and services will continue to be responsive to the public health and economic emergency.

Performance	Actuals FY 2018-19	Actuals FY 2019-20	Target 2020-21	Target FY 2021-22	Strategic Target
Percentage of residents who feel safe walking alone in their neighborhood park during the day	NA	NA	NA	NA	83%

## Explanation of Services

PP&R's Visitor Services Program includes the following services:

- ◆ The Customer Service Center provides direct service to PP&R customers via phone, in person, and through email. It also manages permit use of PP&R's outdoor facilities (public events, sports, picnics, weddings, commercial use, docking, etc.);
- ◆ Inclusion Services ensures access to programs by providing auxiliary aids (headphones, communication devices) and services (translation and interpretation) to registered program participants having a disability. It also ensures access to registered participants having a disability through modifications and accommodations of program locations and facilities;
- ◆ Park Rangers patrol parks and natural areas to provide visitor and resource protection to the over 11,000 acres of park property throughout PP&R's portfolio. Park Rangers educate and assist park patrons and prevent, identify, and abate nuisance behavior. They proactively patrol park facilities and properties, as well as respond to calls for service from the public and bureau staff.

## Equity Impacts

PP&R's Visitor Services Program serves all Portlanders, including Indigenous people, Black people, immigrants and refugees, people of color, and people with disabilities. These programs facilitate access by providing materials in languages other than English, providing bilingual call-takers, and advertising in publications and at events that reach underserved communities.

Inclusion Services serves marginalized and underserved communities by providing auxiliary aids and services to those identifying as having a disability, ensuring they can access PP&R programs.

Park Rangers have increased their capacity to serve parks in marginalized and underserved communities by growing patrol ranks over the past several years, allowing greater coverage in underserved areas.

PP&R tracks the success of its Visitor Services Program through citywide surveys, though some work is being done to track demographic data for specific programs offered. According to the Portland Insights Survey of 2019, nearly 50% of respondents reported participating in a park program or activity over the past year. This was consistent across race. In addition, use of programs and activities are highest for respondents living in North, Northeast, and Southeast Portland. Regarding park safety, PP&R tracks calls for Ranger service based on where the calls are originating from to determine perceptions of safety at park facilities, as well as monitors citywide surveys for trends and Park Ranger field assessments.

In October 2020, PP&R organized six online community listening sessions with Black, Indigenous, and People of Color (BIPOC) who live, work or play in the City of Portland, including sessions in Spanish, Vietnamese, Chinese (Cantonese and Taishanese dialects), and Russian. Safety in parks was identified as a top concern.

PP&R assesses its Visitor Services Program as successful when there are 1) positive upward trends in use of programs and activities by underserved and marginalized communities; 2) reductions in safety concerns at parks in underserved communities; and 3) increases in use of Inclusion Services for persons with disabilities. The most recent success in the Visitor Service program area has been in maintaining and increasing its diverse workforce.

The Park Ranger program has equity performance indicators related to proactive education patrols, outreach, and responses that ensure equality in service across both sides of the river. The largest challenge faced by Rangers in response is distance and limited staffing. With fewer staff during peak periods, coverage across the entire city have historically resulted in longer response times and fewer proactive patrols. With improved supervisory ratios and increased seasonal support, as well as enhanced call answering and supervisor support to triage issues, the Bureau can improve equity outcomes in East Portland parks during peak periods when calls and park issues increase. With enhanced dispatch and recordkeeping technology, the group will have higher-quality and more timely data so that the team can have better situational awareness and analysis, resulting in better outcomes for the community.

New positions supported by the Parks 2020 Operations Levy provide an opportunity to improve employee diversity metrics. PP&R has made great strides in diversifying its workforce. In 2015, the bureau's regular staff was 18% BIPOC; currently, our regular staff is 28% BIPOC. Managers increased from 11% BIPOC in 2015 to almost 30% at present; Black managers increased from 3% to 19%.

Overall, including our seasonal and casual employees, our workforce is currently 31.7% BIPOC. PP&R will continue to improve its workforce BIPOC percentages when hiring for the permanent and seasonal and casual positions made possible by levy resources. Additional resources in Workforce Development and Equity & Inclusion teams will also help us improve our onboarding and training for staff, which will help improve retention and promotion of BIPOC staff members. These investments will also improve outcomes related to how employees feel about their PP&R experience.

## Changes to Program

In 2020, due to the COVID-19 public health emergency, PP&R experienced a massive shift in operations and service levels. Portlanders have seen painful service level reductions, many of which continue, including closed community and art centers, pools, and the cancelation of all public event permits, except for group sizes approved by the State of Oregon.

COVID-19 impacted all City bureaus and dramatically affected revenues. The City implemented wage freezes and furloughs, and bureaus were asked to take budget reductions. PP&R's budget was reduced further as 30% of its operating budget was dependent on program fee revenue that would not be earned. PP&R laid off over 750 seasonal and casual staff, did not fill open vacancies, reduced capital budgets, and reduced spending on materials and services.

In November of 2020, Portland voters passed the Parks 2020 Operating Levy, a five-year levy to provide Recreation for All, Protect and Grow Nature, and support Community Partnerships. Portland Parks & Recreation is grateful to the community for its support and is excited to have the opportunity to restore programs and services, with a focus on serving Black, Indigenous, and People of Color, refugee and immigrant communities, people experiencing poverty, people living with disabilities, and older adults.

The City Council’s levy referral to the ballot promised restoration of summer programs in 2021. PP&R will request City Council approval to access funds in FY 2020-21 to ramp up operations to provide summer programs, build capacity for levy-funded program expansion, and address critical points of potential failure in the bureau. This FY 2021-22 Requested Budget includes these items. PP&R will continue to engage the community to create a complete FY 2021-22 levy budget as part of the City’s Fall Budget Monitoring Process submission in September 2021.

As part of these early investments, the bureau has included in the FY 2021-22 Requested Budget an enhancement to the Ranger program that will lead to more proactive patrols, dedicated answering and dispatch for park safety calls, and additional supervision to allow for responses for escalated and emergency issues.

These investments include:

- ◆ Additional support for Rangers to fund supervisory coverage during swing-shift hours to provide coverage seven days a week during afternoon and evening hours. Currently, no supervisory support is provided during late afternoon and evening hours. The supervisor positions are necessary to relieve current supervisors from remaining in on-call status every workday, assist with improving the program’s staff-to-supervisor ratio, and to provide appropriate field-training opportunities for seasonal crews through enhanced supervisory support.
- ◆ Support for two, limited-term dispatchers to provide a park safety answering point for visitors and staff to call seven days a week. These positions would dispatch Park Rangers and provide safety status checks for Rangers while in the field. The current call answering system is provided through the PP&R Customer Service Center and does not operate during weekends.
- ◆ Additional support for seasonal Park Ranger coverage, to provide peak-load assistance during the spring and summer seasons in both proactive patrols and response to calls-for-service.
- ◆ Upgrade support systems for the Park Ranger program specifically related to training, records and data management compliance, radio interoperability, and vehicles.

## Budget Narrative

**Resources** The Visitor Services Program is funded primarily by the General Fund and now, in FY 2021-22, the Parks 2020 Operating Levy. The Customer Service Center augments General Fund support with permit revenue originating from rental of park amenities (picnic areas, wedding sites, special events in parks etc.). In the FY 2021-22 Requested Budget, the typical amount is considerably reduced due to COVID-19. The Park Ranger program receives support from parking revenues at Washington Park, as well as support for patrolling property owned by the Bureau of Environmental Services.

**Expenses** The primary costs for all three programs are staffing costs (\$5.9 million). Additional budget authority is related to the bureau’s agreement to transfer parking revenue at Washington Park to support maintenance projects within the park.

**Staffing** In FY 2021-22, the Customer Service Center will have 17 full-time positions, including two supervisors. Park Rangers will employ 30.0 FTE. Both programs hire seasonal support staff to supplement full-time staff during the summer season and/or special events.

**Assets and Liabilities** Neither CSC nor Inclusive Services maintains fixed or mobile assets.

**DP: 11361 - Organizational Support - Parks Levy**

DP Type	Priority	New
ADD	0	No

**Package Description**

PP&R is requesting \$7.4 million in Parks 2020 Operating Levy resources to provide Organizational Support to meet community priorities in in FY 2021-22. To deliver successful community outcomes, this initial portion of the community’s investment will build organizational capacity to support expanded services and address existing points of potential critical operational failure. To have its programs and services meet the budget values of equity, safety, maintenance, and financial sustainability, the bureau needs to enhance its strategies, policies, and procedures.

With estimated annual tax revenue of \$48 million over the next five years, the bureau’s tax-supported base budget is increasing by over 60% from the \$71.2 million annual General Fund allocation. This increase in scale requires appropriate investments in organizational capacity – to hire, onboard, and train direct service staff; support technology, workspace, and ongoing training; and enhance transparency and public accountability in budgeting and performance monitoring.

