

Response to Action Item 23 for 08/082022 TNC Advisory Committee Meeting

Action Item 23: April Murchinson will ask the individuals managing the roadway if a sign can be posted and will check if there is a date scheduled for reopening the roadway

April Murchinson's Response via email on 08/17/2022:

I am glad to report that the entry leading to the U.S. Post Office and Cargo area has been reopened.

However, I would like to reiterate that this route is an option but not the preferred route for any Private For-Hire or Transportation Network Company to travel for the purpose of a shortcut from the Airport to the Ground Transportation Holding Area.
