

2040 Freight: Our 2040 Portland Freight Plan

Community Advisory Committee 11/12/20

PBOT
PORTLAND BUREAU OF TRANSPORTATION

The 2040 Portland Freight Plan is about planning how to move goods through the city while meeting our goals for a safe multimodal system that supports economic prosperity, human and environmental health, equity, and resilience.

This evening

1. Welcome!
2. 15-second introductions
3. Public comment
4. Role of CAC + Group agreements
5. Mini Primer on freight
6. 2040Freight SOW presentation
7. 5 min break @ 5PM
8. Climate + Equity presentations
9. Reflection + feedback activity
10. Wrap up + Next steps

15-second introductions

1. Name
2. Pronouns
3. Where you live/ work/ what you do
4. Something about you as a person
5. When you think of 'freight', what do you appreciate or value?

Public comment

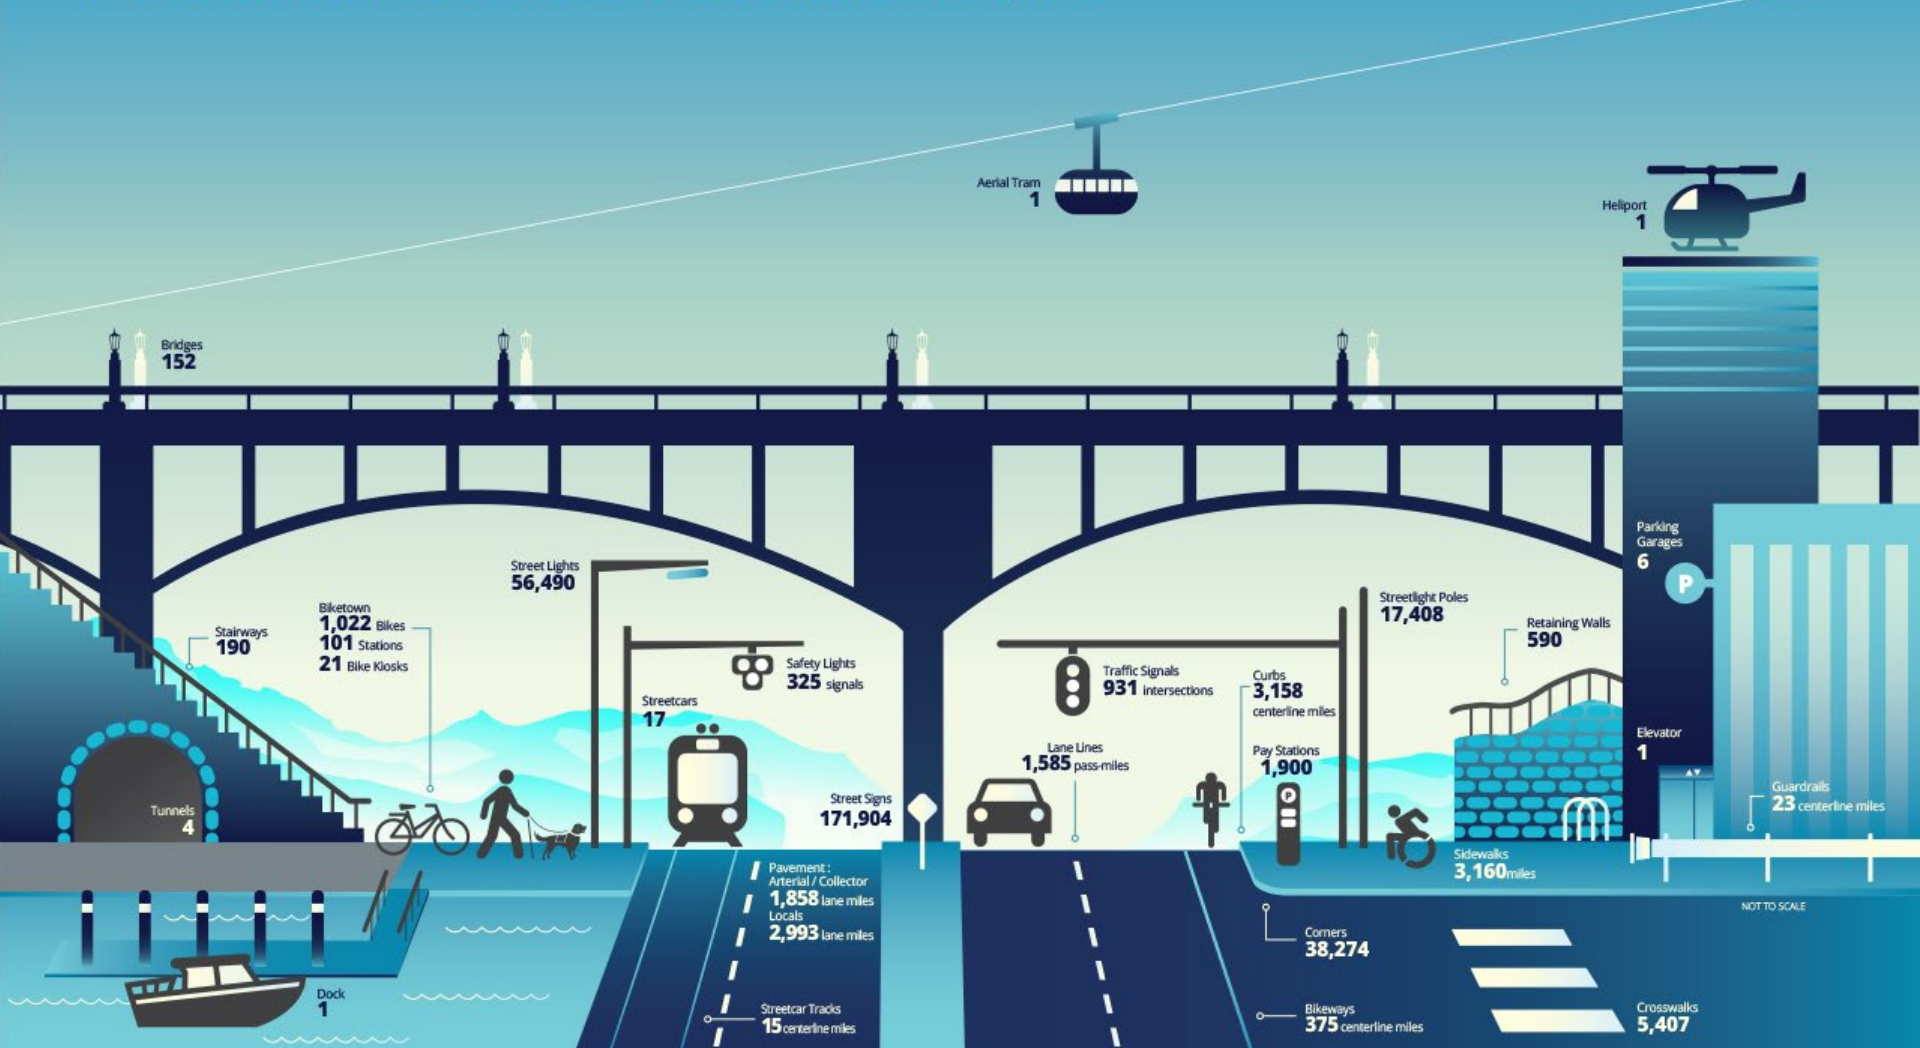

1. In the Q&A box, please tell us who you are and what you do/ where you live or work or what brought you here today
2. **+ TODAY:** When you think of 'freight', what do you appreciate or value?
3. If there's anything else you want to comment on, go ahead and put it in the Q&A
4. I'll try to read some of them out and either way, they'll get submitted into our meeting record

Group Agreements

Group agreements

1. Notice when you are speaking much more than others on the committee and take a step back when necessary to allow other voices the space they need to emerge
2. Notice when you are speaking much less than others on the committee and find opportunities to vocally contribute so that others gain the benefit of a new voice
3. Listen to each speaker and ensure that only one person speaks at a time
4. Remain respectful of all people and groups
5. Be willing to learn
6. Be willing to change
7. Separate the issue from the person
8. Agree to disagree when necessary
9. Decide not to take things personally
10. Make no assumptions except for best intentions
11. Use “I” statements (everyone speaks from their own experiences)
12. Avoid generalizing (especially about groups of people)
13. Correct gently, but do correct if something is said that is incorrect or offensive
14. Logistically speaking, please use your hand-raise function and allow the facilitator to call on you to speak, which will make things run smoothly when we have this many folks in the meeting.

