Bull Run
TREATMENT
PROJECTS

**Improved Corrosion
Control Treatment**

The Portland Water Bureau is building improved corrosion control at our Lusted Hill facility

Improved Corrosion Control Treatment will make Bull Run water less corrosive to lead found in some home and building plumbing, further reducing lead in drinking water levels at the tap. The project is needed to comply with the federal Lead and Copper Rule and must be completed by April 2022, through a compliance agreement with the Oregon Health Authority.
