**Topic or description of issue:**

Drivers to get paid 75% of the fare

**How is this impacting your industry?**

Drivers are getting less and less of the amount the passenger pays.

**Reason to change the regulations?**

To create a fair and balanced division of the fare amount

**Proposed solution:**

TNC companies are required to pass 75% of the fare paid by the rider to the driver, including any dynamic pricing models, or other pricing formulas created by TNC notwithstanding third-party fees.
