33.652.010 Purpose

The sanitary sewer disposal service standards protect the public health by providing for the safe and sanitary collection, treatment, and disposal of waste products from development in the land division. These standards will result in an efficient, flexible sewer system that can serve a variety of development configurations within reasonable overall development costs.

33.652.020 Sanitary Sewer Disposal Service Standards

Sanitary sewer disposal service must meet the standards of this section. Adjustments are prohibited.

A. Availability of sanitary sewer.

1. The Bureau of Environmental Services has verified that sewer facilities are or will be available to serve the proposed development; or
2. PP&D has approved the use of a private on-site sanitary sewage disposal system.

B. Public sanitary sewage disposal. Where public sewer facilities are available to serve the proposed development, the Bureau of Environmental Services has preliminarily approved the location, design, and capacity of the sanitary sewage disposal system. The approval is based on the Sewer and Drainage Facilities Design Manual;

C. Private sanitary sewage disposal. Where private on-site sanitary sewage disposal is proposed, PP&D has preliminarily approved the location, design, and capacity of the proposed sanitary sewage disposal system. The approval is based on Oregon Administrative Rules Chapter 340, Division 071; and

D. The land division will not eliminate the availability of services to existing development and the site will not move out of conformance with Bureau of Environmental Services or PP&D requirements for sanitary sewage disposal.
