## A. VACCINE NEWS AND RESOURCES

### *Oregon Residents and Workers*

Using an equity framework, OHA is currently distributing COVID-19 vaccine in line with the phased approach recommended by CDC's Advisory Committee on Immunization Practice (ACIP). Neither the City (nor any other employer) has authority to determine their own prioritization categories.

Here is what we know as of today:

- Phase 1A Group 1 includes Emergency Medical Providers, fire, law enforcement and 911 dispatchers that must work in-person and have significantly higher workplace exposure risks. In all, OHA expects that between 300,000 and 400,000 individuals will have access to COVID-19 vaccination during Phase 1a. It is expected that it will take several months to distribute enough vaccine to immunize all Phase 1a recipients. The remainder of 1a populations in the metro area will receive their first dose over the next few weeks.
  - As of Jan 22, PF&R had administered Round 1 doses to all 1a recipients it had been requested to by Multnomah County, as well as doses offered to the City's sworn staff, Portland Police sworn staff and BOEC dispatchers. PF&R will complete Round 2 doses to the same groups as before, by February 19.
  - **Parks Aquatics lifeguards have signed up for vaccines under the 1a other medical designation.**
- Phase 1B Group:
  - As of Jan 25, OHA announced that childcare providers, K-12 school and school district staff are eligible as the first group of Phase 1b. This group includes approximately 850,000 people statewide. OHA has authorized clinics to begin vaccinating 1b populations ahead of completing 1a vaccinations. The vaccination clinic at the Oregon Convention Center operated by Kaiser has been directed to exclusively serve this educator group.
  - Currently, elementary schools are the only segment of the K-12 education sector eligible to reopen schools in the metro region according to state school reopening metrics.
  - On Jan 27, Portland Public Schools (PPS) issued communications to staff and community partners about their vaccine program prioritization, organized into four Waves. Parks childhood program, SUN school and food pantry staff are included in Wave 1 of this program. PPS will be offering vaccines to staff progressively beginning with elementary school teachers, community partners, and other campus support staff, followed by teachers in progressively higher grades. Their goal is to restart in-person pre-K through 2<sup>nd</sup> grade instruction by April 8.
  - On Jan 31, the OHA Vaccine Advisory Committee met for its fourth and final meeting. They recommended four groups move forward concurrently once Oregon has vaccinated a critical mass of seniors. Those groups would be:
    - Adults 16-64 with underlying health conditions
    - Front-line workers (to be defined)
    - Adults and youth in custody 16 years and older
    - People living in low income and congregate senior housing.
    - People who live in multigenerational households would be next in line behind these groups, followed by the general population.

- City staff who fall into the above health or age-related high-risk categories would be eligible to receive the vaccine earlier than they would otherwise. We do not yet know those vaccine doses for these groups will be available.
- **OHA will define the “front-line workers” group by the end of February.**
- Phase 1C includes “other essential workers”. **The CDC has recommended that this Phase include water and wastewater utility workers, transportation workers, IT & Communication, Finance, Shelter & Housing, Legal, Public Safety (Engineers) and other Essential Workers not included in Phase 1B. OHA set the definition of Phase 1C later, possibly in March or April.** Metro area public health departments are working on several additional paths for critical and essential employees to receive vaccinations through health insurance providers, retail pharmacies, and employer self-service. The City will work with these departments to coordinate the best options for City staff.

Even after City employees begin receiving vaccinations, the [City’s face covering directive](#) will remain in effect. Please to continue wearing face coverings at all times when working indoors, and when in the presence of others while working outside. Never come to work when experiencing illness symptoms. Speak up when colleagues are not following these directives. We are all responsible for our workplace safety culture.

### Washington Residents

- In Washington the vaccine is available to anyone 65 and older, and all people 50 and older who also live in a multigenerational household. This is in addition to populations eligible during phase 1A including health care workers at high risk for COVID-19 infection, first responders, people who live or work in long-term care facilities, and all other workers in health settings who are at risk of COVID-19.
- Residents must have proof of eligibility for COVID-19 vaccine before approaching any provider.

## Oregon's Vaccination Trend: Doses Administered by Day as of February 16.

This chart shows the total number of COVID-19 vaccine doses that have been given in Oregon.

People vaccinated per 10,000: lighter colors represent counties with lower vaccination rates, while darker colors represent counties with higher vaccination rates.

### People Vaccinated

#### ALL LOCATIONS

**288,375** Series In Progress

**198,898** Fully Vaccinated

**487,273** Total People

Note: 22,290 people vaccinated have an address on file that is outside of Oregon.

### Doses Administered

#### ALL LOCATIONS

**367,164** Pfizer Doses

**323,642** Moderna Doses

**646** Unspecified

**691,452** Total Doses

## People Vaccinated by County: Multnomah County as of February 16.

People vaccinated per 10,000: lighter colors represent counties with lower vaccination rates, while darker colors represent counties with higher vaccination rates.

### People Vaccinated

#### MULTNOMAH

**60,427** Series In Progress

**38,421** Fully Vaccinated

**98,848** Total People

Note: 22,290 people vaccinated have an address on file that is outside of Oregon.

### Doses Administered

#### MULTNOMAH

**81,358** Pfizer Doses

**57,762** Moderna Doses

**216** Unspecified

**139,336** Total Doses
