Appendix D: Monthly Chief Procurement Officer Awards Report 15, 38
Appendix E: Intergovernmental Agreements (IGAs) Monthly Report 15, 41
Appendix F: Active Contracts Monthly Report 16, 44

Introduction

Below is the monthly update from the City Administrator to City Council. The intention of these updates is to share high-level operational updates about City administration. This will be shared by the City Administrator at the first Council meeting of each month. While not a complete picture of everything happening within City Administration, this report endeavors to highlight current and upcoming items of interest as well as report on citywide budget notes, claims, grants, procurements and intergovernmental agreements. The highlights and shoutouts below are submitted from each of the service areas and the appendices are generated by relevant staff each month. This report will continue to evolve both in format and content to meet the needs of Council.

Service Area Highlights

City Administrator's Office

Welcome New Chief Asset Management Officer

Last week, we were pleased to welcome Emily Tritsch as our first Chief Asset Management Officer. Emily will lead the City's new citywide Asset Management program and report directly to the City Administrator. She will develop a citywide asset management plan, bringing together and building on work already underway across our bureaus. The City manages approximately $80 billion in physical infrastructure and public assets. Emily will help establish the strategy and standards needed to make informed decisions about maintaining, renewing and investing in those assets over the long term.

Emily brings more than 20 years of experience in infrastructure management and public administration. Most recently, she served as Acting City Manager for the City of Tigard, overseeing a $450 million budget and nearly 400 employees. Previously, she led asset management at the Portland Bureau of Transportation, where she helped advance initiatives including Fixing Our Streets and Build Portland. Emily has been recognized nationally for her work in asset management and holds a master's degree in public administration from Columbia University's School of International and Public Affairs.

We're excited to welcome Emily back to Portland and look forward to the perspective and leadership she will bring to this important work.

Learn more: Portland welcomes first chief asset management officer | Portland.gov

Office of Equity and Human Rights Updates

The Office of Equity and Human Rights is working on various efforts to advance its mandate. During the City Employee Town Hall in April 2026, several groups were invited to ask questions on behalf of the communities they represent. Queer Alliance asked a question focused on the safety, inclusion, and support of LGBTQIA2S+ employees. Following the event, Queer Alliance sent a document with potential actions that could support meaningful and consistent support for LGBTQIA2S+ employees across the City.

The Office of Equity and Human Rights has been made aware of additional staff concerns related to both racial and gender identity harassment from members of the public towards City staff in City facilities. In response to these negative staff experiences, the office is preparing to launch a workgroup in partnership with the Bureau of Human Resources to prevent and address these types of incidents to help make the City of Portland facilities safer for community and staff alike. Employee Resource Groups continue to be a valuable pathway for elevating and addressing staff concerns.

The Office of Equity and Human Rights' LGBTQIA2S+ Program is also partnering with Portland Permitting and Development to ensure timely launch of the All-User Restroom ordinance in 2027. The office is also

developing an updated tool for FY 27-28 budget development that will quantify city investments in civil rights compliance.

Sustainability Office Update

In October, the City begins developing Portland's next Climate Action Plan. The Sustainability Office leads the work, supported by a cross-bureau staff team with representation from all service areas and Prosper Portland. Over the next year, the Sustainability and Climate Commission (Commission) will hold monthly public workgroups across eight focus areas and will lead community engagement. The plan will build on the City's Climate Change Risk Assessment, C40 frameworks, and the Climate Justice Audit response, and will be coordinated with PCEF's next Climate Investment Plan. A public draft hosted by the Commission is expected by the end of 2027, with Council adoption procedures in 2028.

Learn More: Climate Action Plan | Portland.gov

Introducing the Portland Performance Lab

The Portland Performance Lab is the City's new performance improvement office, housed within the Office of the City Administrator. Established in July 2026, the Lab partners across all service areas to strengthen how the City operates, improve both community and employee experience, and deliver better outcomes for Portlanders.

The Performance Lab is staffed by a team of six employees with decades of combined experience in helping the City measure and enhance the accessibility, effectiveness, and efficiency of its programs and services. The team will serve as a central resource for performance management, leveraging data-driven practices to guide decision-making and strengthen Citywide operational consistency. Its aim is to help the organization focus on what matters most, modernize and align service delivery, and foster a culture of continuous improvement grounded in data, collaboration, and innovation.

In FY 2026–27, the Lab will begin developing a virtual citywide performance dashboard that aligns key metrics to a strategic framework, tracks progress toward community outcomes, and links those outcomes to investment and budget decisions. The team is also partnering with multiple service areas on initiatives to improve customer experience and streamline processes for transportation maintenance reports. In addition, the Lab is contributing to Citywide efforts in data governance, climate action, asset management, equity, and public engagement.