Additionally, PP&R has the rare opportunity to change the way it offers services. Centering race and equity as the bureau scales up will require capacity to be deliberate and manage organizational change.

**Workforce Development**

PP&R will build capacity in Workforce Development, including:

- A position (Administrative Specialist II) to focus on recruitment, hiring, onboarding, and retention to improve diversity outcomes.
- A training professional (Analyst II) with a focus on diversity, equity, and inclusion (DEI).
- A second Payroll Coordinator (Administrative Specialist I) to manage increased workload and update payroll policies and procedures, training support, and process improvement.
- A project coordinator (Coordinator I) to manage workforce development change initiatives.
- Additional resources for dedicated outreach/advertising and DEI training.

**Equity & Inclusion**

As the bureau strives to become an inclusive, anti-racist organization, it must develop new policies and procedures to support strategy and racial equity planning, including the work to remove cost as a barrier to public programs and partner with stakeholders. The following positions support this work:

- A policy analyst (Analyst III) to oversee bureau policy coordination and development and legislative affairs. There is no dedicated staff for this function.
- A project coordination position (Coordinator I) would contribute to increased diversity, racial equity, and inclusion efforts for staff and BIPOC and Immigrant and Refugee communities.
- A position (Coordinator II) to increase the overall capacity for the Equity & Inclusion team to support anti-racist organizational change.
- Additional consulting resources for policy development and planning.

**Workspace and Property Management**

To effectively deploy new staff, the bureau will need to address workspace needs and centralize workspace coordination functions. The following positions are needed:

- A workspace coordinator (Coordinator III) to investigate space opportunities, conduct location analysis, and recommend leasing or space optimization actions to meet workforce growth.
- A new GIS Technician II to support workspace planning for new positions. Long-term, this position will address bureau-wide needs including creating and managing collector apps, mapping and data requests, and assisting with the new work order system.
- Two positions (Coordinator II and Coordinator III) to work on property agreements. Initially, the workload will be focused on negotiating leases and fit-out for sites to accommodate staff. Long-term, this capacity will address a backlog of expired property and partnership agreements.
- An analyst (Analyst II) to develop and maintain systems for intake, prioritization, tracking, and reporting on property agreements and partner initiatives. This position would also support permit fee development for parks and non-parks uses.
- Additional resources for external materials and services and specialized equipment.

**Community Relations, Communications, and Strategic Coordination**

PP&R needs to build capacity in community engagement, communications, and marketing to support community-driven resource allocation and program development; meet Language Access guidance; and engage employees to manage changes associated with the levy and foster an anti-racist work environment. To accomplish this, the following positions are requested:

- A position (Coordinator III) responsible for developing standard communications practices and procedures.
- A position (Coordinator II) to develop and manage internal communications to ensure that staff are informed of and aligned around the changes supported by the levy.
- A position (Coordinator II) to manage listening sessions, focus groups, and culturally appropriate community outreach to help the bureau understand what community members need, especially Portlanders currently underserved by existing programs and services. This position will support recreation programming, urban forestry, and prioritize the needs of Portlanders who do not currently feel safe or welcome in parks and natural areas.
- A position (Coordinator II) reporting to the Director to enhance the Director’s capacity to align bureau strategies, racial equity planning, and work plans.

## Decision Package Summary

Run Date: 1/28/21

Page 2 of 19

Details

Run Time: 5:08:35 PM

## Accounting, Financial Planning, and Accountability

The following requests build capacity to steward levy resources:

- An analyst (Analyst III) to serve as a process coordinator for budget development, Citywide budget monitoring process, and monthly budget monitoring.
- An analyst (Analyst II) to lead bureau-wide performance measurement and analysis and develop external reporting to support levy accountability.
- An analyst (Analyst I) to implement technical changes and manage a multi-funded budget.
- A position (Accounting Technician) to manage the increased transactional volume.
- An analyst (Analyst I) to manage grants compliance functions and address a point of potential critical failure by supporting the single procurement analyst in the bureau.
- Consultant resources to update the bureau's indirect rate methodology to ensure that shared functions are supported by all funding sources.

## Technology

PP&R's central technology functions are managed of two employees, and their work is necessarily focused on help desk support for the bureau's enormous technology inventory. To support the growth of the bureau and meet reporting expectations for the levy, PP&R must increase capacity by hiring:

- Two Business Systems Analysts (a BSA I and a BSA II) to manage increased hardware and software needs of a growing staff.
- A project manager (BSA II) to scope, develop, implement, and stabilize medium- and large-scale enterprise projects, including replacing the current work order system with an asset management system and tree management software. These strategic projects will better serve our community, environment, and staff.
- Two analysts (Analyst II's) to develop and manage data and provide development and support for applications. This function is critical for measuring and sharing performance and outcomes related to levy investments.

## Safety &amp; Emergency Management

This request builds capacity in safety and risk management programs and includes:

- An emergency management professional (Coordinator I) to manage the bureau's Incident Command structure and serve as liaison to Portland Bureau of Emergency Management.
- Three positions (Coordinator II, Risk Specialist I, and a two-year temporary Risk Specialist I) to address staff workplace safety training, accident prevention, accident investigations, inspections, testing, evaluation, and compliance analysis.
- Two Ranger Supervisors to provide supervisory coverage during swing-shift hours, seven days a week. Currently, this lack of supervision is a potential point of critical failure for the

**Service Impacts**

**Decision Package Summary**

Run Date: 1/28/21

Page 3 of 19

Details

Run Time: 5:08:35 PM

By building organizational capacity, PP&R will be able to:

- improve equity outcomes in selection and hiring practices;
- improve equitable provision of PP&R services and programs;
- increase ability of hiring supervisors and managers throughout the bureau to focus on daily operations;
- improve payroll operational requirements such as compliance which includes accurate and timely payroll as mandated by labor laws, data analysis, reporting, auditing and monitoring;
- center equity in the development of new or update existing PP&R code, policies and standard operating procedures;
- better care for PP&R assets by improving response time for utility, customer service requests, emergency response work;
- deepen community engagement and partnership relationships;
- improve technology support for bureau operations and improve staff efficiencies through training;
- update PP&R partnership agreements that are out of date and meet current legal, policy, and/or budget expectations;
- create a transparent system for intaking, prioritizing, tracking, and delivering on service requests in Property & Business Development;
- improve PP&R emergency response;
- improve safety for our workforce and visitors by updating our policies, trainings, and standards on all aspects of safety and loss prevention;
- improve responsiveness to calls for Ranger support, both from the public and City employees. In 2019, approximately 27% of calls for service remained open or were otherwise unable to be responded to;
- improve new data systems and efficiencies that will ensure that Rangers are offering prompt and informed service when called; and
- improve response time for maintenance requested from internal and external stakeholders. Provide specialized equipment needed to better care for park assets.

**Equity Impacts**

- PP&R is committed to creating an anti-racist organization. Building the bureau's Equity & Inclusion team to support employee development is an important step in achieving this objective. Investment will provide the tools and understanding for employees to become aware of culture and work environment expectations, unconscious bias, and other barriers to diversity, equity and inclusion. This work is essential to create and maintain a respectful and inclusive environment and will significantly impact the bureau's work with the public.
- PP&R is called upon in citywide continuity of operation documents to perform various community care functions during disasters and emergencies, including providing shelters, mass casualty areas, and food distribution. Disasters disproportionately affect communities of color, people with disabilities, and low-income families and individuals. Re-introducing this dedicated resource is critical to ensure the bureau can proactively plan to provide these services successfully and with an equity focus.
- PP&R is both one of the largest land-owning bureau's in the city, as well as one of the most diverse bureau workforces with regards to reported race. At the same time, we have one of the smallest Safety and Risk staff per bureau employee. This places undue risk on our workforce as well as our visitors, particularly for those that are underserved.
- Investments in Rangers and Emergency Management can help contribute to creating safe public spaces for all Portlanders. Additional resources for East Portland can help with disparities in service.
- The Community Engagement, Communications, and Marketing teams will have the capacity to design culturally specific outreach to welcome, encourage, and invite BIPOC community members and other marginalized Portlanders to participate in PP&R programming and services. This will help the bureau increase participation of all Portlanders in our programs, including BIPOC, Immigrants and Refugees, families living in poverty, people living with disabilities, and older adults.
- Additional capacity in the Property & Business Development (P&BD) Team will improve transparency, access, and outreach. P&BD will identify specific outcomes with respect to tenant outreach, rental revenues, and access to land, with an equity focus.

