

Reedway Safe Rest Village Neighbors –

Construction has finished at the Reedway Safe Rest Village. It is now open and serving the community. We have included a few photos of the Village from a few days before opening, so that you all can see what the village looks like. This site includes restrooms, a kitchenette, a fenced off-leash area, a garden space, 60 shelter units plus offices. Urban Alchemy is the shelter operator. Like all of our Safe Rest Villages, they are providing case management, mental health and behavioral health services.
