Agenda

Meeting Purpose: Share a brief update on design progress for the filtration facility and invite questions and feedback from community members.

1. Welcome

- a. Program Communications Lead Bonita Oswald welcomed everyone to the meeting and introduced the speakers. She noted the change to quarterly information updates as design continues.

2. Program Update

- a. Deputy Program Manager Michelle Cheek described construction progress for upgraded corrosion treatment at Lusted Hill, highlighting the work to install utility piping under Lusted Road without a road closure. Michelle also noted planned geotechnical boring near the facility site and potholing in the right-of-way this fall to continue gathering information about conditions along the planned pipeline routes.

3. Facility Design Update

- a. Facility design lead Lyda Hakes summarized upcoming schedule milestones, noting design of the filtration facility will continue through 2022 with construction expected to begin in 2023. She described architectural design updates, including refinements to the roof forms and material concepts to better integrate with the surrounding landscape. She shared current concept views of the administration and process buildings, as well as concept views of the site entrance and landscaped edges looking toward the future facility.

4. Questions and Feedback

- a. Bonita invited questions and feedback from meeting participants. Discussion included interest in building materials selection, the communications tower location, and updates on plans for the site access.

5. Adjourn

- a. Bonita noted the next informational meeting is planned for January 2022, thanked everyone for their time, and adjourned the meeting.
