Important Reminders

Note: S corporations should file SC-2023.

File and Pay Online and Manage your Business Tax Accounts at Pro.Portland.gov. The Revenue Division's taxpayer portal can be used to manage your business tax accounts. Portland Revenue Online (PRO) allows you to:

- Register your business
- Update your business account information
- File a Business Tax Return
- Make payments
- Upload supporting tax pages and documents
- View correspondence mailed to you
- Provide Third-Party Access to your preparer

For more information and to create your account, please visit [Pro.Portland.gov](https://pro.portland.gov).

Filing Deadline. The filing deadline for this return is April 15, 2024. Since the C-2023 relies on information reported on the federal and Oregon tax return, the due date for the C-2023 will be changed when there is a change to the federal or State of Oregon due dates.

Extensions. The Revenue Division does not generally allow an extension of time to pay the tax, even if the IRS allows an extension. The tax balance is due on the original return due date. The submission of an extension payment by the original return due date provides an automatic six-month filing extension. If there is not a tax balance due but you would like to file an extension, your federal or State of Oregon extension will serve as your Business Tax extension and a separate extension will not need to be submitted. When filing your return on the extended due date, check the "Extension Filed" box on the return. If no extension payment was made, please attach a copy of your federal or State of Oregon extension with your return.

Federal and State Tax Pages. Be sure to include the following federal tax pages (and statements), Oregon tax pages (and statements), and Portland schedules with your C-2023 Business Tax Return:

- Oregon Form OR-20 or OR-20-INC (including OR-AP, OR-ASC, and any other Oregon forms and schedules you have filed) with statements

- Federal Form 1120 (pages 1 through 5) with statements
- Federal Form 1125-E and statements (if filed)
- HVT Schedule, if required (Portland form)
- PRS Schedule, if required (Portland form)
- Schedule R, if required (Portland form)

The Revenue Division has the authority to request additional tax pages or supporting documentation to verify the accuracy of the tax reported on the tax return.

What's New?

Market Based Sourcing. For tax years beginning on or after January 1, 2023, the City of Portland and Multnomah County have adopted the Market Based Sourcing (MBS) and single sales factor apportionment methodology to conform with the State of Oregon's apportionment methodology. This change includes adoption of the state's nexus standards and the interstate application of federal Public Law 86-272.

Downtown Business Incentive Credit. If your business entered into a new lease, extended a current lease, or owned and occupied their own business space in Lower Albina, Lloyd District, Old Town/Chinatown, or Downtown Portland, your business may be eligible for the Downtown Business Incentive Credit. Visit our webpage at portland.gov/revenue/dbi for more information about the credit and how to determine if your business is eligible to apply for the credit.

Increase to Owner's Compensation Deduction. For tax years beginning on or after January 1, 2023, the maximum owner's compensation deduction has increased to \$152,500, per owner, for the City of Portland Business License Tax.

For tax years beginning on or after January 1, 2023, the maximum owner's compensation deduction has increased to \$150,000, per owner, for the Multnomah County Business Income Tax.

Increase to Residential Rental Registration Fee. For tax years beginning on or after January 1, 2023, the Residential Rental Registration fee has increased to \$70 per unit.

Amended Returns

The Revenue Division does not have a separate form for amended tax returns. To amend your Business Tax Return, use the form for the tax year being amended and check the "Amended" box. If the address for the year you're amending has changed, use your current mailing address and check the "Mailing Address Change" box.

Fill in all amounts on your amended return, even if they are the same as originally filed. If you are amending to make a change to additions, subtractions, or credits, include detail of all items and amounts as well as any carryovers. Please include a statement explaining what changed from the original return.

If you change taxable income by filing an original or amended federal or Oregon income tax return, you must file an amended Business Tax Return within 60 days of when the original or amended federal or Oregon income tax return is filed. Include a copy of your original or amended federal or Oregon income tax return with your amended Business Tax Return and explain the adjustments made.

Do not amend your Business Tax Return if you amend the federal return to carry a net operating loss back to prior years. The Revenue Division only allows tax entities to carry net operating losses forward. Additionally, net operating losses for the City of Portland Business License Tax and/or Multnomah County Business Income Tax are only generated from the Business Tax Return, not from your IRS or Oregon income tax return.

On the prepayments line of your amended Business Tax Return, enter the net tax for each jurisdiction as reflected on the original return or as previously adjusted. Do not include any penalty or interest portions of payments already made.

Apportionment

In adopting Oregon's apportionment law, both jurisdictions use Oregon's single sales factor to apportion business income to or away from the jurisdictions. Sales are all gross receipts not allocated under ORS 314.615 to 314.645 that are received from transactions and activity in the regular course of business except as excluded by ORS 314.610(7), the related statutes, and related rules. Refer to Oregon's statutes and rules for guidance. Substitute city/Portland or county/Multnomah County for state/Oregon as needed.