Upcoming League of Oregon Cities Annual Conference

The League of Oregon Cities will host its annual conference in Salem from October 15–17. City of Portland elected officials and staff will collaborate with local government partners to prepare for the 2027 legislative session and engage on emerging policy, budget, and operational issues facing cities statewide. If you plan to attend or have questions about the conference, please contact OGR staff.

Indigenous Peoples' Day, October 12

An Indigenous Peoples' Day Proclamation will be read at the beginning of the October 7 City Council

meeting. The Proclamation will designate Monday, October 12, 2026, as Indigenous Peoples' Day in the City of Portland.

Portland Solutions Updates

The Public Environment Management Office (PEMO) is expanding the Basic Sidewalk Cleaning program, which has already removed more than 500,000 pounds of trash and addressed over 20,000 biohazards. In October, three contractors will provide services: Clean Start on the west side and close-in southeast, Cultivate Initiatives in northeast, and JunkIt Junk Removal in southeast and along 82nd Avenue. These partners offer supportive workforce development opportunities for individuals with lived experience of homelessness, behavioral health challenges, and incarceration. Cleaning routes adapt based on community needs and feedback received through Problem Solver meetings and the PEMO inbox.

The Street Services Coordination Center Street Outreach team recently expanded outreach once per week in Old Town, offering new evening services. Nighttime outreach has helped staff communicate new street sweeping and sidewalk cleaning schedules to people outside and share information about available shelter. So far, each evening outreach shift has resulted in approximately 5-10 shelter transports.

Exits tracked in HMIS from City alternative shelter sites show that 244 exits to permanent housing and 60 exits to temporary housing situations were counted in the last fiscal year (Jul25 – Jun26). That represents a substantial increase from the 92 exits to permanent housing and 29 exits to temporary housing recorded in the previous year. Shelter operator staff cite increased participation in jobs programs, better resource navigation, and an increase in the number of people securing benefits as the primary factors in the increase.

Service Area Shoutout: Asena Canbaz-Lawrence and Danielle Brooks from the Office of Equity and Human Rights and Heidi Brown from the City Attorney's Office have had 27 meetings with City Council members, Deputy City Administrators, Bureau Directors and their designated staff, as well as Equity Managers, thus far, to share the guidance on the ongoing implementation of the Mayor's Executive Order focused on the protection of civil rights. This reflects significant effort to help the City maintain its commitment to equity.

City Operations Service Area

BTS Unified Intake

BTS is delivering a project to address pain points in the intake experience for customers seeking support or reporting an outage. This work incorporates the newly embedded Service Area technology teams, which brought a variety of processes and tools to BTS through the realignment. Phase 1 delivery is targeted for January 2027, with expansion to embedded Service Area teams by spring 2027 and to additional operational functions, such as Procurement and HR, by the end of the fiscal year.

Learn More: Unified Intake Vision Strategy Goals

Cutter Garage Workflow Enhancement Project

The Bureau of Fleet & Facilities, CityFleet Division, is advancing process improvement through its Cutter Garage "Crews" customer service initiative. Focused on improving how maintenance work is communicated and completed across operations, employees will pilot a standardized workflow that improves work order visibility, clarifies next steps and responsibilities, supports coordination across crews and shifts, provides consistent equipment availability, and supports responsible resource allocation. An employee stakeholder workgroup is refining processes, establishing benchmarks, and supporting implementation across maintenance operations to better serve City bureaus. Progress and updates will be shared through the City Insider and CityFleet newsletter, *As the Wrench Turns*, as part of the CityFleet Relocation Project.

Learn More: CityFleet Relocation Project

Service Area Shoutout: Many thanks to the BTS Printing and Distribution team, along with staff volunteers from across the City who stuffed and delivered more than 8,000 envelopes containing Hop passes to City staff — all in record time! A great example of collaboration and teamwork across the City.

Community and Economic Development Service Area

PGE Harborton Reliability Project land use review

PGE submitted a revised land use application, incorporating the information and commitments outlined in the agreement agreed to during mediation in July related to the proposed Harborton Reliability Project in Forest Park. The agreement, reached following mediation, outlines the next steps for a revised land use application including additional mitigation, restoration, technical review and public process.

This land use review will go before a City Hearings Officer at a hearing scheduled for Wednesday, Oct. 14, at 1:30 p.m. Staff from Portland Permitting & Development's Land Use Services division will review the application in detail and issue a recommendation to the Hearings Officer not less than 10 days before the hearing. Once the Hearings Officer's decision is issued, that decision can be appealed to the city council within two weeks of the decision date.

Learn more: PGE Harborton Reliability Project land use review | Portland.gov

Portland launches request for proposals for venue operator for Portland'5

The City is seeking a single operator that will establish a sustainable operating and financial model for all five theaters of Portland'5 Centers for the Arts, in alignment with the City's Core Values and goals. The Operator will be responsible for delivering a stabilized, net positive operating budget and diversifying

revenue streams to support the long-term success of the performing arts centers. Interested parties are invited to submit proposals by 3:00 p.m. on Oct. 14, 2026.

