

Appendix G Community Engagement Requirements and Reporting For Metro Regional Housing Bond

Project Sponsors and development teams are responsible to ensure ongoing community engagement to *inform project implementation*, including:

- Strategies for ensuring that ongoing engagement *around project implementation* reaches communities of color and other historically marginalized community members, including:
 - people with low incomes
 - seniors and people with disabilities
 - people with limited English proficiency
 - immigrants and refugees
 - existing tenants in acquired buildings
 - people who have experienced or are experiencing housing instability
- Strategy for ensuring community engagement *to shape project outcomes to support the success of future residents.*"

Community engagement is intended to gather feedback to affect project outcomes, regardless of who conducts the engagement (e.g. developer, partner).

Metro interprets “project outcomes” to mean permanent or long-range aspects of the housing development that can improve resident experiences, which are flexible enough in nature to allow community influence. Examples of project outcomes include location, unit composition, individual project design principles or specific features (such as external landscaping, community space, etc.), development of service partnerships, onsite services, and property management practices. A good neighbor agreement could be developed as part of this engagement, but this type of agreement would not, in and of itself, be considered a project outcome because it is non-binding and doesn’t typically improve the resident experience.

How to fulfill this reporting requirement:

Project Sponsors will produce an engagement report using the **REPORTING TEMPLATE** below and submit to PHB at least 30 days prior to the project’s financial close.

Additional, optional forms are available that may find useful in documenting your project’s engagement work:

- Metro Affordable Housing Bond Event worksheet

- Sign-in sheet with demographics template
- Event evaluation with demographics template