Mini Primer: Freight

Portland's freight history

Chinatown street in 1900:
Photo credit The Oregonian

Important trade connections

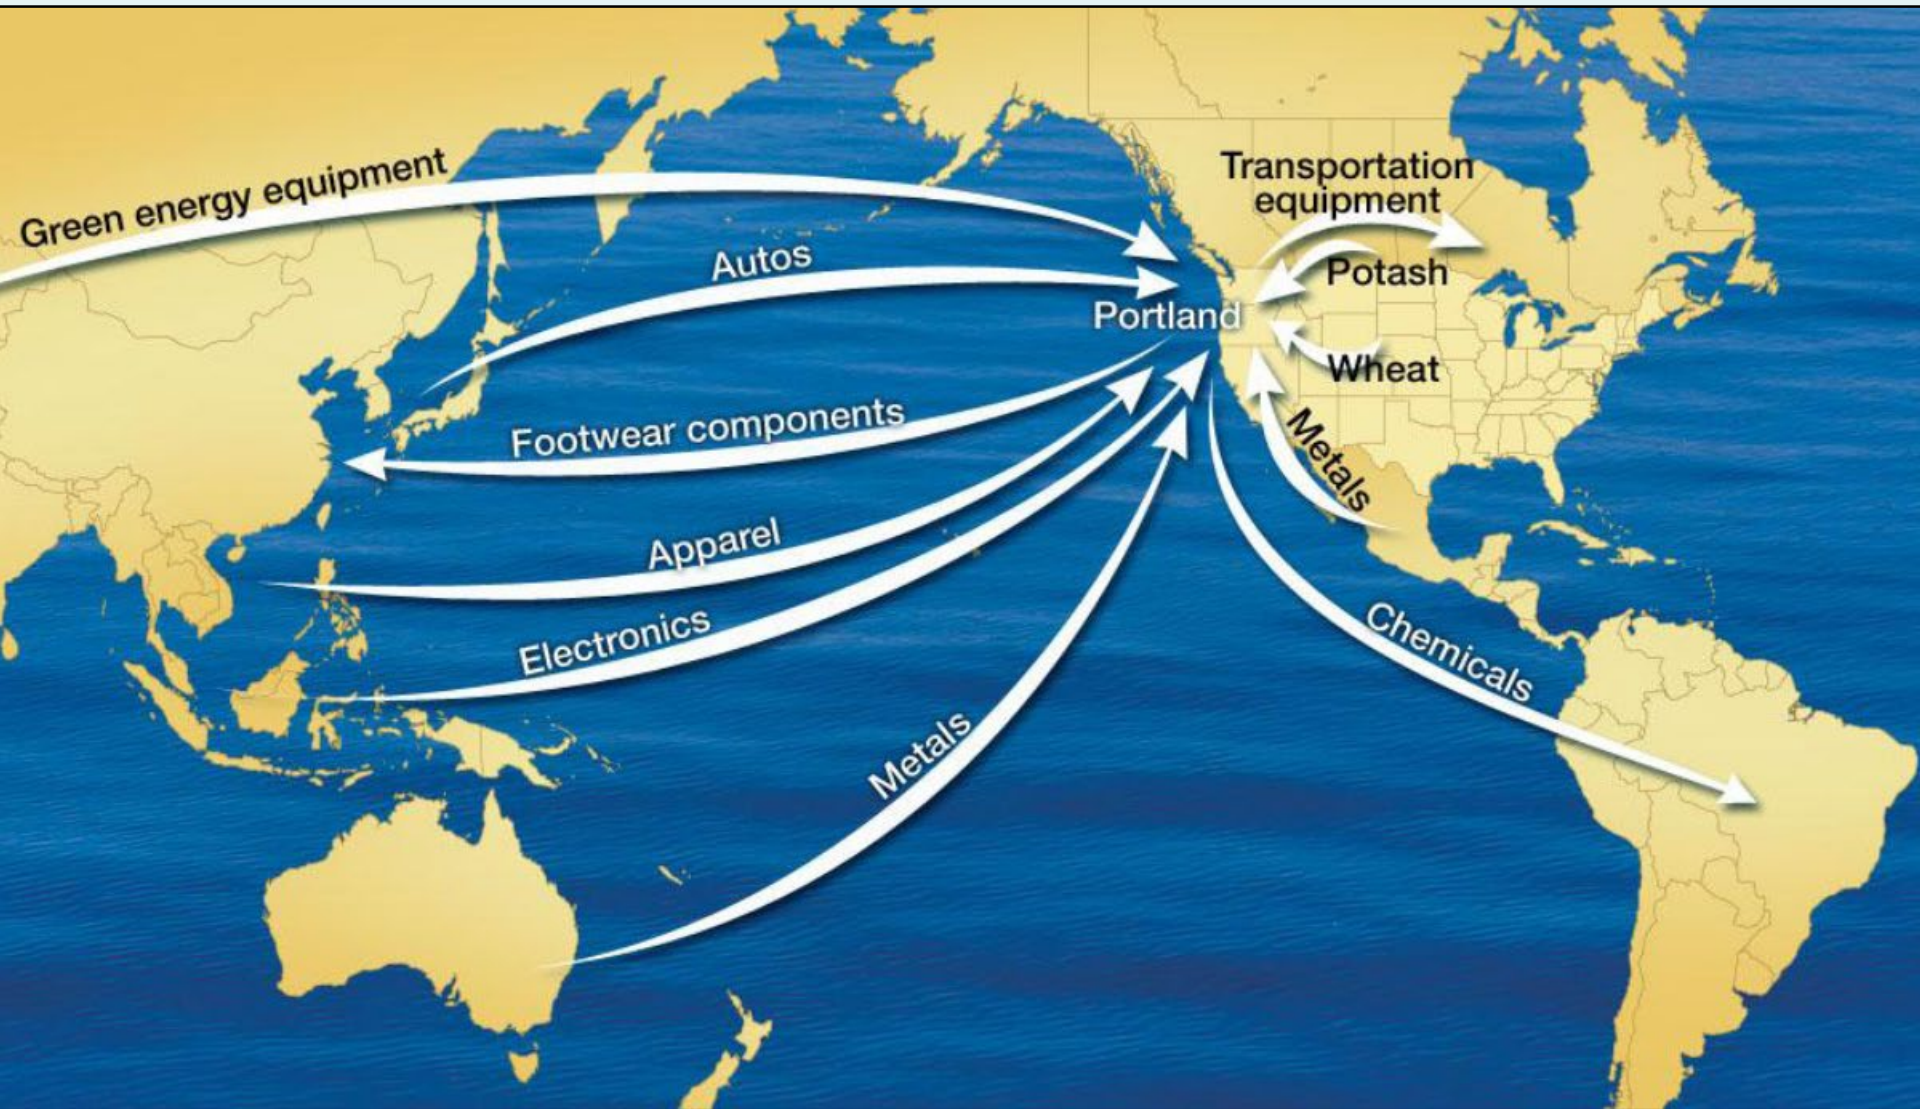