Learn more: Portland launches request for proposals for venue operator for Portland'5 | Portland.gov

Lloyd-Holladay Relocation Grant is expanding district-wide!
The Lloyd-Holladay Relocation Grant is a limited time grant program developed to support Lloyd Center Mall tenants, activate vacant store fronts, and drive foot traffic in the Lloyd-Holladay TIF District by providing funding for moving expenses and tenant improvements. Starting Tuesday, September 1, remaining grant funds have been made available for any business or nonprofits looking to locate or relocate into a ground floor space within the Lloyd-Holladay TIF district.

Learn more: Lloyd-Holladay Relocation Grant | ProsperPortland.us

Building Energy Efficiency (BEE) Grants for small commercial buildings
The Building Energy Efficiency (BEE) Grant Program (PCEF Strategic Programs 4 and 11 with Prosper Portland) helps Portland's small businesses and small commercial building owners reduce energy use and operating costs, improve health and safety, and increase business resilience through energy-efficiency and renewable-energy improvements. Eligible small businesses generally have 50 or fewer employees, while building owners must have or agree to secure an eligible small business or nonprofit tenant with at least two years remaining on the lease. This is an on-going program through June 2029, and to date, the BEE Grant Program has received 355 applications, with 54 projects currently underway and 11 completed projects. The program has awarded almost $5 million and disbursed more than $2 million, with an average award is $95,000. Food-service businesses account for approximately 50% of awarded projects, reflecting the program's focus on high-energy-use industries.

Learn more: Building Energy Efficiency (BEE) Grant Program

Pause on Prosper Portland Vacant Storefront Grants due to high demand
Due to high demand, Prosper Portland is pausing applications for the Vacant Storefront Grant Program. Applications for this program were opened in July. The program offers grants up to $100,000 for grocery stores, $50,000 for restaurants, and $25,000 for retailers and can be used for both physical improvements (hard costs) and eligible consulting assistance (soft costs) to support business-related and property-related improvements on commercial, industrial, and mixed-use property. Those who have already applied will remain in the queue and can expect to hear from staff as their applications are reviewed for eligibility, and if eligible, as additional funds are available. Approved applications have 90 days to finalize a scope of work and grant agreement. Any award reservations that are later released could allow us to award additional grants. We look forward to sharing more information about applicants and awardees with Council in the coming months.

Upcoming testimony and public comment opportunities

The Recommended Draft of the Central City Code Amendment Project is now posted for public review in advance of a public hearing before City Council's Housing and Permitting committee, on Tuesday, Oct. 6, 2026.

Learn more: Submit testimony to City Council on zoning recommendations to facilitate housing production and economic recovery in the Central City | Portland.gov

The State Land Use Compliance Project Recommended Draft is now posted for public review in advance of a public hearing before City Council's Housing and Permitting committee, on Tuesday, Oct. 6, 2026.

Learn more: https://www.portland.gov/bps/planning/state-land-use-compliance-project

Draft permanent admin rules for the Affordable Housing System Development Charge (SDC) Exemption Program are now available for public comment through Friday, Oct. 23, 2026. A hybrid public hearing will be held on Tuesday, Oct. 20, 2026, at 10:00-11:00 a.m.

Learn more: Notice of Temporary and Draft Permanent Rules for the Affordable Housing System Development Charge (SDC) Exemption Program | Portland.gov

Draft permanent admin rules for the Renewable Fuel Standard are now open for public comment through Tuesday, Oct. 6, 2026. BPS staff is available to meet individually with stakeholders and regulated parties to answer questions about the proposed rule changes.

Learn more: Submit comments via the Map App

Service Area Shout-Out: At its annual conference, the Oregon American Planning Association (OAPA) presented the "Building Tomorrow Today Award" to the Bureau of Planning and Sustainability and their consultants, Cascadia Partners, for the Residential Infill Project Monitoring Report. The award recognizes projects that translate plans, policies, or programs into on-the-ground results. The Report documents the success of Portland's residential infill policy changes and shows that Portland added 1,400 middle housing and accessory dwelling unit (ADU) units in the three years following the zoning code changes.

Learn more: Residential Infill Project Monitoring Report

Public Safety Service Area

CHAT begins regular check-ins at Blanchet House

Portland Fire & Rescue's CHAT program has added Thursday stops to the Blanchet House to provide wound care, sign folks up for housing screening services, and register them for a state health plan if they

qualify. The goal is to meet the population where they are, gain trust, and begin to nudge them onto a pathway of success.

Learn More: https://www.portland.gov/fire/community-health/chat

VA recognizes PSR's efforts to support veterans

The U.S. Department of Veterans Affairs acknowledged Portland Street Response as a Champion at Supporting Veterans in Times of Crisis at the VA Portland Healthcare System 2026 Mental Health Summit on September 11, 2026.