With a few exceptions, income earned in Portland is also earned in Multnomah County. Income may be apportioned only if there is regular business activity both inside and outside these jurisdictions that allow another city and/or county to impose a similar tax.

Exempt Businesses

If your business is exempt from the City of Portland Business License Tax, as allowed under Portland City Code (PCC) 7.02.400 or the Multnomah County Business Income Tax, as allowed under Multnomah County Code (MCC) 12.400, you are still required to file a Business Tax Return by the due date of your return. Failure to do so may result in a Presumptive Fee bill and your account will remain in non-compliance status until the required documentation is received.

This exemption is from the business taxes only. Any other tax, surcharge, or fee may fall under separate exemption criteria, for which your business may still be liable.

Gross Receipts Exemption

Note: The following amounts are taken from the federal income tax return.

To claim a gross receipts exemption from the City of Portland Business License Tax and/or the Multnomah County Business Income Tax, the total gross receipts from all business activity must be under:

- \$50,000 for the City of Portland Business License Tax exemption, and
- \$100,000 for the Multnomah County Business Income Tax exemption.

To calculate the total gross receipts from all business activity, add the following lines together:

- **Form 1120.** Add the sum of positive numbers reported on line 1c and 4 through 10 on page 1 of Form 1120. If the corporation owns any residential rental properties in the City of Portland, make sure to complete and submit a **Schedule R** (with payment) with your exemption request.

If your total gross receipts from all business activity are \$50,000 or more, you do not qualify for the gross receipts exemption for the City of Portland Business License Tax.

If your total gross receipts from all business activity are \$100,000 or more, you do not qualify for the gross receipts exemption for the Multnomah County Business Income Tax.

Other Exemptions

If you are claiming an exemption other than the gross receipts exemption, you must attach a statement that explains which exemption you are claiming and provide support for that exemption (See Exemption Codes in the Appendix).

Penalty Calculation

You may be subject to penalties for underpaying your estimated tax, filing a late Business Tax Return, and/or paying your business tax liability after the original due date of the return.

Although the Revenue Division assesses a late penalty for both failing to file a Business Tax Return by the due date and failing to pay the tax by the original due date of the return, only one of these late penalties will be applied, even if there is a failure of both requirements. In these cases, only the late filing penalty is applied.

Underpayment Penalty

You may be subject to a penalty for underpaying your tax liability if, by the original due date of the return, timely payments are not made which are either:

- At least 90% of the total tax due on line 21 (Multnomah County) and line 31 (City of Portland), or
- 100% of the prior year's tax for each jurisdiction.

If you did not satisfy either requirement, you will be charged a 5% underpayment penalty on the unpaid amount, but not less than \$5 per jurisdiction.

Late Filing Penalty

If you do not file your Business Tax Return by the original due date, file an extension with the Revenue Division by the original due date, or include a copy of your federal or state extension with your Business Tax Return when you file by the extended due date, the following late filing penalties will apply:

- 5% of the amount of the total tax liability if the failure to file is for a period less than four months.
- An additional penalty of 20% of the total tax liability must be added if the Business Tax Return is four months or more past due.
- An additional penalty of 100% of the total tax liability of all tax years for any Business Tax Return which is delinquent for three or more consecutive years.

No late filing penalty is due if a timely extension is filed with the Revenue Division and a Business Tax Return is filed by the extended due date, or a copy of the federal or state extension is included with the Business Tax Return and the 'Extension Filed' box is checked.

Late Payment Penalty

Your 2023 business tax must be paid by April 15, 2024, even if you requested an extension to file your Business Tax Return. If you do not pay your tax by the original due date, the following late payment penalties will apply:

- 5% of the amount of the tax that was not paid by the original due date.
- An additional penalty of 20% of the unpaid tax must be added if the failure to pay is for a period of four months or more.
- An additional penalty of 100% of the unpaid tax liability of all tax years if the failure to pay is for three or more consecutive years.

Interest Calculation

Late Payment Interest

Interest is calculated at 10% per annum (.00833 multiplied by the number of months). Calculate your interest from the original due date to the 15th day of the month following the date of the payment.

Quarterly Underpayment Interest

Quarterly underpayment interest will be due if estimated payments were required and were underpaid. Calculate your quarterly underpayment interest at a rate of 10% per annum from the due date of each quarterly estimated payment to the original due date of the tax return to which the estimated payments apply.

The amount of underpayment is determined by comparing the 90% of the current total tax liability amount to quarterly estimated payments made prior to the original due date of the tax return.

There is no interest on underpayment of quarterly estimated payments if:

- The total tax liability of the prior tax year was less than \$1,000 for the jurisdiction;
- An amount equal to at least 90% of the total tax liability for the current tax year was paid in accordance with PCC 7.02.530 and/or MCC 12.530; or
- An amount equal to at least 100% of the prior year's total tax liability was paid in accordance with PCC 7.02.530 and/or MCC 12.530.