Decision Package Summary

Run Date: 1/28/21

Page 5 of 19

Details

Run Time: 5:08:35 PM

**DP: 11362 - Protect and Grow Nature - Parks Levy**

DP Type	Priority	New
ADD	0	No

**Package Description**

PP&R is requesting \$2.5 million of Parks 2020 Operating Levy resources to Protect and Grow Nature in FY 2021-22 by:

- keeping parks cleaner, safer, and more welcoming for all Portlanders;
- providing robust summer environmental educational camps, programs, and work opportunities for Black, Indigenous, People of Color (BIPOC) youth, Immigrants and Refugees, and youth from families living in poverty;
- taking better care of parks and natural areas;
- planting new trees in low-canopy neighborhoods to diminish the impacts of climate change, reduce the urban heat island effect, and provide habitat for wildlife;
- begin to proactively care for the 1.2 million existing trees in parks and natural areas to preserve them for future generations;
- ensure clean water, protect wildlife, and diminish impacts of climate change; and
- create new opportunities for partnerships with marginalized communities.

**Restore and Expand Summer Day Camps and Volunteer, Internship, and Work Opportunities**

- Nature Day Camp will be restored and expanded for Portland youth in Summer 2021, adding one Botanic Specialist II to double the number of sites and increase the number of available slots to 912. Levy resources will be used to eliminate revenue requirements, reducing cost as a barrier for Portland families with low incomes.
- Teen Nature Team (TNT) is a volunteer program for diverse middle school youth that provides access to natural areas, STEM education, and mentorship. PP&R will expand the number of youths that participate, develop after-school drop-in programming, and build a strong alumni network to keep youth engaged and connected to programs and employment opportunities.
- The Youth Conservation Crew (YCC) provides employment opportunities for a diverse population of youth, ages 14 to 19; since 2009, over 75% of participants identified as BIPOC. Crews protect and restore parks and natural areas while developing essential job skills and exploring environmental career paths. The addition of a Botanic Specialist II will add capacity for additional participants.
- Internships Program will offer teens paid internships to maintain green and built assets, providing job experience and professional development opportunities.
- In order to address a supervisory gap and offer training, professional development, and support to prepare teens for future career opportunities, this request includes a Supervisor I.
- Additional requests include vehicles, IT, and external materials and services.

**Lands Stewardship**

- This package will provide resources for East Zone staff to appropriately maintain parks in underserved East Portland. The East Zone is the largest in the park system and will continue to grow as new parks are added. East Zone Technicians are currently asked to maintain 50 parks sites every day. This staffing model is unsustainable, inequitable, and is currently at a point of potential critical failure. This package will dedicate a Park Technician to Gateway Green and Leach Botanical Garden and adds a supervisor to create appropriate supervisor-to-staff ratios and build capacity to support more staff in the Zone.
- The addition of a swing shift supervisor (Parks Maintenance Supervisor) will provide much needed support to ten staff. Currently day-shift supervisors provide insufficient on-call support only.
- The addition of a turf supervisor (Parks Maintenance Supervisor); the current Land Services supervisor manages 26 staff.
- An outreach coordinator (Coordinator II) will facilitate increased volunteer support. The position will build capacity for outreach program expansion by relieving field staff and supervisors of that responsibility and providing a more consistent approach to community partnerships.
- An analyst (Analyst II) will ensure accountability for levy outcomes by working on Parks Maintenance Standards, Natural Areas Standard of Care, and trail maintenance standards, as well as working with supervisors and managers to optimize the division's budget.

**Expansion of the Tree Planting Program**

PP&R's Tree Planting Program prioritizes planting trees in low-canopy, low-income neighborhoods to address long-term inequities in tree distribution in Portland and provide positive public health impacts.

- A Supervisor I will oversee three Botanic Specialists. Responsibilities will include expanding tree planting activities, working with tree planting contactors, and engaging with community groups and members to ensure planting activities meet local needs and expectations.
- A GIS Technician II to manage GIS databases for tree planting, stewardship of Heritage trees, elm tree monitoring, and street and park tree inventory. This position will perform analysis for reports, including tree canopy monitoring, permit tracking, and identifying priority planting areas. This position is critical to implementing the tree asset management software.

## Decision Package Summary

Run Date: 1/28/21

Page 6 of 19

Details

Run Time: 5:08:35 PM

## Expansion of Park Tree Maintenance and Emergency Response

PP&R Urban Forestry responded to 1,600 emergency tree failures in FY 2019-20. This work was performed by 15 full-time and five seasonal staff, reporting to one manager. This is an unsustainable arrangement which jeopardizes the timely delivery of services, especially the resolution of tree hazards that pose risks to public safety. This represents a point of potential critical failure in the bureau.

- A Supervisor I to manage the City's 24/7 tree emergency system. This position will oversee response to tree failures in all City-owned properties and public streets. This position will supervise up to ten arborists, manage and prioritize work order requests, and ensure work is performed safely. This position will create an effective supervisor-to-staff ratio, as well as prepare the group for scaling up during the next phase of levy investments.
- To preserve the 1.2 million trees in parks and natural areas for current and future generations, a position (Coordinator II) is needed to conduct routine evaluation of trees in developed and non-developed parks to prioritize and coordinate short- and long-term maintenance needs.

## Expansion of Support for Tree Permitting and Regulation

- A Development Services Technician II in the Urban Forestry Permitting group to increase capacity for dispatching emergency tree calls, addressing applications and inquiries are correctly, and the Urban Forestry permitting database is adequately maintained.
- A Business Systems Analyst II to fill a significant gap in technological support. This position will manage the configuration and functionality of all permit related software.

## Tree Asset Management Software

An urban forest management specific database will consolidate tree inventory, work planning, maintenance records, data analytics, and reporting into a single software solution. A lack of functional software is a significant barrier to effective stewardship of the City's trees, resulting in increased tree mortality and potential hazards to public safety.

## Technology Support

- To protect public assets, PP&R will add or upgrade security cameras at seven different maintenance facilities and provide live security monitoring as a response to vandalism and theft.
- An Environmental Technician II to create, categorize, and maintain GIS layers of natural assets documenting ecological health, ecosystem criticality, and species and human impacts. This position will support the work of Lands Stewardship and Urban Forestry.

## Service Impacts

## Decision Package Summary

Run Date: 1/28/21

Page 7 of 19

Details

Run Time: 5:08:35 PM

## Expansion of Summer Day Camps and Volunteer, Internship, and Work Opportunities

- Nature Day Camp is building capacity to increase participants by 50% (to 912 campers) even with COVID-19 public health guidelines. In future years, PP&R will be able to serve even more participants.
- PP&R will also build capacity in our Youth Conservation Crew (40 participants), Teen Nature Team (20 participants), and Teen Internships (15 participants).

## Expansion of East Zone Maintenance

- Improve safety, cleanliness, and proper function of parks, including a full range of maintenance duties such as grounds, irrigation, restrooms, facilities, and routine building upkeep.
- Provide appropriate resources to address vandalism and graffiti in East Zone Parks.

## Expansion of Land Stewardship Supervisors

- Increase service, response (both health/life/safety emergencies and general questions from the public), and support for staff who don't currently have supervisors working with them during shifts.
- Supervisory level position will be available after normal day shift hours for emergency response.

## Expansion of Security at Maintenance Facilities

- Protect public assets, increase employee safety and security at PP&R maintenance yards across the city.
- Fewer damaged public vehicles will result in increased staff productivity.
- Increase service consistency.
- Reduce negative environmental impacts of fuel lines being cut and leaking into the soil.

## Expansion of the Tree Planting Program

- Increase tree canopy in low-income/low-canopy neighborhoods to improve public health and diminish the impacts of climate change.
- Increase likelihood of establishment and survival of recently planted trees.
- Prioritize planting large form, native, evergreen, and climate-change resilient species.

## Expansion of Park Tree Maintenance and Emergency Response

- Improve response time to emergency tree hazards to increase public safety.

## Expansion of Support for Tree Permitting and Regulation

- Improve the maintenance of green assets.
- Improve implementation of Title 11.
- Improve turnaround time and responsiveness related to tree permits.

## Tree Asset Management Software

- A GIS-enabled database will facilitate collaboration across PP&R work groups, allow access to tree data in the field, and facilitate reporting and analysis which is not possible with current systems.
- PP&R arborists will be able to place park trees on a regular maintenance schedule, triage high priority hazard trees, and conduct planned maintenance efficiently. This work will protect our community's trees and the positive public health impacts they create for current and future generations.