Learn More: https://www.portland.gov/streetresponse/news/2026/9/14/va-recognizes-portland-street-responses-efforts-support-veterans

Chronic Nuisance Code Update

The Portland Police Bureau is working on a draft of a proposed rule implementing an updated Chronic Nuisance code. Commander Jake Jenson from the East Precinct has taken the lead and expects to have a draft ready for review shortly. CA Lee has signed a delegation of authority, which gives the Chief of Police and the Director of Portland Permitting & Development the power to enforce the updated Chronic Nuisance code.

Service Are Shoutout: Kudos to our first responders at Portland Fire & Rescue (PF&R) and the Portland Police Bureau (PPB) for their work at the hazardous materials incident at Benson High School on Sept. 8. As the incident unfolded, the school was evacuated and students were moved to surrounding athletic fields where they were reunited with their families. While PF&R personnel worked to safely neutralize the mixed chemicals in the cafeteria, others assessed more than 100 evacuated students, staff members, and faculty. This event required significant collaboration between PPB, PF&R, Portland Public Schools and others.

Public Works Service Area

Buckman Kerns ADA Ramp Joint Project (BES/PBOT) – Project in District 3

Environmental Services is partnering with the Portland Bureau of Transportation (PBOT) to construct Americans with Disabilities Act (ADA) curb ramp improvements at 38 intersections located throughout the Buckman and Kerns neighborhoods. The work builds on the recently completed Buckman-Kerns Green Street and Sewer Project. ADA curb ramps create safer, more accessible connections between sidewalks and streets. The project team works to minimize impacts to existing trees, landscaping, utilities, and other neighborhood features. In some locations, changes or modifications may be necessary to comply with City standards and federal ADA requirements.

Learn More: Buckman-Kerns ADA Ramps | Portland.gov

PBOT Interim Director Leadership Transition

Wendy Cawley began serving as Interim Director of the Portland Bureau of Transportation (PBOT) on September 24. She will serve in this role for the duration of Millicent Williams' tenure as Interim Deputy City Administrator leading the Public Works service area.

Wendy joined PBOT in 1997 and brings decades of experience in public service and organizational leadership. She helped shape the High Crash Corridor program that eventually became the Vision Zero program and was appointed as PBOT's first woman City Traffic Engineer in March 2020. As Transportation Operations Deputy Director, she previously led the Signals & Street Lighting, Traffic Design, Traffic Operations, Parking Enforcement, and Parking & Regulatory divisions.

As Interim Director, Wendy will provide leadership and stability, support employees and managers, and ensure that PBOT continues delivering safe, reliable, equitable, and effective transportation services for the people of Portland.

Brownfield Settlement Fund

The Brownfield Program has contracted with a facilitator, Kathleen Holt, to assist with the development of a process to distribute $13 million settlement funds the City received from Monsanto over PCB contamination. The facilitator is contracted through an existing IGA with PSU. The facilitator will provide advice on best practices for working with community and facilitate a community review panel, which will select projects to recommend for funding within the next year, focusing funds on projects that benefit Portlanders disproportionately impacted by contamination.

Learn More: Brownfield Settlement Fund | Portland.gov

Infor O&R Go-Live – Milestone Reached

Environmental Services is going live with Infor Operations and Regulations (Infor O&R), on Monday, 9/28. This project successfully migrates two existing Asset Management systems into a single/shared, all-encompassing solution. This is a significant milestone for the bureau, because for the first time, BES' Collection System stakeholders and Plant/Pump Station stakeholders will be unified on a single, supported, asset management platform. The Portland Water Bureau also recently went live with Infor O&R – which further unifies Portland Public Utilities. Additionally, implementation of Infor O&R allows PWSA to meet City cybersecurity obligations, as we correspondingly retire an aging and vulnerable system.

Volunteer Engagement and Innovation

Portland Parks & Recreation (PP&R) volunteers contributed 485,391 hours (valued at $16.9 million) across parks, programs, and community partnerships during fiscal year 2025-26, an increase of 89,213 hours (+22.5%) from the previous year. This growth reflects stronger collaboration with community partners and improved data collection through Get Connected, PP&R's new volunteer management system, which is helping staff better capture volunteer activity and coordinate opportunities across the

bureau. Special thanks to the staff and partners who supported the transition to the new system and continue to create meaningful ways for Portlanders to contribute to their parks and recreation programs.

Learn More: Volunteer | Portland.gov

Waterfront Park Design Competition Advances

Portland Parks & Recreation has advanced three design teams to the second stage of the international competition to reimagine the 30-acre Governor Tom McCall Waterfront Park. The shortlisted teams will develop concept designs that improve river access, restore ecological systems, and create a more inclusive and vibrant public destination, while honoring important existing features such as the Japanese American Memorial Historical Plaza, mature cherry trees, and Salmon Street Springs. The next phase began with a public presentation and engagement opportunity on September 23, drawing more than 950 RSVPs and 650 attendees. The teams' concepts will continue to be developed through public engagement, with a public exhibition of the proposals planned for early 2027.

