Reedway Safe Rest Village Neighbors –

Construction on the Reedway Safe Rest Village continues to move forward!

We are expecting the delivery of both the bathroom and the kitchenette structures soon. They are large storage containers that are refinished to suit this purpose. The kitchenette has microwaves, refrigerators, and pantry food storage. The bathrooms have a flushing toilet, a shower, and a vent. The laundry room is also attached to the bathroom unit.

Shelter structures will be delivered soon after. These units are fully electrified, with heating and air conditioning provided. They are what give participants a safe space to lock their belongings and sleep. Some of these units will also be used as offices for the shelter provider.

If you have any questions, feel free to reach out to safestvillages@portlandoregon.gov or call 503-823-1340.

Hola, vecinos de Reedway Safe Rest Village:

¡La construcción de Reedway Safe Rest Village continúa!

Pronto se entregarán en el sitio las unidades para baños y cocina, las cuales son contenedores metálicos de almacenamiento construidas para servir esta necesidad. La cocina tiene microondas, refrigeradores y almacenamiento para alimentos. Los baños tienen un inodoro con cisterna, ducha y rejilla de ventilación. La lavandería también está adjunta a la unidad de baños.

Las estructuras del refugio se entregarán después. Estas unidades tienen electricidad, calefacción y aire acondicionado, y son las que proporcionan a los participantes un espacio seguro para guardar sus pertenencias y dormir. Estas unidades también se usarán como oficinas para el proveedor del refugio.

Por favor, no dude en contactarnos en safestvillages@portlandoregon.gov o llame al 503-823-1340 si usted tiene más preguntas
