* Neighborhood boundaries overlap, and some neighborhoods extend beyond Portland city limits. Some areas within Portland city limits are not claimed by a neighborhood association. For these reasons, the sum of the population of all neighborhoods does not equal the city total.

1 Population & race/ethnicity, housing units/households, vacancy rate and household size for 2010 and 2020 from decennial U.S. Census; additional indicators from 2017-2021 5-year ACS, based on proportional allocation of census tract data to census blocks, and of census blocks to neighborhoods (see methodology report).

2 Coefficient of Variation (CV) is an indicator of data reliability in the ACS, the ratio of the standard error (SE) to the estimate. High reliability: CV < 20 (not indicated). Medium reliability: 20 ≤ CV ≤ 40 (● yellow). Low reliability: CV > 40 (● red).

3 For race/ethnicity "alone or in combination", each multiple-race person is counted multiple times (once for each self-identified race). Sum of "total races tallied" therefore exceeds total population.

4 Diversity Index is the chance that two randomly selected persons are of a different race/ethnicity.

5 Rent burdened households spend ≥30% of income on rent (≥50% indicates severely burdened). Crowded means >1 occupants per room (>1.5 indicates severely crowded).

6 Food insecurity refers to predicted lack of reliable access to nutritionally adequate foods.

7 Disability includes non-institutionalized persons who have self-reported difficulties in one or more of: hearing, vision, cognitive, ambulatory, self-care, or independent living.

8 SVT is an assessment of communities' access to emergency services and programs before, during, and after disasters. Higher number indicates higher vulnerability.

9 LEP means speaking English less than "very well". Not all languages spoken in Portland are represented in the data. More information at portland.gov/officeofequity/language-access/.

Neighborhood profiles are a project of the City of Portland Office of Civic Life, in partnership with the Portland State University Population Research Center.
