Date	Time	Email subject and body	Event at that time
4/30/2021	10:52PM	Is that seriously you? Late night drags are annoying enough when they end at 10pm. Still going on? How many noise complaints before you restrict events?	No Event - Rainout cancelled at 1pm
5/14/2021	3:42PM	Subject: Thanks a ton! Hi, Just wanted to send you all over at PIR a BIG F*** YOU. Me an my neighbor's quality of life is always brought down a couple of points each year due to the wondrous noise pollution that you and your clients so lovingly export. I guess I'll just live with it, I mean f*** me right? Thanks a ton for pretending like you care but really not giving a damn!	SCCA Super Tour
5/15/2021	4:29PM	Subject: Thanks for ruining my day! Thanks for ruining my day! Always a pleasure.	SCCA Super Tour
6/18/2021	10:13AM	Subject: YOU SUCK!!! Just a friendly reminder that you ruin thousands of people's days!!! You are going over dB levels. I F***ING hate you. I can't believe you are a government organization. Do you get tax dollars? I hope someone comes into your houses with a hair dryer 6 ft away from you for 8 hours straight and explains to you why you should get over it. :(Cascade Sports Car Club

7/8/2021	1:11PM	Subject: PIR = environmental terrorists Portland International Raceway and every person who supports it is an environmental terrorist. I've read how you think you help our community and I think it's bulls***. I'd like to know the demographics of who utilizes the track, as in, where do they live and what is their economic status? Please, if you have the information - I want to know what neighborhood PIR users live in and what their average yearly income is. While people in Portland were dying in 110+ F there were people zooming around, adding carbon emissions via your hell track. Thanks for ruining the environment!	Rose Cup Races - Varianced
7/13/2021	11:00AM	Subject: Have a terrible day ;) When are you going to give it a rest? It's Tuesday. ALSO, the PIR website won't open. Instead, it tries to download a file onto my computer. If we can't see the dB's, we're going to have to trust our ears that it is indeed way too f***ing loud.	Pro Drive Racing School
7/15/2021	10:44AM	Subject: Can't open the calendar or the dB meter... You've been going over Db levels everyday for over a week. I can't get on your website to see the calendar, soooo? I thought that calendar was your free ticket to be big fat earth f***ers. Now, I guess you can do it even if it isn't posted? I hope you understand how me and everyone in my neighborhood feels so extremely powerless against you. My house was built before PIR was. You make me 🤔	BMW Club Track Day - Street Cars

7/18/2021 11:35AM	Subject: :(I wish you could experience what Kenton is experiencing. If someone came to your neighborhood and made this type of constant noise, you would put an end to it immediately.	OMRRA Motorcycle Racing
7/18/2021 4:49PM	Subject: PIR schedule Can you please send me a copy of your racing schedule, since I can't obtain it online? I took a walk to get away from the noise but unfortunately it's loud and clear all the way through Kenton Park. I started wearing ear plugs, but I can still hear it pretty loudly through them. I don't understand why you don't care at all.	OMRRA Motorcycle Racing
7/18/2021 5:35PM	Subject: Quit your job This dumb raceway negatively effects peoples lives more than it positively effects the economy or the bozos who find this entertaining. I know this email goes to more than one person, so I am speaking to the ones who know how backwards this city and our world is. Quit your job and speak out. It's the only way any of the morons are going to learn. Sincerely, A North Portland resident who lives south of Willis and East of Portsmouth.	OMRRA Motorcycle Racing

7/30/2021 10:44AM	Subject: [User Approved] Private Testing? Your private test is going over decibel limits consistently. I am flabbergasted by your behavior. THIS IS A PUBLIC PARK. Why are private tests even allowed? I can hear the driver(s) through my nice closed windows. All I can say anymore since you all don't give a damn is F*** YOU.	IndyCar Testing - Varianced Event
8/6/2021 7:41PM	Subject: PIR is giving me depression It feels as though you have no respect for me and the Kenton neighborhood. Oh yeah, you don't. Thanks for the weekly reminder that humans suck and this world isn't worth living in.	SCCA Track Night in America - Street Cars

9/4/2021 10:55AM	<p>Subject: You are liars</p> <p>So interesting to find out you are referencing an inconclusive study on your website. A study citizens don't have access to but PIR can falsely quote to gaslight the entire neighborhood of Kenton. I don't know how you don't see how disgusting you are.</p>	SOVREN/ABFM - Varianced
9/5/2021 10:23AM	<p>Subject: Our Children</p> <p>One day our children will hear us tell them about how people used to drive loud, metal atrocities around in circles as fast as they could while polluting the air with toxic chemicals and sounds that broke the sky. Our children will be astonished of this information as if it is so impossible that a human could have ever been this stupid and selfish. Race tracks are one of those things that people did, that will be embarrassing to look back at.</p>	SOVREN/ABFM - Varianced

9/12/2021 11:06AM	<p>Subject: You are killing us in our own homes.</p> <p>The sound levels you are reaching are unacceptable under any circumstances. Yesterday it wore me down so intensely that I passed out at 7pm. I'm not a napper. Your track is causing physical effects on me and others in my neighborhood. Additionally, I rode my bike past PIR and just like ALWAYS - there was barely anyone in the stands. I don't understand why PIR, the parks department or the city thinks this behavior is ok. You are killing us in our own homes.</p>	IndyCar Race - Varianced

9/23/2021 1:20PM	<p>Subject: Kenton is quite serene when the racetrack is not running.</p> <p>I feel it is necessary to point out how incredibly quiet the Kenton neighborhood had been for a few days until last night when your antics started back up. You like to say you are only one source of noise in the neighborhood but it is quite clear based on the serenity I have recently enjoyed that you are THE main source of nuisance and noise in the Kenton neighborhood. Now, if only we could figure out where the cancerous smell is coming from. Could that also be PIR? You and your leaded gas. How are you still running in 2021?</p>	Hooked On Driving Track Day
9/24/2021 11:25AM	<p>Subject: Thanks for ruining the beautiful day!</p> <p>What a gorgeous day it is. I should be able to hear the birds chirping and the breeze rushing through the leaves; but instead I just hear PIR. Thanks for ruining the beautiful day!</p>	OMRRA Motorcycle Racing
10/16/2021 12:28PM	<p>Subject: From the real humans who live in Kenton</p> <p>Wasn't sure if you knew that real people live in the very real neighborhood of Kenton or if you thought this was a fake neighborhood. You know the weather has been rainy for us too, here in our real neighborhood. So thanks for making one of the only days in October when we can enjoy our real yards miserable. Thanks for thinking that your recreational activities are more important than our neighborhood. You're so right - we're such scum, we don't deserve a sunny, quiet Saturday.</p> <p>Love, -Your REAL neighbors in Kenton</p>	Cascade Sports CC - Enduro Race

Subject: How could I have been so naive?

Pro Drive Racing Test Day Lucky Dog

You know, there was a certain point in this journey in which my perspective was so naive. I thought that maybe the people who use and run PIR simply didn't know or understand how much you were affecting an entire neighborhood.

As time has gone on and I've experienced you, your lack of response, gas lighting techniques, the nasty comments from PIR users on nextdoor, etc; I now know you are all just foul, nasty, selfish, inhumane people. You care more about your leisure activities than the health and wellbeing of humans and animals. Thanks again for ruining the most beautiful, sunny day we've had in weeks!
