It's not quite as clear cut as that. The Mayor's office still has a very direct connection with PPB but we now also have the Public Safety Service Area that can help in a more operational level. All to say, we are both happy to support connection with PPB.

- **Kerry (she/her) - PCCEP** (18:35:05):  
PCCEP recommends that the SSD team include VOD analysis and discussion henceforth in every annual Stops Data Report. In order to analyze the backlog of reports from 2001-2023,

we recommend that PPB include an additional 5 years of backlog analysis in each new annual report until all past PPB Annual Stops Data Reports have been analyzed for VOD.

One of the things I've inquired to previously that is related to this, is understanding the breakdown of what officers (without naming them) statistical comparison of who is pulled over based on perceived race. The aggregate data might match, but we still don't get to understand possible bias.  
Sorry I'm off mic at the moment.
- **Stephanie Howard (18:41:15):**  
FYI, the PDF must've cut off the sentence at the beginning of page 2. I've asked the Chief's team to re-convert it and send it so we can upload it.  
In the meantime, the full sentence reads: "While PCCEP has acknowledged awareness of these analyses, the results from the State analysis does not support the assertion that "VOD analysis provides the PPB with an opportunity to enhance their understanding of racial disparities in stops."

- **Dori Grabinski, PCCEP Program Manager** (19:10:57):  
What PPB stated incorrectly in the initial statement.  
What corrections were made in the April 18, 2023 statement, what the limitations of that statement were, and why PPB made the decision to issue that statement.  
What internal assessments have been done to identify where the system failed, including whether employee bias against the protestors was assessed  
What PPB procedures have changed, if any, to prevent similar mistakes in the future.  
An acknowledgement from PPB that the initial mistake and follow-up communications did not honor the public with the transparency and acknowledgement of harm they deserve  
A public apology and correction of the record that includes information requested in items 1-5.

Just want to point out that the demonstration that night was a Justice for Patrick Kimmons event. Patrick Kimmons was a young Black man killed by PPB in 2018. The two officers who shot him are still employed by the bureau.

PCCEP's mission as far as I understand is to work towards equitable policing - a diff task than just ensuring those who have been hurt by policing are also heard. This group as far as I understand is to nudge for better policing and systemic change in the directives  
Kip S - Settlement and Policy (He/Him): 👍
- **Tia Palafox, she/her (19:18:02):**  
Right, we can just move forward with the recommendation & request the reply to it. Now it just feels out of order.
- **KM (19:19:27):**  
This is not the first time that PPB has ambushed based on knowing something coming down the line.
- **DaVante Minnieweather-PCCEP (19:19:28):**  
We're coming from a point of agency accountability on behalf of the entire community. For example, if there is a system oversight within PPB that has not been fixed, how is the community to trust that a similar lapse does not happen again? PPB including that in the apology would have put that concern at ease. At this point, a formal statement to the community addressing these points would be a way for the community and PPB to have something tangible.  
Barb. Rainish (she/her): 👍
- **Dori Grabinski, PCCEP Program Manager (19:20:45):**  
Clarification - we have more drafting time scheduled for this meeting.  
Tia Palafox, she/her: 👍

- **Barbara Bochinski (19:20:45):**  
Another problem is that the officers who showed up to the demonstration had the wrong information. Because of this they treated people badly according to the presentation that PCCEP did last fall.

Uh oh! Can we do it after kips comment?
- **Dori Grabinski, PCCEP Program Manager (19:30:26):**  
PCCEP - I know this is challenging in terms of timing and the last minute developments. If you would like to still consider this recommendation and believe it has merits beyond the action already taken, this is the last scheduled meeting time for quite a while that we will have to consider it.  
Kip S - Settlement and Policy (He/Him): 👍

I like that too, not sure if we should separate stuff because it's all related to the initial statement
- **Stephanie Howard (19:44:43):**  
If you would like to include that I have taken responsibility for the timing of the release of the statement, that might be the best way to include a complete history in the document.
- **Tia Palafox, she/her (19:45:26):**  
It could say corkers (traffic safety team)
- **Veva Campeau (19:45:57):**  
I think plain language is always best

Ashley Schofield (she/her) PCCEP Co-Chair, Barb. Rainish (she/her): 👍
- **DaVante Minnieweather-PCCEP (19:57:10):**  
My concern is that if there is too much of a time-lapse between this recommendation being pushed out and the apology issued today, that there will be an unfavorable result.
