

TIER 1

N Burr Ave / N Buchanan Ave Neighborhood Greenway

PROJECT DESCRIPTION

A new neighborhood greenway providing a north/south walking and biking connection between N Willamette Blvd and N Columbia Blvd. This route connects a number of important neighborhood destinations including George Middle School, George Park, Roosevelt High School, and businesses on N Lombard St and N Willamette Blvd.

This project utilizes existing enhanced crossings on N Fessenden St and a traffic signal at N Lombard St. An alternative route could use N Burr Ave for the entire neighborhood greenway but would require ODOT-approval of a crossing improvement at N Lombard St. This project may be delivered in two phases, with the northern section of N Burr Ave coming first while additional community input and project development happens on the southern end between N Central Ave and N Willamette Blvd.

Project Elements:

- Wayfinding signage and shared-lane markings
- Intersection safety improvements at N Buchanan Ave & N Lombard St
- Crossing improvements at:
 - N Willamette/Buchanan
 - N Smith/Burr

BIKE NETWORK

	Existing	Funded or Recommended
Neighborhood Greenway		
Bike Lane (Buffered/Striped)		
Protected Bike Lane		
Off-Street Trail		

Connection to signalized crossing of N Columbia Blvd and Upper St Johns Neighborhood Greenway

Project uses existing half-signal at N Burr Ave and N Fessenden St

Add new bike box and bike lane approaching the existing traffic signal at N Lombard St

New speed bumps and other traffic calming may be required on N Buchanan Ave

Improved crossing at N Buchanan Ave and N Willamette Blvd

LEGEND

- Improved crossing (marked or median islands)
- Traffic signal upgrade to bike-friendly
- Alternative routing options community input required
