PCCEP should recommend relocation of funds to public murals, and art installations- murals are being frequently requested from residents during the PEMO meetings.

<https://www.npr.org/sections/codeswitch/2013/09/16/221821224/it-could-have-been-me-the-1983-death-of-a-nyc-graffiti-artist> - the only diff between graffiti and street art is the words for people. Aside from the legal/consent aspect, there are moments where it does not matter to police or the cleaning company. Some murals have been erased within a week of being created. And if equating property damage to having a gun in public - we

could run into this.... This whole thing reeks of pearl clutching rhetoric ignoring that it is often an expression, takes major skills, and that they pay to see it in a museum.
