In 2012 City Council adopted East Portland in Motion (EPIM), PBOT's implementation strategy for active transportation projects east of 82nd Avenue. Since then, PBOT and our agency partners have allocated nearly \$320 million to EPIM projects. The majority of the projects in EPIM are now funded and on their way to completion by the year 2025. Examples include:

- Completing nearly all missing sidewalk on the major arterial streets like Stark, Division and 122nd.
- Building out a 30-mile network of neighborhood greenways – low traffic streets and trails for family-friendly biking and walking.
- Installing safer pedestrian crossings of busy streets at over 100 locations.
- Piloting East Portland's first protected bike lanes on Halsey/Weidler, Glisan, and Division.

Capital Delivery Division Manager Steve Szigethy and Transportation Planner Maggie Derk will provide a ten-year progress report on East Portland in Motion. Additional background information is available at
