Businesses Required to File a Metro Supportive Housing Services Tax Return. Businesses doing business in or that have income from within the Metro District jurisdiction who have over \$5 million in gross receipts from both within and without the Metro's jurisdiction are required to pay a 1% tax on net business income that is apportioned to the jurisdiction. To determine if an address is located within the Metro tax jurisdiction, utilize the tool available at gis.oregonmetro.gov/metromap.

Filing Deadline. The filing deadline for this return is April 15, 2024. Since the Metro Business Income Tax return relies on information reported on the federal and/or Oregon tax return, the due date for the 2023 Form METBIT-20 will be changed when there is a change to the federal or State of Oregon due dates.

Extensions. Since the METBIT-20 return relies on the Oregon Form 20/Form 20-INC tax return filing, the due date for the METBIT-20 return is granted an automatic one-month extension to match the due date for the Oregon corporate return filing. This also applies to the extended filing due date. Metro does not generally allow an extension of time to pay the tax, even if the IRS allows an extension. The tax balance is due on the original return due date. The submission of an extension payment by the original return due date provides an automatic six-month filing extension in addition to the automatic one month filing extension

already granted. If there is not a tax balance due but you would like to file an extension, your federal or State of Oregon extension will serve as your Metro extension and a separate Metro extension will not need to be submitted. When filing your return on the extended due date, check the "Extension Filed" box on the return. If no extension payment was made, please attach a copy of your federal or State of Oregon extension with your return.

Federal and State Tax Pages. Be sure to include copies of the following federal tax pages (and statements) and Oregon tax pages (and statements) with your 2023 Form METBIT-20 business tax return:

- Oregon Form OR-20 or OR-20-INC (including OR-AP, OR-ASC, and any other Oregon forms and schedules you have filed) with statements
- Federal Form 1120, pages 1-5
- Federal Form 1125-E (if filed)

The Revenue Division has the authority to request additional tax pages or supporting documentation to verify the accuracy of the tax reported on the tax return.

What's New?

Market Based Sourcing. For tax years beginning on or after January 1, 2023, Metro has adopted the Market Based Sourcing (MBS) and single sales factor apportionment methodology to conform with the State of Oregon's apportionment methodology. This change includes adoption of the state's nexus standards and the interstate application of federal Public Law 86-272.

Amended Returns

The Revenue Division does not have a separate form for amended tax returns. To amend your 2023 Form METBIT-20, use the form for the tax year being amended and check the "Amended Return" box. If the address for the year you are amending has changed, use your current mailing address, and check the box indicating the change.

Fill in all amounts on your amended return, even if they are the same as originally filed. If you are amending to make a change to additions, subtractions, or credits, include detail of all items and amounts as well as any carryovers. Please include a statement explaining what changed from the original return.

If you change taxable income by filing an amended federal or Oregon income tax return, you must file an amended 2023 Form METBIT-20 within 60 days of when the amended federal or Oregon income/excise tax return was filed. Include a copy of your amended federal or Oregon income/excise tax return and explain the adjustments made.

Do not amend your 2023 Form METBIT-20 if you amend the federal return to carry a net operating loss back to prior years. Metro only allows tax entities to carry net operating losses forward. Additionally, net operating losses for Metro Business Income Tax are only generated from the Metro Business Income Tax return, not from your IRS or Oregon income/excise tax return.

On the prepayments line of your amended 2023 Form METBIT-20, enter the net tax as reflected on the original return or as previously adjusted. Do not include any penalty or interest portions of payments already made.

Apportionment

In adopting Oregon's apportionment law, Metro uses Oregon's single sales factor to apportion business income to or away from Metro. Sales are all gross receipts not allocated under ORS 314.615 to 314.645 that are received from transactions and activity in the regular course of business except as excluded by ORS 314.610(7), the related statutes, and related rules. Refer to Oregon's statutes and rules for guidance. Substitute Metro for state/Oregon as needed.

Income may be apportioned only if there is regular business activity both inside and outside of Metro that would allow another city and/or county to impose a similar tax.

Penalty Calculation

You may be subject to penalties for underpaying your estimated tax, filing a late 2023 Form METBIT-20, and/or paying your income tax liability after the original due date of the return.

Although the Revenue Division assesses a late penalty for both failing to file a 2023 Form METBIT-20 by the due date and failing to pay the tax by the original due date of the return, only one of these late penalties will be applied, even if there is a failure of both requirements. In these cases, only the late filing penalty is applied.

Underpayment Penalty

You may be subject to a penalty for underpaying your tax liability if, by the original due date of the return, timely payments are not made which are either:

- At least 90% of the total tax balance due, or
- 100% of the prior year's tax liability paid by the original due date.

If you did not satisfy either requirement, you will be charged an underpayment penalty of 5% of the unpaid tax, but not less than \$5.

Late Filing Penalty

If you do not file your 2023 Form METBIT-20 return by the original due date, file an extension with the Revenue Division by the original due date, or include a copy of your federal or State of Oregon extension with your return when you file by the extended due date, the following late filing penalties will apply:

- 5% of the amount of the total tax liability if the failure to file is for a period less than four months.
- An additional penalty of 20% of the total tax liability if the failure to file is for a period of four months or more.
- An additional penalty of 100% of the total tax liability of all tax years if the failure to file is for three or more consecutive tax years.

No late filing penalty is due if a timely extension is filed with the Revenue Division and a 2023 Form METBIT-20 is filed by the extended due date, or a copy of the federal or State of Oregon extension is included with the return and the 'Extension Filed' box is checked.

Late Payment Penalty

Your 2023 business tax must be paid by April 15, 2024, even if you requested an extension to file your 2023 Form METBIT-20. If you do not pay your tax by the original due date, the following late payment penalties will apply:

- 5% of the amount of the tax that was not paid by the original due date.
- An additional penalty of 20% of the unpaid tax must be added if the failure to pay is for a period of four months or more.
- An additional penalty of 100% of the unpaid tax liability of all tax years if the failure to pay is for three or more consecutive years.

Interest Calculation

Late Payment Interest

Interest is calculated at 10% per annum (.00833 multiplied by the number of months). Calculate your interest from the original due date to the 15th day of the month following the date of the payment.

Quarterly Underpayment Interest

Quarterly underpayment interest will be due if estimated payments were required and were underpaid. Calculate your quarterly underpayment interest at a rate of 10% per annum from the due date of each quarterly estimated payment to the original due date of the tax return to which the estimated payments apply.

The amount of underpayment is determined by comparing the 90% of the current total tax liability amount to quarterly estimated payments made prior to the original due date of the tax return.

There is no interest on underpayment of quarterly estimated payments if:

- The total tax liability of the prior tax year was less than \$1,000;
- An amount equal to at least 90% of the total tax liability for the current tax year was paid in accordance with Section 7.05.190; or
- An amount equal to at least 100% of the prior year's total tax liability was paid in accordance with Section 7.05.190.

Rounding. Round off cents to whole dollars on your return and schedules. To round, drop amounts under 50 cents and increase amounts from 50 to 99 cents to the next dollar. For example, \$1.39 becomes \$1 and \$2.50 becomes \$3. If two or more amounts must be added to figure the amount to enter on a line, include cents when adding the amounts and round off only the total.
