

Moving to Our Future:

Pricing Options for **Equitable Mobility**

Draft Equitable Mobility Framework

The Pricing Options for Equitable Mobility Task Force will use the Equitable Mobility Framework to inform decision making and guide policy analysis around pricing strategies:

- What questions should we ask, and when, as we consider policy options?
- What data and qualitative information do we have today, and what can we realistically gather?
- What disparities exist today, and how do policy options help address those disparities?

Who are we prioritizing:

The Framework prioritizes extending benefits and reducing disparities for Black people, Indigenous people and People of color (BIPOC communities). Leading with race, the Framework will also be used to consider impacts on people with disabilities, low-income individuals, multi-lingual individuals and displaced communities.

| | What we care about | Description |
|---|--|---|
| Moving People & Goods | Efficiency | Improve time and space-efficient movement of people and goods; non-driving trips should be time competitive with driving trips. |
| | Transportation affordability | Reduce household expenditure on transportation |
| | Availability | Provide an abundance of choice in mobility options, e.g., sidewalks, bus lanes, bike lanes, service frequency |
| | Reliability | Improve predictability of travel time |
| | Connectivity | Create ability to get to jobs, services, recreation destinations, and places where you need to go by different modes |
| | Accessibility | Increase usability of transportation options by people of all abilities |
| | Quality | Improve comfort of public transit, bike facilities, and pedestrian facilities, e.g. cleanliness, amenities |
| Sustainability & Health | Climate impact | Decrease contributions to climate change |
| | Air quality | Decrease air pollution |
| | Health impacts | Improve human health outcomes resulting from transportation |
| Safety | Traffic safety | Improve safety of the system, e.g., crash risk |
| | Personal safety | Enhance safety perceived by individual users in the public realm |
| Economic Opportunity | Job Creation | Create new, green, long-term jobs in the transportation sector |
| | Working Conditions | Support workers in the transportation sector to achieve healthy working conditions, fair labor practices and living wages |
| | Connected thriving local economy | Support economic opportunity across the city; mobility is not a barrier to economic development |
| Equitable Transportation Planning Process | Inclusive engagement and outreach | Collect perspectives from BIPOC communities and ensure they are consulted in decision-making processes |
| | Accountability and evaluation | Ensure transparency of decision making and performance evaluation |