**Equity Impacts**

**Decision Package Summary**

Run Date: 1/28/21

Page 8 of 19

Details

Run Time: 5:08:35 PM

Budget resources in Protect and Grow Nature support the following equity impacts:

- Public programs will strive to provide 50% of activity capacity for BIPOC youth and families, immigrants and refugees, and families experiencing poverty through outreach with partner organizations. Language translation of program information, documents and signage will increase access to programs.
- Resources are dedicated to hiring practices to ensure the workforce is more reflective of the community served. This will impact the overall diversity of PP&R's workforce. In 2015, the bureau's regular staff was 18% BIPOC; currently, 28% of regular staff is BIPOC. PP&R BIPOC managers increased from 11% BIPOC in 2015 to almost 30% at present; Black managers increased from 3% to 19%.
- The Youth Conservation Crew program and Internship program directly contribute to a more diverse hiring pool for seasonal employees for the entire bureau and helps meet the bureau's equity goals.
- By bolstering maintenance staff in PP&R's East Zone, improvements in park cleanliness and staff presence will enhance feelings of safety in East Portlandparks.
- By prioritizing low-income/low-canopy neighborhoods in the Tree Planting Program, PP&R will improve tree canopy coverage and reducing disparities between communities east of the Willamette and communities west of the Willamette.
- The Tree Maintenance Package creates the leadership and structural capacity to develop the Arborist Trainee program, creating new opportunities for BIPOC and women in PP&R and arboriculture.

Decision Package Summary

Run Date: 1/28/21

Page 9 of 19

Details

Run Time: 5:08:35 PM

**DP: 11363 - Recreation for All - Parks Levy**

DP Type	Priority	New
ADD	0	No

**Package Description**

This package backfills \$6.2 million of what would normally be revenues for PP&R summer recreation programming with Parks 2020 Operating Levy resources to preserve over 35 positions and provide summer programming in 2021. In addition, \$0.4 million of levy funds are added to create three full time positions in the Summer Free For All program.

PP&R’s summer programming is designed to keep Portlanders mentally and physically healthy. The past fee-driven operating model excluded many Portlanders, often the people who needed programs the most. PP&R is now committed to using the community’s investment in the 2020 Parks Operating Levy to ensure that cost is not a barrier to program access and the health benefits associated with programs, especially for Black, Indigenous, and People of Color (BIPOC), Immigrants and Refugees, families living with low incomes, people with disabilities, and older adults.

Levy resources will allow PP&R to restore summer 2021 Recreation programs, with a focus on outdoor activities for youth to promote healthy activities while continuing to protect the community from COVID-19. Recreation Services will partner with Environmental Education for summer programming and collaboration. The Bureau will use indoor facilities to support outdoor programming and will open outdoor and indoor pools for swim lessons as COVID-19 public health guidelines allow.

Levy resources will help PP&R retain an estimated 35 full-time positions, hire three new FTE (converted from nine-month positions), and hire between 1,300 and 1,700 summer seasonal and casual staff, reestablishing the bureau as one of the largest youth employer in Portland.

Below are planned summer 2021 programs funded through this decision package. The bureau will make 50 percent of registered program capacity available to BIPOC, Immigrants and Refugees, and families living with low incomes.

**Swim Lessons**

- life-saving swim lessons offered at seven PP&R outdoor pools: Creston Pool, Grant Pool, Montavilla Pool, Peninsula Pool, Pier Pool, Sellwood Pool, Wilson Pool;
- Columbia Pool will offer lessons as COVID-19 public health guidelines allow;

**Community Center and SUN Summer Camps**

Increased resource allocation addresses:

- “pay what you can” pricing model;
- increase in seasonal and casual staff to meet COVID-19 requirements and higher than normal staff-to-child ratios to ensure safety;
- increased training costs to train staff in cross-cultural communication, implicit bias, and other culturally responsive areas; and
- outreach to community groups to develop camp programs that are responsive to community needs.

**Multnomah Arts Center (MAC) and Community Music Center (CMC) Summer Camps**

- “Pay what you can” pricing model or scholarships;
- Outdoor summer art/music camps on MAC’s expansive grounds;
- Limited indoor summer camps/classes in large spaces (MAC: 2 gyms, auditorium; CMC: auditorium); and
- Culturally responsive programs and BIPOC and culturally competent teaching artists.

**Summer Free For All - Free Lunch + Play**

- Free lunches served at 26 parks around the city, and ten “mobile” locations (apartment complexes and undeveloped parks), which are all located in neighborhoods where 50% or more of the youth qualify for free or reduced lunches; over half of the sites will be in East Portland.
- Reinvent outdoor, summer arts and culture events that typically take place as part of Summer Free For All (SFFA) and Urban Parks Programming (UPP). Programs will be modified as small, “pop-up” events and activities that operate under COVID-19 public health guidelines (including gathering limits). These events will feature BIPOC and culturally specific artists and groups.
- Events will take place as part of SFFA’s Free Lunch + Play program and as standalone events in parks around the city, prioritizing BIPOC communities, Immigrants and Refugees and East Portland residents.
- Art/music activity pods will be offered at Free Lunch + Play sites.
- Free Lunch + Play is promoted in partnership with the five school districts the program serves.
- This package converts three core Event Producer positions for the Summer Free For All program from nine-month temp appointed/seasonal positions to full-time permanent positions as Coordinator II’s. Event Producers plan and coordinate the Free Lunch + Play program, plus all SFFA movies, and concerts. They also direct the work of seasonal hires and establish partnerships with community members and groups.

**TeenForce and Park Squad**

PP&R’s Teen Summer 2021 programs will prioritize two program options which include:

- Outreach: Teens will seek to expand reach to youth ages 10-19 in areas and neighborhoods where enrichment and youth recreation program disparities are prevalent. Outreach strategies will seek to reduce travel barriers and accessibility to PP&R’s facilities and programs, while deepening relationships with BIPOC, LGBTQIA, youth of color and youth who speak languages other than English.
- Leadership: Re-activate the Park Squad program for youth ages 15-18. Through training, hands on experience, and leadership opportunities, this program increases youth-employability and creates a direct avenue to PP&R’s future employment opportunities.

**Decision Package Summary**

Run Date: 1/28/21

Page 10 of 19

Details

Run Time: 5:08:35 PM

**Fitness and Tennis in the Park**

- PP&R will again offer Fitness in the Park, initially a pilot program in summer of 2020. In summer of 2021, fitness classes will be offered at a minimum of five park locations.
- PP&R's Tennis Center will offer tennis lessons at five to seven outdoor tennis locations.
- These programs bring recreation to where people are, rather than requiring them to come to where we are. It provides a space, activity, and community to develop connections between people, between ethnicities, ages, orientation, and more through a shared experience in a welcome environment in locations that are easier to access.

**Virtual Programming**

- Created as a response to COVID-19 – PP&R will continue to use technology to provide services Portlanders can access at their convenience.
- Benefits to virtual programming will outlast pandemic response.
- Virtual programs provide a new avenue of participation for those who are not able to easily access facilities due to mobility, transportation, and distance.
- Programs such as music lessons, art classes, social activities, and fitness that were offered in limited locations can be reached by Portland residents from all areas of the city.

**Supporting Access to Summer Programs**

PP&R is requesting resources for Inclusion Services, Inclusive & Adaptive Recreation, and language translation services to facilitate outreach to a more diverse community.

**Service Impacts**

PP&R summer 2021 Recreation programs are expected to serve the following:

- 35,000 total attendance Outdoor pool swim lessons
- 45,000 total attendance Recreation & Art Summer Camps
- 2,400 total attendance Fitness in the Park
- 1,500 registrants Tennis in the Park
- 100,000+ lunches Free Lunch + Play
- 1,300 to 1,700 Seasonal and Casual staff hired

The Bureau will reestablish itself as one of the largest youth employer in Portland and will try to meet or exceed 2019 staffing levels where possible.

BIPOC, Immigrant and Refugee, and youth and families living in poverty have been greatly impacted by COVID restrictions and economic conditions. These groups have had fewer opportunities and less access to recreational programs. Summer 2021 Recreation programs are more important than ever to build healthy habits and social connections.

**Equity Impacts**

The Bureau will make 50 percent of registered program capacity available to BIPOC, Immigrants and Refugees, and families living in poverty. Outreach will include working with culturally specific partners to achieve diverse participation. PP&R will focus resources on prioritizing equity training for staff and partner outreach to meet equity goals.

**DP: 11364 - Operations and Maintenance - New Parks**

DP Type	Priority	New
ADD	0	No

**Package Description**

Per city financial policy, PP&R requests ongoing operations and maintenance (O&M) funding to care for the following new, expanded, and improved parks, bridges, trails, playgrounds, community gardens, and buildings that have recently been or will be placed into service in FY 2021-22:

**Acquisitions**

- \$435 Forest Park-Linnton, .46 acres donation

**Amenities**

- \$3,564 East Holladay Park Dog Off Leach Area (DOLA) Fencing
- \$47,938 Forest Park Entrance & Trailhead
- \$69,622 Kenilworth Park Splash Pad
- \$9,920 Earl Boyles Community Garden Expansion

**Buildings**

- \$84,742 Lents Park – Walker Stadium ADA Restroom and Storage Building

**Developed Parks**

- \$114,779 Columbia Children’s Arboretum – Circulation & Recreation Improvements
- \$426,563 Errol Heights Park Development
- \$17,061 Gateway Green Access Road
- \$91,809 Laurelwood Park Development

Total: \$866,433

**Service Impacts**

This proposal will assist PP&R with reaching a strategic goal of providing safe, functional and reliable recreation experiences through effective management and maintenance of all park facilities.

