Re: Crossing improvement at N Concord Avenue and Killingsworth Street

Dear North Portland Neighbor,

I am writing to notify you of upcoming construction planned at the intersection of N Concord Avenue and Killingsworth Street. The Portland Bureau of Transportation (PBOT) plans to replace the temporary crossing markers with three permanent concrete islands.

The Fixing Our Streets program provides funding to replace temporary materials with permanent infrastructure that requires less upkeep and maintenance.

Construction is planned for summer or fall of 2026. Project schedules can change depending on weather and staff availability.

Please contact me directly with any questions or concerns.

Sincerely,

Scott Cohen
