

## One Point of Contact Campsite Report (10/10-10/16/2016)

This week we received 370 new campsite reports via the online [campsite report](#) form/mobile app. We also received several emails reporting new campsites via the [reportpdx@portlandoregon.gov](mailto:reportpdx@portlandoregon.gov) email address, as well as emails forwarded from Council Offices. Of the 370 total reports, 110 were reports of people living in their vehicles on public spaces; that brings our total to 341 different vehicles in which people have been reported to be living.

### Coordinated Campsite Cleanup Program update:

The following sites were posted on Friday, October 14<sup>th</sup>, 2016 and scheduled for cleanup this week:

- SE 97<sup>th</sup> and SE Foster
- SE 88<sup>th</sup> and SE Lafayette
- Brookside Natural Area

We are hopeful to have the remainder of the Springwater Corridor Trail (SCT) cleaned by the end of next week. With the SCT project completed, we will be able to attend to other areas of town that we have not had the resources to address since the start of the SCT Cleanup Project in September.

Starting the first week of November, the City of Portland, in a coordinated effort lead by Metro's RID Program, along with the Oregon Department of Transportation (ODOT), Tri-Met, Union Pacific, and the Multnomah County Sheriff's Office will be cleaning the north side of I-84 (Sullivan's Gulch) from 1-5 to NE 92<sup>nd</sup> Ave. Included in the scope of work for this project are the campsites on the north side of any sound walls and any properties in the immediate vicinity of those areas. Additionally, the area of inner SE Portland near the start of the SCT (greater SE 6<sup>th</sup> and Ivon area) will be cleaned in the days immediately following the completion of the SCT Cleanup Project (if time allows before November 1<sup>st</sup>).

Please note, this weekly update has now been made available to the public. It can be found at: [www.portlandoregon.gov/toolkit/reports](http://www.portlandoregon.gov/toolkit/reports)

### Most reported sits via online report/mobile app, the number of emails are not included in these totals (this week's totals only):