**Equity Impacts**

This funding will provide on-going maintenance to park facilities and grounds to help maintain them at a current level of service. Cost center managers will have the ability to prioritize funding allocations to improve service delivery for underserved populations, people living with disabilities, and/or communities of color based on needs.

Page 13 of 19

Details

Run Time: 5:08:35 PM

**DP: 11365 - Capital Major Maintenance**

DP Type	Priority	New
ADD	0	No

**Package Description**

The Capital Major Maintenance Program funds major maintenance and repair projects and works to address the over \$500 million in major maintenance backlog that exists in our parks and recreation infrastructure system. In the FY 2018-19 Adopted Budget, City Council directed PP&R to request ongoing funding of \$500,000 for major maintenance needs in each annual budget process. Major maintenance funds address emerging repair priorities, including emergency maintenance, deferred maintenance, and failing assets.

PP&R is committed to managing and protecting its assets but has a chronic major maintenance program funding gap exceeding tens of millions of dollars each year and an accumulated backlog of over \$500 million. This backlog, coupled with insufficient ongoing funding, means that PP&R is projecting that as many as one in five assets may fail in the next 15 years. City policy requires the maintenance and protection of City assets “where deferring maintenance will result in greater costs to restore or replace deteriorated City assets.”

As PP&R attempts to minimize closures within a severely constrained funding stream, many unmitigated asset risks remain. For example, a recent assessment of PP&R sidewalks revealed almost 20% in poor/very poor condition, which amounts to approximately \$20 million in needed sidewalk repairs. As a property owner, PP&R is required to maintain sidewalks adjacent to its property.

PP&R has 40 sports field bleachers that do not comply with Consumer Product Safety Commission guidance in that they are more than three steps high yet do not have a back rail to prevent someone from inadvertently falling and injuring themselves. These wooden bleachers are also beyond service life, are maintenance intensive, and are in poor condition.

Mature trees in PP&R parks where people congregate can constitute a life safety risk to community members if hazardous limbs or whole trees are not addressed.

The proposed \$500,000 annual increase in Major Maintenance will be used, in addition to helping address our many major maintenance asset and facility repair needs, to fund projects in the coming years such as:

- Mitigate park hazard trees \$200,000
- Replace bleachers \$150,000
- Repair sidewalks \$150,000

**Service Impacts**

By establishing additional ongoing major maintenance program funding resources to address these large, high-risk asset repairs, PP&R can better stabilize its overall asset portfolio, reduce community risk and reduce risk of asset closure, while working toward a Sustainable Future. The package will help to address outstanding emergency repair work and public safety issues related to assets, infrastructure and facilities, as well as some deferred maintenance, while beginning to address maintenance work in a more measured, proactive, preventative work mode to help prolong the life of our assets, infrastructure and facilities.

**Equity Impacts**

PP&R’s prioritization process includes the use of an equity score rating in making investment decisions. Many East Portland parks, for example, have the fewest park and recreation amenities and more neighborhoods with lower average household income, a greater proportion of Black, Indigenous, and People of Color, Immigrants and Refugees, and a greater number of youth. Therefore, these areas would be prioritized highly for these funds where deficiencies exist. This funding will improve the quality of assets in our parks and that serve marginalized community members.

**DP: 11366 - Capital Set Aside**

**DP Type**      **Priority**      **New**

ADD                      0                      No

**Package Description**

Capital Set-Aside has formed a vital supplement to the PP&R’s major maintenance funding since its inception in 2014. Last year, the bureau proposed three Capital Set Aside requests:

1. Work Order System Replacement;
2. Stearns Canyon Stairs; and
3. Energy Savings Performance Contract (Phase 2: Multiple Sites).

CBO recommended funding all three, but the COVID-19-induced recession and budget impacts eliminated that possibility. PP&R has since reconfigured the Stearns Canyon Stairs project, and it is complete. Additionally, while PP&R anticipated the full Work Order System as a \$4 to \$6 million technology capital project, the unfunded ask last year was for \$500,000 to cover just definition and scoping of the project. PP&R is requesting this initial planning work through the voter-approved operating levy, while reserving the option to pursue the full technology capital project through a future capital set-aside round.

PP&R still seeks Capital Set-Aside funding for the \$6.7 million Energy Savings Performance Contract (ESPC) Phase 2. This project received the highest score of PP&R requests with a benefit-cost ratio of 19:1. Recognizing the limited available funds for Capital Set-Aside, this PP&R Capital Set-Aside funding request is for \$2.75 million for the highest value Energy Savings Performance Contract work exclusively at East Portland Community Center (EPCC).

EPCC is a treasured community asset, but many of its systems are beyond service life and inefficient compared to modern alternatives. EPCC has been used as a shelter for the houseless, as an important community meeting location, Incident Command Center for PP&R, senior center, food distribution location, and a fitness, teen sports and recreation center, as well as a location for many community celebrations.

The scope of proposed work includes lighting, heating/ventilation, and air conditioning (HVAC), and, coupled with potential grant resources, additional solar panels with battery back-up. The scope will also include select HVAC strategies which reduce the risk of transmission of infectious aerosols.

With many subprojects remaining, this request could be scaled up to the full \$6.7 million requested last year to add other sites.

**Service Impacts**

Before COVID-19, EPCC supported hundreds of thousands of community member and guest visits, a level anticipated to return as soon as public health guidelines make it safe to do so. The work proposed to be funded in this package also makes a meaningful step toward EPCC becoming a pilot hub of climate resilience for East Portland, a specific goal enshrined in the July 2020 Climate Emergency Declaration. This package represents proactive asset work to prolong the life and functionality of EPCC.

**Equity Impacts**

This ESPC priority site at EPCC was selected using an equity lens as the East Portland area has some of the highest equity ratings in the city (populations of income below the poverty line, populations of diversity, and populations of youth). Additional factors for project location selection include known maintenance needs and asset efficiency opportunities.

Climate change disproportionately impacts vulnerable communities. This \$2.75 million funding request in Capital Set-Aside for the Energy Savings Performance Contract at East Portland Community Center project demonstrates leadership and on-the-ground investment to reduce the impact of City operations, while also providing an opportunity for community education and engagement in the climate change and resiliency discussion. The project includes implementation by a contractor with higher than average Disadvantaged, Minority, Women, Emerging Small Business, and Service-Disabled Veterans Business Enterprise participation requirements.

**DP: 11367 - Budget Stabilization - General Fund 5% R**

DP Type	Priority	New
SUB	0	No

**Package Description**

PP&R is requesting \$3.7 million of Parks 2020 Operating Levy resources to help stabilize its FY 2021-22 operating budget. This request will offset the five percent General Fund reduction detailed as part of Mayor Wheeler's FY 2021-22 Budget Guidance. This request will save an estimated 34 FTE.

The Parks 2020 Operating Levy was passed with the expectation of increasing service levels to meet the expectations Portlanders have for their parks and recreation system.

**Service Impacts**

This offset will impact the amount of resources available for enhanced services to the public over the life of the levy. If the full five percent reduction in General Fund is taken by City Council on an ongoing basis, that would reduce the total capacity of the levy by more than eight percent. Because the investments planned in the system were primarily staff, this reduction will reduce the total resources available to support direct service positions that the bureau would be able to add by roughly \$20 million over the next five years.

These positions would include:

- Staff in Lands Stewardship who clean restrooms, empty trash, maintain beds, and care for our parks and natural areas.
- Staff in Professional Repair and Maintenance Services, including carpenters, plumbers, electricians, and facilities maintenance technicians who provide preventive and reactive maintenance for all of PP&R's built assets.
- Staff in Urban Forestry who provide care and emergency response for our urban canopy.
- Staff in Recreation to provide youth programs, art and culture services, and connecting children to nature.

Alternately, this reduction could impact the bureau's flexibility to reduce cost as a barrier to access for public facing programming.

**Equity Impacts**

This request has no immediate equity impacts but will reduce the amount of levy resources available to achieve bureau equity goals over the life of the levy.

**DP: 11368 - Capital Major Maintenance - 5% GF Reduct**

**DP Type**

**Priority**

**New**

SUB

0

No

**Package Description**

The Capital Major Maintenance Program funds major maintenance and repair projects and works to address the more than \$500 million major maintenance backlog.

The Assets & Development (A&D) Division has submitted a 5% reduction (\$179,217) to its \$3,584,344 Major Maintenance funding, leaving \$3,405,127 for FY 2021-22.

