

## Reedway Safe Rest Village Neighbors,

Construction is beginning on the **expansion** of the **Reedway Safe Rest Village**.

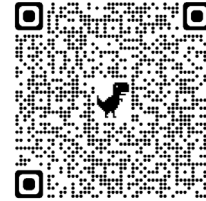

Safe Rest Villages are managed outdoor shelters offering those experiencing houselessness basic amenities, on-site 24/7 staffing, case management, and mental and behavioral health support.

We are bringing gravel onsite, to help level the area and make it walkable for participants. Soon, additional structures such as sleeping units, another bathroom and laundry room will be brought onsite.

As construction continues to progress, we will keep our website up to date ([saferestvillages.org](http://saferestvillages.org)) and send periodic mailers to keep everyone informed.

Please feel free to reach out to [shelterservices@portlandoregon.gov](mailto:shelterservices@portlandoregon.gov) or call **503-823-1340** if you have further questions. Visit our website at [SafeRestVillage.org](http://SafeRestVillage.org) for further information
