TOPIC OR DESCRIPTION:

Require PBOT to conduct all background checks (DMV and Criminal) for all permitted companies unless conducted in a manner prescribed by the Director and at the discretion of the Director.

HOW IS THIS IMPACTING YOUR INDUSTRY:

The current process is creating confusion with permits not always reflecting the correct dates and drivers not completing the application process timely. In addition, some companies may not requesting complete information from the background check company they are working with which may lead to incomplete criminal records. This may increase the liability for the company and increase the risk to the public.

REASON FOR CONSIDERATION OR CHANGE TO THE REGULATIONS?

The Regulatory permitting system is not designed to mitigate these challenges and requires manual intervention to resolve them. This can increase administrative cost. Incomplete background checks increase risks to the public

PROPOSED SOLUTION:

All drivers will apply for a permit through the regulatory system and all backgrounds screening is conducted by PBOT. Companies that are able to demonstrate their ability to conduct self-certifications as prescribed by the Director, and the ability to conduct complete background checks to our satisfaction may be allowed to continue the self certification process, at the discretion of the Director