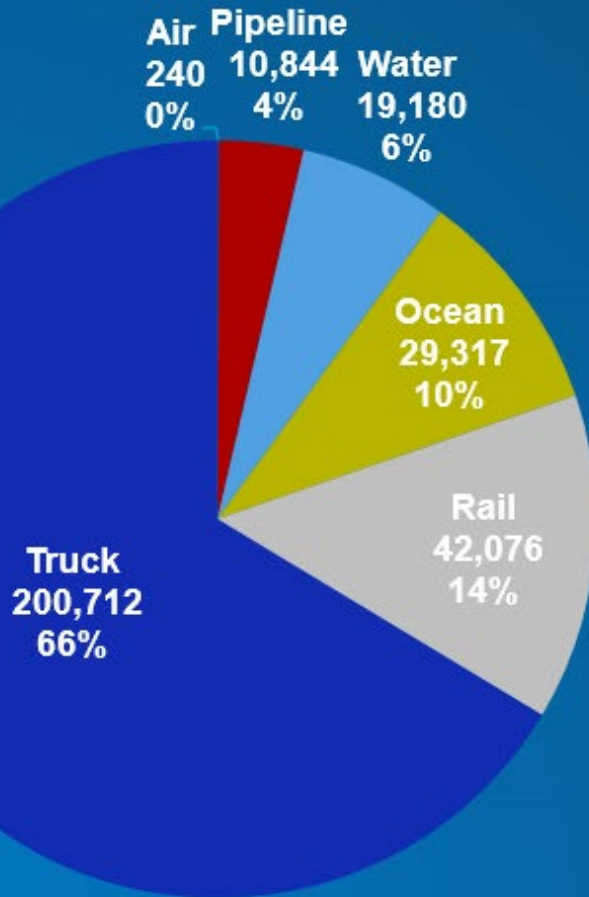

Image credit: Port of Portland

Regional freight hub

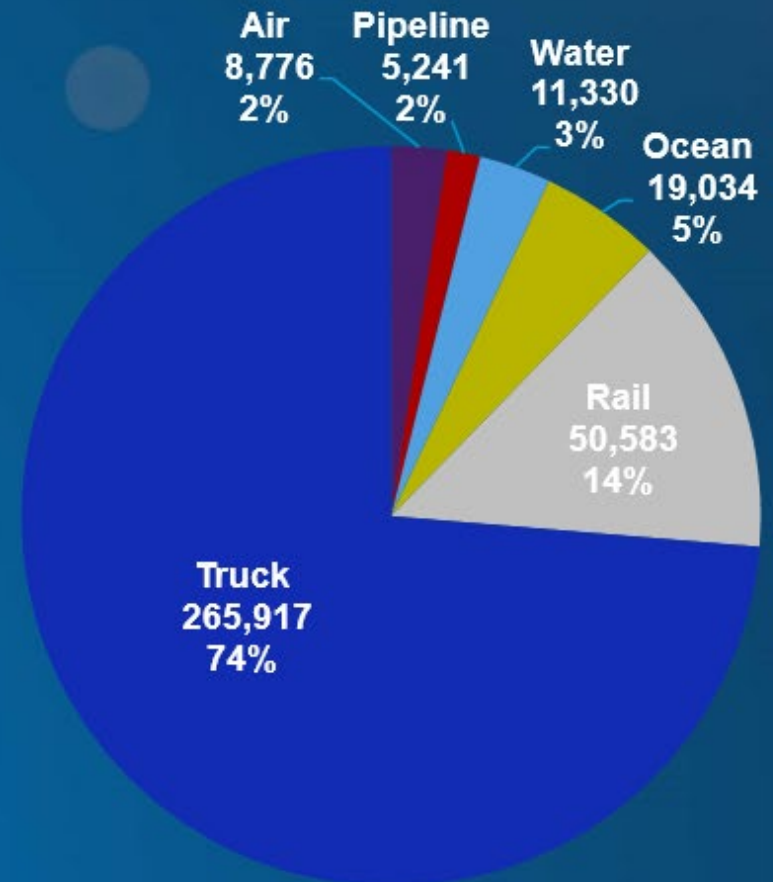

GATEWAY TO NORTH AMERICAN RAIL NETWORK

Tonnage (Thousands of Tons)

