Topic or Description Driver Safety Discussion

How is this impacting your industry?

According to news reports, more than 50 drivers have been killed while working in the US since 2017

Reason for consideration or change to the regulations?

As much as we need to protect the passengers and public, we need to protect the drivers too.

Proposed solution:

I do not have a concise solution. I'm hoping the committee and the city can come up with a viable solution. Recommending cameras, driver training, and allowing drivers to carry and use defensive tools without losing the ability to continue driving. These are just a few ideas.
