SOUTHWEST IN MOTION

IMPLEMENTATION UPDATE

Southwest In Motion Projects

The map above highlights projects that are active or completed. Active projects are funded, in design and engineering or in construction. The projects fall into three categories: Bicycle/Pedestrian (BP) Projects, Restriping Projects (RP) and Safer Shoulder (SS) Pilot Projects. Also included on this map is a Transit (T) project. All of the projects shown are included in the Southwest in Motion Plan except for three related PBOT projects shown in golden yellow. To learn more visit portland.gov/transportation/planning/southwest-motion