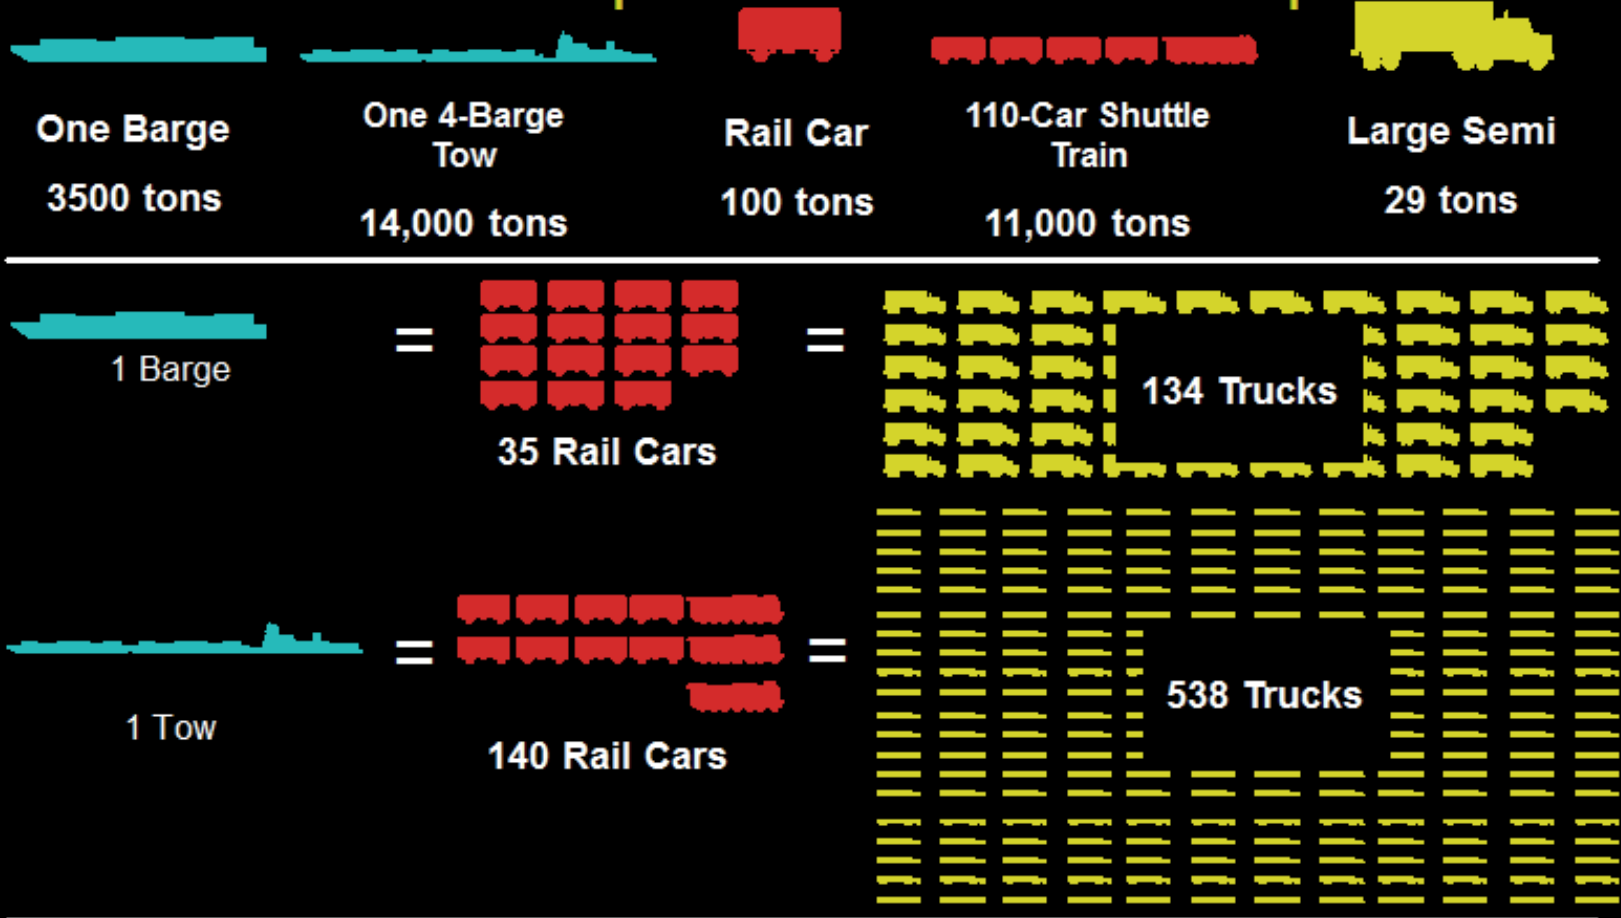

Value (Million of Dollars)