Learn More: PP&R Waterfront Park Design Down To Three Finalists | Portland.gov

Fixing Our Streets: Your Local Funding at Work Implementation Progress

PBOT provided an update to the Public Works Committee on September 22nd on preparations for the January 1st implementation of the Transportation Utility Fund and the Street Damage Restoration Fund. As directed by City Council, Transportation Utility Fund revenues will be directed 75% towards Maintenance, 12.5% towards Sidewalks and Alternative Pathways and 12.5% towards Vision Zero. Street Damage Restoration Fund revenues will be directed 100% towards pavement maintenance and coordination. PBOT provided additional details about the revenue investment strategy. The presentation also detailed progress related to financial assistance programs and the Phase II non-residential methodology. Presentation materials are available here.

Bike to Books

PBOT and Multnomah County Library announced the winners of the 2026 Bike to Books Design Contest. The Bike to Books program celebrates National Bike Month in May, inviting Multnomah County residents to design art for local bike lanes. Winners were selected from each of the four age categories: Pre-K to 2nd grade, 3rd to 6th grade, 7th to 12th grade, and adults. The winning designs are installed on a bikeway near the winner's local library branch each spring.

Learn More: www.biketobooks.com

Filtration Project Update

Overall Status. This summer has been a productive construction season for the Bull Run Filtration Project with spending reaching more than $2 million per day. Construction on two major components of the project, the Filtration Facility and Pipelines, progressed significantly, with combined expenditures totaling approximately $937 million through July 31, 2026. Both projects remain within budget and on schedule to begin delivering filtered water by September 30, 2029. The next financial update is expected later this month and will provide information for the reporting period ending August 31.

- **Risk Management, Mitigation, and Progress**. The project team continues to actively oversee primary risk areas across budget, schedule, change control, and operational readiness. Notable tracked risks include continued lower productivity in tunnel excavations associated with boulders. All current mitigation strategies remain fully funded within existing project reserves.
- **Financial Oversight and Transparency.** Progress is being made on the Independent Financial Panel recruitment process. The Bureau has met with the Advisory Bodies Program within the Office of Civic Life to lay out a formal approach for panel recruitment and member selection.
- **Key Construction Activity.** Construction activity continued to increase, with an average of 494 workers across the project sites in July. However, traffic count limitations on Carpenter Lane may restrict future workforce growth needed to support schedule recovery efforts. Alternative transportation and site access solutions are being evaluated but may increase project costs. Crews continued to place about 1,000 cubic yards of concrete each week for facility basins, pipe encasements, and building foundations. Crews have also excavated the tunnel shaft to 209 feet of its planned 237-foot depth, where it will connect with the filtration pipeline system; blasting occurred at the shaft on August 18 and is expected to be the final blast.
- **Community and Stakeholder Response.** The project team hosted a Coffee with the Contractor meeting on September 10. Questions focused primarily on construction traffic and fire hydrants. The team also staffed a table at several Portland Parks *Summer Free for All – Free Lunch + Play* events in August. A virtual neighbor meeting will be held on October 8.

Learn More: Bull Run Filtration Monthly Project Status | Portland.gov website is updated on the 20th of every month.

Budget Note Update: Koyama Lane 11a – Utility Rate Setting

The Public Utilities will kick-off the Utilities Rate Study with a presentation to the PW Committee on October 27th. The presentation will include a high-level scope and timeline of the project including Council and community engagements. The Public Utilities will be starting work on an RFP to retain a consultant to assist with the project. Also, the Public Utilities will be consulting with PUB on their engagement on the study.

PWB's New Approach to Sizing Meters for Commercial Development

PWB's Engineering Development Team has used a new approach to the sizing of meters for commercial development, using Appendix A of the Oregon Plumbing Specialty Code. It's an alternate and more refined method that can result in a smaller meter size, thereby reducing costs for development of commercial properties, and reducing SDC charges for development too. The first use of the approach was for the James Beard Market, a new 38,000 sq. ft. public community marketplace under construction in downtown Portland fronting the bus mall at SW 6th and Alder, which avoided the need to upsize the existing meter as part of the development, saving almost $65,000 in fees to the developer ($38,379 SDC's and estimated $25,000 on installation costs, including avoiding disturbance to the pavers on the bus mall). Work is underway to document this new approach for customers.

Learn More: Connect to City Infrastructure | Portland.gov

Vision Zero

	2022	2023	2024	2025	2026

Note: In accordance with Oregon Department of Transportation guidance and standards associated with National Highway Traffic Safety Administration and the American National Standards Institute, data excludes people who died intentionally, in an act of homicide, more than 30 days following a crash, or in a crash not involving a person driving. People who died of causes other than those directly attributable to a crash, such as a heart attack while driving, are also excluded based on medical examiner reports.