This reduction will result in an increase in PP&R's backlog, as one or more major maintenance repair or renovation projects at parks, natural areas, and community centers will not be completed. Decisions on which project(s) not to fund in FY 2021-22 will be made primarily based on the project equity score, the likelihood of infrastructure or asset failure, and the consequence of failure scores. This ranking process is consistent with the bureau's annual Capital Major Maintenance Prioritization Process ranking.

Currently, the project with the lowest overall score and lowest equity score, and therefore proposed to be left unfunded for FY 2021-22, is the Multnomah Arts Kitchen Renovation (\$200,000).

**Service Impacts**

This budget reduction will delay the renovation of the Multnomah Art Center Commercial Kitchen, impacting the ability of that facility to provide support to arts and cultural events and generate revenue through rentals.

**Equity Impacts**

Reduced investment in major maintenance will impact the condition of many assets in our parks and community centers, which will inevitably impact the quality of services provided by the park system to communities, including marginalized ones.

**DP: 11372 - Community Partnerships - Parks Levy**

DP Type	Priority	New
ADD	0	Yes

**Package Description**

PP&R is requesting \$0.2 million of Parks 2020 Operating Levy resources to bolster community grants to help meet bureau equity goals in FY 2021-22.

PP&R seeks to engage BIPOC youth, Immigrants and Refugees, and youth from families living in poverty to participate in the bureau's summer camps, environmental programs, and be hired as part of the summer seasonal and casual workforce. PP&R will begin by deepening relationships with current community partners who have engaged and have established trust within these priority populations.

Over the next few years, PP&R will fundamentally change the way it does business, and the bureau will look to the community for assistance in meeting its equity goals. In 2021 and beyond, the bureau will continue to engage the community to shape the use of levy resources for services and programs. In addition, the bureau has begun the process of recruiting a Levy Oversight Committee. The committee will meet quarterly and provide annual reports to review levy programs and budgets to ensure that levy resources are aligned with community needs.

**Service Impacts**

These programs will serve as the foundation for building community trust and deepening relationships with diverse populations. PP&R will strive to serve as many youth and families as possible this summer through recreation and environmental education programs. The bureau is prioritizing levy resources to fund these programs and, where possible, expand them even under current public health restrictions.

In these programs, PP&R will strive to have BIPOC youth, Immigrants and Refugees, and youth from families living in poverty make up 50% of registered participants. Building partnership now to support increased enrollment of these populations will lay a strong foundation that will support future growth of services.

Grants for community partners who work with BIPOC youth, Immigrants and Refugees, and families living in poverty will support their work in the community and will help partners fulfill their missions.

**Equity Impacts**

PP&R will provide BIPOC youth, immigrants and refugees, and families living in poverty with safe, educational, and enriching summer camps and environmental programs.

City of Portland  
**Requested Budget Equity Report**

**Portland Parks & Recreation**

**Requested Budget & Racial Equity Plan Update:**

Portland Parks & Recreation (PP&R) has recently created a Healthy Parks, Healthy Portland Framework to guide planning for 2021 and beyond. The Bureau spent 2020 evaluating the success of its three major plans: Vision 2020, 2017-2020 Strategic Plan, and Five-Year Racial Equity Plan. As part of its strategic planning work in 2021, PP&R will be creating new performance measures and aligning them with strategic objectives and organizational workplans. In particular, PP&R will identify performance measures for equity objectives.

PP&R performance was and continues to be affected by the COVID-19 public health emergency. The Bureau expects that FY 2021-22 programs and services will continue to be responsive to the public health and economic emergency.

Below is a summary of PP&R's progress as outlined in the Five-Year Racial Equity Plan (REP) and 2017-2020 Strategic Plan.

The goals for Portland Parks & Recreation's Racial Equity Plan are to:

- enhance services and programs within the bureau using racial equity best practices;
- end disparities in hiring and promotion practices;
- support an inclusive workplace for everyone;
- strengthen outreach and public engagement for communities of color and refugee and immigrant communities;
- increase investments and access to parks, natural areas, and service to communities of color, low income, and refugee and immigrant communities; and
- meet or exceed city-wide contract goals for Minority Business Enterprises (MBE).

Portland Parks & Recreation strives to put equity at the forefront of all management decisions and has made significant progress on its equity goals despite funding and system challenges.

For example, the bureau has:

- built new parks in underserved communities, popular new parks like Gateway Discovery and Luuwit View in East Portland;
- made its workforce more reflective of the Portland community (see question #3);
- prioritized contracting equity for Disadvantaged, Minority and Women-owned, and Emerging Small Businesses (46% of PP&R contracts awarded, more than double the City's goal of 20%); and
- supported programs like Parks for New Portlanders and Summer Free For All, where PP&R provides culturally responsive, free family-friendly events and serves nearly 100,000 free, healthy lunches to children during summer break each year.

City of Portland  
**Requested Budget Equity Report**

---

PP&R's 2017-20 Strategic Plan includes 18 initiatives directly related to the bureau's Five-Year Racial Equity Plan. The following initiatives are advanced in the FY 2020-21 Requested Budget:

Provide Stewardship to Park Land, Natural Resources, and the Urban Forest  
2.2 Development of a city-wide tree planting strategy that prioritizes low-canopy and low-income neighborhoods: PP&R's Urban Forestry Division completed its Tree Planting Strategy in the fall of 2018.

Ensure Access to Recreation Program

3.1 Development of an equity-focused programming model for all Arts, Culture, Summer, and Urban Parks programs and services: PP&R centered equity in its staffing, programming, and community partnerships for its Summer Free For All program (SFFA). Working directly with communities and organizations that serve Black, Indigenous, and People of Color (BIPOC), Immigrants and Refugees, people living in poverty, and people living with disabilities, the bureau has helped create programming that appeals to and serves these populations. SFFA is now considered an example of equity in practice within PP&R.

3.2 Develop a plan for increasing participation by people of color in Aquatics programs: The Aquatics team has created a strategic plan to guide these efforts. The plan is in the early stages of implementation.

3.3 Implement an updated and revised scholarship policy and fiscal process to ensure access to Recreation programs: This work is being revisited as part of PP&R's recent planning for how to use the resources of the Parks 2020 Operating Levy. PP&R is committed to ensuring that cost is not a barrier to program access and will be offering significant free programming and a "pay what you can" model in Summer 2021.

3.4 Develop a comprehensive data collection effort within Recreation programs to better understand the populations served: PP&R uses data-driven decision-making approaches such as the Results-Based Accountability approach. The bureau will restart the Parks Race and Ethnicity Program (PREP) in 2021 and will resume demographic data collection at community centers to guide on-going efforts to provide welcoming and culturally responsive services in recreation programs and centers.

3.5 Develop an action plan for improving the health of the City's Golf operations: PP&R's Golf program is working on action plans to improve its operations and attract a greater diversity of participation. This plan will be complete by November of 2021.

Develop and Sustain Quality Built Assets

4.2 Completion of 2014 Bond projects in a manner that is transparent and fiscally responsible: PP&R's Bond project is addressing needed repairs and removal of ADA barriers in parks, community centers, and facilities within diverse communities. Bond projects are tracked and reported to management on a monthly basis. Public outreach is tailored to each project and each community. Bond approved project scopes, and budgets are followed. PP&R makes a full report to City Council and the community on an

City of Portland  
**Requested Budget Equity Report**

---

annual basis.

Enhance Organizational Effectiveness

6.1 Develop an improved hiring process for seasonal employees: PP&R data collection efforts have been improved to support the seasonal hiring process. Data documenting racial diversity/gender is included in Tableau dashboards available to hiring managers.

6.2 Develop a bureau training plan to guide employee training efforts: PP&R hired a new Training Coordinator in August of 2019. This position is responsible for completing a training plan. Refer to question #3 for additional information on training provided to support equity work at PP&R.

6.3 Develop onboarding process and procedures for new employees: The Bureau of Human Resources rolled out a city-wide onboarding process in February of 2019. PP&R's new Training Coordinator is working to align PP&R's process with this new process.

8.1 Create an updated Graphics Standards Manual that includes templates for use by staff: This initiative has not been funded.

8.3 Develop a bureau-wide marketing plan that improves access to programs for underserved populations while also sustaining revenue growth: This initiative has not been funded. The bureau makes the best efforts with existing resources to provide program guides in multiple languages and offer language interpretations services to facilitate program registrations and services.

8.4 Update and operationalize an ongoing assessment of staff language skills: This project is on hold until a new project manager is identified.

8.5 Strengthen partnerships with community-based organizations to develop consistent standards and best practices for outreach to communities of color: PP&R's community engagement team continually strives to strengthen partnerships with community-based organizations. Successful partnerships have been forged across the Bureau including in the Community Garden Program, Summer Free For All, TeenForce Program, and the Environmental Education Program.

8.6 Develop a Language Access Plan for the bureau: This project is on hold until OEHR provides additional guidance. Bureau offers language interpretation through in-person and telephone contracted services.

