

### STORMWATER FACILITY TABLE

Plan References		Foundational Info			Facility Details								Additional Admin Info			
FACILITY ID	SHEET NUMBER	PRIMARY PURPOSE (Note 1)	DRAINAGE AREA (SF)	FACILITY TREATMENT AREA (SF) (Note 2)	FACILITY VOLUME (CF) (Note 3)	FACILITY PONDING DEPTH (IN) (Note 4)	FACILITY LENGTH (FT) (Note 5)	FACILITY WIDTH (ft) (Note 6)	CHANNEL SHAPE (Note 7)	LINER COVERAGE (Note 8)	ROCK GALLERY EXTENT (Note 9)	CHECK DAM (Note 10)	ORIFICE SIZE (IN) (Note 11)	DEQ ID	FACILITY PAY AREA (SF) (Note 12)	UTILITIES (Note 13)
1	SF--															
2	SF--															
3	SF--															

**NOTES:**

- 1 - Comp Infil = Complete infiltration  
 FC-CSO = Flow Control - Comined Sewer Overflow  
 FC\_SWM = Flow Control - Stromwater Management  
 WQ = Water Quality
- 2 - Facility area inside the curb/walls/sidewalk, excluding sediment forebays, check dams, beehives, and other non-infiltrating elements
- 3 - Volume of water storage between soil elevation and overflow elevation
- 4 - Vertical measurement from finished soil elevation to overflow elevation
- 5 - Inside length between facility end walls/ends of treatment area
- 6 - Inside width between facility walls/edges; widest measurement
- 7 - Rectangular (vertical walls), Trapezoidal (1 sloped side and 1 vertical wall), Sloped (2 sloped sides)
- 8 - Full (fully lined), Partial (street and/or sidewalk side liner/s), None (no liner)
- 9 - Full (rock across entire facility footprint), Partial (rock present but not full extent) , Underdrain protection only, None
- 10 - None, Concrete, Clay, Composite, Metal, Rock, Wood
- 11 - Any 1/8" increment from 1/8" to 3-3/4" measurements or None
- 12 - See specifications 00415.80 for stormwater facility pay area
- 13 - Water, gas, sewer, or other
