

Cannabis Business Statistics

Burglary | Robbery | Vandalism

June 30, 2015 to June 30, 2023

Overview: This report provides statistics for Robberies, Burglaries, and Vandalism offenses that were reported at a Cannabis business to the Portland Police Bureau between June 30, 2015, and June 30, 2023. As well as Burglaries, Robberies, and Vandalism that occurred at a Liquor Store between June 30, 2015, and June 30, 2023. The analyses conducted are as follows: Overall trends, trends for retail shops, trends for warehouses, overall trends for Liquor stores, and trends for liquor stores by offense.

Findings for the time frame June 30, 2015, to June 30, 2023:

Overall:

- 72% of Cannabis businesses (399) have been impacted by the selected offenses.
- Retail shops account for 88% of the totality of the selected offenses, while warehouses only account for 12%.
- The highest number of incidents: 152 Burglaries occurred in 2020, 33 Robberies occurred in the first half of 2023, and 40 Vandalism incidents occurred in 2020.

Retail:

- Retail Shops are primarily impacted by Burglary (313 incidents), followed by Robbery (133), and Vandalism (127).

Warehouse:

- Warehouses are primarily impacted by Burglary (56 incidents), followed by Vandalism (21), and reported only 1 Robbery.

Data Notes:

Cannabis Businesses:

Cannabis businesses were identified using addresses provided by the Cannabis Program Bureau of Development Services and matched to addresses in the Portland Police Bureau's Records Management System (RegJIN). Only offenses that occurred at the business address were pulled. The date of creation for either the license application (prior to 2022) or the date of licensing (after 2022) was used to identify whether the event occurred after the business was present at the location. Robberies, Burglaries, and Vandalisms that occurred were then manually reviewed to identify whether the affected party was a Cannabis business using identifiers such as the business being listed as a victim, the business had a tracking code, or the report listed the business as the place of occurrence. Businesses that held multiple licenses were then recategorized based on what was stolen—front-store products or drug paraphernalia were categorized as retail shops. Pounds of packaged marijuana were categorized as wholesalers. Plants destroyed or stolen were categorized as producers. Mentions of edibles, butane tanks, marijuana oil, or similar products were categorized as processors.

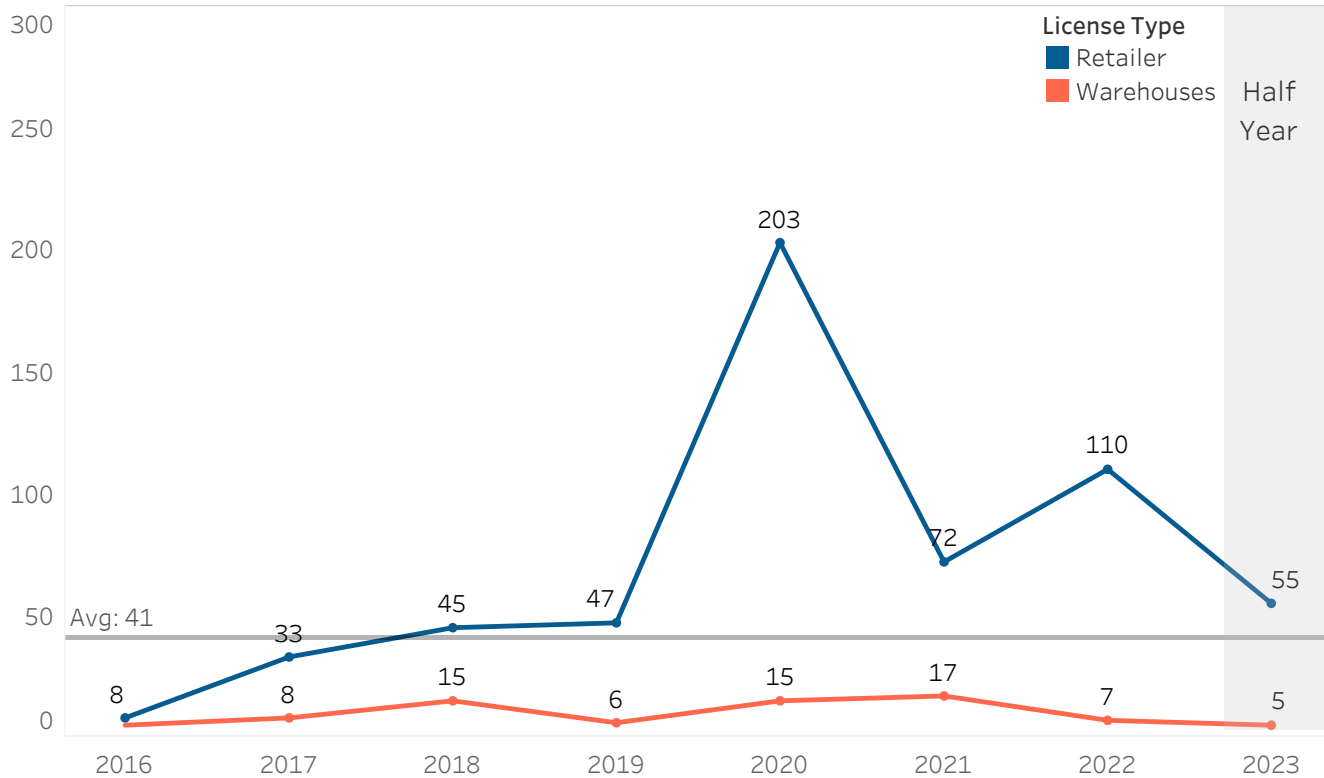

Data was accessed from RegJIN RMS on July 12, 2023.
