Flanders Crossing Bridge
Project Overview

- Critical pedestrian and bicycle connection between the Pearl and Northwest Districts
- $6.4 million total project budget
- Construction start anticipated for late 2019 or early 2020
Reconfigure roadway to create two lanes for the offramp and one lane for NW 16th Ave

Install a diverter at NW Flanders St. and 17th

Convert the left lane into a left turn only lane. Convert the middle lane to a left turn/thru lane

Realign the ramp to receive thru traffic from the right two lanes.

Install traffic Signal at the west end of the Flanders Bridge

Convert NW Flanders to one-way eastbound between 15th Ave and 14th Ave

Install traffic signal at 14th Ave and Flanders

Flanders Crossing Bike/Ped Bridge