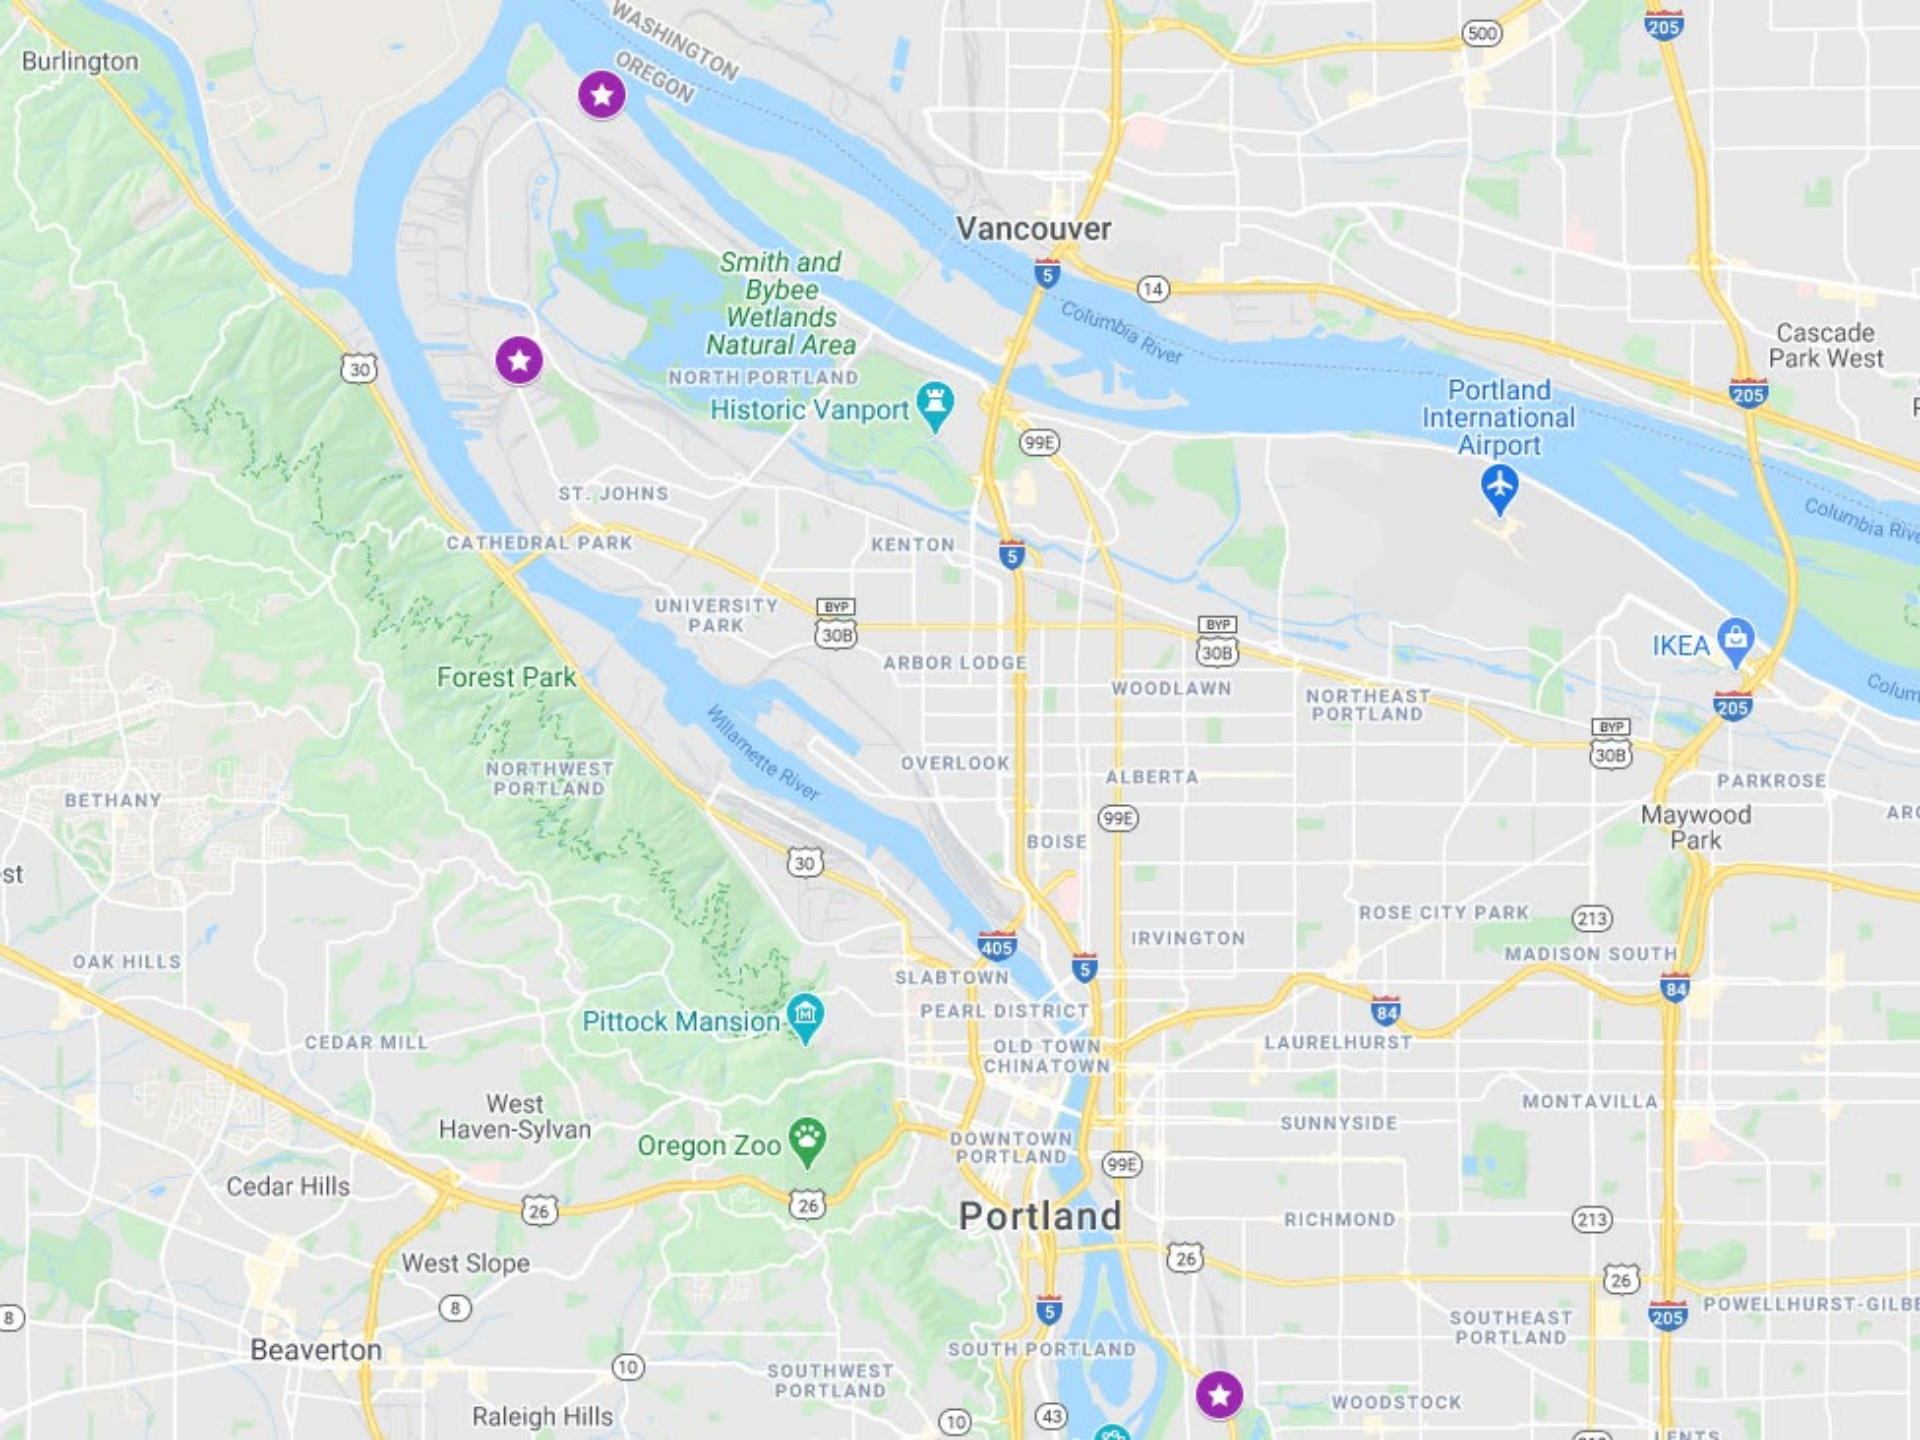

CAMBRIDGE
SYSTEMATICS

Alternate Transportation Mode Comparison

Barging is the lowest cost, most environmentally friendly form of freight transportation

2040 Freight SOW Overview

The backbone of our livable city

To increase livability, Portland's transportation system must be:

- Efficient
- Safe
- Sustainable
- Equitable

A properly managed transportation system grows the economy, creates equitable neighborhoods and protects our environment.

THREE MAIN GOALS

Safety

**Moving People
and Goods**

Asset Management

Strategic Plan: 2040Freight

Will it advance equity and address structural racism?

Will it reduce carbon emissions?