8.7 Expand inclusive customer service strategy across the entire bureau: This project is on hold.

9.1 Completion of a Level of Service study for Parks and Natural Areas: This project is on track and will be completed in April 2021 as part of the bureau's larger effort to build a sustainable future.

City of Portland  
**Requested Budget Equity Report**

---

9.7 Develop an updated long-term vision plan for the bureau: The Bureau has started developing a new strategic plan, He

**Racial Equity Plan Link:** [www.portland.gov/parks/five-year-racial-equity-plan](http://www.portland.gov/parks/five-year-racial-equity-plan)

### **Requested Budget Community Engagement:**

The primary involvement of the community has been through the PP&R's Budget Advisory Committee (BAC). BAC members deliberated early in the budget process and developed key values that included equity as a high priority.

The bureau is holding five meetings with the Budget Advisory Committee to receive guidance and feedback. The BAC provided guiding values and provided comments on the bureau's planned Decision Packages as part PP&R's Requested Budget development.

PP&R will hold its final BAC meeting of the FY 2021-22 budget cycle in August 2021. This year, PP&R recruited BAC members with the idea of creating a year-round advisory group, with members staying involved for a minimum of two years. With this approach, PP&R can receive community feedback from a group that has articulated its values and understands the risks and opportunities of a large, complex budget.

The bureau will create a Levy Oversight Committee to help steward levy resources. In addition, PP&R will engage communities this spring and summer to determine how to best use levy resources to support marginalized communities. The Levy Oversight Committee will meet quarterly and provide annual reports to review levy programs and budgets to ensure that levy resources are aligned with community needs.

### **Base Budget Constraints:**

PP&R is operating within an overarching system that is inequitable, especially for East Portland residents.

As shown at a November 26, 2019 City Council Work Session on creating a sustainable future for PP&R, the following are examples of inequities in the City's parks and recreation system:

Half-mile access to parks or natural areas: One in five Portland households do not have access within half a mile; in East Portland, it's two in five households.

Half-mile access to playgrounds: Today, a third of the City's youth live in East Portland. Only four in ten of them can walk to a playground. This compares to seven in ten youth

City of Portland  
**Requested Budget Equity Report**

---

who live in other areas of Portland.

Three-mile access to full-service community centers: Citywide, seven in ten Portlanders live within three miles of a full-service community center. In North Portland, only three in ten residents have three-mile access.

Access to programs: 20% of Portlanders say that cost is a barrier to program access. For Portlanders of color, 25% say cost is a barrier; for East Portland residents its 28%. Over the past 20 years, fees for PP&R classes, swim lessons, and more have grown two to four times the rate of annual inflation. With a growing operational funding gap, PP&R has historically had to continue raising program fees. To date, the bureau has not had a budgeted scholarship fund and only offered scholarships to the community on an informal basis, by foregoing crucial revenue.

Tree canopy coverage: West of the Willamette River, communities enjoy 56% tree canopy. Excluding Forest Park, tree canopy is still 44%. East of the Willamette, tree canopy is 21%. And 80% of the City's population lives east of the Willamette. This disparity effects the health and quality of life for Portlanders east of the river. On a summer afternoon, temperatures east of the river can be 15 degrees hotter than west of the river.

Safety as a barrier to parks use: 30% of Portlanders cited safety as a barrier to parks use. For Portlanders of Color it is 37%; for East Portland residents it is 45%. And our maintenance team is 11% smaller today than it was 10 years ago, while the city's population has increased by 13% during that same period.

PP&R's FY 2021-22 Requested Budget includes resources from the Parks 2020 Operating Levy. These resources are focused on improving access to programs, especially for BIPOC, Immigrants and Refugees, families living in poverty, and individuals living with disabilities. PP&R is committed to ensuring that cost is not a barrier to program participation and has allocated additional resources for community engagement staff, equity and inclusion staff, access and inclusion services, and translation services.

In addition, the budget request includes resources for making improvements to the Bureau's Tree Planting Program, focused on low-canopy, low-income communities. Resources will also be allocated to improving safety in our parks, including staff and materials to better serve East Portland Parks.

PP&R will strive to address the larger inequities in the parks and recreation system through its continued work to build a Sustainable Future for the bureau and further Levy allocations in the Fall of 2021.

City of Portland  
**Requested Budget Equity Report**

---

**Notable Changes:**

One of the PP&R's service areas most devastated by COVID-19 was its public recreation and environmental education programs. PP&R's historical over-dependence on fees made it susceptible to budget reductions – the loss of all program revenue meant the lack of available budget to pay for Recreation employees and operating costs.

Parks 2020 Operating Levy resources will fund summer 2021 recreation and environmental education programs and will provide the following estimated service impacts:

- Outdoor pool swim lessons: 35,000 total attendance
- Recreation & Art Summer Camps: 45,000 total attendance
- Fitness in the Park: 2,400 total attendance
- Tennis in the Park: 1,500 registrants
- Free Lunch + Play: 100,000+ lunches
- Seasonal and Casual staff hired: 1,300 to 1,700
- Nature Day Camp: 900+ campers
- Youth Conservation Crew: 40+ participants
- Teen Nature Team: 20 participants
- Teen Internships: 15 participants

**Equity Manager Role in Budget Development**

PP&R's Equity Manager and the Workforce Development Manager have been involved in budget discussions and development. In addition, PP&R's Diversity and Equity Committee's Budget Subcommittee, in consultation with the entire DEC, provided guidance to program managers for developing the "Equity Impacts" section of the bureau's Program Offers.

### ADA Title II Transition Plan:

In 2014, the City Council-adopted an American Disabilities Act (ADA) transition plan that identified 17,008 barriers in parks and recreation facilities. In 2015, the bureau received a General Fund allocation of \$1M on-going funding per year and established an ADA Barrier Remediation Program. In 2019, the Bureau provided its ADA transition plan and strategy. PP&R tracks all barriers removed and ensures that all new parks and facilities are ADA-compliant. To date, approx. 15,417 barriers remain. The Capital Development Program prioritizes using Parks Bond funds and System Development Charge Funds (SDC) to remove barriers in parks and facilities, this includes up to \$5 million during the life of the Bond.

ADA improvements completed and funded by the Bond and SDCs since 2019 include: ADA access to the cottages at Multnomah Arts Center, Peninsula Park Community Center and Playground Access; Pier Park Access and loo; River Place Access; Sellwood Park Access; Gabriel Park Access; and Glenwood Park Access. Newly renovated playgrounds at Couch Park, Gilbert Primary and Glenhaven Park feature accessible rubber surfacing, paved pathways, and more inclusive play elements. A renovated playground at North Park Blocks opened in spring 2019, and featured accessible rubber surfacing, inclusive play elements, and curb ramp improvements. A new playground funded by the Bond and SDCs opened in spring 2020 at Lynchview Park and featured accessible rubber surfacing, new paved pathways, and a Portland Loo. Construction work on a new inclusive playground for SW Portland will start shortly at Gabriel Park.

### Accommodations:

PP&R:

- spent approximately \$24,687.23 for translation services, including signage for COVID-19;
- produced approximately 15,000 pieces of program materials last year, such as Lunch + Play and Stay and Play videos, varying from one to 15 languages; and
- translated most rules signs, starting in 2020, into 4 languages – Spanish, Russian, Vietnamese, and Simple Chinese.

### Capital Assets & Intergenerational Equity

While indigenous peoples have stewarded the land since time immemorial, the depletion of open spaces and natural resources that has occurred in the past century will likely be a significant burden for future generations. PP&R has long been a steward of park land, natural resources, and the urban forest. PP&R currently has over \$1.5 billion of assets (replacement value, not including land value) spread over 11,712 acres of park space. The long-term stewardship of parks, natural areas and associated assets and facilities is a high priority consistent with the Bureau's vision and strategic planning work, and consistent with the 2019-2023 Capital Improvement Plan.

City of Portland  
**Requested Budget Equity Report**

---

PP&R houses a Capital Development Program that consists of a Capital Growth Program and a Capital Renovation Program. Capital Development work is funded by the Requested PP&R Budget. The park/facility/asset planning, design and construction work benefits all Portlanders and specifically communities of color, marginalized and underserved communities in Portland.

The Capital Growth Program administers projects that are primarily System Development Charge (SDC) funded, which are focused on growing and expanding the existing park system with new parks or facilities to serve underserved areas. The Capital Renovation Program repairs and renovates existing park facilities via the \$68 million 2014 Parks Replacement Bond, 2019 Metro Bond or other maintenance funding sources to provide urgent, critical repairs in PP&R parks, community centers, and facilities throughout the city.

The determination of what Capital Projects are selected begins with a Capital Project Selection Process that ranks all projects. The process utilizes and incorporates:

- equity rating (giving preference to areas with a high population of youth, diversity and poverty as determined by the U.S. Census);
- number of assets available to the public rating; and
- number of households served rating in the prioritization.