Learn More: **Vision Zero Dashboard**

Service Area Shoutout: In early June 2026, while performing routine pavement maintenance, Portland Bureau of Transportation (PBOT) crews discovered a sinkhole near SW Dosch Road and SW Newby Terrace caused by a collapsed stormwater pipe. The Bureau of Environmental Services (BES) completed emergency repairs to the collapsed pipe July 24, 2026, and SW Dosch has reopened to auto traffic. BES is now designing the SW Newby Terrace Stormwater Pipe Repair Project to extend repairs associated with the emergency sinkhole repair west along SW Newby Terrace, between SW Dosch Road and SW Redondo Avenue. Kudos to the entire team including Collections System Operations & Maintenance Division (Jocelle Tade, Emily Morrissy, Molly Nause-McCord), Utilities Engagement team (Matt Gough),

PBOT-MO Environmental Systems Division (Kayla Vandolah, Sophea Sem, Aaron Carr, Kyle Hawes, Robert DeMars, Chad Tippen, Michael Smith), and the contractor, Sambar, for their efforts to stabilize the site, expedite repairs, keep community well informed, and reduce the risk of future pipe failures.

Learn More: SW Newby Terrace Stormwater Pipe Repair | Portland.gov

Service Area Shoutout: A special shoutout to Kelsey Atkinson and PP&R's Land Stewardship team, including Kimberléa Ruffu and Kayla Miles, for their work supporting the transition to Get Connected and improving how volunteer contributions are tracked and coordinated. Their collaboration is helping PP&R recognize nearly half a million hours of community service while strengthening the systems that connect Portlanders with opportunities to care for and activate public spaces.

Service Area Shoutout: A big shoutout to engineering supervisor Bikram Raghubansh who did a great job of representing PBOT and the Traffic Operations Center to media this month. Bikram shared how PBOT is working hard to keep traffic moving during ODOT's five-week closure of I-5 southbound and how Shifting Your Trip can help keep Portland moving. Watch Bikram's KATU interview here.

Service Area Shoutout: The Alliance for Water Efficiency (AWE) honored the Portland Water Bureau with the 2026 Excellence in Equity Award at the Water Efficiency and Conservation Symposium in Chicago. AWE recognized the bureau's sustained commitment to affordability and making water conservation programs more accessible. Last fiscal year, the City provided water/sewer/stormwater bill discounts to more than 13,000 single-family households and 200 low-income multifamily properties housing over 11,000 families, and completed over 400 critical leak repairs for 166 income-qualified households. These repairs are projected to save nearly 10 million gallons of water and reduce carbon emissions by about 4.6 metric tons. The Bureau also recently expanded its community partnerships through the Home Water Leak Repair Program, adding the non-profit Oregon Rohingya Myanmar Muslim Society (ORMMS) as a partner. ORMMS has strong expertise in supporting immigrant and refugee communities and was selected for a $30,000 grant to coordinate additional leak repairs and program outreach.

Learn More: 2026 AWE Award Winners - Alliance for Water Efficiency

Appendices

Appendix A: Budget Note Tracker

See enclosed **Appendix A** for an updated tracking tool illustrating progress on implementation of the Budget Notes included in the FY 2026-27 Adopted Budget. This tracker includes the note title and sponsor(s), the service area and primary contact in the lead on implementing the note, and the timeline if noted in the text of the note. It also includes, in purple, when the administration expects to work on each of the notes, across the upcoming fiscal year. Lastly, it includes a status update listing whether the item is note yet started, on track, coordinating with sponsor, undergoing analysis, needs more discussion,

complete or still to be determined. The status column will be updated with each monthly report as work progresses.

This month the report also includes the tracker for last fiscal year's (FY 2025-26) budget notes, with fiscal year end next steps outlined for notes that are outstanding.

Appendix B: Claims Summary Report, January 2026 – present

See enclosed **Appendix B** for Claim Summary reports for this calendar year including:

Settlements Report/Closed Claims under $50k
This report summarizes closed claims, with payments under $50k. Per charter, these claims do not go to council; therefore, the purpose of this report is to identify claims under $50k.

As a note, these summaries outline *payments only* (the charter language identifies this $50k limit as payments only). Thus, no expenses, if any, are identified. Expenses, if there are any, are listed in the Citywide Closed Claims excel, below.

Citywide Closed Claims Report
This report summarizes, by coverage and bureau, closed claims, total payments, *and* any legal or other expenses also tied to the claim for all settlements paid by the city, both above and below $50k.

As a note, all claims over $50k are brought to Council for consideration before resolving.

Citywide Closed Claims Excel Sheet
This is all the data which is underneath both the Settlements and the Citywide Closed Claims reports. This sheet outlines the bureau, description, how it was settled (including claims denied), settlements paid and total cost incurred for all claims, both above and below $50k.

