

Approved Street Tree List for 3 to 3.9 Foot Planting Spaces  
with or without high voltage power lines

| Tree Type       | Tree Common Name<br><i>Scientific Name</i>                                   | Height x<br>Width | Features                                                                                                                                                                                                                                                          | Description                                                                                                                                                                    |
|-----------------|------------------------------------------------------------------------------|-------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Crabapple       | Tschonoskii Crabapple<br><i>Malus tschonoskii</i>                            | 30 x 15           |            | White flowers appear in May followed by crabapples. Brilliant shades of yellow, orange, purple, and scarlet fall color.                                                        |
| Crape Myrtle    | Muskogee Crape Myrtle<br><i>Lagerstroemia 'Muskogee'</i>                     | 20 x 20           |          | Showy flowers bloom late in summer: pink-purple for Muskogee and Tuscarora; white for Natchez. Interesting exfoliating bark.                                                   |
|                 | Tuscarora Crape Myrtle<br><i>Lagerstroemia 'Tuscarora'</i>                   |                   |                                                                                                                                                                                                                                                                   |                                                                                                                                                                                |
| Fringetree      | Chinese Fringetree<br><i>Chionanthus retusus</i>                             | 20 x 25           |            | In late spring, magnificent clusters of fragrant white fringe-like flowers cover the branch tips.                                                                              |
| Goldenrain tree | Goldenrain Tree<br><i>Koelreuteria paniculata</i>                            | 30 x 25           |          | Long clusters of yellow flowers bloom in mid-summer and form lantern-like seed capsules. Leaves change from red-copper in spring to green in summer and yellow-orange in fall. |
| Hornbeam        | Palisade® American Hornbeam<br><i>Carpinus caroliniana 'CCSQU'</i>           | 30 x 15           |                                                                                                                                                                               | Slow growing, tough tree with an unusual fluted trunk. Fall color ranges from yellow to orange to red.                                                                         |
|                 | Rising Fire American Hornbeam<br><i>Carpinus caroliniana 'Uxbridge'</i>      |                   |                                                                                                                                                                                                                                                                   |                                                                                                                                                                                |
| Ironwood        | Ruby Vase® Persian Ironwood<br><i>Parrotia persica 'Inge'</i>                | 35 x 20           |                                                                                         | Upright, narrow cultivars with brilliant yellow, orange and red fall colors. Exfoliating bark exhibits a mosaic of green, white, and brown.                                    |
|                 | Vanessa Persian Ironwood<br><i>Parrotia persica 'Vanessa'</i>                |                   |                                                                                                                                                                                                                                                                   |                                                                                                                                                                                |
| Linden          | Summer Sprite® Linden<br><i>Tilia cordata 'Halka'</i>                        | 20 x 15           |                                                                                                                                                                              | A small-form linden cultivar with glossy green, heart-shaped leaves. Tiny, yellow, fragrant flowers appear in early summer.                                                    |
| Maackia         | Amur Maackia<br><i>Maackia amurensis</i>                                     | 30 x 25           |    | A tough tree that grows well in poor soils. Produces small white flower clusters in mid-summer. Golden fall color.                                                             |
| Pistache        | Chinese Pistache<br><i>Pistachia chinensis</i>                               | 30 x 25           |                                                                                                                                                                              | Highly tolerant of hot, dry summers once established. Striking fall color is yellow, orange, and red.                                                                          |
| Snowbell        | Emerald Pagoda Japanese Snowbell<br><i>Styrax japonicus 'Emerald Pagoda'</i> | 25 x 20           |                                                                                                                                                                              | Fragrant light pink or white flowers appear in late spring to early summer, and produce small white fruits.                                                                    |
|                 | Pink Chimes Japanese Snowbell<br><i>Styrax japonicus 'Pink Chimes'</i>       |                   |                                                                                                                                                                                                                                                                   |                                                                                                                                                                                |
|                 | Snow Charm® Japanese Snowbell<br><i>Styrax japonicus 'JFS-E'</i>             |                   |                                                                                                                                                                                                                                                                   |                                                                                                                                                                                |
|                 | Bigleaf Snowbell<br><i>Styrax obassia</i>                                    |                   |                                                                                                                                                                                                                                                                   |                                                                                                                                                                                |
| Tree lilac      | Beijing Gold® Tree Lilac<br><i>Syringa pekinensis 'Zhang Zhiming'</i>        | 20 x 20           |                                                                                         | Large sprays of fragrant white-yellow flowers appear in late spring to early summer. Exfoliating bark extends seasonal interest.                                               |
|                 | China Snow® Tree Lilac<br><i>Syringa pekinensis 'Morton'</i>                 | 20 x 20           |                                                                                                                                                                                                                                                                   |                                                                                                                                                                                |
