Expected Federal Formula Grant Resources FY 2020-21

Introduction

Funding in the fifth year is based on FY 2020-21 allocations. In 2021 a new Five-Year Consolidated Plan will be created. Based on the last five-year plan the expected assumptions for entitlements are that they will be relatively stable and similar for the next five years.

Explain how federal funds will leverage those additional resources (private, state and local funds), including a description of how matching requirements will be satisfied

The Consortium leverages HUD funds with a variety of local public, as well as private dollars, for housing and community development activities. Some of the leverage includes local Tax Increment Financing, for projects that leveraged non-local funding sources such as Low-Income Housing Tax Credits, State and County funding, and private resources units targeted at low and very low-income households. Housing development and rehabilitation activities are highly leveraged because public funds are used as "last in" gap financing amounts. Locally controlled direct subsidy dollars are provided as loans and grants for rental housing. These revenue estimates are based on FY 2020-21 budget projections, FY 2020-21 federal allocation and actual program income from FY 2017-18.