As a note, this report includes columns for both total settlements paid and total incurred. Any increase in the total incurred column is identifying increases over the paid settlement for expenses (legal, experts, adjusting needs, etc.). Please also note columns for court type and docket number for claims that went to a hearing.

Appendix C: Monthly Grants Snapshot

See enclosed **Appendix C** for the monthly Grants Snapshot, which includes snapshots of the city's Incoming Grants Program including total grant funding, active federal grants, active non-federal grants, total federal and non-federal funding requests, citywide federal grants activity report, federal grant

updates and funding opportunities for city funded outgoing grant programs. The report also includes information on the implementation of the Outgoing Grant Policy and FY 2026 General Fund Grant Recipients.

All grants are required to abide by the terms and conditions of the grant agreement and all federal grants have to follow the Code of Federal Regulations. The Code of Federal Regulations (CFR) is the official codification of the general and permanent rules published by the executive departments and agencies of the U.S. federal government. In addition to the Code of Federal Regulations, executive orders can significantly impact federal grants by shaping funding priorities, eligibility requirements, and compliance obligations.

Appendix D: Monthly Chief Procurement Officer Awards Report

See enclosed **Appendix D** for the monthly Chief Procurement Officer Awards report. This report is a snapshot of the Awards from the last 30 days and includes the award date, the city unit, a short description of the award, the offeror's name, and the award amount. It does not include standalone distributed purchase orders. Portland Contracting Rules 5.33.010.A.7 defines an Award as "The decision of the City to enter a Contract with an Offeror." Those with a PortlandOregon.gov domain may view and interact with the Chief Procurement Officer Awards Report online.

For additional detail, procurement services publishes a public-facing Procurement and Contracts Lookup dashboard that allows the public to learn more about the City's procurements and contracts by using View Record Detail button to drill down to more details. This report is updated every two weeks, while the Chief Procurement Officer Awards Report is refreshed daily.

As always, to request a dashboard, report errors, ask questions, make comments, and provide feedback, please refer to the linked Request and Feedback Form.

Appendix E: Intergovernmental Agreements (IGAs) Monthly Report

An intergovernmental agreement (IGA) is a contract made between two or more government entities outlining tasks related to collaboration on specific projects or issues. These agreements are designed to facilitate cooperation and coordination among governments, allowing them to address shared challenges effectively. IGAs can cover a wide range of topics, including resource sharing, joint projects, and policy implementation. As a result of a request from the City Council, Procurement, Contracts and Grants, Digital Services is providing the following IGA report, enclosed as **Appendix E**.

As always, to request a dashboard, report errors, ask questions, make comments, and provide feedback, please refer to the linked Request and Feedback Form.

For additional details about an IGA, please contact the managing program or Bureau.

Appendix F: Active Contracts Monthly Report

This appendix shows all active contracts currently held in the city, sorted by largest to smallest. Start and end dates are called out – many of the contracts run across multiple years. The chart also shows both the remaining contract value (the amount still unspent) and the overall contract amount (not a guarantee of funds that will be spent but rather a not-to-exceed number). The totals for both columns span the life of the contracts, often multiple years. There is also a description of the work, bureau and contractor/consultant listed. In future months we will explore breaking this out by general fund and non-general funds. The active contracts report is enclosed as **Appendix F**.

As with appendices D and E, the entire list is not in the printed version of the report; please refer to the online version for the entire report. Chief Procurement Officer Contracts Report - Power BI.

To request a dashboard, report errors, ask questions, make comments, and provide feedback, please refer to the linked Request and Feedback Form.

Appendix A: FY 26-27 Budget Note Tracker and Status Update

Appendix C: Citywide Grants Activity Report

Grants Management Division (GMD)

This report provides a comprehensive overview of the current grants landscape. It includes information about our incoming active grants, pending funding requests and updates about our city-funded outgoing grants program.

INCOMING GRANTS PROGRAM (Data as of August 31, 2026)

ACTIVE GRANT FUNDING

$576.8M Total Grant Funding

The City receives grant funding from federal, state, local, and private sources. These funds—whether provided through formula allocations, direct appropriations, or competitive awards—are subject to use restrictions based on their source. While this report reflects total award amounts, many grants span multiple fiscal years.

Active Federal Grants

$319.6M

	#	Amount
City Administrator	1	232,000
City Operations	5	1,414,000
Community & Ec Dev	14	116,494,433
Public Safety	22	17,308,191
Public Works	57	172,287,713
TOTAL	**99**	**307,736,337**

Active Non-Federal Grants

$246.0M

	#	Amount
City Administrator	5	31,719,069
City Operations	3	3,943,071
Citywide	1	11,987,393
Community & Ec Dev	12	16,324,665
Public Safety	18	3,656,486
Public Works	41	170,207,443
TOTAL	**80**	**237,838,127**

The City currently has been awarded $57.8M in grant funds that have not yet been formalized through agreements.

