PBOT plans greenway on NW Pettygrove in 2022

Neighborhood greenways are low-traffic streets that make it easier to walk, bike, roll, and play. PBOT is building a new neighborhood greenway along NW Pettygrove St (from NW 25th to NW 11th) and NW Overton St (from NW 11th to NW 9th) to connect the Northwest, Slabtown and Pearl District. This greenway will replace the current greenway on NW Overton St.

PBOT will build new speed bumps, change traffic patterns to limit cut-through traffic, and make pedestrian crossings safer. These improvements will make the street more comfortable for pedestrians and people biking while preserving the ability of people driving to access area homes and businesses.
