

Multnomah Safe Rest Village Neighbors,

The **City Shelter Services** program (SafeRestVillages.org) is moving forward with the development of the Multnomah Safe Rest Village on nearby City-owned property. Safe Rest Villages are managed outdoor shelters offering those experiencing houselessness basic amenities, on-site 24/7 staffing, and mental and behavioral health support, all with a goal of **helping them transition to their next step off the streets.**

The **Multnomah Safe Rest Village** will be developed in several phases. We have already built a perimeter fence and begun preparation for connecting necessary utilities. Additionally, we have shared this map previously, which shows the expansion process in its planned phases. Current participants will move into units located in the Phase 1 area when it is completed.

We have included the full site plan conceptual drawing on the back of this mailer.

We will send periodic project updates as development progresses, but you can always read about the project on our website or contact us with questions at shelterservices@portlandoregon.gov or **503-823-6425**. Use the **QR code** or visit **SafeRestVillages.org** for current information.