FUNDING REQUESTS

$57.7M Total Grant Requests

Summary of the City's applications for grant funding submitted in the past year, which are currently pending notification of award or decline. These numbers may change each month as applications are submitted, the City receives notifications, or data falls outside the period of one year.

- 17 – Federal grant applications
- 9 – FFY27 Congressionally Directed Spending (Earmark) requests
- 6 – Non-federal grant applications

Federal Grant Applications (including Earmarks)

$55.3M

	#	Amount
City Administrator	0	-
City Operations	1	350,000
Community & Ec Dev	4	13,500,000
Public Safety	12	11,601,909
Public Works	9	29,815,811
TOTAL	**26**	**$55,267,720**

Non-Federal Grant Applications (State, Metro, Other)

$2.4M

	#	Amount
City Administrator	0	-
City Operations	0	-
Community & Ec Dev	1	150,000
Public Safety	1	350,000
Public Works	4	1,902,285
TOTAL	**6**	**$2,402,285**

SEPTEMBER INCOMING GRANTS UPDATES

Federal Impact Highlights: GMD, the City Attorney's Office, and the Office of Government Relations are actively monitoring several emerging federal actions that may affect the City's grants program. Recent developments include:

- The City, like many jurisdictions nationwide, is increasingly encountering federal grant application and award certification requirements that conflict with our values, policies, or operational practices. With no consistent approach across federal agencies or programs, the City is managing these conflicts through a combination of tactics:
  - Leveraging existing court injunctions that allow us to avoid certain problematic requirements
  - Testing alternative methods to navigate or neutralize language the City cannot agree to.
  - Evaluating additional legal avenues as advised by City leadership.
- FEMA recently issued a memo establishing new Terms and Conditions applicable to some DHS grant programs beginning August 28, 2026. These changes introduce new or revised requirements and expand DHS's authority to terminate awards, creating additional oversight and compliance considerations.
- The Continuing Resolution signed on 9/2 delays OMB's proposed Uniform Guidance revisions until December 11, 2026. This pause preserves the current 2 CFR Part 200 framework and temporarily halts extensive changes that could significantly affect City grants management practices.

- Despite the strategies currently in place, long-term effectiveness remains uncertain, and the City may face reduced eligibility for federal grants or potential denial of funding if compliance becomes unattainable or available legal pathways are exhausted.

Pending Grant Awards

- Pending grant award agreements are reviewed for compliance by the City Attorney's Office and then signed by the City Administrator.
- In August 2026, the City received notification of two new grant awards, totaling $870,594:
  - PBOT: State DLCD Transportation Growth Management - Lloyd and Albina Great Streets - $300,000
  - PPB: Federal USDOJ – Byrne JAG Local Formula - $570,594
- The City currently has approximately $57.8M in grant awards that have not yet been formalized through agreements. This includes funding from Federal ($35M), State ($7.4M) and Other sources ($15.4M). To view the details of these grants, request access to the Pending Grants report in SmartSheet.

Opioid Funding Update

- There were no Opioid payments received 08/01/26-08/31/26
- The city has received all payments anticipated for FY2026-27

Grant Application Highlights

- In August 2026, the GMD Application Team worked with bureaus and offices in the submission of six grant applications for federal and non-federal funding. The Application Team is currently working with bureaus on the assessment and preparation of eight new grant applications.

SEPTEMBER OUTGOING GRANTS PROGRAM UPDATES

- Prosper Portland's Vacant Storefront Grants Program continues, providing up to $100,000 for grocery stores, $50,000 for restaurants, and $25,000 for other retail stores to occupy vacant storefronts in the City of Portland. This Program utilizes one-time general fund resources, with $800,000 is to be awarded on a rolling, first come, first-served basis until all available funds are expended.
- Prosper Portland has extended its Lloyd-Holladay Relocation Grant opportunity, and funding is now available for any business looking to relocate into the TIF district. (Prior to September 1, Prosper was only funding businesses that were displaced from Lloyd Center.)
- The deadline for Operating Support Grants from the Office of Arts and Culture has passed, and awards will be announced in November. Smaller arts organizations, creative businesses, schools, and individual artists can still apply for project grants from the Regional Arts & Culture Council through October 28.
- Outgoing Grants Administration Policy implementation updates: GMD is working to identify resources for ongoing reporting and analysis capabilities. GMD has begun including a list of all new General Fund outgoing grant awards each month as part of this Citwyide Grants Activity Report—see next page.

FY 2027 – August: New General Fund Grant Recipients

The grant amounts below reflect **general fund dollars only**. Some grants may have received additional funding from non-general fund sources that isn't included in the totals shown (for example, Arts and Culture grants that also received Arts Access Funds).

Grantee Name	# of Grants	General Fund Amount
Agape Village	1	1,862,057
Helping Hands Reentry Outreach Cntr	2	2,365,161