2040Freight

----- Public involvement -----

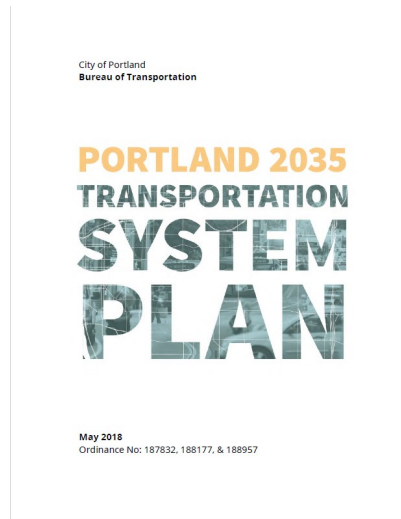

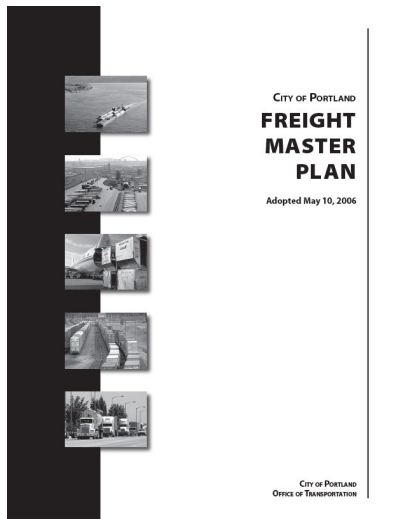

1. State of the system report
2. Policy, plan + program review
3. Needs, conflicts + opportunities
4. Develop + evaluate solutions
5. Implementation strategy

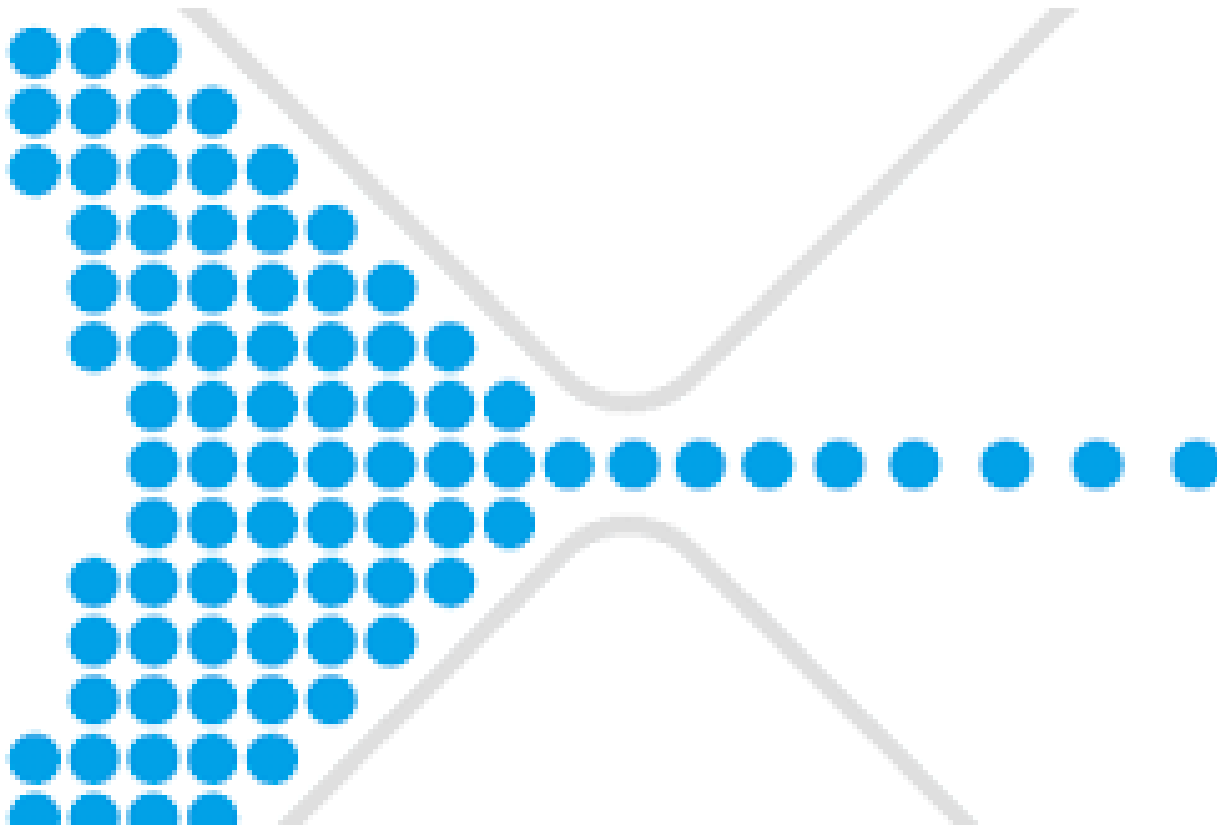

State of the system report

Policy, plan + program review

Needs, conflicts + opportunities

Develop + evaluate solutions

Implementation strategy
