

# Reedway Safe Rest Village Neighbors,

Thank you to those who attended our Listening Session (1/22/24) or otherwise provided feedback on the expansion of Reedway Safe Rest Village. We will have our summary from the Listening Session published soon. We'll post that and other project updates to our website.

As was discussed at that meeting, the houseless crisis requires our continued efforts. With more than 6,000 people living outside, we must continue to provide shelters with services to help people transition from the street to housing. For many, the shelters in our city's system are the critical interim step to help people get to housing.

Given this, we wanted to let you know that we are **expanding the Reedway Safe Rest Village from 60 to 120 sleeping units**. This will double the capacity of sleeping units, which can accommodate individuals and sometimes couples.

You can always reach us at [shelterservices@portlandoregon.gov](mailto:shelterservices@portlandoregon.gov) or **503-823-1340**.

Scan the **QR code** or visit [SafeRestVillages.org](https://SafeRestVillages.org) for current information.