The community outreach for the selected Capital Project design includes extensive public outreach to ensure that diverse voices are heard and that the resulting park design and implementation truly reflects what the community needs and desires. The completed Capital Projects, whether a new park or a renovated park, have assisted in making our parks system more accessible and equitable to all Portlanders by addressing service inequities, ADA deficiencies, repairing and preserving infrastructure, designing and building new parks in park deficient areas, and expanding the recreation system for a more diverse Portland.

The Capital Growth Program uses System Development Charges to fund that new park growth and over the last 20 years has acquired 700 new park acres and completed projects at over 100 parks and natural areas. We are also in our last year of Capital Renovation Bond implementation as we work to complete the last of the 52 selected projects. However, there are increased costs associated with Capital Development that create growing funding needs for operations and maintenance (O&M) dollars and our O&M dollars have not been sufficient in the past to fund the needed maintenance work. We have a backlog of over \$500 million of deferred maintenance and even with the 5-year levy PP&R does not have a long-term dependable revenue stream to maintain our parks system. Without significant new

City of Portland  
**Requested Budget Equity Report**

dependable revenue stream to maintain our parks system. Without significant new investment, this will result in future generations having a diminished park system with added financial burdens.

**Data Tracking  
 Methodology:**

The following provides a summary of how PP&R uses data to track access and service outcomes:

**Employee hiring:** PP&R developed a Tableau data dashboard for applicant pools, to track new hires by division, and overall employee demographics. The bureau also uses BHR's and OEHR's data dashboards. Additionally, the bureau uses the Affirmative Action report as a tool to guide managers in the development of their recruitments for vacant positions.

**Capital Improvement Plan and Asset Management:** PP&R has developed an Equity Index using the vulnerability data based on the methodology of Dr. Lisa Bates and used by the Bureau of Planning and Sustainability. This data is one variable as part of a multi-factor analysis to determine how to spend limited resources on capital improvement projects.

**Community Engagement:** PP&R uses U.S. Census and school enrollment data to develop targeted outreach on planning and public involvement projects. This data is used to develop advisory committees for capital development projects and community planning projects. This method allows for tailored approaches to determine the translation of key communication documents, use of translators, and other tools to ensure the engagement of limited English proficient populations, refugees and immigrants, and communities of color.

**Strategic Planning:** The bureau has developed the Visitor Information & Trends Analysis (VISTA) which uses a blend of quantitative and qualitative data collection to determine the desired level of service for developed and natural area parks. This data has included conducting focus groups and a Community Needs Survey, augmented by intercept surveys and targeted survey sampling of communities of color.

**Marketing and special events:** Data used includes event/ program attendance, revenue generation, number of graphic projects translated into one or more language, social media

City of Portland  
**Requested Budget Equity Report**

---

posts and articles in multiple languages, audience intercept surveys for Summer Free for All, and Facebook posts for events. The distribution of translated program guides and materials is also tracked.

Recreation and other departments have used the Parks Race and Ethnicity Project (PREP) along with other census data tools to determine the level of utilization by patrons registering for paid recreation classes. PREP was suspended to adjust key questions based on the fears and concerns people may have had due to federal immigration policy. PP&R is planning to reinstate this data collection project in 2021.

**Hiring, Retention, & Employment Outreach:**

The bureau continues to dedicate resources, focus, and coordination between Workforce Development, Equity & Inclusion, BHR, and the operating divisions.

While the bureau experienced a significant reduction in workforce due to COVID-19, PP&R was able to continue to make progress on equity and inclusion efforts with intentional recruitment and hiring practices. The Bureau's Workforce Development team continued to lead efforts to meet REP objectives and continue to implement best practices in hiring, promotion, and retention goals. PP&R was able to:

- sustain the total people of color as a percentage of all employees (32.8% in 2020; 31.7% in 2021);
- sustain the total people of color as a percentage of full-time employees (29% in 2020; 28.2% in 2021);
- sustain the total women of color as a percentage of full-time employees (30% in 2020; 30% in 2021);
- sustain the overall percentage of people of color in management classifications (29% in 2020; 28.6% in 2021);
- decrease the percentage of non-represented employees of color (30% in 2020; 28.5% in 2021); and
- decrease the percentage of represented employees of color (36% in 2020; 33.3% in 2021).

The bureau continues our commitment to providing employees with training to increase staff competencies in diversity, equity, and inclusion. Staff participated in the following in trainings:

- Communication Strategies
- Conflict Resolution (Dealing with Difficult People)
- Deconstructing Whiteness at Work
- Focus on Mental Health Bolsters Workplace Wellness

## City of Portland

**Requested Budget Equity Report**

- HR 2.02 Workforce Harassment, Discrimination and Retaliation for Managers and Supervisors (RV)
- HR 2.02 Workforce Harassment, Discrimination and Retaliation Prevention for Employees (FV)
- Leadership DEI: Strategies for Equitable Communication
- Mental Health First Aid
- Mindfulness Based Stress Reduction and Self Compassion
- ORPA Facing Forward: Developing High Impact Tools for Public Facing Staff
- Implicit bias
- Racial Equity 101 Training
- Racial Equity Centered Results Based Accountability Training
- Bias Awareness for Interview Panel

New positions supported by the Parks 2020 Operations Levy provide an opportunity to improve employee diversity metrics. Additional resources in the Workforce Development and Equity & Inclusion teams will also help us improve our onboarding and training for staff, which will help improve retention and promotion of BIPOC staff members. These investments will also improve outcomes related to how employees feel about their PP&R work experience.

**Contracting Opportunities**

The Capital Development Programs – the Capital Growth Program and the Capital Renovation Program - contribute to developing fair and equitable approaches to construction contracting and management to help distribute public construction dollars to the diverse construction community.

The City has established an equity goal of utilizing a minimum of 20% Disadvantaged, Minority-Owned, Women-Owned, Emerging Small Businesses, Service-Disabled Veterans Business Enterprises (D/M/W/ESB/SDVBE) contractors and sub-contractors. As an example of a recent success in FY 20-21 in achieving that equity goal, the 2014 Parks Replacement Bond Program has exceeded that 20% D/M/W/ESB/SDVBE consultants and contractors goal by having 42% of the contract values awarded to D/M/W/ESB/SDVBE consultants and contractors.

City of Portland  
**Requested Budget Equity Report**

---

**Engaging Communities Most Impacted by Inequities**

PP&R's FY 2021-22 Requested Budget increases the bureau's capacity to strengthen community relationships, enlist the participation of community leaders, and conduct targeted community outreach. The following groups and committees specifically work to engage the participation of immigrants and refugees, persons of color, and people living with disabilities:

- Budget Advisory Committee
- Native American Community Advisory Council
- Parks Ability Advisory Committee
- Parks Board
- Diversity and Equity Committee (internal staff advisory committee)
- Parks for New Portlanders Program
- Language Access Project

In addition, PP&R will work with community partners to support enrollment of BIPOC, Immigrants and Refugees, and youth from families living in poverty to participate in the Bureau's summer camps, environmental programs, and be hired as part of the summer seasonal and casual workforce.

Over the next few years, PP&R will fundamentally change the way it does business, and the Bureau will look to the community for assistance in meeting its equity goals. In 2021 and beyond, the bureau will continue to engage the community to shape the use of levy resources for services and programs.

---

City of Portland  
**Requested Budget Equity Report**

---

### **Empowering Communities Most Impacted by Inequities**

PP&R will work with community partners to meet this goal through community grants to help recruit BIPOC, low-income, and immigrant and refugee families for summer programs. In addition, the Levy Oversight Committee will offer additional opportunities for involvement from marginalized communities.

Prior to COVID-19, the programs below provided leadership development opportunities, opportunities to create and support culturally specific programs, and ways to learn about and engage in parks stewardship. During the current pandemic conditions these programs are on hold or will be restructured to a virtual program format:

- Summer Free For All
- Tongan Day
- Slavic Festival
- Muslim Cultural Festival
- Delta Park Powwow and Encampment
- Portland World Soccer
- Stand with Refugees & Immigrants Event
- Native American Salmon Celebration
- TNT (Teen Nature Team)
- Environmentally Sustainable Landscapes Initiative
- ADA Transition Program

This page intentionally left blank

### **Cost Recovery Policy Update**

As Parks Levy ramp up begins and the bureau starts to update its Strategic Plan in 2021, PP&R will begin the process of updating its existing Cost Recovery Policy. The Cost Recovery Policy is the bureau's overarching policy that helps to guide resource allocation, specifically as it relates to the level of subsidy (General Fund Tax dollars) allocated to the bureau's various services categories. The policy provides guidance for revenue generation, price setting, financial assistance, and other programming that is targeted at providing access to underserved populations. The policy is guided by the bureau's cost of service study, which provides detail related to the total costs of providing services to the public.
