

Commercial Activity: Athletic Field - Food, Beverage, and Product Sales Policies

If you are selling food, beverages and/or products in a Portland Parks & Recreation (PP&R) park, a permit is required and the following policies apply to your use **in addition to the** *General Guidelines for Commercial Activity at PP&R's Outdoor Facilities*.

Overview:

We offer several types of food, beverage, and product sales for athletic events.

Delta Park Vendor and Concessions Permits

PP&R has established the following directions for food vendors and concessionaires invited directly to events by permittees who hold an Athletic Permit for a tournament or other large athletic event at Delta Park.

Any vendors or concessionaires for permittees who have an athletic permit for any ball field at Delta Park will need to contact and coordinate with PMSA. Please call 503-823-1656.

By inviting any food vendor or concessionaire to be present at an athletic event, the permittee accepts full responsibility for that party's activities and operations in the park and further accepts the conditions that follow.

Permittees will be required to use fully compostable food containers and related disposable products, including take away condiment packaging, cups, lids and utensils.

As of October 1, 2019, the City of Portland per city code 17.103.310 has changed the restriction on Single-Use Plastic Servicewear. Even though all of the materials are compostable, please make sure you are treating single-use products as if they are plastic in any of the following ways:

- Provide upon request or upon an affirmative answer when asking customers if they would like single-use servicewear.
- Allow self-service at the counter.

For full details and FAQ, please see [here](#).

Competing Products

No commercial activity shall sell a product that directly competes with a like product either sold by a business within or directly adjacent to the park.

A “like” product is one that would be considered within the same family of products. For example, PP&R would not allow a vendor to sell a menu of Mexican food that included enchiladas while another sold only enchiladas. Other examples of products in conflict would be hotdogs/kielbasa or snow cones/slushies.

Beverages are not considered to be in competition unless it is the primary product sold.
